AUTHORITY

Section 23G-13, Hawaii Revised Statutes, provides as follows:

Publishing of session laws. As soon as possible after the close of each session of the legislature, the revisor of statutes shall prepare for publication all laws duly enacted at such session, arranged in the order of their becoming law, together with a suitable index and tables showing what general statutes have been affected by such session laws.

PREFACE

This volume contains all the laws of the 1993 Special Session and the Regular Session of 1994. The text of the laws as enacted is followed except for obvious typographical errors, which have been corrected; and the text is printed in full except for laws repealing existing statutes.

As authorized by HRS §23G-16.5, amendatory legislation contains brackets (designating matter deleted from statutes) or underscoring (designating new matter added). However, the text is edited to omit the bracketed matter for HRS sections repealed in their entirety and to delete the underscoring from new HRS sections.

Explanatory notes appear at the end of the corresponding laws. The notes clarify editorial changes and inconsistencies in text.

Special Session
1993**

ACT 1

H.B. NO. S1-93

A Bill for an Act Relating to State Bonds.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Act 344, Session Laws of Hawaii 1993, is amended by amending section 1 to read as follows:

“SECTION 1. Declaration of findings with respect to the general obligation bonds authorized by this Act. Pursuant to the clause in Article VII, section 13, of the State Constitution which states: “Effective July 1, 1980, the legislature shall include a declaration of findings in every general law authorizing the issuance of general obligation bonds that the total amount of principal and interest, estimated for such bonds and for all bonds authorized and unissued and calculated for all bonds issued and outstanding, will not cause the debt limit to be exceeded at the time of issuance,” the legislature finds and declares as follows:

- (1) Limitation on general obligation debt. The debt limit of the State is set forth in Article VII, section 13, of the State Constitution, which states in part: “General obligation bonds may be issued by the State; provided that such bonds at the time of issuance would not cause the total amount of principal and interest payable in the current or any future fiscal year, whichever is higher, on such bonds and on all outstanding general obligation bonds to exceed: a sum equal to twenty percent of the average of the general fund revenues of the State in the three fiscal years immediately preceding such issuance until June 30, 1982; and thereafter, a sum equal to eighteen and one-half percent of the average of the general fund revenues of the State in the three fiscal years immediately preceding such issuance.” Article VII, section 13, also provides that in determining the power of the State to issue general obligation bonds, certain bonds are excludable, including “reimbursable general obligation bonds issued for a public undertaking, improvement or system but only to the extent that reimbursements to the general fund are in fact made from the net revenue, or net user tax receipts, or combination of both, as determined for the immediately preceding fiscal year” and “bonds

constituting instruments of indebtedness under which the State or any political subdivision incurs a contingent liability as a guarantor, but only to the extent the principal amount of such bonds does not exceed seven percent of the principal amount of outstanding general obligation bonds not otherwise excluded under this section."

- (2) Actual and estimated debt limits. The limit on principal and interest on general obligation bonds issued by the State, actual for fiscal year 1992-1993 and estimated for each fiscal year from 1993-1994 to 1996-1997, is as follows:

Fiscal Year	Net General Fund Revenues	Debt Limit
1989-90	\$2,418,273,831	
1990-91	2,654,706,036	
1991-92	2,672,238,596	
1992-93	2,773,716,000	\$477,621,805
1993-94	2,779,671,000	499,540,739
1994-95	2,910,923,000	507,246,912
1995-96	3,099,945,000	521,965,783
1996-97	(Not Applicable)	542,083,238

For fiscal years 1992-93, 1993-94, 1994-95, 1995-96, and 1996-97 respectively, the debt limit is derived by multiplying the average of the net general fund revenues for the three preceding fiscal years by eighteen and one-half percent. The net general fund revenues for fiscal years 1989-90, 1990-91, and 1991-1992 are actual, as certified by the director of finance in the Statement of the Debt Limit of the State of Hawaii as of July 1, 1992, dated December 1, 1992. The net general fund revenues for fiscal years 1992-93 to 1995-96 are estimates, based on general fund revenue estimates made as of April 15, 1993, by the council on revenues, the body assigned by Article VII, section 7, of the State Constitution to make such estimates, and based on estimates made by the department of budget and finance of those receipts which cannot be included as general fund revenues for the purpose of calculating the debt limit, all of which estimates the legislature finds to be reasonable.

- (3) Principal and interest on outstanding bonds applicable to the debt limit. (A) According to the department of budget and finance, the total amount of principal and interest on outstanding general obligation bonds, after the exclusions permitted by Article VII, section 13, of the State Constitution, for determining the power of the State to issue general obligation bonds within the debt limit as of [March] July 1, 1993, is as follows for fiscal year 1993-94 to fiscal year 1999-2000:

Fiscal Year	Principal and Interest	
1993-94	[\$300,563,903]	<u>\$285,166,913</u>
1994-95	[305,191,838]	<u>317,338,889</u>
1995-96	[341,582,157]	<u>361,199,046</u>
1996-97	[311,408,865]	<u>326,344,538</u>
1997-98	[301,461,742]	<u>299,295,544</u>

1998-99	[270,457,448]	<u>269,080,899</u>
1999-2000	[261,792,602]	<u>264,411,466</u>

The department of budget and finance further reports that the amount of principal and interest on outstanding bonds applicable to the debt limit generally continues to decline each year from fiscal year 2000-2001 to fiscal year 2012-13 when the final installment of [\$18,275,000] \$25,889,838 shall be due and payable. (B) The department of budget and finance further reports that the outstanding principal amount of bonds constituting instruments of indebtedness under which the State may incur a contingent liability as a guarantor is \$210,000,000 (including \$8,000,000 authorized in [House Bill No. 175, H.D. 2, S.D. 1, C.D. 3, Relating to Governmental Assistance, which was passed by the 1993 session of the legislature,] Act 85, Session Laws of Hawaii 1993, Relating to Governmental Assistance), part of which is excludable in determining the power to the State to issue general obligation bonds, pursuant to Article VII, section 13, of the State Constitution.

- (4) Amount of authorized and unissued general obligation bonds and guaranties and proposed bonds and guaranties. (A) As calculated from the state comptroller's bond fund report as of March 31, 1993, adjusted for (1) appropriations to be funded by general obligation bonds as provided in Act 35, Session Laws of Hawaii 1993, in the amount of \$136,500,000; (2) lapses as provided in [House Bill No. 1152, H.D. 1, S.D. 1, C.D. 1] Act 289, Session Laws of Hawaii 1993 (the General Appropriations Act of 1993) amounting to \$6,526,821; [and] (3) lapses as provided in [House Bill No. 203, H.D. 1, S.D. 2, C.D. 1] Act 277, Session Laws of Hawaii 1993 (the Judiciary Appropriations Act of 1993) amounting to \$38,387,000, and (4) the issuance of \$130,245,000 general obligation bonds of 1993, Series BE, the total amount of authorized but unissued general obligation bonds is [\$477,315,798.] \$347,070,798. The total amount of general obligation bonds authorized by this Act is [\$999,646,798] \$1,049,646,798 (including the change in means of financing from general fund to general obligation bond fund as provided in [House Bill No. 1152, H.D. 1, S.D. 1, C.D. 1,] Act 289, Session Laws of Hawaii 1993, the General Appropriations Act of 1993, amounting to \$86,562,798). The total amount of general obligation bonds previously authorized and unissued and the general obligation bonds authorized by this Act is [\$1,476,962,596.] \$1,396,717,596. (B) As reported by the department of budget and finance the outstanding principal amount of bonds constituting instruments of indebtedness under which the State may incur a contingent liability as a guarantor is \$210,000,000, part of which is excludable in determining the power to the State to issue general obligation bonds, pursuant to Article VII, section 13, of the State Constitution. The total amount of guaranty authorized by [House Bill No. 173, H.D. 3, S.D. 1, C.D. 1] Act 332, Session Laws of Hawaii 1993 (Relating to Transportation) is [\$20,000,000,] \$12,600,000, and is herein validated. The total amount of guaranties previously authorized and the guaranties validated by this Act is [\$230,000,000.] \$222,600,000.
- (5) Proposed general obligation bond issuance. As reported herein for fiscal years 1992-93, 1993-94, 1994-95, 1995-96, and 1996-97 the

State proposes to issue [\$135,600,000 during the remainder of fiscal year 1992-93,] \$350,000,000 during the first half of fiscal year 1993-94, [\$144,000,000] \$237,500,000 during the second half of fiscal year 1993-94, and \$100,000,000 in each half of fiscal year 1994-95, [\$220,000,000] \$200,000,000 during the first half of fiscal year 1995-96, [\$100,000,000] \$212,500,000 during the second half of fiscal year 1995-96, [\$236,000,000 during the first half of fiscal year 1996-97,] and \$100,000,000 [during the second] in each half of fiscal year 1996-97. It has been the practice of the State to issue twenty-year serial bonds with principal repayments beginning the third year, the bonds maturing in substantially equal installments of principal, and interest payments commencing six months from the date of issuance and being paid semiannually thereafter. It is assumed that this practice will continue to be applied to the bonds which are proposed to be issued.

- (6) Sufficiency of proposed general obligation bond issuance to meet the requirements of authorized and unissued bonds, as adjusted, and bonds authorized by this Act. From the schedule reported in paragraph (5), the total amount of general obligation bonds which the State proposes to issue during the fiscal years 1992-93 to 1995-96 is [\$1,150,500,000.] \$1,200,000,000. An additional [\$336,000,000] \$200,000,000 is proposed to be issued in fiscal year 1996-97. The total amount of [\$1,150,500,000] \$1,200,000,000 which is proposed to be issued through fiscal year 1995-96 is sufficient to meet the requirements of the authorized and unissued bonds, as adjusted, and the bonds authorized by this Act, the total amount of which is [\$1,476,962,596.] \$1,396,717,596, as reported in paragraph (4), except for [\$326,462,596.] \$196,717,596. It is assumed that the appropriations to which an additional [\$326,462,596] \$196,717,596 in bond issuance needs to be applied will have been encumbered as of June 30, 1996. The [\$336,000,000] \$200,000,000 which is proposed to be issued in fiscal year 1996-97 will be sufficient to meet the requirements of the June 30, 1996, encumbrances in the amount of [\$326,462,596.] \$196,717,596. The amount of assumed encumbrances as of June 30, 1996, is reasonable and conservative. Thus, taking into account the amount of authorized and unissued bonds, as adjusted, and the bonds authorized by this Act versus the amount of bonds which is proposed to be issued by June 30, 1996, and the amount of June 30, 1996 encumbrances versus the amount of bonds which is proposed to be issued in fiscal year 1996-97, the legislature finds that in the aggregate, the amount of bonds which is proposed to be issued is sufficient to meet the requirements of all authorized and unissued bonds and the bonds authorized by this Act.
- (7) Bonds excludable in determining the power of the State to issue bonds. As noted in paragraph (1), certain bonds are excludable in determining the power of the State to issue general obligation bonds.
 - (A) General obligation reimbursable bonds can be excluded under certain conditions. It is not possible to make a conclusive determination as to the amount of reimbursable bonds which are excludable from the amount of each proposed bond issued because:
 - (i) It is not known exactly when projects for which reimbursable bonds have been authorized in prior acts and in this Act will be implemented and will require the application of proceeds

- from a particular bond issue; and
- (ii) [While at the present time, all of the special funds which are required to make reimbursements to the general fund on bonds issued are in a condition to qualify all of the reimbursable bonds for exclusion, it cannot be stated with certainty that such a condition will continue.] Not all reimbursable bonds may qualify for exclusion.

However, the legislature notes that with respect to the principal and interest on outstanding general obligation bonds, according to the department of budget and finance, the average proportion of principal and interest which is excludable each year from calculation against the debt limit is [8.4] 8.7 percent for the ten years from fiscal year 1993-94 to fiscal year 2002-2003. For the purpose of this declaration, the assumption is made that five percent of each bond issue will be excludable from the debt limit, an assumption which the legislature finds to be reasonable and conservative [except for \$136,500,000 proposed issuance during the remainder of fiscal year 1992-93, none of which is excluded]. (B) Bonds constituting instruments of indebtedness under which the State incurs a contingent liability as a guarantor can be excluded but only to the extent the principal amount of such guaranties does not exceed seven percent of the principal amount of outstanding general obligation bonds not otherwise excluded under subparagraph (A) of this paragraph (7) and provided that the State shall establish and maintain a reserve in an amount in reasonable proportion to the outstanding loans guaranteed by the State as provided by law. According to the department of budget and finance and the assumptions presented herein, the total principal amount of outstanding general obligation bonds and general obligation bonds proposed to be issued, which are not otherwise excluded under Article VII, section 13, of the State Constitution for the fiscal years 1993-94, 1994-95, 1995-96, and 1996-97 are as follows:

Fiscal Year	Total Amount of General Obligation Bonds Not Otherwise Excluded by Article VII, Section 13, of the State Constitution	
1993-94	[\$2,854,080,933]	<u>\$2,947,712,065</u>
1994-95	[2,865,094,970]	<u>2,949,933,228</u>
1995-96	[2,922,183,174]	<u>3,087,163,098</u>
1996-97	[2,998,812,186]	<u>3,025,309,239</u>

Based on the foregoing and based on the assumption that the full amount of a guaranty is immediately due and payable when such guaranty changes from a contingent liability to an actual liability, the aggregate principal amount of the portion of the outstanding guaranties and the guaranties proposed to be incurred, which does not exceed seven percent of the average amount set forth in the last column of the above table and for which reserve funds have been or will have been established as heretofore provided by, can be excluded in determining the power of the State to issue general obligation

bonds. As it is not possible to predict with a reasonable degree of certainty when a guaranty will change from a contingent liability to an actual liability, it is assumed in conformity with fiscal conservatism and prudence, that all guaranties not otherwise excluded pursuant to Article VII, section 13, of the State Constitution will become due and payable in the same fiscal year in which the greatest amount of principal and interest on general obligation bonds, after exclusions, occurs. Thus, based on such assumptions and on the determination in paragraph (8), the aggregate principal amount of the portion of the outstanding guaranties and the guaranties proposed to be incurred, which must be included in determining the power of the State to issue general obligation bonds is [\$26,297,003.] \$12,427,666.

- (8) Determination whether the debt limit will be exceeded at the time of issuance. From the foregoing and on the assumption that all of the bonds identified in paragraph (5) will be issued at an interest rate of [7.0 percent with respect to general obligation bonds issued during the remainder of fiscal year 1992-93 and] 7.5 percent [on the general obligation bonds issued thereafter], it can be determined from the following schedule that the bonds which are proposed to be issued, which include all authorized and unissued bonds previously authorized, as adjusted, general obligation bonds and instruments of indebtedness under which the State incurs a contingent liability as a guarantor authorized in this Act, will not cause the debt limit to be exceeded at the time of such issuance:

H.B. NO. S6-93

A Bill for an Act Relating to No-fault Insurance.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Article 10C of chapter 431, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§431:10C- Limit on nonrenewals and conditional renewals. (a)

The total number (rounded to the nearest whole number) of notices of intention not to renew a motor vehicle insurance policy, and of notices of intention to condition renewal upon reduction of limits of any coverage, which an insurer may issue, shall be limited for each calendar year to two per cent of the total number of covered policies of the insurer in force at last year-end in each of the insurer's rating territories in use in this State that have completed their required policy periods. However, the insurer may non-renew or conditionally renew one policy in any of the insurer's rating territories in use in this State if the applicable percentage limitation results in less than one policy. Cancellations, notices of intention not to renew, and notice of intention to conditionally renew made pursuant to section 431:10C-111 (a)(1) and (a)(2), and section 431:10C-111(e) shall be independent of and in addition to those permitted under this subsection.

(b) For every two new automobile policies that the insurer voluntarily writes in each rating territory, the insurer shall be permitted to non-renew or conditionally renew one additional automobile policy in that territory in excess of the two per cent limit established in subsection (a) of this section, subject to a fair and nondiscriminatory formula developed by the commissioner that shall consider the number of automobile policies written less cancellations initiated by the insurer within the first sixty days of the policy period.”

SECTION 2. Section 431:10C-110, Hawaii Revised Statutes, is amended to read as follows:

“§431:10C-110 [Application for coverage, restriction against rejection of and grounds for rejection. An insurer authorized to issue a no-fault policy, including a general agent, subagent or solicitor, may not reject an application for a no-fault policy or optional additional insurance which insurers are required to make available, covering a motor vehicle, unless:

- (1) The principal operator of the vehicle does not have a license which permits operation of the vehicle; or
- (2) The application is not accompanied by at least six months¹ premium for the coverage. Nothing in this paragraph shall prohibit an insurer, at its discretion, from accepting a minimum of two months' premium and issuing a policy; provided that a temporary no-fault identification card may not be issued for a period exceeding the period for which premiums have been paid or earned. A no-fault identification card in compliance with section 431:10C-107 shall be issued by the insurer once any outstanding balance for the policy is paid. This paragraph shall apply only to the first application of a person for a no-fault policy and shall not apply to applications for commercial and fleet vehicles.]

Rejection of application, JUP placement. A general agent, including a branch office of a foreign or alien insurer, subagent, or solicitor upon rejection of an application for a no-fault policy or optional additional insurance shall immediately offer, subject to the guidelines established by rules of the commissioner, to place the requested insurance coverages with the joint underwriting plan.”

SECTION 3. Section 431:10C-111, Hawaii Revised Statutes, is amended to read as follows:

“§431:10C-111 [Rejection of applications, cancellation,] Cancellation and nonrenewal of policies: when prohibited, when permitted. (a) An insurer

may not cancel or refuse to renew a no-fault policy, including required optional additional insurance meeting the provisions of section 431:10C-302, once issued except when:

- (2) Premium payments for the policy are not made after reasonable demand therefor[.]; or
- (3) The nonrenewal or conditional renewal is limited in accordance with section 431:10C-_____.

(b) An insurer may refuse to renew optional additional coverage in excess of that which the insurer is required to make available to the insured under section 431:10C-302 where the insured is a member of a class set forth in section 431:10C-407(b)(1)(A) or (B) at the time of the refusal to renew.

(c) No insurer shall refuse to continue a no-fault policy based solely upon a person's race, creed, ethnic extraction, age, sex, length of driving experience, marital status, residence, physical handicap, or because an insured has elected to obtain any required or optional coverage or deductible required by law. If an insured alleges that the insurer's refusal to continue the no-fault policy is based solely upon the insured's race, creed, ethnic extraction, age, sex, length of driving experience, marital status, residence, physical handicap, or because the insured has elected any required or optional coverage or deductible provided by law, the burden of proof shall rest with the insurer to prove that the refusal to continue the policy was not based on noncompliance with this subsection.

(d) In any case of cancellation or refusal to renew, the insurer shall continue all no-fault and optional additional coverages in force, to the date of expiration or for thirty days following notice, whichever date occurs first.

[(d)] (e) An insurer may [reject or refuse to accept additional applications for, or] also refuse to renew no-fault policies:

- (1) If the commissioner determines that the financial soundness of the insurer would be impaired by the writing of additional policies of insurance; or
- (2) The insurer ceases to write any new policies of insurance of any kind in this State.

[(e)] (f) Within fifteen days of a cancellation and the return of the no-fault card or a signed affidavit stating the card was lost or stolen, the insurer shall refund the pro rata unearned portion, if any, of any prepaid premiums. Premiums shall be considered "earned" as provided in section 431:10C-109."

- (3) In addition to the fine in this paragraph, if any person operates a motor vehicle without a valid no-fault policy in effect insuring the driver or registered owner, or both, either the driver's license of the driver and of the registered owner shall be suspended for three months or they shall be required to maintain proof of financial responsibility pursuant to section 287-21(2), (3), or (4) and keep a nonrefundable no-fault insurance policy in force for six months; provided that if the violation is a subsequent offense of driving without a valid no-fault policy, the driver's licenses of the driver and the registered owner shall be suspended for one year; and provided further that any person cited under this section shall have an opportunity to present a good faith defense, including but not limited to lack of knowledge or proof of insurance. The general penalty provision of this section shall not apply to:
- (A) Any operator of a motor vehicle owned by another person if the operator's own insurance covers such driving; or
 - (B) Any operator of a motor vehicle owned by that person's employer during the normal scope of that person's employment; or
 - (C) Any operator of a borrowed motor vehicle if the operator holds a reasonable belief that the subject vehicle is insured.
- [(3)] (4) In the case of multiple violations, the court, in addition to any other penalty, shall impose the following penalties:
- (A) Imprisonment of not more than thirty days;
 - (B) Suspension or revocation of the motor vehicle registration plates of the vehicle involved;

- (C) Provide for written rejection of the coverage by requiring the insured to affix the insured's signature in a location adjacent to or directly below the offer.

(c) The stacking or aggregating of uninsured motorist coverage¹ or underinsured motorist coverage[, whichever is applicable,] is prohibited,¹ except as provided in subsection (d).¹ [However, an insurer shall offer an option to stack uninsured motorist¹ and underinsured motorist coverage, as applicable¹ in each no-fault policy whenever any policy is issued, delivered, or renewed.]

ACT 7

H.B. NO. S7-93

A Bill for an Act Relating to a Convention Center.

Be It Enacted by the Legislature of the State of Hawaii:

PART I.

SECTION 1. The legislature finds that existing convention facilities in Hawaii are inadequate for the needs of many convention groups. The legislature declares that any convention center facility should be centrally located within or near Waikiki to best address the needs of prospective conventioners, and that the most appropriate existing sites are what is popularly known as the Aloha Motors site and what is popularly known as the Ala Wai golf course site. These sites are located near the visitor hub of Waikiki, surrounded by several major hotels and in walking distance from many other hotels. In this context, a convention center is presented with the capacity to act in synergism with the surrounding uses. Building a convention center facility at either of these sites would serve the purpose of providing an easily accessible convention center.

The legislature finds that the public interest requires the construction of a convention center facility at either of the above-named sites.

SECTION 2. Chapter 206X, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§206X- General criteria for development of a convention center. The following criteria shall apply to any convention center facility built or developed in any convention center district:

- (1) The convention center facility shall be a stand-alone facility, without additional private development on-site;
- (2) The convention center facility shall be owned and operated by the authority;
- (3) The flexible meeting rooms, ballrooms, and support space shall consist of a minimum of 675,000 gross square feet, of which a minimum of 200,000 gross square feet shall be exhibit space; provided that the exhibit space and related support space shall be on a single level with direct vehicle access to the exhibit floor;
- (4) The convention center facility shall be designed and developed to accommodate future expansion; and
- (5) The convention center facility shall reflect a Hawaiian sense of place.”

SECTION 3. Section 46-11, Hawaii Revised Statutes, is amended to read as follows:

“§46-11 Federal flood insurance. The convention center authority in regard to the convention center district and the mayor or executive officer and the council of the various counties, in regard to the respective counties, may participate and apply on behalf of their respective district and counties for flood insurance coverage pursuant to any applicable provisions of Public Law 1016, Eighty-fourth Congress, Second Session, (70 Stat. 1078). [They] The convention center authority, in regard to the convention center district, and the mayor or executive officer and the council of the various counties, in regard to the respective counties, shall be vested with the functions, powers, and duties which are necessary to enable their respective district and counties to qualify, participate, and apply for the flood insurance coverage.”

SECTION 4. Section 206X-5, Hawaii Revised Statutes, is amended to read as follows:

“§206X-5 [Designation of convention center district; convention] Convention center development plan. [(a) The authority shall conduct a survey of potentially appropriate sites both in Waikiki; and other areas in the State and a study of criteria for development within a convention center district and report to the legislature not less than twenty days prior to the convening of the regular session of 1993 with an update of its recommendations of appropriate sites and criteria for development to be approved by the legislature.

(b)] (a) The authority shall review for approval the convention center development plan of a developer which shall include a convention center and other improvements proposed for development within the convention center district. In its review of any proposed convention center development plan pursuant to this chapter, the authority shall apply the criteria of the convention center district rules and any criteria for development within the convention center district established by the legislature.

[(c)] (b) The authority may enter into cooperative agreements with qualified persons or public agencies, where the powers, services, and capabilities of such persons or agencies are deemed necessary and appropriate for review by the authority of the development of the convention center development plan.

[(d)] (c) Whenever possible, the convention center development plan shall be consistent with federal, state, and county plans. Consideration shall be given to state goals and policies, adopted state plan or land use guidance policies, county general plans, development plans, and ordinances.

[(e) The authority shall hold a public hearing on a proposed convention center development plan pursuant to chapter 91.]”

SECTION 5. Section 206X-6, Hawaii Revised Statutes, is amended to read as follows:

“§206X-6 Convention center district rules. The authority shall establish rules for the development within the convention center district under chapter 91 on health, safety, building, planning, zoning, [and] land use, land development, and flood plain management, including mitigation and permitting, which, upon final approval by the authority of a convention center development plan, shall supersede all other inconsistent ordinances and rules relating to [the use,] health, safety, building, planning, zoning, [planning, and development of land and construction thereon.] land use, land development, and flood plain management, including mitigation and permitting, and provision of access and utilities thereto. The convention center development plan approved by the authority shall be made a part of, and shall have the same force and effect as, the rules aforesaid. [Any development proposal within the boundaries of the Waikiki special design district and within the designated convention center district under agreement with a developer shall be subject to the requirements of chapter 343 relating to environmental impact statements and shall be provided for in the rules. The environmental impact statement shall include the disclosure of the environmental effects of the proposed development, effects of the proposed development on the economic and social welfare of the community and State including the welfare of persons to be dislocated by the proposed development, effects of the economic activities arising out of the proposed development, measures proposed to minimize adverse effects, and alternatives to the action and their environmental effects.] Rules adopted under this section shall follow existing law, rules, ordinances, and regulations as closely as is consistent with standards meeting minimum requirements of good design, pleasant amenities, health, safety, and coordinated development[.], and accomplishment of the purposes of this chapter.

For purposes of chapters 501, 502, and 514A, the authority may certify maps and plans of lands and real property interests within the convention center district as having complied with applicable laws and ordinances relating to consolidation, subdivision of lands, and condominium property regimes, and such maps and plans shall be accepted for registration or recordation by the land court and registrar."

SECTION 6. Section 206X-8, Hawaii Revised Statutes, is amended to read as follows:

"[**§206X-8**] **Use of public lands[; acquisition of state lands].** [(a)] Any provision of chapter 171 to the contrary notwithstanding, the governor may set aside, transfer, convey, or lease public lands [located within the convention center development district] wherever situated and whether or not set aside to any department or agency of the State or any political subdivision of the State, to the authority for its use.

[(b)] If state lands under the control and management of other public agencies are required by the authority for its purposes, the agency having the control and management of those required lands shall, upon request by the authority and with the approval of the governor, convey or lease such lands to the authority upon such terms and conditions as may be agreed to by the parties.

(c) Notwithstanding the foregoing, no public lands shall be set aside, conveyed, or leased to the authority as above provided if such setting aside, conveyance, or lease would impair any covenant between the State or any county or any department or board thereof and the holders of bonds issued by the State or such county, department, or board.]"

SECTION 7. The convention center authority established by section 206X-3, Hawaii Revised Statutes, is authorized to negotiate with the appropriate person for the purchase of the undeveloped Aloha Motors site. The purchase price of the site, and any other lands acquired by any means in connection with the development of the convention center, together with convention center development costs, including the cost to construct the convention center, shall not exceed \$350,000,000.

The negotiations shall result in a binding agreement for the purchase and sale of the undeveloped Aloha Motors site, which negotiations, binding agreement, and purchase and sale shall be specifically exempt from the requirements of chapter 343. The binding agreement shall require transfer of the land by deed with full warranty of title free and clear of all liens and subject to only such encumbrances and easements as shall be acceptable to the State.

Upon the execution of a binding agreement, the Aloha Motors site is designated to be the convention center district.

The binding agreement pursuant to this section shall be executed by the convention center authority and the appropriate person with respect to the Aloha Motors site by 11:59 p.m. on the sixtieth calendar day following the approval of this Act or if the sixtieth calendar day falls on a Saturday, Sunday, or state holiday, by 11:59 p.m. on the weekday immediately following the sixtieth calendar day; provided that any period of time during which a court with appropriate jurisdiction has enjoined negotiations or agreement shall not be included in the computation of the sixty-day period.

For purposes of this Act, the Aloha Motors site is defined as that parcel of land consisting of approximately 9.67 acres and more particularly identified as tax map key 2-3-35:1, 2, 4, 5, 8, 10, and tax map key 2-3-36:18, 24, 25.

SECTION 8. In the event of the repeal of SECTION 7 of this Act pursuant to SECTION 32 of this Act, the Ala Wai golf course site is designated to be the convention center district and the convention center authority shall exercise its powers to effectuate the development of a convention center facility at the Ala Wai golf course site upon the transfer of the use and control of the Ala Wai golf course site to the convention center authority pursuant to section 46-65.7, Hawaii Revised Statutes. For purposes of this Act, the Ala Wai golf course site is defined as that parcel of land consisting of approximately 16.0 acres generally situated at the Ewa portion of the Ala Wai golf course and being a portion of that parcel of land more particularly identified as tax map key 2-7-36:2.

Upon the designation of the Ala Wai golf course site as the convention center district, the governor is authorized to transfer the use, operation, and control of the Kapolei golf course to the city and county of Honolulu; provided that the transfer shall be made only if the city and county of Honolulu agrees to accept the transfer. For purposes of this Act, the Kapolei golf course is defined as that parcel of land more particularly identified as tax map key 9-1-16: por. 35.

If development of a convention center facility at the Ala Wai golf course site is effectuated pursuant to this section, then watershed management activities shall be implemented to carry out the clean up and maintenance of the Ala Wai canal.

The purchase price of the site and any other lands acquired by any means in connection with the development of the convention center, together with convention center development costs, including the cost to construct the convention center, shall not exceed \$350,000,000, including, but not limited to the cost of the transfer of the Kapolei golf course and the clean up of the Ala Wai canal.

SECTION 9. Section 46-65.7, Hawaii Revised Statutes, is amended to read as follows:

"**[[§46-65.7]] Ala Wai golf course.** The fair commission of Hawaii is abolished and the functions and authority of the fair commission of Hawaii relating to the Ala Wai golf course are transferred to the city and county of Honolulu, together with the use and control of all lands, property, and facilities under its jurisdiction; provided that the lands, property, and facilities shall be used for the purposes of operating a municipal golf course; and provided further that the governor may by executive order transfer the use and control of the lands, property, and facilities or any part of the lands, property, and facilities to the appropriate department or agency of the State designated by the governor upon the giving of [one year's] six months' written notice before the date of the transfer back to the State to the city and county of Honolulu."

SECTION 10. The convention center authority shall provide for construction of the convention center utilizing a request for proposals process.

PART II.

SECTION 11. **Findings and purpose.** The legislature finds that convention organizers from around the country have bypassed Hawaii for other destinations because the State lacks the facilities to house these participants, sessions and workshops, and displays in a professional manner. The loss of convention-related business to other destinations could have long-lasting and far-reaching impacts on the State, not only on Oahu but on the neighbor islands as well, since

Hawaii's economy is heavily dependent on the tourist trade generated by these conventions.

It is necessary for the State and the counties to make certain sacrifices today in order to build a world-class convention center, and ensure Hawaii's place as one of the world's prime visitor destinations tomorrow. The State and the counties will benefit from future increases in convention-related business, which will add an estimated \$335,000,000 a year in new tax revenues. Conversely, future decreases in convention-related business because of the lack of a convention center will result in less revenues being generated through the general excise tax and transient accommodations tax and less moneys for the State and the counties alike.

The transient accommodations tax is derived primarily from visitors from outside of the State and convention travelers comprise a significant portion of these visitors. The legislature finds that a convention center would stimulate economic activity in the visitor industry and the resulting increase in revenue from the transient accommodations tax and the general excise tax will be substantially attributable to the presence of a convention center. The legislature further finds that the construction and operation of a convention center are crucial to the economic well-being of the State and the counties and are for a public purpose.

The revenue bonds issued by the authority to finance the convention center are to be repaid entirely from the convention center capital and operations special fund. This special fund is funded by revenues from the transient accommodations tax and operations of the convention center. The transient accommodations tax is substantially derived from a function of the convention center to increase and maintain sales of hotel rooms and other transient accommodations.

SECTION 12. Chapter 206X, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§206X- Convention center capital and operations special fund.

(a) There is established in the state treasury the convention center capital and operations special fund, into which shall be deposited:

- (1) A portion of the revenues from the transient accommodations tax, as provided by section 237D-6.5;
- (2) All revenues derived from the operations of the convention center;
- (3) All or a portion of all revenues derived from the operation of parking and garage facilities and other concessions at the convention center;
- (4) All proceeds from revenue bonds issued by the authority; and
- (5) Appropriations by the legislature to the convention center capital and operations special fund.

(b) In addition to the powers of the authority specified in section 206X-4, the authority may:

- (1) Define, through rules adopted in accordance with chapter 91, the term "revenues derived from the operations of the convention center" or like terms; and
- (2) Do any and all things deemed necessary to administer the convention center capital and operations special fund.

(c) Moneys in the convention center capital and operations special fund may be placed in interest-bearing accounts or otherwise invested by the authority until such time as the moneys may be needed. All interest accruing from the investment of these moneys shall be credited to the convention center capital and

operations special fund.

(d) Moneys in the convention center capital and operations special fund shall be used by the authority for the following purposes:

- (1) Planning, design, improvement, construction, land acquisition, equipment, and furnishing necessary for the development or maintenance of a convention center;
- (2) Constructing, operating, maintaining, and improving the convention center and any public facilities related thereto;
- (3) Payment of debt service on revenue bonds issued by the authority for purposes of the convention center, establishment of debt service and other reserves deemed necessary by the authority or the State, and reimbursement of the state general fund for debt service on general obligation bonds or reimbursable general obligation bonds issued by the State for purposes of the convention center; and
- (4) Any other purpose deemed necessary by the authority for the purpose of planning, improving, developing, operating, and maintaining the convention center facility."

SECTION 13. Section 206X-2, Hawaii Revised Statutes, is amended by adding a new definition to be appropriately inserted and to read as follows:

"Convention center facility" or "convention center" means any combination of land, buildings, and improvements thereon, suitable for use as a convention center; any other structure or facility required or useful for the operation of a convention center facility, including, but not limited to, commercial, office, community service, parking, garage, and other supporting service structures; and all necessary, useful, and related equipment, furnishings, and appurtenances."

SECTION 14. Section 36-27, Hawaii Revised Statutes, is amended to read as follows:

"§36-27 Transfers from special funds for central service expenses. Except as hereinafter provided, and notwithstanding any provisions of any other law to the contrary, there shall be deducted from time to time by the director of finance, for the purpose of defraying the prorated estimate of central service expenses of government in relation to all special funds, except the special summer school fund under section 298-3.5; the school cafeteria special funds of the community colleges[,] and the department of education; the special funds of the student housing, summer session, division of continuing education and community service, campus center, and bookstores of the University of Hawaii; [and] the state educational facilities improvement special fund[.]; and the convention center capital and operations special fund, five per cent of all receipts of each such special fund, which deduction shall be transferred to the general fund of the State and become general realizations of the State. All officers of the State and other persons having power to allocate or disburse any special funds shall cooperate with the director in effecting these transfers."

SECTION 15. Section 206X-2, Hawaii Revised Statutes, is amended by amending the definition of "developer" to read:

"Developer" means any person, partnership, cooperative, firm, nonprofit or for-profit corporation, or public agency possessing the competence, expertise, experience, and resources, including financial, personal, and tangible resources,

required to [carry out] effectuate, directly or through other developers, the development of a convention center[,], including planning, design, and construction.”

authorized in this Act; the financing of any public facilities related thereto that are capable of being financed with the proceeds of the bonds, and the payment of interest on such bonds that will accrue during the construction period and for six months thereafter.

SECTION 24. The authority, with the approval of the director of finance and the governor, is authorized to issue revenue bonds in an aggregate principal amount of \$350,000,000, or so much thereof as may be necessary, and the same amount, or so much thereof as may be necessary, is appropriated for fiscal years 1993-1994, and 1994-1995, from moneys in the convention center capital and operations special fund, to be expended by the authority for the purposes of this Act, including, without limitation, the financing and refinancing of all or any part of the cost of planning, designing, improving, acquiring, constructing, equipping, or furnishing the convention center facility authorized in this Act; the financing of any public facilities related thereto that are capable of being financed with the proceeds of the bonds, and the payment of interest on such bonds that will accrue during the construction period and for six months thereafter.

SECTION 25. There is appropriated out of the convention center capital and operations special fund the sum of \$4,125,000, or so much thereof as may be necessary for fiscal year 1993-1994, and the sum of \$8,250,000, or so much thereof as may be necessary for fiscal year 1994-1995, to be expended by the authority to pay for debt service on revenue bonds issued by the authority and to reimburse the state general fund for debt service on general obligation bonds or reimbursable general obligation bonds issued by the State for purposes of the convention center.

SECTION 26. There is appropriated out of the general revenues of the State of Hawaii the sum of \$4,125,000, or so much thereof as may be necessary for fiscal year 1993-1994, and the sum of \$8,250,000, or so much thereof as may be necessary for fiscal year 1994-1995, to be expended by the department of budget and finance to pay for debt service on general obligation bonds or reimbursable general obligation bonds issued by the State for purposes of the convention center.

SECTION 27. The state supreme court shall have exclusive and original jurisdiction over any controversy or dispute regarding the financing of the convention center through the issuance of revenue bonds, general obligation bonds, and reimbursable general obligation bonds, and the security provisions therefor, and the imposition and collection of the transient accommodations tax to repay or provide security for the bonds; provided that such jurisdiction be limited to the applicability of Article VII of the Constitution of the State of Hawaii to such matters.

PART III.

SECTION 28. Declaration of findings with respect to the general obligation bonds authorized by this Act. Pursuant to the clause in Article VII, section 13, of the State Constitution which states: "Effective July 1, 1980, the legislature shall include a declaration of findings in every general law authorizing the issuance of general obligation bonds that the total amount of principal and interest, estimated for such bonds and for all bonds authorized and unissued and calculated for all bonds issued and outstanding, will not cause the debt limit to be

exceeded at the time of issuance," the legislature finds and declares as follows:

- (1) Limitation on general obligation debt. The debt limit of the State is set forth in Article VII, section 13, of the State Constitution, which states in part: "General obligation bonds may be issued by the State; provided that such bonds at the time of issuance would not cause the total amount of principal and interest payable in the current or any future fiscal year, whichever is higher, on such bonds and on all outstanding general obligation bonds to exceed: a sum equal to twenty percent of the average of the general fund revenues of the State in the three fiscal years immediately preceding such issuance until June 30, 1982; and thereafter, a sum equal to eighteen and one-half percent of the average of the general fund revenues of the State in the three fiscal years immediately preceding such issuance." Article VII, section 13, also provides that in determining the power of the State to issue general obligation bonds, certain bonds are excludable, including "reimbursable general obligation bonds issued for a public undertaking, improvement or system but only to the extent that reimbursements to the general fund are in fact made from the net revenue, or net user tax receipts, or combination of both, as determined for the immediately preceding fiscal year" and "bonds constituting instruments of indebtedness under which the State or any political subdivision incurs a contingent liability as a guarantor, but only to the extent the principal amount of such bonds does not exceed seven percent of the principal amount of outstanding general obligation bonds not otherwise excluded under this section."
- (2) Actual and estimated debt limits. The limit on principal and interest on general obligation bonds issued by the State, actual for fiscal year 1992-93 and estimated for each fiscal year from 1993-94 to 1996-97, is as follows:

Fiscal Year	Net General Fund Revenues	Debt Limit
1989-90	\$2,418,273,831	
1990-91	2,654,706,036	
1991-92	2,672,238,596	
1992-93	2,773,716,000	\$477,621,805
1993-94	2,779,671,000	499,540,739
1994-95	2,910,923,000	507,246,912
1995-96	3,099,945,000	521,965,783
1996-97	(Not Applicable)	542,083,238

For fiscal years 1992-93, 1993-94, 1994-95, 1995-96, and 1996-97 respectively, the debt limit is derived by multiplying the average of the net general fund revenues for the three preceding fiscal years by eighteen and one-half percent. The net general fund revenues for fiscal years 1989-90, 1990-91, and 1991-92 are actual, as certified by the director of finance in the Statement of the Debt Limit of the State of Hawaii as of July 1, 1992, dated December 1, 1992. The net general fund revenues for fiscal years 1992-93 to 1995-96 are estimates, based on general fund revenue estimates made as of April 15, 1993, by the council on revenues, the body assigned by Article VII,

section 7, of the State Constitution to make such estimates, and based on estimates made by the department of budget and finance of those receipts which cannot be included as general fund revenues for the purpose of calculating the debt limit, all of which estimates the legislature finds to be reasonable.

- (3) Principal and interest on outstanding bonds applicable to the debt limit. (A) According to the department of budget and finance, the total amount of principal and interest on outstanding general obligation bonds, after the exclusions permitted by Article VII, section 13, of the State Constitution, for determining the power of the State to issue general obligation bonds within the debt limit as of July 1, 1993, is as follows for fiscal year 1993-94 to fiscal year 1999-2000:

Fiscal Year	Principal and Interest
1993-94	\$285,166,913
1994-95	317,338,889
1995-96	361,199,046
1996-97	326,344,538
1997-98	299,295,544
1998-99	269,080,899
1999-2000	264,411,466

The department of budget and finance further reports that the amount of principal and interest on outstanding bonds applicable to the debt limit generally continues to decline each year from fiscal year 2000-2001 to fiscal year 2012-13 when the final installment of \$25,889,838 shall be due and payable. (B) The department of budget and finance further reports that the outstanding principal amount of bonds constituting instruments of indebtedness under which the State may incur a contingent liability as a guarantor is \$222,600,000, part of which is excludable in determining the power to the State to issue general obligation bonds, pursuant to Article VII, section 13, of the State Constitution.

- (4) Amount of authorized and unissued general obligation bonds and guaranties and proposed bonds and guaranties. (A) As calculated from the state comptroller's bond fund report as of March 31, 1993, adjusted for (1) appropriations to be funded by general obligation bonds as provided in Act 35, Session Laws of Hawaii 1993, in the amount of \$136,500,000; (2) lapses as provided in Act 289, Session Laws of Hawaii 1993 (the General Appropriations Act of 1993) amounting to \$6,526,821; (3) lapses as provided in Act 277, Session Laws of Hawaii 1993 (the Judiciary Appropriations Act of 1993) amounting to \$38,387,000; and (4) the issuance of \$130,245,000 general obligation bonds of 1993, Series BE, the total amount of authorized but unissued general obligation bonds is \$347,070,798. The total amount of general obligation bonds authorized by this Act is \$350,000,000. The findings and declaration of the legislature regarding this sum was also made in House Bill No. S1-93 (Relating to State Bonds) passed by this Special Session of 1993. The amount of general obligation bonds authorized by this Act does not result in an increase in general obligation bonds authorized in House Bill No. S1-93. The total amount of general obligation bonds previously

authorized and unissued and the general obligation bonds authorized by this Act is \$1,396,717,596. (B) As reported by the department of budget and finance, the outstanding principal amount of bonds constituting instruments of indebtedness under which the State may incur a contingent liability as a guarantor is \$222,600,000, part of which is excludable in determining the power to the State to issue general obligation bonds, pursuant to Article VII, section 13, of the State Constitution.

- (5) Proposed general obligation bond issuance. As reported herein for fiscal years 1992-93, 1993-94, 1994-95, 1995-96, and 1996-97, the State proposes to issue \$350,000,000 during the first half of fiscal year 1993-94, \$237,500,000 during the second half of fiscal year 1993-94, and \$100,000,000 in each half of fiscal year 1994-95, \$200,000,000 during the first half of fiscal year 1995-96, \$212,500,000 during the second half of fiscal year 1995-96, and \$100,000,000 in each half of fiscal year 1996-97. It has been the practice of the State to issue twenty-year serial bonds with principal repayments beginning the third year, the bonds maturing in substantially equal installments of principal, and interest payments commencing six months from the date of issuance and being paid semiannually thereafter. It is assumed that this practice will continue to be applied to the bonds which are proposed to be issued.
- (6) Sufficiency of proposed general obligation bond issuance to meet the requirements of authorized and unissued bonds, as adjusted, and bonds authorized by this Act. From the schedule reported in paragraph (5), the total amount of general obligation bonds which the State proposes to issue during the fiscal years 1992-93 to 1995-96 is \$1,200,000,000. An additional \$200,000,000 is proposed to be issued in fiscal year 1996-97. The total amount of \$1,200,000,000 which is proposed to be issued through fiscal year 1995-96 is sufficient to meet the requirements of the authorized and unissued bonds, as adjusted, and the bonds authorized by this Act, the total amount of which is \$1,396,717,596, as reported in paragraph (4), except for \$196,717,596. It is assumed that the appropriations to which an additional \$196,717,596 in bond issuance needs to be applied will have been encumbered as of June 30, 1996. The \$200,000,000 which is proposed to be issued in fiscal year 1996-97 will be sufficient to meet the requirements of the June 30, 1996, encumbrances in the amount of \$196,717,596. The amount of assumed encumbrances as of June 30, 1996, is reasonable and conservative. Thus, taking into account the amount of authorized and unissued bonds, as adjusted, and the bonds authorized by this Act versus the amount of bonds which is proposed to be issued by June 30, 1996, and the amount of June 30, 1996, encumbrances versus the amount of bonds which is proposed to be issued in fiscal year 1996-97, the legislature finds that in the aggregate, the amount of bonds which is proposed to be issued is sufficient to meet the requirements of all authorized and unissued bonds and the bonds authorized by this Act.
- (7) Bonds excludable in determining the power of the State to issue bonds. As noted in paragraph (1), certain bonds are excludable in determining the power of the State to issue general obligation bonds. (A) General obligation reimbursable bonds can be excluded under

certain conditions. It is not possible to make a conclusive determination as to the amount of reimbursable bonds which are excludable from the amount of each proposed bond issued because:

- (i) It is not known exactly when projects for which reimbursable bonds have been authorized in prior acts and in this Act will be implemented and will require the application of proceeds from a particular bond issue; and
- (ii) Not all reimbursable bonds may qualify for exclusion.

However, the legislature notes that with respect to the principal and interest on outstanding general obligation bonds, according to the department of budget and finance, the average proportion of principal and interest which is excludable each year from calculation against the debt limit is 8.7 percent for the ten years from fiscal year 1993-94 to fiscal year 2002-2003. For the purpose of this declaration, the assumption is made that five percent of each bond issue will be excludable from the debt limit, an assumption which the legislature finds to be reasonable and conservative. (B) Bonds constituting instruments of indebtedness under which the State incurs a contingent liability as a guarantor can be excluded but only to the extent the principal amount of such guaranties does not exceed seven percent of the principal amount of outstanding general obligation bonds not otherwise excluded under subparagraph (A) of this paragraph (7) and provided that the State shall establish and maintain a reserve in an amount in reasonable proportion to the outstanding loans guaranteed by the State as provided by law. According to the department of budget and finance and the assumptions presented herein, the total principal amount of outstanding general obligation bonds and general obligation bonds proposed to be issued, which are not otherwise excluded under Article VII, section 13, of the State Constitution for the fiscal years 1993-94, 1994-95, 1995-96, and 1996-97 are as follows:

Fiscal Year	Total Amount of General Obligation Bonds Not Otherwise Excluded by Article VII, Section 13, of the State Constitution
1993-94	\$2,947,712,065
1994-95	2,949,933,228
1995-96	3,087,163,098
1996-97	3,025,309,239

Based on the foregoing and based on the assumption that the full amount of a guaranty is immediately due and payable when such guaranty changes from a contingent liability to an actual liability, the aggregate principal amount of the portion of the outstanding guaranties and the guaranties proposed to be incurred, which does not exceed seven percent of the average amount set forth in the last column of the above table and for which reserve funds have been or will have been established as heretofore provided by, can be excluded in determining the power of the State to issue general obligation

bonds. As it is not possible to predict with a reasonable degree of certainty when a guaranty will change from a contingent liability to an actual liability, it is assumed in conformity with fiscal conservatism and prudence, that all guaranties not otherwise excluded pursuant to Article VII, section 13, of the State Constitution will become due and payable in the same fiscal year in which the greatest amount of principal and interest on general obligation bonds, after exclusions, occurs. Thus, based on such assumptions and on the determination in paragraph (8), the aggregate principal amount of the portion of the outstanding guaranties and the guaranties proposed to be incurred, which must be included in determining the power of the State to issue general obligation bonds is \$12,427,666.

- (8) Determination whether the debt limit will be exceeded at the time of issuance. From the foregoing and on the assumption that all of the bonds identified in paragraph (5) will be issued at an interest rate of 7.5 percent, it can be determined from the following schedule that the bonds which are proposed to be issued, which include all authorized and unissued bonds previously authorized, as adjusted, general obligation bonds and instruments of indebtedness under which the State incurs a contingent liability as a guarantor authorized in this Act, will not cause the debt limit to be exceeded at the time of such issuance:

Time of Issuance and Amount to be Counted Against Debt Limit		Debt Limit at Time of Issuance	Greatest Amount and Year of Highest Principal and Interest on Bonds and Guaranties	
1st half FY 1993-94	\$332,500,000	499,540,736	398,564,212	(FY 1995-96)
2nd half FY 1993-94	\$225,625,000	499,540,736	415,486,087	(FY 1995-96)
1st half FY 1994-95	\$95,000,000	507,246,912	422,611,087	(FY 1995-96)
2nd half FY 1994-95	\$95,000,000	507,246,912	429,736,087	(FY 1995-96)
1st half FY 1995-96	\$190,000,000	521,965,783	439,451,618	(FY 1996-97)
2nd half FY 1995-96	\$201,875,000	521,965,783	454,592,243	(FY 1996-97)
1st half FY 1996-97	\$95,000,000	542,083,238	442,708,200	(FY 1997-98)
2nd half FY 1996-97	\$95,000,000	542,083,238	449,833,200	(FY 1997-98)

- (9) Overall and concluding finding. From the facts, estimates, and assumptions stated in this declaration of findings, the conclusion is reached that the total amount of principal and interest estimated for the general obligation bonds authorized in this Act and for all bonds authorized and unissued and calculated for all bonds issued and outstanding and guaranties, will not cause the debt limit to be exceeded at the time of issuance.

SECTION 29. Authorization for issuance of general obligation bonds. General obligation bonds may be issued as provided by law in an amount that may be necessary to finance projects authorized in this Act and designated to be financed from the general obligation bond fund and from the general obligation bond fund with debt service cost to be paid from special funds; provided that the sum total of the general obligation bonds so issued shall not exceed \$350,000,000.

Any law to the contrary notwithstanding, general obligation bonds may be issued from time to time in accordance with section 39-16, Hawaii Revised Statutes, in such principal amount as may be required to refund any general obligation bonds of the State of Hawaii heretofore or hereafter issued pursuant to law.

PART IV.

SECTION 30. If any provision of this Act, or the application thereof to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of the Act that can be given effect without the invalid provision or application, and to this end the provisions of this Act are severable.

SECTION 31. Statutory material to be repealed is bracketed. New statutory material is underscored.¹

SECTION 32. This Act shall take effect upon its approval; provided that SECTION 7 of this Act is repealed if the convention center authority and the appropriate person with respect to the Aloha Motors site have not executed the binding agreement in accordance with the provisions of SECTION 7 of this Act.

ACT 8

S.B. NO. S3-93

A Bill for an Act Relating to Procurement.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that there is a need to improve and update the State's laws relating to government procurement.

It is the legislature's intent that there be a single source of public procurement policy to be applied equally and uniformly to the State and counties. This Act shall apply to the procurement practices of all entities created by the State's

and counties' constitution, charters, statutes, ordinances, administrative rules, or executive orders, including the office of Hawaiian affairs, and the departments, commissions, councils, boards, bureaus, committees, institutions, authorities, legislative bodies, agencies, government corporations, or other establishment of the State or its several counties.

It is the policy of the State to ensure the fair and equitable treatment of all persons who deal with the procurement system of the State and counties. Because public employment is a public trust, public employees must discharge their duties impartially to assure fair competitive access to governmental procurement by responsible contractors. Public employees shall conduct themselves in a manner that fosters public confidence in the integrity of the State procurement process. No comptroller, chief procurement officer, purchasing agency head, procurement officer, or employee whose duties include purchasing shall use or attempt to use one's official position to secure or grant unwarranted privileges, exemptions, or advantages or exhibit any favoritism or prejudice to any prospective bidder or contractor.

It is the policy of the State to foster broad-based competition. Full and open competition shall be encouraged. With competition, the State and counties will benefit economically with lowered costs. Therefore, it is the legislature's intent to maintain the integrity of the competitive bidding and contracting process by discouraging the State and counties from making changes to contracts once the contracts are awarded. If any contract needs to be amended, compelling reasons must exist for making the changes.

It is the policy of the State to ensure fiscal integrity, responsibility, and efficiency in the procurement process. Goods, services, and construction shall be purchased at fair and reasonable prices. However, if there are any disputes regarding the bidding and awarding of contracts, it is the legislature's intent to encourage all parties to settle their differences quickly through established administrative procedures.

The purpose of this Act is to promote economy, efficiency, and effectiveness in the procurement of goods and services, and the construction of public works for the State and counties, by:

- (1) Simplifying, clarifying, and modernizing the law governing procurement;
- (2) Requiring the continued development of procurement policies and practices;
- (3) Making the procurement laws of the State and counties as consistent as possible;
- (4) Ensuring the fair and equitable treatment of all persons who deal with the procurement system of the State and counties;
- (5) Providing increased economy in procurement activities and maximizing to the fullest extent practicable the purchasing value of public funds;
- (6) Fostering effective broad-based competition within the free enterprise system;
- (7) Providing safeguards for the maintenance of a procurement system of quality and integrity; and
- (8) Increasing public confidence in the procedures followed in public procurement.

SECTION 2. The Hawaii Revised Statutes is amended by adding a new chapter to be appropriately designated and to read as follows:

- (5) Establish and maintain a procurement library;
- (6) Report to the appropriate agency and the chief procurement officer stating the areas of noncompliance and recommendations for remedial action; and
- (7) Be present at legislative hearings and policy office meetings to present the findings of the unit.

§ **-109 Compliance audit unit; government officers and employees to cooperate.** The officers and employees of the State and of each county shall cooperate with this unit and furnish to them such information related to procurement activities as may be called for in connection with the research activities of this unit. The information shall be provided in a timely manner and shall be free of charge.

§ **-110 Education and training.** The department of personnel services, either alone or in cooperation with any governmental body, including the department of labor and industrial relations, or in cooperation with other states, the federal government, or other persons may:

- (1) Develop and maintain a comprehensive training and development program for procurement professionals of the State and the several counties;
- (2) Conduct or participate in procurement education and training for persons not employed by the State; and
- (3) Sponsor a purchasing certification program conducted by a voluntary organization of procurement professionals.

§ **-111 Applicability of chapter 103.** Any provisions of chapter 103 not inconsistent with this chapter shall apply to the procurement of all goods, services, and construction under this chapter.

PART II. PROCUREMENT ORGANIZATION

§ **-201 Creation and membership of the procurement policy office.**

(a) There is hereby created an autonomous state procurement policy office. The policy office shall be assigned, for administrative purposes only, to the department of accounting and general services.

(b) The policy office shall consist of a board of five members. Notwithstanding the limitations of section 78-5, the members of the board shall include:

- (1) The comptroller;
- (2) A county employee with significant high-level procurement experience; and
- (3) Three persons who shall not otherwise be full-time employees of, or contractors with, the State or any county; provided that at least one member shall be a certified professional in the field of procurement and at least one member shall have significant high-level, federal procurement experience.

Each appointed member shall have demonstrated sufficient business or professional experience to discharge the functions of the policy office. The initial and subsequent members of the policy office, other than the comptroller, shall be

appointed by the governor from a list of three individuals for each vacant position, submitted by a nominating committee composed of four individuals chosen as follows: two persons appointed by the governor; one person appointed by the president of the senate; and one person appointed by the speaker of the house. Except as provided in this section, the selection and terms of the policy office members shall be subject to the requirements of section 26-34. No member of the policy office shall act concurrently as the chief procurement officer. The members of the policy office shall devote such time to their duties as may be necessary for the proper discharge thereof.

(c) The policy office shall be assisted by employees of the department of accounting and general services, which shall provide at least one full time support staff and funding necessary to support the policy office.

(d) Members of the policy office shall be reimbursed for any expenses, including travel expenses, reasonably incurred in the performance of their duties. During the first year of the existence of the policy office, members who are not otherwise employees of the State or a county shall be allowed compensation at a rate of \$100 per day for each day's actual attendance at meetings.

(e) The chairperson of the policy office shall be elected annually by a majority of its members from among all of its members; provided that the state comptroller shall not be eligible to serve as the chairperson. If the chairperson is not a county officer or employee, the chairperson shall be allowed an additional compensation of \$50 per day for each day of actual attendance at board meetings.

§ -202 **Authority and duties of the policy office.** Except as otherwise provided in this chapter, the policy office shall have the authority and responsibility to adopt rules, consistent with this chapter, governing the procurement, management, control, and disposal of any and all goods, services, and construction. All rules shall be adopted in accordance with chapter 91. The policy office shall consider and decide matters of policy within the scope of this chapter including those referred to it by a chief procurement officer. The policy office shall have the power to audit and monitor the implementation of its rules and the requirements of this chapter, but shall not exercise authority over the award or administration of any particular contract, or over any dispute, claim, or litigation pertaining thereto.

§ -203 **Chief procurement officers.** The chief procurement officer for each of the following state entities and the several counties shall be:

- (1) The judiciary—the administrative director of the courts;
- (2) The senate—the president of the senate;
- (3) The house of representatives—the speaker of the house of representatives;
- (4) The office of Hawaiian affairs—its board of trustees;
- (5) The several counties—the respective finance directors of the several counties;
- (6) The University of Hawaii—the president of the University of Hawaii;
- (7) The department of education—the superintendent of education; and
- (8) The remaining departments of the executive branch of the State and all governmental bodies administratively attached to them—the administrator of the procurement office of the department of accounting and general services.

For purposes of applying this chapter to the judiciary, houses of the legislature, office of Hawaiian affairs, department of education, University of Hawaii, and

the several counties, unless otherwise expressly provided, "State" shall mean "judiciary," "state senate," "state house of representatives," "office of Hawaiian affairs," "department of education," "University of Hawaii," and "county," respectively.

§ **-204 Administrator of the procurement office.** (a) There shall be a procurement office within the department of accounting and general services, which shall be headed by the administrator of the procurement office. The administrator shall be the chief procurement officer for the governmental bodies of the executive branch other than the University of Hawaii and the department of education, and those governmental bodies administratively attached thereto. The administrator shall be a full-time public official. The administrator shall serve a term of four years, and shall be paid the salary established for deputies or assistants to department heads under section 26-53 without diminution during the administrator's term of office unless by general law applying to all deputies or assistants to department heads.

(b) The administrator shall be appointed by the governor from a list of no less than three and no more than five names submitted by the policy office. The appointment of the administrator shall require the advice and consent of the senate. The administrator may only be removed from office by the governor, provided the governor shall give prior notification of such removal to the chair of the policy office, the president of the senate, and the speaker of the house of representatives.

(c) The administrator shall have:

- (1) A minimum of five years experience in public procurement within twelve years preceding the date of appointment; and
- (2) Demonstrated executive and organizational ability.

(d) The procurement office shall be part of the office of the comptroller but the administrator shall operate independently of the comptroller and shall have final authority over all procurement operations. The comptroller shall provide appropriate support to permit the administrator to satisfy all of the administrator's responsibilities as the chief procurement officer.

§ **-205 Authority and duties of the chief procurement officer.** (a) For their respective jurisdictions and unless otherwise specifically provided in this chapter, each chief procurement officer shall serve as the central procurement officer and:

- (1) Procure or supervise the procurement of all goods, services, and construction;
- (2) Exercise general supervision and control over all inventories of goods;
- (3) Sell, trade, or otherwise dispose of surplus goods; and
- (4) Establish and maintain programs for the inspection, testing, and acceptance of goods, services, and construction.

(b) Consistent with the provisions of this chapter and rules adopted by the policy office to implement its provisions, the chief procurement officers may adopt operational procedures to assist in the performance of these duties and responsibilities.

§ **-206 Additional duties of the administrator of the procurement office.** In addition to the duties referred to in section -205, the administrator shall:

- (1) Perform periodic review of the procurement practices of all governmental bodies;
- (2) Assist, advise, and guide governmental bodies in matters relating to procurement;
- (3) Develop and administer a statewide procurement orientation and training program;
- (4) Develop, distribute, and maintain a procurement manual for all state procurement officials; and
- (5) Develop, distribute, and maintain a procurement guide for vendors wishing to do business with the State and its counties.

§ **-207 Centralization of procurement authority.** Except as otherwise provided in sections -208, -209, and -210, all rights, powers, duties, and authority relating to the procurement of goods, services, and construction, and the management, control, warehousing, sale, and disposal of goods, services, and construction now vested in, or exercised by, the governmental bodies of the State and counties are hereby transferred to the respective chief procurement officers.

§ **-208 Delegation of authority by the chief procurement officer.** Subject to the rules of the policy office, each chief procurement officer may delegate any authority or duty conferred upon the chief procurement officer by this chapter to designees or to any department, agency or official within their respective jurisdictions.

§ **-209 Authority to contract for certain services.** (a) For the purpose of procuring professional services, any governmental body of this State may act as a purchasing agency and contract on its own behalf for such service, subject to this chapter and rules adopted by the policy office. The purchasing agency shall consult with the chief procurement officer or the officer's designee when procuring these services.

(b) No department of the State, other than the attorney general, shall make any expenditure of public funds for the employment or retention by contract or otherwise of any attorney for the purpose of representing the State or such department in any litigation, rendering legal counsel to the department, or drafting legal documents for the department; provided that the foregoing provision shall not apply:

- (1) To the housing finance and development corporation or the public utilities commission;
- (2) To any court or judicial or legislative officer of the State;
- (3) To the legislative reference bureau;
- (4) To such compilation commission as may be constituted from time to time;
- (5) To the real estate commission in any action involving the real estate recovery fund, the contractors license board in any action involving the contractors recovery fund, and the trustees in any action involving the travel agency recovery fund;
- (6) To grand jury counsel;
- (7) To the office of Hawaiian affairs;
- (8) To the department of commerce and consumer affairs; provided that its attorney shall be responsible for the prosecution of consumer complaints;

- (9) To the employees retirement system;
- (10) To the Hawaiian home lands trust individual claims review panel; or
- (11) In the event the attorney general, for reasons deemed by the attorney general good and sufficient, declines representation or counsel, or approves a department's expenditures; provided that the governor thereupon waives the provision of this section.

For the purpose of this section the term "department of the State" means any department, board, commission, agency, bureau, or officer of the State.

Every attorney employed by any department on a full-time basis, except an attorney employed as a grand jury counsel, the department of commerce and consumer affairs in prosecution of consumer complaints, or the Hawaiian home lands trust individual claims review panel, shall become a deputy attorney general.

§ **-210 Exemptions.** Unless otherwise provided by rules of the policy office, the following goods, services, and construction need not be procured by a chief procurement officer, but shall nevertheless be procured by an appropriate purchasing agency subject to the requirements of this chapter and the rules adopted by the policy office:

- (1) Works of art for museum and public display, which are generally sole source procurements;
- (2) Published books, maps, periodicals, and technical pamphlets, which are generally small purchases;
- (3) Meats and foodstuffs for the Kalaupapa settlement; and
- (4) Goods purchased by the State for commercial resale to the public, which procurements shall also be exempt from the competitive source selection methods contained in part III of this chapter.

§ **-211 Procurement rules.** (a) The procurement policy office shall adopt all rules necessary to carry out the purposes of this chapter and to implement its provisions in accordance with chapter 91. The policy office shall not delegate its power to adopt rules.

(b) No rule shall change any commitment, right, or obligation of the State or of a contractor under a contract in existence on the effective date of such rule.

§ **-212 Collection of data concerning public procurement.** The chief procurement officer and the heads of all purchasing agencies shall cooperate in the preparation of statistical data concerning the procurement, usage, and disposition of all goods, services, and construction, and employ such trained personnel as may be necessary to carry out this function. All using agencies shall furnish such reports as the chief procurement officer may require concerning usage, needs, and stocks on hand, and the chief procurement officer may prescribe forms to be used by the using agencies in requisitioning, ordering, and reporting of goods, services, and construction.

§ **-213 Procurement advisory groups.** (a) The chief procurement officer may appoint advisory groups to assist in the development of specifications or procurement in specific areas, and any other matters within the authority of the chief procurement officer.

(b) Members of procurement advisory groups may be reimbursed for expenses incurred in the performance of their duties, subject to such expenditure limitations prescribed by the policy office and applicable law.

§ **-214 Duties of the attorney general.** The attorney general, or such officer as the attorney general may designate, shall serve as legal counsel and provide necessary legal services to the policy office and chief procurement officer.

PART III. SOURCE SELECTION AND CONTRACT FORMATION

§ **-301 Methods of source selection.** Unless otherwise authorized by law, all contracts shall be awarded by competitive sealed bidding pursuant to section -302, except as provided in:

- (1) Section -303 (Competitive sealed proposals);
- (2) Section -304 (Professional services procurement);
- (3) Section -305 (Small purchases);
- (4) Section -306 (Sole source procurement); and
- (5) Section -307 (Emergency procurements).

§ **-302 Competitive sealed bidding.** (a) Contracts shall be awarded by competitive sealed bidding except as otherwise provided in section -301. Awards of contracts by competitive sealed bidding may be made after single or multistep bidding. Competitive sealed bidding does not include negotiations with bidders after the receipt and opening of bids. Award is based on the criteria set forth in the invitation for bids.

(b) An invitation for bids shall be issued, and shall include a purchase description and all contractual terms and conditions applicable to the procurement. If the invitation for bids is for construction, it shall specify that all bids include the name of each person or firm to be engaged by the bidder as a joint contractor or subcontractor in the performance of the contract and the nature and scope of the work to be performed by each. Construction bids which do not comply with requirement may be accepted if the chief procurement officer or rules of the policy office conclude that acceptance is in the best interest of the public.

(c) Adequate public notice of the invitation for bids shall be given a reasonable time before the date set forth in the invitation for the opening of bids. The policy office shall adopt rules which specify:

- (1) The form that the notice is to take;
- (2) What constitutes a reasonable interim between publication and bid opening; and
- (3) How notice may be published, including publication in a newspaper of general circulation, notice by mail to all persons on any applicable bidders mailing list, publication by any public or private telecommunication information network, or any other method of publication it deems to be effective.

(d) Bids shall be opened publicly in the presence of one or more witnesses, at the time and place designated in the invitation for bids. The amount of each bid and other relevant information specified by rule, together with the name of each bidder shall be recorded. The record and each bid shall be open to public inspection.

(e) Bids shall be unconditionally accepted without alteration or correction, except as authorized in this chapter or by rules adopted by the policy office.

(f) Bids shall be evaluated based on the requirements set forth in the invitation for bids. These requirements may include criteria to determine acceptability such as inspection, testing, quality, workmanship, delivery, and suitability for a particular purpose. Those criteria that will affect the bid price and be considered

in evaluation for award shall be objectively measurable, such as discounts, transportation costs, and total or life cycle costs. The invitation for bids shall set forth the evaluation criteria to be used. No criteria may be used in bid evaluation that are not set forth in the invitation for bids.

(g) Correction or withdrawal of inadvertently erroneous bids before or after award, or cancellation of invitations for bids, awards, or contracts based on such bid mistakes, shall be permitted in accordance with rules adopted by the policy office. After bid opening no changes in bid prices or other provisions of bids prejudicial to the interest of the public or to fair competition shall be permitted. Except as otherwise provided by rule, all decisions to permit the correction or withdrawal of bids, or to cancel awards or contracts based on bid mistakes, shall be supported by a written determination made by the chief procurement officer or head of a purchasing agency.

(h) The contract shall be awarded with reasonable promptness by written notice to the lowest responsible and responsive bidder whose bid meets the requirements and criteria set forth in the invitation for bids. In the event all bids exceed available funds as certified by the appropriate fiscal officer, the head of the purchasing agency responsible for the procurement in question is authorized in situations where time or economic considerations preclude resolicitation of work of a reduced scope to negotiate an adjustment of the bid price, including changes in the bid requirements, with the low responsible and responsive bidder, in order to bring the bid within the amount of available funds.

(i) When it is not practicable to initially prepare a purchase description to support an award based on price, an invitation for bids, which requests the submission of unpriced offers to be followed by an invitation for bids limited to those bidders whose offers have been qualified under the criteria set forth in the first solicitation, may be used. If a multi-step sealed bidding process is used, the notice and the invitation for bids shall describe each step to be used in soliciting, evaluating, and selecting unpriced offers.

§ -303 Competitive sealed proposals. (a) When, under rules adopted pursuant to this chapter, the chief procurement officer, the head of a purchasing agency, or a designee of either officer above the level of procurement officer determines in writing that the use of competitive sealed bidding is either not practicable or not advantageous, a contract may be entered into by competitive sealed proposals. Competitive sealed proposals may be utilized for the procurement of specified types of goods, services, or construction without necessity for the written determination otherwise required by this subsection if the policy office provides by rule that it is either not practicable or not advantageous to the State to procure the specified types of goods, services, or construction by competitive sealed bidding. The policy office shall adopt rules pertaining to the acquisition of such services through the use of competitive sealed proposals.

(b) Proposals shall be solicited through a request for proposals.

(c) Notice of the request for proposals shall be given in the same manner as provided in section -302(c).

(d) Proposals shall be opened so as to avoid disclosure of contents to competing offerors during the process of negotiation. A register of proposals shall be prepared in accordance with rules adopted by the policy office and shall be open for public inspection after contract award.

(e) The request for proposals shall state the relative importance of price and other evaluation factors.

(f) As provided in the request for proposals, and under rules adopted by the policy office, discussions may be conducted with responsible offerors who

submit proposals determined to be reasonably susceptible of being selected for award for the purpose of clarification to assure full understanding of, and responsiveness to, the solicitation requirements. Offerors shall be accorded fair and equal treatment with respect to any opportunity for discussion and revision of proposals, and revisions may be permitted after submissions and prior to award for the purpose of obtaining best and final offers. In conducting discussions, there shall be no disclosure of any information derived from proposals submitted by competing offerors.

(g) Award shall be made to the responsible offeror whose proposal is determined in writing to be the most advantageous taking into consideration price and the evaluation factors set forth in the request for proposals. No other factors or criteria shall be used in the evaluation. The contract file shall contain the basis on which the award is made.

§ **-304 Procurement of professional services.** (a) Except as authorized under sections -305, -306, and -307, professional services shall be procured in accordance with section -303, unless:

- (1) The purchasing agency secures the approval of the chief procurement officer to utilize the procedures set out in subsection (e) through (g) before proceeding with the procurement; or
- (2) The head of the purchasing agency determines in writing that subsections (e) through (g) must be used because all of the provisions of section -303 cannot be satisfied within the time available to complete the procurement because of the urgency of the need to procure such services.

The chief procurement officer shall have ten days after receiving the request of the purchasing agency under paragraph (1) to act upon the request; if a determination is not made within that period, the purchasing agency may proceed with the procurement. The chief procurement officer's determination shall be based upon criteria established by rules of the policy office.

(b) All requirements for professional services shall be publicly announced and contracts for such services shall be awarded on the basis of demonstrated competence and qualification for the type of services required, and at fair and reasonable prices.

(c) At least once annually, the chief procurement officer shall give written public notice to invite persons engaged in providing professional services to submit current statements of qualifications and expressions of interest to the head of each purchasing agency requiring such services. Additional notices may be given if the response to the initial notice is inadequate or does not result in adequate representation of available sources. The chief procurement officer may specify a uniform format for statements of qualifications. Persons may amend these statements by filing a new statement prior to the date designated for submission.

(d) At least annually, the head of each purchasing agency shall form an initial review committee consisting of a minimum of three employees from the agency or from another governmental body, with sufficient education, training, and licenses or credentials for each type of professional service which may be required. The committee shall review and evaluate all submissions and other pertinent information, including references and reports, and prepare a list of qualified persons to provide such services.

(e) Contracts for professional services of \$10,000 or more shall be awarded only after a screening committee evaluates the statements of qualification and performance data of those persons on the list prepared pursuant to subsection (d) along with any other pertinent information, including references and reports. The

screening committee shall be comprised of a minimum of three employees of the purchasing agency for the particular project with sufficient education, training, and licenses or credentials in the area of the services required. If the purchasing agency and using agency are different, the committee shall include at least one qualified employee from the using agency. The committee shall be designated by the head of the purchasing agency and, if appropriate, the head of the using agency. If qualified employees are not available from these agencies, the officers may designate employees of other governmental bodies. Unless fewer than three submissions have been received, the screening committee shall conduct discussions with at least three persons regarding the services which are required and the services they are able to provide. The screening committee shall evaluate each submission based on criteria established and published by the screening committee for the particular project. The committee shall provide the head of the purchasing agency with the names of the three persons who the committee concludes is the most qualified to provide the services required for the project, with a summary of each of their qualifications.

(f) The head of the purchasing agency shall evaluate the summary of qualifications for each of the three persons provided by the screening committee and may conduct additional discussions with any of them. The head of the purchasing agency shall then rank the three persons in order of preference. The procurement officer of the purchasing agency requiring the services shall negotiate a contract with the first ranked person, including a rate of compensation which is fair and reasonable, established in writing, and based upon the estimated value, scope, complexity, and nature of the services to be rendered. If the procurement officer is unable to negotiate a satisfactory contract with the first ranked person, negotiations with that person shall be formally terminated. The procurement officer shall then undertake negotiations with the second person on the list. Failing accord with the second person, the procurement officer shall formally terminate negotiations. The procurement officer shall then undertake negotiations with the last person on the list. If the procurement officer is unable to negotiate a contract at a fair and reasonable price, the procurement officer may request that the screening committee submit the names of three additional persons for the head of the purchasing agency to rank, and resume negotiations in the same manner provided in this subsection.

(g) Contracts for professional services of less than \$10,000 may be negotiated by a procurement officer with any two persons who appear on the list of qualified persons established pursuant to subsection (d). Negotiations shall be conducted in the manner set forth in subsection (f) and the officer may determine the order in which negotiations are held.

(h) If professional services are procured pursuant to subsection (a)(2), within five working days after the vendor is selected, the head of the purchasing agency shall transmit a written report to the chief procurement officer detailing the bases for the determination that sufficient time was not available to procure the services in accordance with all of the requirements of section -303. If the chief procurement officer determines in accordance with criteria established by the rules of the policy office that sufficient time was available to procure the services in accordance with all of the requirements of section -303, the contract shall be terminated in accordance with -707.

§ -305 Small purchases. Any procurement of

- (1) Less than \$10,000 for supplies or services; or
- (2) Less than \$25,000 for construction;

may be made in accordance with procedures set forth in rules adopted by the policy office which are designed to ensure administrative simplicity and as much competition as is practicable; provided that multiple expenditures shall not be created at the inception of a transaction or project so as to evade the requirements of this chapter; and provided further that procurement requirements shall not be artificially divided or parceled so as to constitute a small purchase under this section.

§ **-306 Sole source procurement.** (a) A contract may be awarded for goods, services, or construction without competition when, under rules adopted by the policy office, the chief procurement officer, the head of a purchasing agency, or a designee of either determines in writing that there is only one source for the required good, service, or construction. A contract may be awarded under this section only after the chief procurement officer has approved the sole source procurement in writing.

(b) The policy office shall adopt rules requiring the chief procurement officer and the purchasing agency to post, in an area accessible to the public, a notice of intent to issue a sole source contract. The rules shall provide for the posting of the notice sufficiently in advance of the issuance of the contract to allow a reasonable opportunity for objections to be filed, and shall specify the contents of the notice, including but not limited to the name of the party to be awarded the contract, the date on which the contract is to be issued, a statement indicating that any person may file written objections to the issuance of the contract, the name and address of the person or agency with whom the objections are to be filed, and the date by which the objections are to be filed. The rules shall also provide procedures for the disposition of objections.

(c) A purchasing agency shall submit a written request limited to evidence supporting the request for a sole source determination. The chief procurement officer may require the submission of cost or pricing data in connection with an award proposed under this section.

(d) The chief procurement officer may approve the cost or pricing data, or may negotiate with the sole source vendor for price, terms, and conditions that are in the State's best interest.

§ **-307 Emergency procurements.** (a) The head of a purchasing agency may obtain a good, service, or construction essential to meet an emergency by means other than specified in this chapter when the following conditions exist:

- (1) A situation of an unusual or compelling urgency creates a threat to life, public health, welfare, or safety by reason of major natural disaster, epidemic, riot, fire, or such other reason as may be determined by the head of that purchasing agency;
- (2) The emergency condition generates an immediate and serious need for goods, services, or construction that cannot be met through normal procurement methods and the government would be seriously injured if the purchasing agency is not permitted to employ the means it proposes to use to obtain the goods, services, or construction; and
- (3) Without the needed good, service, or construction, the continued functioning of government, the preservation or protection of irreplaceable property, or the health and safety of any person will be seriously threatened.

(b) The emergency procurement shall be made with such competition as is practicable under the circumstances and, where practicable, approval from the chief procurement officer shall be obtained prior to the procurement. A written determination of the basis for the emergency and for the selection of the particular contractor shall be included in the contract file.

§ **-308 Cancellation of invitations for bids or requests for proposals.** An invitation for bids, a request for proposals, or other solicitation may be canceled, or any or all bids or proposals may be rejected in whole or in part as may be specified in the solicitation, when it is in the best interests of the governmental body which issued the invitation, request, or other solicitation, in accordance with rules adopted by the policy council. The reasons therefor shall be made part of the contract file.

§ **-309 Contract not binding unless funds available.** (a) No contract awarded pursuant to section -302, -303, or -306, shall be binding or of any force and effect unless the comptroller, the director of finance of a county, or the chief financial officer of the University of Hawaii or the department of education, as the case may be, endorses thereon a certificate that there is an appropriation or balance of an appropriation over and above all outstanding contracts, sufficient to cover the amount required by the contract; provided that if the contract is a multi-term contract, the comptroller, director of finance, or chief financial officer shall only be required to certify that there is an appropriation or balance of an appropriation over and above all outstanding contracts, that is sufficient to cover the amount required to be paid under the contract during the fiscal year or remaining portion of the fiscal year of each term of the multi-year contract; provided further that this section shall not apply to any contract under which the total amount to be paid to the contractor cannot be accurately estimated at the time the contract is to be awarded.

(b) In any contract involving not only state or county funds but supplemental funds from the federal government, this section shall be applicable only to that portion of the contract price as is payable out of state or county funds. As to the portion of the contract price as is expressed in the contract to be payable out of federal funds, the contract shall be construed to be an agreement to pay the portion to the contractor, only out of federal funds to be received from the federal government. This subsection shall be liberally construed so as not to hinder or impede the State in contracting for any project involving financial aid from the federal government.

§ **-310 Responsibility of bidders and offerors.** (a) Unless the policy office, by rules, specifies otherwise, before submitting a bid, a prospective bidder, not less than ten calendar days prior to the day designated for opening bids, shall give written notice of the intention to bid to the procurement officer responsible for that particular procurement. The procurement officer shall then determine whether the prospective bidder has the financial ability to deliver the goods or perform the work required, and whether the bidder has experience and competence in delivering similar goods or performing similar work. For this purpose, the officer, in the officer's discretion, may require any prospective bidder to submit answers, under oath, to questions contained in a standard form of questionnaire to be prepared by the policy office, setting forth a complete statement of the experience of the prospective bidder and the bidder's organization in delivering similar goods or performing similar work and a statement of the equipment proposed to be used, together with adequate proof of availability of the

equipment. Whenever it appears to the officer, from answers to the questionnaire or otherwise, that the prospective bidder is not fully qualified and able to perform the intended work, the officer, after affording the prospective bidder an opportunity to be heard and if still of the opinion that the bidder is not fully qualified to perform the work, shall refuse to receive or consider any bid offered by the prospective bidder. All information contained in the answers to the questionnaire shall be and remain confidential, and any government officer or employee who knowingly divulges or permits to be divulged any such information to any person not lawfully entitled thereto shall be fined not more than \$250. Questionnaires so submitted shall be returned to the bidders after having served their purpose.

(b) A written determination of nonresponsibility of a bidder or offeror based upon the information collected and the hearing conducted by the procurement officer shall be made by the head of the purchasing agency, in accordance with rules adopted by the policy office. The unreasonable failure of a bidder or offeror to promptly supply information in connection with an inquiry with respect to responsibility may be grounds for a determination of nonresponsibility with respect to such bidder or offeror. The decision of the head of the purchasing agency shall be final unless the bidder or offeror applies for administrative review pursuant to section -709.

(c) Information furnished by a bidder or offeror pursuant to this section shall not be disclosed to any person not lawfully entitled thereto without prior written consent by the bidder or offeror.

§ -311 **Prequalification of suppliers.** (a) The policy office may adopt rules to prequalify prospective suppliers for particular types of goods, services, and construction or to limit a solicitation to prequalified vendors to meet statutory or licensing requirements applying to the solicitation or when the time necessary to verify vendor qualifications would jeopardize timely award of contracts.

(b) A prospective supplier may be prequalified for a particular type of goods or services. Solicitation mailing lists of potential contractors shall include, but shall not be limited to, prequalified suppliers.

§ -312 **Cost or pricing data.** (a) A contractor, except as provided in subsection (c), shall submit cost or pricing data and shall certify that, to the best of the contractor's knowledge and belief, the cost or pricing data submitted is accurate, complete, and current as of a mutually determined specified date prior to the date of:

- (1) The pricing of any contract awarded by competitive sealed proposals or pursuant to the sole source procurement authority, where the total contract amount is expected to exceed an amount established by rules adopted by the policy office; or
- (2) The pricing of any change order or contract modification that is expected to exceed an amount established by rules adopted by the policy office.

(b) Any contract, change order, or contract modification under which a certificate is required shall contain a provision that the price to the State, including profit or fee, shall be adjusted to exclude any significant sums by which the State finds that the price was increased because the contractor furnished cost or pricing data that was inaccurate, incomplete, or not current as of the date agreed upon between the parties.

(c) The requirements of this section shall not apply to contracts:

- (1) Where the contract price is based on adequate price competition;

- (2) Where the contract price is based on established catalog prices or market prices;
- (3) Where the contract prices are set by law or rule; or
- (4) Where it is determined in writing in accordance with rules adopted by the policy office that the requirements of this section may be waived, and the reasons for the waiver are stated in writing.

§ **-313 Types of contracts.** (a) Subject to the limitations of this section, any type of contract that will promote the State's best interests may be used.

(b) Cost-reimbursement and cost-plus-a-percentage-of-cost contracts may be used only when the chief procurement officer determines in writing that such a contract is likely to be less costly than any other type of contract or that it is impracticable to obtain the goods, services, or construction required except by means of such a contract. Cost-reimbursement and cost-plus-a-percentage-of-cost contracts shall not be used if their use would jeopardize the receipt of federal assistance moneys or reduce the amount of such assistance under any applicable federal statute or regulation.

(c) In addition to the requirements of subsections (a) and (b), a cost-plus-a-percentage-of-cost contract may not be awarded unless:

- (1) Notice is given to the head of the compliance audit unit, president of the senate, speaker of the house of representatives, and the chairpersons of the senate ways and means and house finance committees; and
 - (2) Notice is conspicuously posted in an area accessible to the public in the office of the chief procurement officer and available for public inspection during normal business hours.
- (d) The policy office shall adopt rules to implement this section.

§ **-314 Approval of accounting system.** Except with respect to firm fixed-price contracts, no contract shall be used unless it has been determined in writing by the chief procurement officer, the head of a purchasing agency, or a designee of either officer that:

- (1) The proposed contractor's accounting system will permit timely development of all necessary cost data in the form required by the specific contract type contemplated; and
- (2) The proposed contractor's accounting system is adequate to allocate costs in accordance with generally accepted accounting principles.

§ **-315 Multi-term contracts.** (a) Unless otherwise provided by law, a contract for goods or services may be entered into for any period of time deemed to be in the best interests of the governmental body, provided the term of the contract and conditions of renewal or extension, if any, are included in the solicitation and funds are available for the first fiscal period at the time of contracting. Payment and performance obligations for succeeding fiscal periods shall be subject to the availability and appropriation of funds therefor.

(b) Prior to the utilization of a multi-term contract, it shall be determined in writing:

- (1) That estimated requirements cover the period of the contract and are reasonably firm and continuing;
- (2) That such a contract will serve the best interests of the governmental body by encouraging effective competition or otherwise promoting economies in procurement; and

- (3) That sufficient funds to pay for the initial term of the contract are available and the funds necessary for the remaining terms of the contract are likely to be available from sources which are identified in writing.

(c) When funds are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal period, the contract shall be canceled and the contractor shall be reimbursed for the reasonable value of any non-recurring costs incurred but not amortized in the price of goods or services delivered under the contract. The cost of cancellation may be paid from any appropriations available for such purposes.

§ **-316 Right to inspect plant.** The State, at reasonable times, may inspect the part of the plant or place of business of a contractor or any subcontractor that is related to the performance of a contract awarded or to be awarded by the State.

§ **-317 Right to audit records.** (a) The purchasing agency, at reasonable times and places, may audit the books and records of any person who has submitted cost or pricing data pursuant to section -312 to the extent that such books and records relate to such cost or pricing data. Any person who receives a contract, change order, or contract modification for which cost or pricing data is required, shall maintain such books and records that relate to such cost or pricing data for three years from the date of final payment under the contract, unless another period is otherwise authorized in writing.

(b) The purchasing agency shall be entitled to audit the books and records of a contractor or any subcontractor under any negotiated contract or subcontract other than a fixed-price contract to the extent that such books and records relate to the performance of such contract or subcontract. The books and records shall be maintained by the contractor for a period of three years from the date of final payment under the prime contract and by the subcontractor for a period of three years from the date of final payment under the subcontract, unless another period is otherwise authorized in writing.

§ **-318 Finality of determinations.** The determinations required by sections -302(g), -303(a), -303(g), -306, -307, -310, -312(c), -313, and -314 shall be final and conclusive unless they are clearly erroneous, arbitrary, capricious, or contrary to law.

§ **-319 Reporting of anticompetitive practices.** When for any reason collusion or other anticompetitive practices are suspected among any bidders or offerors, a notice of the relevant facts shall be transmitted to the attorney general.

§ **-320 Retention of procurement records.** All procurement records shall be retained and disposed of in accordance with chapter 94 and records retention guidelines and schedules approved by the comptroller.

§ **-321 Record of procurement actions.** (a) The chief procurement officer shall maintain a record of all contracts made under sections -306 and -307 for a minimum of five years. The record shall contain:

- (1) Each contractor's name;
- (2) The amount and type of each contract; and
- (3) A listing of the goods, services, or construction procured under each contract.

(b) A copy of the record shall be submitted to the legislature on an annual basis. The record shall be available for public inspection.

§ **-322 Multiple awards.** The policy office may adopt rules authorizing the use and prescribing the manner in which goods, services, or construction may be procured through multiple awards.

§ **-323 Bid security.** (a) Unless the policy office determines otherwise by rules, bid security shall only be required for construction contracts to be awarded pursuant to sections -302 and -303 and when the price of the contract is estimated by the procurement officer to exceed \$100,000 or, if the contract is for goods or services, the purchasing agency secures the approval of the chief procurement officer. Bid security shall be a bond provided by a surety company authorized to do business in the State, or the equivalent in cash, or otherwise supplied in a form specified in rules.

(b) Bid security shall be in an amount equal to at least five per cent of the amount of the bid, provided that when the amount bid exceeds \$50,000, the bid security shall be in a sum not less than \$2,500, plus two per cent of the amount in excess of \$50,000. Notwithstanding the foregoing, if the contract is for construction, then the amount of the bid security shall be in a sum not less than \$3,500, plus two per cent of the amount in excess of \$100,000.

(c) Unless, pursuant to rules, it is determined that a failure to provide bid security is nonsubstantial, all bids required to be accompanied by bid security shall be rejected when not accompanied by the required bid security.

(d) After the bids are opened, they shall be irrevocable for the period specified in the invitation for bids, except as provided in section -302(g). If a bidder is permitted to withdraw its bid before award, no action shall be had against the bidder or the bid security.

§ **-324 Contract performance and payment bonds.** (a) Unless the policy office determines otherwise by rules, the following bonds or security shall be delivered to the purchasing agency and shall become binding on the parties upon the execution of the contract if the contract which is awarded exceeds \$25,000 and is for construction, or the purchasing agency secures the approval of the chief procurement officer:

- (1) A performance bond in a form prescribed by the rules of the policy office, executed by a surety company authorized to do business in this State or otherwise secured in a manner satisfactory to the purchasing agency, in an amount equal to one hundred per cent of the price specified in the contract;
- (2) A payment bond in a form prescribed by the rules of the policy office, executed by a surety company authorized to do business in this State or otherwise secured in a manner satisfactory to the purchasing agency, for the protection of all persons supplying labor and material to the contractor for the performance of the work provided for in the contract. The bond shall be in an amount equal to one hundred per cent of the price specified in the contract; or
- (3) A performance and payment bond which satisfies all of the requirements of paragraphs (1) and (2).

(b) The policy office may adopt rules that authorize the head of a purchasing agency to reduce the amount of performance and payment bonds.

(c) Nothing in this section shall be construed to limit the authority of the

chief procurement officer to require a performance bond or other security in addition to those bonds, or in circumstances other than specified in subsection (a).

(d) Every person who has furnished labor or material to the contractor for the work provided in the contract, in respect of which a payment bond is furnished under this section, and who has not been paid in full therefor after two months from the completion and final settlement of any contract, may institute an action against the contractor and its sureties, and have their rights and claims adjudicated in the action, and judgment rendered thereon; subject to the State's priority on its performance bond. If the full amount of the liability of the sureties on the bond is insufficient to pay the full amount of the claims, then, after paying the full amount due the State, the remainder shall be distributed pro rata among the claimants.

(e) Every suit instituted upon a payment bond shall be brought in the circuit court of the circuit in which the contract was to be performed, but no such suit shall be commenced after the expiration of one year after the completion and final settlement of the contract. The obligee named in the bond need not be joined as a party in any such suit.

§ **-325 Bond forms and copies.** (a) The policy office shall adopt rules specifying the form of the bonds required by this chapter.

(b) Any person may request and obtain from the State a certified copy of a bond upon payment of the cost of reproduction of the bond and postage, if any. A certified copy of a bond shall be prima facie evidence of the contents, execution, and delivery of the original.

§ **-326 Fiscal responsibility.** Every contract modification, change order, or contract price adjustment under a contract shall be subject to prior written certification by the appropriate fiscal officer for funding the project or the contract, as to the effect of the contract modification, change order, or adjustment in contract price on the total project budget or the total contract budget. In the event that the certification of the fiscal officer discloses a resulting increase in the total project budget or the total contract budget, the procurement officer shall not execute or make such contract modification, change order, or adjustment in contract price unless sufficient funds are available therefor, or the scope of the project or contract is adjusted so as to permit the degree of completion that is feasible within the total project budget or total contract budget as it existed prior to the contract modification, change order, or adjustment in contract price under consideration; provided, that with respect to the validity, as to the contractor, of any executed contract modification, change order, or adjustment in contract price which the contractor has reasonably relied upon, it shall be presumed that there has been compliance with this section.

PART IV. SPECIFICATIONS

(b) Specifications, to the extent practicable, shall emphasize functional or performance criteria while limiting design or other detailed physical descriptions to those necessary to meet the needs of the State.

(c) The State shall procure standard commercial products whenever practicable. In developing specifications, accepted commercial standards shall be used and unique requirements shall be avoided, to the extent practicable.

(d) Outside contractors may be utilized to prepare specifications and work statements in the development of a solicitation. Contractors paid for those services shall be precluded from bidding on or receiving a contract when they participated in any way in the development of the solicitation package or any resulting contract.

§ **-406 Specifications prepared by architects and engineers.** The requirements of this part regarding the purposes and nonrestrictiveness of specifications shall apply to all specifications, including, but not limited to, those prepared by architects, engineers, designers, and drafting professionals for public contracts.

PART V. MODIFICATION AND TERMINATION OF CONTRACTS

§ **-501 Contract clauses and their administration.** (a) The policy office shall adopt rules requiring the inclusion of contract clauses providing for adjustments in prices, time of performance, or other contract provisions, as appropriate, and covering the following subjects:

- (1) The unilateral right of the governmental body to order in writing:

- (2) Variations occurring between estimated quantities of work in a contract and actual quantities;
- (3) Suspension of work ordered by the governmental body; and

 - (C) When the parties have otherwise agreed with respect to the risk of differing site conditions.

(b) Adjustments in price permitted by rules adopted under subsection (a) shall be computed in one or more of the following ways:

- (1) By agreement on a fixed price adjustment before commencement of the pertinent performance or as soon thereafter as practicable;
- (2) By unit prices specified in the contract or subsequently agreed upon;
- (3) By the costs attributable to the events or situations under such clauses with adjustment of profit or fee, all as specified in the contract or subsequently agreed upon;
- (4) In such other manner as the contracting parties may mutually agree; or
- (5) In the absence of agreement by the parties, by a unilateral determination by the governmental body of the costs attributable to the events or situations under such clauses with adjustment of profit or fee, all as computed by the governmental body in accordance with applicable sections of the rules adopted under section -601 and subject to the provisions of part VII.

A contractor shall be required to submit cost or pricing data if any adjustment in contract price is subject to the provisions of section -312.

(c) The policy office shall adopt rules requiring the inclusion in contracts of clauses providing for prompt payment by contractors to subcontractors. The rules shall provide that:

- (1) Any money, other than retainage, paid to a contractor shall be dispersed to subcontractors within ten days after receipt of the money in accordance with the terms of the subcontract; provided that the subcontractor has met all the terms and conditions of the subcontract and there are no bona fide disputes; and
- (2) Upon final payment to the contractor, full payment to the subcontractor, including retainage, shall be made within ten days after receipt of the money; provided that there are no bona fide disputes over the subcontractor's performance under the subcontract.

PART VI. COST PRINCIPLES

§ -601 **Cost principles rules required.** The policy office shall adopt rules setting forth cost principles which shall be used to determine the allowability of incurred costs for the purpose of reimbursing costs under contract provisions which provide for the reimbursement of costs, provided that if a written determination is approved at a level above the procurement officer, such cost principles may be modified by contract.

PART VII. LEGAL AND CONTRACTUAL REMEDIES**§ -701 Authority to resolve protested solicitations and awards.** (a)

Any actual or prospective bidder, offeror, or contractor who is aggrieved in connection with the solicitation or award of a contract may protest to the chief procurement officer or the head of a purchasing agency. (b) The chief procurement officer, the head of a purchasing agency, or a designee of either officer, prior to the commencement of an action in court concerning the controversy, may settle and resolve a protest of an aggrieved bidder, offeror, or contractor, actual or prospective, concerning the solicitation or award of a contract. This authority shall be exercised in accordance with rules adopted by the policy office.

(c) If the protest is not resolved by mutual agreement, the chief procurement officer, the head of a purchasing agency, or designee of either officer shall promptly issue a decision in writing. The decision shall:

(d) A copy of the decision under subsection (c) shall be mailed or otherwise furnished immediately to the protestor and any other party intervening.

(e) A decision under subsection (c) shall be final and conclusive, unless fraudulent, or any person adversely affected by the decision commences an administrative proceeding under section -709.

(f) In the event of a timely protest under subsection (a), no further action shall be taken on the solicitation or the award of the contract until the chief procurement officer, after consultation with the head of the using agency, or the head of the purchasing agency, makes a written determination that the award of the contract without delay is necessary to protect substantial interests of the State.

(g) In addition to any other relief, when a protest is sustained and the protesting bidder or offeror should have been awarded the contract under the solicitation but is not, then the protesting bidder or offeror shall be entitled to the reasonable costs incurred in connection with the solicitation, including bid preparation costs other than attorney's fees.

§ -702 Authority to debar or suspend. (a)

After reasonable notice to the person involved and reasonable opportunity for that person to be heard, the chief procurement officer or the head of a purchasing agency, after consultation with the using agency and the department of the attorney general, may debar a person for cause from consideration for award of contracts. The debarment shall not be for a period of more than three years. The same officer, after consultation with the using agency and the department of the attorney general, may suspend a person from consideration for award of all public contracts if there is probable cause for debarment. - (3) Conviction under state or federal antitrust statutes arising out of the submission of bids or proposals;
- (4) Violation of contract provisions, as set forth below, of a character which is regarded by the chief procurement officer or the head of a purchasing agency to be so serious as to justify debarment action:
 - (A) Deliberate failure without good cause to perform in accordance with the specifications or within the time limit provided in the contract; or
 - (B) A recent record of failure to perform or of unsatisfactory performance in accordance with the terms of one or more contracts; provided that failure to perform or unsatisfactory performance caused by acts beyond the control of the contractor shall not be considered to be a basis for debarment;
- (5) Any other cause the chief procurement officer or the head of a purchasing agency determines to be so serious and compelling as to affect responsibility as a contractor, including debarment by another governmental entity for any cause listed in the rules of the policy office; and

(b) The chief procurement officer, the head of a purchasing agency, or a designee of either officer is authorized, prior to commencement of an action in a court concerning the controversy, to settle and resolve a controversy described in subsection (a). This authority shall be exercised in accordance with rules adopted by the policy office.

(c) If such a controversy is not resolved by mutual agreement, the chief procurement officer, the head of a purchasing agency, or the designee of either officer shall promptly issue a decision in writing. The decision shall:

(f) If the chief procurement officer, the head of the purchasing agency, or the designee of either officer does not issue the written decision required under subsection (c) within ninety days after written request for a final decision, or within such longer period as may be agreed upon by the parties, then the contractor may proceed as if an adverse decision had been received.

§ **-704 Exclusivity of remedies.** The procedures and remedies provided for in this part, and the rules adopted by the policy office, shall be the exclusive means available for persons aggrieved in connection with the solicitation or award of a contract, a suspension or debarment proceeding, or in connection with a contract controversy, to resolve their claims or differences. The contested case proceedings set out in chapter 91 shall not apply to protested solicitations and awards, debarments or suspensions, or the resolution of contract controversies.

- (1) Canceled; or
- (2) Revised to comply with the law.

§ **-707 Remedies after an award.** If after an award it is determined that a solicitation or award of a contract is in violation of law, then:

- (1) If the person awarded the contract has not acted fraudulently or in bad faith:
 - (A) The contract may be ratified and affirmed, provided it is determined that doing so is in the best interests of the State; or
 - (B) The contract may be terminated and the person awarded the contract shall be compensated for the actual expenses reasonably incurred under the contract, plus a reasonable profit, prior to the termination;
- (2) If the person awarded the contract has acted fraudulently or in bad faith:
 - (A) The contract may be declared null and void; or
 - (B) The contract may be ratified and affirmed if the action is in the best interests of the State, without prejudice to the State's rights to such damages as may be appropriate.

§ **-708 Interest.** Interest on amounts ultimately determined to be due to a contractor or the State shall be payable at the statutory rate applicable to

judgments against the State under chapter 662 from the date the claim arose through the date of decision or judgment, whichever is later.

The degree or quantum of proof shall be a preponderance of the evidence. All parties to the proceeding shall be afforded an opportunity to present oral or documentary evidence, conduct cross-examination as may be required, and argument on all issues involved. The rules of evidence shall be strictly adhered to.

(f) Hearings officers shall decide whether the determinations of the chief procurement officer or the head of the purchasing agency, or their respective designees were in accordance with the Constitution, statutes, regulations, and the terms and conditions of the solicitation or contract.

(g) The policy office shall adopt such other rules as may be necessary to ensure that the proceedings conducted pursuant to this section afford all parties an opportunity to be heard.

§ **-710 Judicial review.** (a) Any person or governmental body aggrieved by a final decision of a hearings officer under section -709 may apply for judicial review of that decision. The proceedings for review shall be instituted in the supreme court.

(e) Upon review of the record the court may affirm the decision of the hearings officer issued pursuant to section -709 or remand the case with instructions for further proceedings; or it may reverse or modify the decision and order if substantial rights may have been prejudiced because the administrative findings, conclusions, decisions, or orders are:

ACT 2

H.B. NO. 3322

A Bill for an Act Making Emergency Appropriations for the Payment Programs.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. This Act is recommended by the governor for immediate passage in accordance with Section 9 of Article VII of the Constitution of the State of Hawaii.

SECTION 2. Act 289, Session Laws of Hawaii 1993, appropriated a certain designated sum to the department of human services to provide funds for the payment programs under the family and adult services division for the fiscal period beginning July 1, 1993, and ending June 30, 1994. The payment programs have been designated as the Aid to Families with Dependent Children (AFDC), General Assistance (GA), and the Aid to the Aged, Blind and Disabled (AABD).

A critical funding emergency exists. The payment programs will expend all appropriated funds before the end of the current fiscal year and the department will be unable to meet its fiscal obligation to provide financial assistance to needy individuals and families. The increase in caseload is the primary contributing factor to this financial situation. The GA/AABD average monthly caseload for the first quarter of fiscal year 1993-1994 increased in excess of ten per cent over the fiscal year 1992-1993 average monthly caseload. The AFDC average monthly caseload for the first quarter of fiscal year 1993-1994 increased in excess of seven per cent over the fiscal year 1992-1993 average monthly caseload.

The purpose of this Act is to appropriate or authorize moneys to prevent the reduction or discontinuance of financial assistance payments to needy individuals and families under the payment programs.

SECTION 3. There are appropriated or authorized out of the funding sources indicated below the following sums, or so much thereof as may be necessary for fiscal year 1993-1994, to be used for financial assistance payments to applicants and recipients.

General Funds:	\$10,300,139
Federal Funds:	\$ 7,203,668

SECTION 4. The sums appropriated or authorized shall be expended by the department of human services for the purposes of this Act.

SECTION 5. This Act shall take effect upon its approval.

ACT 51

S.B. NO. 2434

A Bill for an Act Relating to Public Safety.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. This Act is recommended by the governor for immediate passage in accordance with section 9 of Article VII of the Constitution of the State of Hawaii.

SECTION 2. Act 289, Session Laws of Hawaii 1993, appropriated a certain designated sum to the department of public safety to provide funds for the operations of its programs for the fiscal period beginning July 1, 1993, and ending June 30, 1994.

A critical funding emergency exists. The various programs will expend all appropriated funds before the end of the current fiscal year and the department will be unable to meet its fiscal obligation to provide for the health and safety of the public, staff, and clients. The increase in overtime payments is the primary contributing factor to this financial situation. The expenditures for fiscal year 1993-1994 increased in excess of 5.4 per cent over the fiscal year 1992-1993 expenditures.

The purpose of this Act is to appropriate moneys to prevent the shutdown of activities at our correctional facilities and the possible filing of lawsuits.

SECTION 3. The director of public safety shall submit a report to the legislature at least twenty days prior to the convening of the regular session of 1995, that shall include but not be limited to:

- (1) Recommendations on ways of mitigating the need for overtime expenditures caused by sick leave abuse, the process of filling vacant positions, and the existing shift relief factor;
- (2) An assessment of the effectiveness of departmental efforts to reduce overtime expenditures; and
- (3) Any proposed legislation the director deems necessary to reduce the use of overtime expenditures in the department of public safety.

SECTION 4. There is appropriated out of the general revenues of the State of Hawaii the sum of \$2,076,273, or so much thereof as may be necessary for fiscal year 1993-1994, for the various programs of the department of public safety.

SECTION 5. The sum appropriated shall be expended by the department of public safety for the purposes of this Act.

SECTION 6. This Act shall take effect upon its approval.

(Approved May 6, 1994.)

ACT 52

S.B. NO. 3010

A Bill for an Act Making Supplementary Appropriations for the Fiscal Year Ending June 30, 1994 for Hilo and Maui Memorial Hospitals.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. This Act is recommended by the governor for immediate passage in accordance with Article VII, section 9, of the Constitution of the State of Hawaii.

SECTION 2. Act 289, Session Laws of Hawaii 1993, appropriated special amounts of non-general funds to various department of health programs to provide funds for public health facilities and medical services under the division of community hospitals for the fiscal period beginning July 1, 1993, and ending June 30, 1995.

The purpose of this Act is to increase the division of community hospitals' special fund appropriation. The division of community hospitals requested proposals to provide laboratory, radiology, emergency, and anesthesiology services for the community hospitals with services to commence July 1, 1993. The proposals state that the hospitals shall bill all inpatients and registered outpatients of all payers for services provided. Because of this change in billing from prior contracts, where the hospitals billed medicare and medicaid patients and the contractors billed all other patients separately, contract costs will increase. However, net revenues are anticipated to increase as well. Funds generated from increased revenues will be used to offset the costs.

To facilitate the implementation of these services for the fiscal year ending June 30, 1994, the non-general fund appropriations provided in this Act reflect increased program funding due to the receipt of revenues from these services.

SECTION 3. There is appropriated out of the respective hospital special funds the following sums, or so much thereof as may be necessary, for fiscal year 1993-1994, for the following programs. The specified sums shall be in addition to the operating appropriations made for the same programs by Act 289, Session Laws of Hawaii 1993.

211	Hilo Hospital	\$1,428,972	B
221	Maui Memorial Hospital	<u>1,669,895</u>	B
		\$3,098,867	B

ACT 53

The letter symbols following the amounts shall have the same meanings as the letter symbols listed in section 2(c) of Act 289, Session Laws of Hawaii 1993.

SECTION 4. The sums appropriated shall be expended by the department of health for the purposes of this Act.

SECTION 5. This Act shall take effect upon its approval.

(e) The department is authorized to obtain criminal history record information through the Hawaii criminal justice data center on existing providers and their employees upon their next licensure or certification renewal date, and on any applicant and all current and prospective employees of the applicant including all new employees after the applicant is issued a certification or license under this chapter. The Hawaii criminal justice data center may assess the existing providers and their employees, applicants, current or prospective employees, or new employees of the applicant a reasonable fee for each criminal history record check performed.

SECTION 2. Section 333F-1, Hawaii Revised Statutes, is amended by adding seven new definitions to be appropriately inserted and to read as follows:

"Prospective employee" means every person seeking employment as a caregiver for an applicant.

The attorney general, the attorney general's deputy, special deputy, or appointee designated to present the case shall assist the petitioner to state the substance of the petition in plain and simple language. The petition may be accompanied by a certificate of [a] the licensed physician or psychologist who has examined the person within two days before submission of the petition, unless the person whose commitment is sought has refused to submit to medical or psychological examination, in which case the fact of refusal shall be alleged in the petition. This testimony may be waived by the subject of the petition. If the subject of the petition has refused to be examined by a licensed physician[,] or psychologist, the subject may be examined by a court-appointed licensed physician[,] or psychologist. If the subject refuses and there is sufficient evidence to believe that the allegations of the petition are true, the court may make a temporary order committing the subject to a psychiatric facility for a period of not more than five days for the purpose of a diagnostic examination and evaluation. The subject's refusal shall be treated as a denial that the subject is mentally ill or suffering from substance abuse. Nothing [herein,] in this section, however, shall limit the individual's privilege against self-incrimination.

(h) The subject of the petition in a hearing under this section has the right to secure an independent medical or psychological evaluation and present evidence thereon.

(i) If after hearing all relevant evidence, including the result of any diagnostic examination ordered by the court, the court finds that an individual is not a person requiring medical, psychiatric, psychological, or other rehabilitative treatment or supervision, the court shall order that the individual be discharged if the individual has been hospitalized prior to the hearing. If the court finds that the criteria for involuntary hospitalization under section 334-60.2(1) has been met beyond a reasonable doubt and that the criteria under sections 334-60.2(2) and 334-60.2(3) have been met by clear and convincing evidence, the court may issue an order to any police officer to deliver the subject to a facility that has agreed to admit the subject as an involuntary patient, or if the subject is already a patient in a psychiatric facility, authorize the facility to retain the patient for treatment for a period of ninety days unless sooner discharged. An order of commitment shall specify which of those persons served with notice pursuant to section 334-60.4, together with such other persons as the court may designate, shall be entitled to receive any subsequent notice of intent to discharge, transfer, or recommit."

ACT 62

S.B. NO. 905

A Bill for an Act Relating to the Airport Revenues.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Section 261-7, Hawaii Revised Statutes, is amended by amending subsection (e) to read as follows:

“(e) The department may fix and regulate, from time to time, reasonable landing fees for aircraft, including the imposition of landing surcharges or differential landing fees, and other reasonable charges for the use and enjoyment of the airports and the services and facilities furnished by the department in connection therewith, including the establishment of a statewide system of airports landing [fee] fees, a statewide system of airports support charges, and joint use charges for the use of space shared by users, which fees and charges may vary among different classes of users such as foreign carriers, domestic carriers, inter-island

carriers, air taxi operators, helicopters, and such other classes as may be determined by the director, [of transportation,] for the purpose of meeting the expenditures of the statewide system of airports set forth in section 261-5(a), which includes expenditures for capital improvement projects approved by the legislature.

In setting airports rates and charges, including landing fees, the director may enter into contracts, leases, licenses, and other agreements with aeronautical users of the statewide system of airports containing such terms, conditions, and provisions as the director deems advisable.

If the director has not entered into contracts, leases, licenses, and other agreements with any or fewer than all of the aeronautical users of the statewide system of airports prior to the expiration of an existing contract, lease, license, or agreement, the director shall set and impose rates, rentals, fees, and charges pursuant to this subsection without regard to the requirements of chapter 91; provided that a public informational hearing shall be held on the rates, rentals, fees, and charges.

The director shall develop rates, rentals, fees, and charges in accordance with a residual methodology so that the statewide system of airports shall be, and always remain, self-sustaining. The rates, rentals, fees, and charges shall be set at such levels as to produce revenues which, together with aviation fuel taxes, shall be at least sufficient to meet the expenditures of the statewide system of airports set forth in section 261-5(a), including expenditures for capital improvement projects approved by the legislature, and to comply with covenants and agreements with holders of airport revenue bonds.

The director may develop and formulate methodology in setting the various rates, rentals, fees, and charges imposed and may determine usage of space, estimate landed weights, and apply such portion of nonaeronautical revenue deemed appropriate in determining the rates, rentals, fees, and charges applicable to aeronautical users of the statewide system of airports.

The rates, rentals, fees, and charges determined by the director in the manner set forth in this subsection shall be those charges payable by the aeronautical users for the periods immediately following the date of expiration of the existing contract, lease, license, or agreement. If fees are established pursuant to this section, the department shall prepare a detailed report on the circumstances and rates and charges that have been established, and shall submit the report to the legislature no later than twenty days prior to the convening of the next regular session.

If a schedule of rates, rentals, fees, and charges developed by the director in accordance with this section is projected by the department to produce revenues which, together with aviation fuel taxes, will be in excess of the amount required to meet the expenditures of the statewide system of airports set forth in section 261-5(a), including expenditures for capital improvement projects approved by the legislature, and to comply with covenants and agreements with holders of airport revenue bonds, the department shall submit the schedule of rates, rentals, fees, and charges to the legislature prior to the convening of the next regular session of the legislature. Within forty-five days after the convening of the regular session, the legislature may disapprove any schedule of rates, rentals, fees, and charges required to be submitted to it by this section by concurrent resolution. If no action is taken by the legislature within the forty-five day period the schedule of rates, rentals, fees, and charges shall be deemed approved. If the legislature disapproves the schedule within the forty-five day period, the director shall develop a new schedule of rates, rentals, fees, and charges in accordance with this section within seventy-five days of the disapproval. Pending the

development of a new schedule of rates, rentals, fees, and charges, the schedule submitted to the legislature shall remain in force and effect."

SECTION 2. Section 261-13.5, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

"(b) To the fullest extent possible within the State's authority to act in the area of airport and air traffic safety, the department of transportation shall be responsible for promoting safe operating conditions and alleviating safety hazards due to air traffic congestion at airports under its control. To this end, the department, in close cooperation with appropriate federal authorities and other affected parties, shall examine and conduct research into the causes of and solutions for safety problems at such airports, especially those problems associated with air traffic congestion. Pursuant to sections 261-12 and 261-13, the director [of transportation] shall adopt such rules[, regulations,] and standards which may include [the imposition of landing surcharges or differential landing fees,] the assignment of particular runways for particular uses, the establishment of the number and types of aircraft allowed to use each public airport, and the use of similar measures where such actions may contribute to the segregation of different types of aircraft and to the reduction of peak air traffic usage at airports under state control."

SECTION 3. This Act shall be performed to the extent permissible under the United States Constitution and federal law without causing a violation of the United States Constitution, federal grant agreements, federal law, or federal regulations.

SECTION 4. It is the intent of this Act not to jeopardize the receipt of any federal aid nor to impair the obligation of the State or any agency thereof to the holders of any bond issued by the State or by any such agency, and only to the extent necessary to effectuate this intent, the governor may modify the strict provisions of this Act, but shall promptly report any such modification with reasons therefor to the legislature at its next session thereafter for review by the legislature.

SECTION 5. If any provision of this Act, or the application thereof to any person or circumstances is held invalid, the invalidity does not affect other provisions or applications of this Act which can be given effect without the invalid provision or application, and to this end the provisions of this Act are severable.

SECTION 6. Statutory material to be repealed is bracketed. New statutory material is underscored.

SECTION 7. This Act shall take effect upon its approval.

A Bill for an Act Relating to Tourism.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the continued health and viability of our visitor industry is of the utmost importance to the economic well-being of our State. - (1) Require the office of tourism to prepare and annually update a tourism marketing plan for the upcoming five years;
- (2) Require the office to submit the updated tourism marketing plan to the legislature prior to the convening of each regular session; and
- (3) Require all marketing plans including those of destination marketing organizations receiving state funding and departmentally initiated plans to be submitted prior to finalization to allow the office of tourism to coordinate all the marketing plans with the office's tourism marketing plan.

SECTION 2. Section 201-94, Hawaii Revised Statutes, is amended by amending subsection (f) to read as follows:

“(f) The council shall annually review, evaluate, and make recommendations to the department on the State’s tourism marketing and promotion programs and activities. ACT 80

H.B. NO. 2599

A Bill for an Act Relating to Telephone Service.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that telephone service to rural areas of the state is often so inferior to service elsewhere that lives are put into jeopardy. Multi-line service and other cost-saving measures, often used in rural areas, put those in need of emergency service, often the elderly, at great risk. State policy dictates that all persons who request telephone service be provided with equal access to services, including single line service. With today's technological advances, there is no reason for any resident of Hawaii to be placed at risk because of inferior telephone service.

The purpose of this Act is to insure that telephone service providers meet the needs of every customer including those in currently underserved areas.

SECTION 2. Chapter 269, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§269- Universal service subsidies. (a) For any alternative telecommunications provider authorized to provide basic local exchange service to any area of the State pursuant to section 269-16.9(h), the commission may consider the following:

- (1) Transferring the subsidy, if any, of the local exchange provider's basic residential telephone service to the alternative provider; and
- (2) Transferring from the local exchange carrier to the alternative provider the amounts, if any, generated by the local exchange provider's services other than basic residential telephone service and which are used to subsidize basic residential service in the area.

(b) To receive the subsidy amounts from the local exchange service provider, the alternative telecommunications provider shall be required, to the extent possible, to obtain basic residential service subsidies from both the local exchange service provider and national universal service providers."

SECTION 3. Section 269-16.9, Hawaii Revised Statutes, is amended to read as follows:

"[§269-16.9] Telecommunications providers and services. (a) Notwithstanding any provision of this chapter to the contrary, the commission may, upon its own motion or upon the application of any person, and upon notice and hearing, exempt a telecommunications provider or a telecommunications service from any or all of the provisions of this chapter upon a determination that the exemption is in the public interest. In determining whether an exemption is in the public interest, the commission shall consider whether the exemption promotes state policies in telecommunications, the development, maintenance, and operation of effective and economically efficient telecommunications services, and the furnishing of telecommunications services at just and reasonable rates and in a fair manner in view of the needs of the various customer segments of the telecommunications industry. Among the specific factors the commission may consider are:

- (1) The responsiveness of the exemption to changes in the structure and technology of the State's telecommunications industry;
- (2) The benefits accruing to the customers and users of the exempt telecommunications provider or service;
- (3) The impact of the exemption on the quality, efficiency, and availability of telecommunications services;
- (4) The impact of the exemption on the maintenance of fair, just, and reasonable rates for telecommunications services;

- (5) The likelihood of prejudice or disadvantage to ratepayers of basic local exchange service resulting from the exemption;
- (6) The effect of the exemption on the preservation and promotion of affordable, universal, basic telecommunications services as those services are determined by the commission;
- (7) The resulting subsidization, if any, of the exempt telecommunications service or provider by nonexempt services;
- (8) The impact of the exemption on the availability of diversity in the supply of telecommunications services throughout the State;
- (9) The improvements in the regulatory system to be gained from the exemption, including the reduction in regulatory delays and costs;
- (10) The impact of the exemption on promoting innovations in telecommunications services;
- (11) The opportunity provided by the exemption for telecommunications providers to respond to competition; and
- (12) The potential for the exercise of substantial market power by the exempt provider or by a provider of the exempt telecommunications service.

(b) The commission shall expedite, where practicable, the regulatory process with respect to exemptions and shall adopt guidelines under which each provider of an exempted service shall be subject to similar terms and conditions.

(c) The commission may condition or limit any exemption as the commission deems necessary in the public interest. The commission may provide a trial period for any exemption and may terminate the exemption or continue it for such period and under such conditions and limitations as it deems appropriate.

(d) The commission may require a telecommunications provider to apply for a certificate of public convenience and necessity pursuant to section 269-7.5; provided that the commission may waive any application requirement whenever it deems the waiver to be in furtherance of the purposes of this section. The exemptions under this section may be granted in a proceeding for certification or in a separate proceeding.

(e) The commission may waive other regulatory requirements under this chapter applicable to telecommunications providers when it determines that competition will serve the same purpose as public interest regulation.

(f) If any provider of an exempt telecommunications service or any exempt telecommunications provider elects to terminate its service, it shall provide notice of this to its customers, the commission, and every telephone public utility providing basic local exchange service in this State. The notice shall be in writing and given not less than six months before the intended termination date. Upon termination of service by a provider of an exempt service or by an exempt provider, the appropriate telephone public utility providing basic local exchange service shall ensure that all customers affected by the termination receive basic local exchange service. The commission shall, upon notice and hearing or by rule, determine the party or parties who shall bear the cost, if any, of access to the basic local exchange service by the customers of the terminated exempt service.

(g) Upon the petition of any person or upon its own motion, the commission may rescind any exemption or waiver granted under this section if, after notice and hearing, it finds that the conditions prompting the granting of the exemption or waiver no longer apply, or that the exemption or waiver is no longer in the public interest, or that the telecommunications provider has failed to comply with one or more of the conditions of the exemption or applicable statutory or regulatory requirements.

(h) For purposes of this section, the commission, upon determination that any area of the State has less than adequate telecommunications service, shall require the existing telecommunications provider to show cause as to why the commission should not authorize an alternative telecommunications provider for that area under the terms and conditions of this section."

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that Article VII, section 6, of the Constitution of the State of Hawaii requires the legislature to provide a tax refund or tax credit when certain factors are met. The legislature finds that these factors have been met for the thirteenth year in a row and that the legislature is constitutionally required to give a tax credit or refund.

The purpose of this Act is to provide for an income tax credit of \$1 to the people of the State to satisfy constitutionally mandated requirements.

SECTION 2. (a) In addition to the food/excise tax credit allowed under section 235-55.8, Hawaii Revised Statutes, and in addition to any other credit allowed under chapter 235, Hawaii Revised Statutes, there shall be allowed each resident individual taxpayer who qualifies under section 235-55.8(a), Hawaii Revised Statutes, a general income tax credit of \$1 which shall be deducted from income tax liability computed under chapter 235, Hawaii Revised Statutes. The general income tax credit of \$1 shall be multiplied by the number of qualified exemptions as defined in section 235-55.8(c), Hawaii Revised Statutes, to which the taxpayer is entitled, regardless of adjusted gross income. Section 235-55.8(c), Hawaii Revised Statutes, to the contrary notwithstanding, each person for whom the qualified exemption is claimed shall have been a resident of the State, as defined in section 235-1, Hawaii Revised Statutes, for at least nine months regardless of whether the qualified resident was physically in the State for nine months. A Bill for an Act Relating to Disaster Relief and Rehabilitation.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Section 209-9, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) Whenever the governor declares a state disaster for the entire State or any portion thereof, or when the State, or any portion thereof, is the subject of a severe weather warning:

- (1) There shall be prohibited any increase in the selling price of any commodity, whether at the retail or wholesale level, in the area that is the subject of the disaster declaration or the severe weather warning; and
- (2) No landlord shall terminate any tenancy for a residential dwelling

unit in the area that is the subject of a disaster declaration or a severe weather warning, except for a breach of a material term of a rental agreement or lease, or if the unit is [deemed to be structurally unsafe.] unfit for occupancy as defined in this chapter, provided that:

- (A) Nothing in this chapter shall be construed to extend a fixed term lease beyond its termination date, except that a periodic tenancy for a residential dwelling unit may be terminated by the landlord upon forty-five days written notice:
 - (i) When the residential dwelling unit is sold to a bona fide purchaser for value; or
 - (ii) When the landlord or an immediate family member of the landlord will occupy the residential dwelling unit; or
- (B) Under a fixed term lease or a periodic tenancy, upon forty-five days written notice, a landlord may require a tenant or tenants to relocate during the actual and continuous period of any repair to render a residential dwelling unit fit for occupancy provided that:
 - (i) Reoccupancy shall first be offered to the same tenant or tenants upon completion of the repair; and
 - (ii) The term of the fixed term lease or periodic tenancy shall be extended by a period of time equal to the duration of the repair; and
 - (iii) It shall be the responsibility of the tenant or tenants to find other accommodations during the period of repair.

As used in this section, "breach of a material term" means the failure of a party to perform an obligation under the rental agreement which constitutes the consideration for entering into the contract and includes the failure to make a timely payment of rent. For the purpose of this subsection:

"Fixed term lease" means a lease for real property that specifies its beginning date and its termination date as calendar dates, or contains a formula for determining the beginning and termination dates; and the application of the formula as of the date of the agreement will produce a calendar date for the beginning and termination of the lease.

"Periodic tenancy" means a tenancy wherein real property is leased for an indefinite time with monthly or other periodic rent reserved. A periodic tenancy may be created by express agreement of the parties, or by implication upon the expiration of a fixed term lease when neither landlord nor tenant provides the other with written notice of termination and the tenant retains possession of the premises for any period of time after the expiration of the original term.

"Unfit for occupancy" means that a residential dwelling unit has been damaged to the extent that the appropriate county agency determines that the unit creates a dangerous or unsanitary situation and is dangerous to the occupants or to the neighborhood."

ACT 99

H.B. NO. 2925

A Bill for an Act Relating to Prepaid Health Care.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the State of Hawaii has been providing quality health care to a large majority of its residents since 1974, when the Hawaii Prepaid Health Care Act was enacted. Implementation of a statewide health plan has resulted in our state's having one of the healthiest populations in

ACT 100

the country, and becoming a model for the nation as health care reform moves to the front of the national agenda. While it is refreshing to see that Hawaii's historic reform may soon be replicated on a national scale, it is imperative that our state health care is not jeopardized by a federal plan that may not be consistent with our hard-won state benefits.

The purpose of this Act is to ensure that Hawaii residents continue to receive top-quality health care, regardless of any federal plan that may be enacted, by repealing the provision of our current prepaid health care law that sunsets the state law upon enactment of a national health plan.

SECTION 2. Chapter 393, part V, Hawaii Revised Statutes, is repealed.

SECTION 3. This Act shall take effect upon the effective date of any federal act permitting the amendment of the Hawaii Prepaid Health Care Act.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Section 209, Hawaiian Homes Commission Act, 1920, as amended, is amended to read as follows:

"§209. Successors to lessees. (a) Upon the death of the lessee, the lessee's interest in the tract or tracts and the improvements thereon, including growing crops and aquacultural stock (either on the tract or in any collective contract or program to which the lessee is a party by virtue of the lessee's interest in the tract or tracts), shall vest in the relatives of the decedent as provided in this paragraph. From the following relatives of the lessee who are (1) at least one-quarter Hawaiian, husband, wife, or children, or (2) native Hawaiian, father and mother, widows or widowers of the children, grandchildren, brothers and sisters, widows or widowers of the brothers and sisters, or nieces and nephews, — the lessee shall designate the person or persons to whom the lessee directs the lessee's interest in the tract or tracts to vest upon the lessee's death. The Hawaiian blood requirements shall not apply to the descendants of those who are not native Hawaiians but who were entitled to the leased lands or under section 3 of the Act of May 16, 1934 (48 Stat. 777, 779), as amended, or under section 3 of the Act of July 9, 1952 (66 Stat. 511, 513). In all cases that person or persons need not be eighteen years of age. The designation shall be in writing, may be specified at the time of execution of the lease with a right in the lessee in similar manner to change the beneficiary at any time and shall be filed with the department and approved by the department in order to be effective to vest the interests in the successor or successors so named.

In case of the death of any lessee, except as hereinabove provided, who has failed to specify a successor or successor as approved by the department, the department may select from only the following qualified relatives of the decedent:

- (1) Husband or wife; or
- (2) If there is no husband or wife, then the children; or
- (3) If there is no husband, wife, or child, then from the following relatives of the lessee who are native Hawaiian: father and mother, widows or widowers of the children, grandchildren, brothers and sisters, widows or widowers of the brothers and sisters, or nieces and nephews.

The rights to the use and occupancy of the tract or tracts may be made effective as of the date of the death of the lessee.

In the case of the death of a lessee leaving no designated successor or successors, husband, wife, children, or relative qualified to be a lessee of Hawaiian home lands, the land subject to the lease shall resume its status as unleased Hawaiian home lands and the department is authorized to lease the land to a native Hawaiian as provided in this Act.

Upon the death of a lessee who has not designated a successor and who leaves a spouse not qualified to succeed to the lease or children not qualified to succeed to the lease, or upon the death of a lessee leaving no relative qualified to be a lessee of Hawaiian home lands, or the cancellation of a lease by the department, or the surrender of a lease by the lessee, the department shall appraise the value of all the improvements and growing crops or improvements and aquacultural stock, as the case may be, and shall pay to the nonqualified spouse or the nonqualified children as the lessee shall have designated prior to the lessee's death, or to the legal representative of the deceased lessee, or to the previous lessee, as the case may be, the value thereof, less any indebtedness to the department, or for taxes, or for any other indebtedness the payment of which has been assured by the department, owed by the deceased lessee or the previous lessee. These payments shall be made out of the Hawaiian home loan fund and shall be considered an advance therefrom and shall be repaid by the successor or successors to the tract involved. If available cash in the Hawaiian home loan fund is insufficient to make these payments, payments may be advanced from the Hawaiian home general loan fund and shall be repaid by the successor or successors to the tract involved; provided that any repayment for advances made from the Hawaiian home general loan fund shall be at the interest rate established by the department for loans made from the Hawaiian home general loan fund.

[The appraisal shall be made by three appraisers, one of whom shall be named by the department, one by the previous lessee or the legal representative of the deceased lessee, as the case may be, and the third shall be selected by the two appraisers aforementioned.]

(b) The appraisal of improvements and growing crops, or stock, if any, shall be made by any one of the following methods:

- (1) By a disinterested appraiser hired by the department; provided that the previous lessee or deceased lessee's legal representative shall not be charged for the cost of the appraisal; or
- (2) By one disinterested appraiser mutually agreeable to both the department and the previous lessee or the deceased lessee's legal representative, with the cost of appraisal borne equally by the two parties; or
- (3) By not more than three disinterested appraisers of which the first shall be contracted for and paid by the department. If the previous lessee or the deceased lessee's legal representative does not agree

with the appraised value, the previous lessee or the deceased lessee's legal representative shall contract with and pay for the services of a second appraiser whose appraisal report shall be submitted to the department not later than ninety days from the date of the first appraisal report; provided that the first appraisal shall be used if the second appraiser is not hired within thirty days from the date the department transmits the first appraisal report to the previous lessee or the deceased lessee's representative. If the appraisal values are different and a compromise value between the two appraisals is not reached, a third appraisal shall be made by an appraiser appointed by the first two appraisers not later than ninety days from the date of the second appraisal report and the third appraiser shall determine the final value. The cost of the third appraisal shall be borne equally by the department and the previous lessee or the deceased lessee's legal representative.

The department may adopt rules not in conflict with this section to establish appraisal procedures, including the time period by which the department and the previous lessee or the deceased lessee's legal representative shall act on appraisal matters.

(c) If a previous lessee has abandoned the tract or tracts or cannot be located after at least two attempts to contact the previous lessee by certified mail, the department by public notice published at least once in each of four successive weeks in a newspaper of general circulation in the State shall give notice to the previous lessee that the lease will be canceled in accordance with sections 210 and 216 of this title and the department will appraise the value of the improvements and growing crops and stock, if any, if the previous lessee does not present himself or herself within one hundred and twenty days from the first day of publication of the notice. Following cancellation of the lease and appraisal of the improvements and growing crops and stock, if any, the department shall make the payout as provided in subsection (a).

[(b)] (d) After the cancellation of a lease by the department in accordance with sections 210 and 216 of this title, or the surrender of a lease by a lessee, the department [is authorized to] may transfer the lease or [to] issue a new lease to any qualified native Hawaiian regardless of whether or not [the qualified Hawaiian] that person is related in any way by blood or marriage to the previous lessee.

The guardian shall be authorized to represent the successor or successors in all matters pertaining to the leasehold; provided that the guardian, in so representing [such] the successor or successors, shall comply with this title and the stipulations and provisions contained in the lease, except that the guardian need not be a native Hawaiian as defined in section 201 of this title."

A vessel moored without a use permit or with a use permit that has expired or been terminated is an unauthorized vessel and is subject to [subsections (b) to (d)] this section.

(b) The department shall cause to be placed upon, or as near to the unauthorized vessel as possible, a notice to remove vessel, which shall indicate that the vessel is in violation of this section, the date and time the notice was posted, and that the vessel must be removed within seventy-two hours from the time the notice was posted.

ACT 115

H.B. NO. 3190

A Bill for an Act Relating to the Public Disclosure of Written Opinions by the Department of Taxation.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to open to public inspection written opinions of the department of taxation that interpret the tax laws, while at the same time maintaining the confidentiality of tax return information.

The viability of Hawaii's tax system depends upon the voluntary disclosure of information to the taxing authorities. The legislature finds that it is necessary to keep information disclosed by taxpayers confidential in order to maintain voluntary compliance with the tax laws. At the same time, the legislature finds that correct reporting can be enhanced by issuing guidance to taxpayers in areas

where the interpretation of the tax laws is unclear. Accordingly, this Act makes available to the public written opinions of the department in areas where the law is unclear.

This Act does not open to public inspection the voluminous routine correspondence with taxpayers concerning established principles of law. This Act is an exception to the well-established principle of confidentiality of tax information and thus, it is narrowly tailored to achieve its purpose to provide guidance on the interpretation of tax laws in order to enhance correct reporting, while maintaining the confidentiality of tax return information in order to maintain voluntary compliance with the tax laws. To protect the integrity of the voluntary disclosure system, doubts about whether information should be publicly disclosed shall be resolved in favor of nondisclosure.

SECTION 2. Chapter 231; Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§231- Public inspection and copying of written opinions. (a) Written opinions shall be open to public inspection and copying as provided in this section, notwithstanding sections 235-116, 236D-15, 237-34, and 237D-13 and any other law restricting disclosure of tax returns or tax return information to the contrary. Except as provided in subsection (f), regarding the disclosure of the text of written opinions, chapter 92F shall not apply to tax returns and tax return information.

A written opinion may not be used or cited as precedent unless otherwise provided by department rules.

(b) For purposes of this section, the term “written opinion” means a written statement issued by the department to a taxpayer, or to the taxpayer’s authorized representative on behalf of the taxpayer, that interprets and applies any provision in title 14 administered by the department to a specific set of facts. A written opinion generally recites the relevant facts, sets forth the applicable provisions of law, and shows the application of the law to the facts. A written opinion shall not include:

- (1) Any written communication from the department to any person in connection with the examination or audit of any person’s tax return, or in connection with collection activities relating to any person’s delinquent tax liability;
- (2) An information letter, which is a written statement issued by the department that provides general information by calling attention to a well-established interpretation or principle of tax law, whether or not it applies to a specific set of facts. An information letter may be issued when the nature of the request from the taxpayer suggests that the taxpayer is seeking general information, or where the department believes that general information will assist the taxpayer; or
- (3) A determination letter, which is a written statement issued by the department that applies an interpretation or principle of tax law clearly established by statute, rule, written opinion, or published court decision to a particular set of facts. A determination letter includes the grant or denial of consent, permission, exemption or registration, or a routine correspondence in response to taxpayer inquiries. A determination letter shall be designated as such, and

shall indicate the clearly established interpretation or principle applied and its source.

(c) Before making a written opinion available for public inspection and copying under subsection (a), the department where possible shall segregate from the opinion trade secrets or other confidential, commercial, and financial information, and identifying details such as the name, address, and social security or tax identification number of the person to whom the written opinion pertains and of any other person identified in the written opinion. Segregated text shall not be disclosed under this section.

(d) Upon issuance of any written opinion, the department shall mail a notice of intention to disclose the opinion together with a copy of the opinion showing the text the department proposes to segregate to any person to whom the written opinion pertains (or any known successor in interest, personal representative, or other person authorized by law to act for or on behalf of such person).

(e) Except as otherwise provided in subsection (h), a written opinion, as segregated under subsection (c), shall be open to public inspection and copying no earlier than seventy-five days, and no later than ninety days, after the department's notice of intention to disclose is mailed. At the written request of a person to whom the written opinion pertains (or a successor in interest, personal representative, or other person authorized by law to act for or on behalf of the person), the preceding period may be extended, but the department shall make the written opinion available for inspection and copying no later than one-hundred-eighty days after the notice to disclose is mailed, including extensions.

(f) The department's decision as to what constitutes a written opinion is final. A decision concerning the disclosure of the text of written opinions may be contested, but only in the manner and within the time set forth in this subsection. Any person who meets the requirements of paragraph (1) or (2) and who has exhausted the administrative remedies as prescribed by rules adopted by the department may appeal within sixty days of the date of the department's decision to the office of information practices in accordance with procedures established by the office of information practices under sections 92F-15.5 and 92F-42(1). The office of information practices may examine the written opinion at issue, in camera, to assist in determining whether it, or any part of it, may be withheld. In determining whether information constitutes a trade secret or other confidential, commercial, and financial information, the office of information practices may consider and apply, in addition to any other relevant sources, interpretations of those terms under chapter 92F.

Only the following persons may contest a decision of the department concerning the disclosure of written opinions:

- (1) Any person:
 - (A) To whom a written opinion pertains (or a successor in interest, personal representative, or other person authorized by law to act for or on behalf of the person);
 - (B) Who has a material interest in maintaining the confidentiality of any written opinion or portion thereof; and
 - (C) Who disagrees with a decision by the department not to segregate information from any written opinion; or
- (2) Any person who is aggrieved by the department's denial of a request to inspect and copy any written opinion or portion thereof.

Any person aggrieved by a decision of the office of information practices may appeal the decision to the circuit court of the first judicial circuit, or of the

judicial circuit in which the request for the written opinion is made or in which a copy of the written opinion is maintained by the department. The appeal shall be filed within thirty days after the date of the decision of the office of information practices. The circuit court shall hear the matter de novo. Opinions and ruling of the office of information practices shall be admissible. The circuit court may examine the written opinion at issue, in camera, to assist in determining whether it, or any part of it, may be withheld.

Any person advocating nondisclosure or segregation under paragraph (1) shall have the burden of proof and persuasion, but any person under paragraph (2) need only establish the denial of a request and the department shall have the burden of proof and persuasion to justify the denial of the request to inspect and copy.

(g) Except for cases the circuit court considers of greater importance, proceedings before the court, as authorized by this section, and appeals therefrom, shall be assigned for hearing and trial or for argument at the earliest practicable date and expedited in every way.

(h) Upon appeal to the office of information practices or a court under subsection (f), the written opinion at issue shall not be made available for public inspection and copying pending the final decision in the case. If the final decision in the case determines that the written opinion subject to the appeal shall be open and available to public inspection and copying, or that confidential or identifying information must be segregated, then the department shall make the written opinion available for public inspection and copying not later than thirty days after the decision becomes final. The office of information practices or the court may extend this thirty-day period for such time as the office of information practices or the court finds necessary to allow the department to comply with its decision.

(i) The department shall compile yearly an index in such form as the department determines of all written opinions issued during the preceding calendar year. Copies of the index shall be furnished upon the payment of 50 cents a page. Copies of written opinions shall be furnished upon the payment of \$1 a page.

(j) Except as provided in this section, written opinions shall remain subject to all laws governing tax returns and tax return information and the department shall not be required by any court to disclose any written opinion except as specifically authorized by title 14.

(k) No officer or employee of the department shall be in violation of any law prohibiting the disclosure of tax returns or tax return information, or in violation of any other law restricting the disclosure of information, due to the release of any written opinion pursuant to this section.

(l) The department may adopt rules pursuant to chapter 91 to implement this section."

SECTION 3. New statutory material is underscored.¹

SECTION 4. This Act shall take effect upon its approval and shall apply to written opinions dated after December 31, 1994.

(Approved June 8, 1994.)

ACT 120

H.B. NO. 3255

A Bill for an Act Relating to Motor Vehicles.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The steady decline of the sugar industry has threatened the economic stability of the entire Hamakua Coast on the island of Hawaii. As a result, the social structure of the community is at risk of collapse. Committed to working together to save their community, Hilo-Hamakua residents have focused their collective efforts to, among other things, offering training programs and identifying employment opportunities for dislocated sugar workers. To date, progress has been made in attracting new employment opportunities to the Hamakua Coast, and there is significant potential for the creation of additional jobs in the immediate future.

One potential job generator for the Hamakua Coast is a solar electric car manufacturer who is considering construction of a manufacturing facility in Honokaa. This project recently received a federal Department of Defense grant to deliver several prototype solar electric cars to the Advance Research Projects Agency.

Because of the unique design of these solar electric cars, existing vehicle regulations need to be modified to eliminate requirements that do not apply to these types of solar electric cars. For example, one of these regulations currently requires all motorcycles and mopeds to be equipped with mufflers. This regulation is unnecessary for motorcycles or mopeds powered by electric motors because these vehicles do not have internal combustion engines that would require mufflers. By exempting these vehicles from the existing muffler requirement, this Act eliminates one of the obstacles that may affect the ability of solar electric car manufacturers from successfully marketing these vehicles in this State.

The purpose of this Act is to authorize the operation of solar electric cars, thereby increasing the likelihood of creating job opportunities related to the construction of these unique vehicles in the State.

SECTION 2. Section 286-81, Hawaii Revised Statutes, is amended to read as follows:

“§286-81 Motorcycle, motor scooter, etc.; protective devices. (a) No person shall:

- (1) Operate a motorcycle or motor scooter, on any highway in the State unless the person and any passenger the person carries on the motorcycle or motor scooter wears:

For the purpose of meeting the requirements of this paragraph, a required device [must] shall meet the specifications and requirements established by rules [and regulations] adopted by the director [of transportation].;

- (2) Lease or rent a motorcycle or motor scooter to another person unless the person furnishes:
 - (A) [safety] Safety glasses, goggles, or a face shield, in the case of a motorcycle or motor scooter that is not equipped with wind-screens or windshields; and
 - (B) [any] Any other protective devices required by the rules [and regulations] adopted by the director [of transportation] for the use of the person or persons intending to operate or ride as a passenger on the motorcycle or motor scooter; provided that any person to whom a motorcycle or motor scooter is leased or rented may furnish for the person's own use the protective devices required by this part.

For the purposes of meeting the requirements of this paragraph, a required device [must] shall meet the specifications and requirements established by rules [and regulations] adopted by the [state] director [of transportation].; or

- (3) Sell or offer for sale or furnish any safety helmet, safety glasses, goggles, face shield, windscreen, windshield, or other protective devices represented to meet the requirements of this part unless the device meets the specifications and requirements established by rules [and regulations] adopted by the [state] director [of transportation].

(4) Has a seat belt assembly or a child restraint system for the driver and passenger;
and the operator and passenger uses the seat belt or child restraint system pursuant to sections 291-11.5 and 291-11.6.”

and the operator and passenger uses the seat belt or child restraint system pursuant to sections 291-11.5 and 291-11.6.

(c) A motorcycle or motor scooter driver who violates this section shall be fined not more than \$200.”

(c) Whoever violates this section shall be fined not more than \$100.”

SECTION 5. The director of transportation shall publish in a newspaper of general circulation printed and published within the State, a notice of regulatory compliance that the manufacturer of the solar electric motor vehicle has

submitted proof to the department of transportation that the vehicle meets all applicable standards, regulations, and exemptions, including but not limited to the National Electric Code and the Federal Motor Vehicle Safety Standards pursuant to 49 CFR Part 571.

SECTION 6. Statutory material to be repealed is bracketed. New statutory material is underscored.

SECTION 7. This Act shall take effect upon publication by the director of transportation in a newspaper of general circulation printed and published within the State, a notice of regulatory compliance as set forth in section 5; except that should the notice not be published by June 30, 1995, this Act shall be repealed.

ACT 133

H.B. NO. 3585

A Bill for an Act Relating to the Public Utilities Commission.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to balance the exceptionally high cost of constructing electric utility lines underground with other relevant factors when the public utilities commission exercises its exclusive authority in determining whether it is preferable to construct the electric utility lines overhead or underground. While there are benefits to constructing electric utility lines underground, those benefits extend not only to the utilities' ratepayers, whose rates should reflect the utilities' cost of providing reasonably reliable electric service, but extend to the public at large. Ratepayers should not be forced to pay, through their rates, for these additional costs. Accordingly, in the interest of fairness and equity to all ratepayers served by public utilities within the State, those policy making or implementing bodies that require that electric utility lines be placed underground should provide the funds in excess of those required for overhead construction. Notwithstanding the absence of funds from those requiring entities necessary for the additional costs of underground construction, the public utilities commission may approve underground construction upon consideration of the additional cost of underground construction and other relevant factors.

SECTION 2. Chapter 269, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§269- Construction of high-voltage electric transmission lines; overhead or underground construction. Notwithstanding any law to the contrary, whenever a public utility applies to the public utilities commission for approval to place, construct, erect, or otherwise build a new forty-six kilovolt or greater high-voltage electric transmission system, either above or below the surface of the ground, the public utilities commission shall determine whether the electric transmission system shall be placed, constructed, erected, or built above or below the surface of the ground; provided that the public utilities commission may in its determination consider the following factors:

- (1) Whether there is a benefit that outweighs the costs to place the electric transmission system underground;
- (2) Whether there is a governmental public policy requiring the electric transmission system to be placed, constructed, erected, or built underground and the governmental agency establishing the policy commits funds for the additional costs of undergrounding;
- (3) Whether any governmental agency or other parties are willing to pay for the additional costs of undergrounding; and
- (4) Any other relevant factors.”

SECTION 3. New statutory material is underscored.¹

SECTION 4. This Act shall take effect upon its approval.

ACT 134

H.B. NO. 3742

A Bill for an Act Relating to the Hawaii Young Scholars Program.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Act 299, Session Laws of Hawaii 1992, is amended to read as follows:

“SECTION 1. The purpose of this Act is to allow the department of education to establish a [two-year] five-year pilot program to be called the Hawaii young scholars program. The legislature finds that certain ethnic groups occupy a disadvantaged position in our State, particularly because of their [socio-economic and education] socioeconomic and educational status. The legislature also finds that one way to lessen this disadvantage is to provide a stimulating, positive, and quality educational environment.

The Hawaii young scholars program would serve to lessen the disparity among those individuals who pursue a higher education and those individuals who do not go on to college. This disparity is a community concern, especially as a significant number of economically disadvantaged children tend to become school drop-outs. Education is a positive alternative for these children to avoid a life of need, poverty, welfare, and abuse.

In 1990, the legislature passed Act 333, which established the Hawaii opportunity program in education (HOPE). Through the HOPE special fund, financially needy students are given the chance to participate in a comprehensive program at the elementary, secondary, and post-secondary levels with priority given to students from ethnic groups who are underrepresented in the student population at the University of Hawaii.

[However,] HOPE, however, is limited to those students attending “special needs schools”. A separate but complementary program may be initiated and implemented to reach students who might not otherwise be eligible [participants] to participate in HOPE, but could benefit from a program that affords quality

preparation for post-secondary education. A program that is designed to stimulate, motivate, and support children from ethnic groups underrepresented at the University of Hawaii would assist in continuing efforts to equalize educational opportunities for all ethnic groups within the State and [would] help to alleviate the racial tension that sometimes exists because of lack of educational opportunities for some groups.

This program should provide early, continuous, and quality educational enrichment activities that include parents, teachers, students, and student peers as core support members in each student's educational progress. This support network would, in all probability, have substantial influence on whether a student will acquire the motivation, interest, and determination to pursue a higher education.

The teacher, the parent, the sibling, the friend, and the employer—all facets of society—are critical to learning. Also important are parental support and attitudes toward learning and education, as [parental] parent's attitudes are often reflected in their [child's] children's attitude, ability, and determination to learn and succeed in school. Teachers generally find that if students are motivated to learn, then their role as facilitators of learning is greatly enhanced.

SECTION 2. (a) The department of education may establish a [two-year] five-year pilot program to be called the Hawaii young scholars program. The department of education may implement the program in five selected elementary schools throughout the State, beginning with the third grade in the first year of the [two-year pilot] program, and then with the fourth grade in the second year of the [two-year pilot] program. Schools not selected may be encouraged to participate in the Hawaii young scholars program under school/community-based management.

(b) The department of education may [coordinate]:

(1) Coordinate with the University of Hawaii in the design of the Hawaii young scholars program[.

The department of education may also provide]; and

(2) Provide a contract of agreement to each economically disadvantaged child and the child's parents or guardians [that], which is consistent with school/community-based management.

SECTION 3. If it is established by the department of education, the Hawaii young scholars program [pilot program] shall operate for [two] five years. The department of education shall submit [a report] status reports on the performance of the [Hawaii young scholars] program [and its recommendations with regard to the program] to the legislature not less than twenty days prior to the convening of [the] each regular session [of 1994.], and a final report with findings and recommendations to the legislature not less than twenty days prior to the convening of the regular session of 1997.

SECTION 4. This Act shall take effect upon its approval."

SECTION 2. Statutory material to be repealed is bracketed. New statutory material is underscored.

SECTION 3. This Act shall take effect upon its approval.

ACT 135

S.B. NO. 2834

A Bill for an Act Relating to the Special Supplemental Food Program for Women, Infants, and Children (WIC).

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Act 289, Session Laws of Hawaii 1993, authorized the department of health to convert to permanent civil service status eighty federally-funded, temporary Hawaii women, infants, and children (WIC) nutrition program positions (79.5 full-time equivalents) during fiscal year 1993-1994 for the purpose of stabilizing staff and increasing the number of women, infants, and children served by the Hawaii WIC nutrition program. The department of health identified the following positions to convert to permanent civil service status:

- (1) Two public health nutritionist IV positions;
- (2) Sixteen public health nutritionist III positions;
- (3) Eight clerk-typist II positions;
- (4) Twenty-five clerk II positions; and
- (5) Twenty-nine paramedical assistant II positions

previously established under section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786), as amended.

The legislature finds that, upon conversion to permanent civil service status, the employees in the eighty positions will suffer loss of employee benefits and privileges which were accrued during their previous temporary or limited term appointments with the Hawaii WIC nutrition program. The purpose of this Act is to ensure that those employees, upon conversion, will retain their accrued benefits and privileges.

SECTION 2. Act 289, Session Laws of Hawaii 1993, is amended by adding a new section to read as follows:

“SECTION 33A. Provided that, with respect to the 79.5 full-time equivalent public health nutritionist, clerk-typist, clerk, and paramedical assistant positions of the Hawaii women, infants, and children nutrition program (HTH 160), the department of health is authorized to convert to permanent status incumbent officers and employees in those positions who shall be granted permanent civil service status in the converted positions without loss of salary, seniority, prior service credit, accrued vacation, sick leave, or other employee benefits and without the necessity of examination; provided that an officer or employee in a position to be converted pursuant to this Act must have performed work satisfactorily for a period of not less than six continuous months prior to the effective date of this Act; and provided that the officer or employee possesses the minimum qualifications for the position to which appointed.”

SECTION 3. New statutory material is underscored.

SECTION 4. This Act shall take effect upon its approval.

A Bill for an Act Relating to the General Excise Tax on Manufacturing and Producing.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Section 237-13, Hawaii Revised Statutes, is amended to read as follows:

"§237-13 Imposition of tax. There is hereby levied and shall be assessed and collected annually privilege taxes against persons on account of their business and other activities in the State measured by the application of rates against values of products, gross proceeds of sales, or gross income, whichever is specified, as follows:

- (1) Tax on manufacturers.
 - (A) Upon every person engaging or continuing within the State in the business of manufacturing, including compounding, canning, preserving, packing, printing, publishing, milling, processing, refining, or preparing for sale, profit, or commercial use, either directly or through the activity of others, in whole or in part, any article or articles, substance or substances, commodity or commodities, the amount of the tax to be equal to the value of the articles, substances, or commodities, manufactured, compounded, canned, preserved, packed, printed, milled, processed, refined, or prepared, for sale, as shown by the gross proceeds derived from the sale thereof by the manufacturer or person compounding, preparing, or printing them, multiplied by one-half of one per cent.
 - (B) The measure of the tax on manufacturers is the value of the entire product for sale, regardless of the place of sale or the fact that deliveries may be made to points outside the State.

- (C) If any person liable for the tax on manufacturers ships or transports the person's product, or any part thereof, out of the State, whether in a finished or unfinished condition, or sells the same for delivery outside of the State (for example, consigned to a mainland purchaser via common carrier f.o.b. Honolulu), the value of the products in the condition or form in which they exist immediately before entering interstate or foreign commerce, determined as hereinafter provided, shall be the basis for the assessment of the tax imposed by this paragraph. This tax shall be due and payable as of the date of entry of the products into interstate or foreign commerce, whether the products are then sold or not. The department of taxation shall determine the basis for assessment, as provided by this paragraph, as follows:
- (i) If the products at the time of their entry into interstate or foreign commerce already have been sold, the gross proceeds of sale, less the transportation expenses, if any, incurred in realizing the gross proceeds for transportation from the time of entry of the products into interstate or foreign commerce, including insurance and storage in transit, shall be the measure of the value of the products.
 - (ii) If the products have not been sold at the time of their entry into interstate or foreign commerce, and in cases governed by clause (i) in which the products are sold under circumstances such that the gross proceeds of sale are not indicative of the true value of the products, the value of the products constituting the basis for assessment shall correspond as nearly as possible to the gross proceeds of sales for delivery outside the State, adjusted as provided in clause (i), or if sufficient data are not available, sales in the State, of similar products of like quality and character and in similar quantities, made by the taxpayer (unless not indicative of the true value) or by others. Sales outside the State, adjusted as provided in clause (i), may be considered when they constitute the best available data. The department shall prescribe uniform and equitable rules for ascertaining such values.
 - (iii) At the election of the taxpayer and with the approval of the department, the taxpayer may make the taxpayer's returns under clause (i) even though the products have not been sold at the time of their entry into interstate or foreign commerce.
 - (iv) In all cases in which products leave the State in an unfinished condition, the basis for assessment shall be adjusted so as to deduct such portion of the value as is attributable to the finishing of the goods outside the State.
- (2) Tax on business of selling tangible personal property; producing.
- (A) Upon every person engaging or continuing in the business of selling any tangible personal property whatsoever (not including, however, bonds or other evidence of indebtedness, or stocks), there is likewise hereby levied, and shall be assessed and collected, a tax equivalent to four per cent of the gross

proceeds of sales of the business; provided that insofar as certain retailing is taxed by section 237-16, the tax shall be that levied by section 237-16, and in the case of a wholesaler, the tax shall be equal to one-half of one per cent of the gross proceeds of sales of the business. - (B) Gross proceeds of sales of tangible property in interstate and foreign commerce shall constitute a part of the measure of the tax imposed on persons in the business of selling tangible personal property, to the extent, under the conditions, and in accordance with the provisions of the Constitution of the United States and the acts of the Congress of the United States which may be now in force or may be hereafter adopted, and whenever there occurs in the State an activity to which, under the Constitution and acts of Congress, there may be attributed gross proceeds of sales, such gross proceeds shall be so attributed.
- (C) No manufacturer or producer, engaged in such business in the State and selling the manufacturer's or producer's products for delivery outside of the State (for example, consigned to a mainland purchaser via common carrier f.o.b. Honolulu), shall be required to pay the tax imposed in this chapter for the privilege of so selling the products, and the value or gross proceeds of sales of the products shall be included only in determining the measure of the tax imposed upon the manufacturer or producer as such.
- (D) When a manufacturer or producer, engaged in such business in the State, also is engaged in selling the manufacturer's or producer's products in the State at wholesale, retail, or in any other manner, the tax for the privilege of engaging in the business of selling the products in the State shall apply to the manufacturer or producer as well as the tax for the privilege of manufacturing or producing in the State, and the manufacturer or producer shall make the returns of the gross proceeds of the wholesale, retail, or other sales required for the privilege of selling in the State, as well as making the returns of the value or gross proceeds of sales of the products required for the privilege of manufacturing or producing in the State. and section 237-16;] privilege of manufacturing or producing in the State; except that no producer of agricultural products who sells the products to a purchaser who will process the products outside the State shall be required to pay the tax imposed in this chapter for the privilege of producing or selling those products.

- (F) The department, by rule, may provide that a seller may take from the purchaser of tangible personal property a certificate, in such form as the department shall prescribe, certifying that the sale is a sale at wholesale. If the certificate is so provided for by rule of the department:
 - (i) Any purchaser who furnishes such a certificate shall be obligated to pay to the seller, upon demand, if the sale in fact is not at wholesale, the amount of the additional tax which by reason thereof is imposed upon the seller; and
 - (ii) The absence of such a certificate, unless the sales of the business are exclusively at wholesale, in itself shall give rise to the presumption that the sale is not at wholesale.
- (3) Tax upon contractors.
 - (A) Upon every person engaging or continuing within the State in the business of contracting, the tax shall be equal to four per cent of the gross income of the business; provided that insofar as the business of contracting is taxed by section 237-16, which relates to certain retailing, the tax shall be that levied by section 237-16.

 if the tax on the amount so deducted has been paid by the other person, or has been withheld by the taxpayer and shall be paid over by the taxpayer to the assessor at the time of filing the return, such withholding being authorized by this paragraph; but any person claiming a deduction under this paragraph shall be required to show in the person's return the name of the person paying the tax on the amount deducted by

the person or from whom the tax was withheld, and shall issue a receipt for any amount of tax withheld, which upon filing by the other taxpayer with the taxpayer's return, shall relieve the other taxpayer of liability for the amount of tax withheld.

- (C) In computing the tax levied under this paragraph against any federal cost-plus contractor, there shall be excluded from the gross income of the contractor so much thereof as fulfills the following requirements:

The tax in respect of the improvements shall be measured by the amount of the proceeds of the sale or other disposition that is attributable to the erection, construction, or improvement of such building or structure, or the making, constructing, or improving of the road, street, sidewalk, sewer, or water system, or other improvements. The measure of tax in respect of the improvements shall not exceed the amount which would have been taxable had the work been performed by another, subject as in other cases to the deductions allowed by subparagraph (B). Upon the election of the taxpayer, this paragraph may be applied notwithstanding the improvements were not made by the taxpayer, or were not made as a business or as a part of a business, or were made with the intention of holding the same. However, this paragraph shall not apply in respect of any proceeds that constitute or are in the nature of rent; all such gross income shall be taxable under paragraph (10).

ACT 145

S.B. NO. 3075

A Bill for an Act Relating to Health Care.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Under the Omnibus Budget Reconciliation Act of 1993 (OBRA '93), state courts are authorized to require an employer that provides dependent health coverage to make that coverage available to an employee's child even though the child is not, for income tax purposes or plan purposes, a legal dependent because of a separation or divorce.

OBRA '93 also amended the Social Security Act to require states to enact laws requiring group health plans to honor qualified medical child support orders as a condition for receiving Medicaid funding. Generally, states are required to adopt such laws for calendar quarters beginning on or after April 1, 1994, but are given until the end of the first regular legislative session beginning after August 10, 1993, to enact this requirement if that date is later. Therefore, in order to continue to receive Medicaid funding, recognition must be afforded to qualified medical child support orders. Additionally, such recognition will ensure that a vulnerable group of children have access to health benefits.

The purpose of this Act is to require employers, who provide health coverage to dependent children of an employee, to recognize a child identified in a qualified medical child support order as an eligible dependent without regard to any enrollment season restrictions.

SECTION 2. Chapter 431, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§431- Qualified medical child support order. (a) An employer, who provides health coverage to dependent children of an employee, shall recognize a child identified in a qualified medical child support order as an eligible dependent without regard to any enrollment season restrictions.

(b) A qualified medical child support order shall:

- (1) Specify the name and last known mailing address, if any, of the plan member and the name and mailing address of each recipient child covered by the order;
- (2) Include a reasonable description of the type of coverage to be provided to the recipient child, or the manner in which the type of coverage is to be determined;
- (3) State the period during which it applies;
- (4) Specify the plan to which it applies; and
- (5) Not require a plan to provide any type or form of benefit or option that the plan does not otherwise provide."

SECTION 3. Chapter 432, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§432- Qualified medical child support order. (a) An employer, who provides health coverage to dependent children of an employee, shall recognize a child identified in a qualified medical child support order as an eligible dependent without regard to any enrollment season restrictions.

(b) A qualified medical child support order shall:

- (1) Specify the name and last known mailing address, if any, of the plan member and the name and mailing address of each recipient child covered by the order;
- (2) Include a reasonable description of the type of coverage to be provided to the recipient child, or the manner in which the type of coverage is to be determined;
- (3) State the period during which it applies;
- (4) Specify the plan to which it applies; and
- (5) Not require a plan to provide any type or form of benefit or option that the plan does not otherwise provide."

SECTION 4. New statutory material is underscored.¹

ACT 148

H.B. NO. 2945

A Bill for an Act Relating to the Issuance of Special Purpose Revenue Bonds to Assist Utilities Serving the General Public.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds and declares that the issuance of special purpose revenue bonds and refunding special purpose revenue bonds under this Act will assist the utilities providing electric service to the general public in obtaining lower interest rate bond financing for capital improvement projects, through the use of tax exempt special purpose revenue bonds and refunding bonds. This savings in interest cost would be reflected in the electric rates established by the public utilities commission in rate case proceedings. Ratepayers pay for the cost of financing as part of the rates set by the public utilities commission. Therefore, the entire savings resulting from the reduction in capital costs will benefit the ratepayers. Furthermore, these bonds cannot be secured directly or indirectly by the general credit of the counties or the revenues or taxes of the State but rather solely by the utilities. Thus, the cost of financing necessary capital improvements can be decreased with no cost or risk to the State. For the foregoing reasons, the legislature finds and declares that the issuance under this Act of special purpose revenue bonds and refunding special purpose revenue bonds is in the public interest and for the public health, safety, and general welfare of the State. The legislature further finds that Hawaiian Electric Company, Inc., Hawaii Electric Light Company, Inc., and Maui Electric Company, Limited, are electric utilities serving the general public that qualify for special purpose revenue bonds pursuant to part VI, chapter 39A, Hawaii Revised Statutes.

SECTION 2. Pursuant to part VI, chapter 39A, Hawaii Revised Statutes, the department of budget and finance, with the approval of the governor is authorized to issue special purpose revenue bonds in one or more series in a total amount not to exceed \$170,000,000 for the following capital improvement programs which are multi-project programs for the local furnishing of electric energy by electric utilities serving the general public:

<u>Company</u>	<u>Amount of Authorization</u>
Hawaiian Electric Company, Inc. (Oahu) Multi-project capital improvement program, including the acquisition of land, power plant additions, transmission and distribution lines, substations, and other electric systems and facilities, or any combination thereof, for the financing of which special purpose revenue bonds will be issued during the period from July 1, 1994, through December 31, 1997	\$70,000,000
Hawaii Electric Light Company, Inc. Multi-project capital improvement program, including the acquisition of land, generating facilities (including three new fossil fuel generating units on the island of Hawaii), power plant additions, transmission and distribution lines, substations, and other electric systems and facilities, or any combination thereof, for the financing of which special purpose revenue bonds will be issued during the period from July 1, 1994, through December 31, 1997	\$45,000,000
Maui Electric Company, Limited Multi-project capital improvement program, including the acquisition of land, generating facilities (including one new fossil fuel gathering unit on the island of Maui, and three new fossil fuel generating units on the island of Lanai), power plant additions, transmission and distribution lines, substations, and other electric systems and facilities, or any combination thereof, for the financing of which special purpose revenue bonds will be issued during the period from July 1, 1994, through December 31, 1997	\$55,000,000

provided that public utilities commission approval shall be required for any project financed by the issuance of special purpose revenue bonds under this Act; and provided further that, of the amount authorized in this section, none shall be used for nuclear fuel generating units.

SECTION 3. Pursuant to part VI, chapter 39A, Hawaii Revised Statutes, the department of budget and finance is authorized to issue from time to time, including times subsequent to December 31, 1997, refunding special purpose revenue bonds in whatever principal amounts the department shall determine to be

necessary to refund the special purpose revenue bonds authorized in Section 2, and any refunding special purpose revenue bonds authorized in this section, regardless of whether the outstanding special purpose revenue bonds or refunding special purpose revenue bonds have matured or are the subject of redemption, and the refunding special purpose revenue bonds shall be bonds for the multi-project programs described in Section 2. In making this determination, the department of budget and finance shall comply with federal law relating to the exemption from federal income taxation of the interest on bonds of the nature authorized by this section.

SECTION 4. The special purpose revenue bonds and the refunding special purpose revenue bonds issued under this Act shall be issued pursuant to part VI, chapter 39A, Hawaii Revised Statutes, relating to the power to issue special purpose revenue bonds and refunding special purpose revenue bonds to assist utilities serving the general public in providing electric energy.

SECTION 5. The authorization to issue special purpose revenue bonds under this Act shall lapse on December 31, 1997.

SECTION 6. The public utilities commission shall report annually to the legislature as to the progress under this Act in reducing financing costs of electric utilities, including the cost of the bonds at the time of issue as compared to the cost to the utility if the issue was made on other than under the revenue bond provision, the estimated benefits derived from the use of the special purpose revenue bonds, and a listing of the projects to be funded by the special purpose revenue bonds.

SECTION 7. This Act shall take effect upon its approval.

S.B. NO. 2753

A Bill for an Act Relating to Insurance.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Section 431:7-202, Hawaii Revised Statutes, is amended to read as follows:

"§431:7-202 Taxation. (a) Each authorized insurer, except with respect to all life insurance contracts [and], ocean marine insurance contracts, and real property title insurance contracts, shall pay to the director of finance through the commissioner a tax of 4.7 per cent for the period July 1, 1992, to June 30, 1993, and 4.265 per cent on July 1, 1993, and thereafter on the gross premiums received from all risks or property resident, situated, or located within this State, during the year ending on the preceding December 31, less return premiums (but not including dividends paid or credited to policyholders), and less any reinsurance accepted (the tax upon such business being payable by the direct writing insurer).

All premiums written, procured, or received in the State shall be presumed to have been from risks or property resident, situated, or located within the State. This presumption may be rebutted as to any premium:

- (1) By showing that it has been properly allocated or apportioned and reported as a taxable premium of another state or other appropriate taxing authority; or
- (2) By facts as to the residence, situation, or location of the risks or property, conclusively showing the nontaxability of the premium.

(b) Each authorized insurer, with respect to life insurance contracts, shall pay to the director of finance through the commissioner a tax of 2.75 per cent on the gross premiums received from all risks resident within this State, during the year ending on the preceding December 31, less return premiums, dividends paid or credited to policyholders, and reinsurance accepted (the tax upon such business being payable by the direct writing insurer).

The tax also shall apply to premiums for insurance written on individuals residing outside the State unless the direct writing insurer shall show the payment of a comparable tax to another appropriate taxing authority. Such showing may be required as to any premium written, procured, or received in the State.

(c) Each authorized insurer shall, with respect to all ocean marine insurance contracts written within the State, during the year ending on the preceding December 31, pay to the director of finance through the commissioner a tax of .8775 per cent on its gross underwriting profit. The gross underwriting profit shall be ascertained by deducting from the net premiums (i.e., gross premiums less all return premiums and premiums for reinsurance ceded) on such ocean marine insurance contracts, the net losses paid (i.e., gross losses paid less salvage and recoveries on reinsurance ceded) during such year under such contracts. In the case of an insurer issuing participating contracts, the gross underwriting profit shall not include, for computation of the tax prescribed by this subsection, the amount refunded, or paid as participation dividends, by such insurer to the holders of such contracts.

(d) Each authorized insurer, with respect to real property title insurance contracts written on real property situated within this State during the year ending on the preceding December 31, shall pay to the director of finance through the commissioner a tax of 4.265 per cent of the amount of the risk premium actually received by the authorized insurer for the provision of such insurance. The amount of the risk premium received by the authorized insurer for the provision of real property title insurance shall be an amount equal to the amount actually received by the authorized insurer solely for the provision of real property title insurance coverage in accordance with the underwriting agreement or contract between the authorized insurer and the underwritten title company.

[(d)] (e) No return premium shall be deductible unless the original gross premium, or an adjustment thereof, in an amount equal to or in excess of the return premium, has been concurrently or previously reported as taxable under this section or a prior similar law of the State.

[(e)] (f) The tax shall be due and payable on March 15 succeeding the filing of the statement provided for in section 431:7-201. Any insurer failing or refusing to render the statement and to pay the required taxes above stated shall be liable to a penalty of \$25 for each day of delinquency; the taxes may be collected by distraint, and the penalty recovered by an action to be instituted by the commissioner in the name of this State, in any court of competent jurisdiction. The commissioner may suspend the certificate of authority of the delinquent insurer until the taxes and fine, should any be imposed, are fully paid.

[(f)] (g) Taxes imposed by subsections (a), (b) [and], (c), and (d) shall be paid as follows:

- (1) Insurers whose annual tax liability for the preceding year was more than \$5,000 shall pay their taxes on a monthly basis. The taxes shall

- be due and payable on or before the last day of the calendar month following the month in which they accrue;
- (2) Insurers whose annual tax liability for the preceding year was more than \$1,000 and up to \$5,000 shall pay their taxes on a quarterly basis. The taxes shall be due and payable on or before the last day of the calendar month following the quarter in which they accrue; and
 - (3) Insurers whose annual tax liability for the preceding year was \$1,000 or less shall pay their taxes as provided for in subsection [(e)] (f).

In establishing the prepayment amount of an insurer who has acquired the business of another insurer, the amount of tax liability of the acquiring insurer for the preceding calendar year shall be deemed to include the amount of tax liability of the acquired insurer for that year.

All amounts paid under this subsection, other than penalties, shall be allowed as a credit on the annual tax imposed by subsections (a), (b) [and], (c), and (d).

If the total amount of installment payments for any calendar year exceeds the amount of annual tax for that year, the excess shall be treated as an overpayment of annual tax and be allowed as a refund under section 431:7-203. Any insurer failing to pay taxes when due and payable, shall be liable to a penalty of \$25 for each day of delinquency; the taxes may be collected by distraint, and the penalty recovered by an action to be instituted by the commissioner in the name of the State, in any court of competent jurisdiction. The commissioner may suspend the certificate of authority of the delinquent insurer until the taxes and fine, should any be imposed, are fully paid."

SECTION 2. Section 431:7-207, Hawaii Revised Statutes, is amended by amending subsection (e) to read as follows:

ACT 163

S.B. NO. 3292

A Bill for an Act Relating to Airport Taxi Service.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that Hawaii's airport system plays a critical role in the State's visitor-based economy by facilitating the movement of passengers to and from the State and between islands. As the main point of entry to Hawaii, the State's airports are the first places to which visitors are exposed, and present the first opportunity to convey a strong impression of Hawaii's assets to visitors.

An important aspect of any efficient airport operation is a well-managed, reasonably-priced ground transportation system that includes a sound plan for taxicab services. If visitors have favorable impressions of airport-based taxis, they will return to visit again, thereby helping to keep transportation costs down in the long run. Taxis and taxicab drivers are among the first people in Hawaii to which first-time visitors are exposed. Because of this, it is essential that drivers provide top-quality service by using clean, new vehicles; treating visitors courteously; and demonstrating the Aloha Spirit. The type of service received upon first arriving in Hawaii is crucial to a visitor's decision to return in the future.

The legislature further finds that a sound, comprehensive master plan would give taxi drivers the necessary incentives to enhance taxi service, thereby improving the Hawaiian experience for out-of-state visitors, and increasing the percentage of returning visitors.

The purpose of this Act is to appropriate funds to the department of transportation to develop a master plan that will help create an economical and efficient airport taxi system with resulting benefits for taxi customers, taxi operators, and Hawaii's visitor-based economy.

SECTION 2. There is appropriated out of the airport revenue fund of the State of Hawaii the sum of \$75,000, or so much thereof as may be necessary for fiscal year 1994-1995, for the development of a master plan for the economical and efficient management of airport taxicab service. This plan shall be developed by the department of transportation as follows:

- (1) The department of transportation shall conduct a thorough review of airport taxi service for its entire statewide system of airports and formulate a management plan that addresses the issues set forth in this Act;
- (2) Airport taxi permit fees, if any, shall be calculated based upon a rational analysis of the costs to operate and administer the airport taxi system and shall not exceed those costs;
- (3) The department shall consult with and involve members of the local taxi industry as well as technical experts in the field at various strategic points during the development of the plan; and
- (4) The department shall submit a report on a proposed master plan to the legislature no later than twenty days prior to the convening of the regular session of 1995.

SECTION 3. The sum appropriated shall be expended by the department of transportation. Any unexpended or unencumbered balance of any appropriation made by this Act as of the close of business on June 30, 1995 shall lapse into the airport revenue fund.

SECTION 4. This Act shall take effect upon approval.

(Approved June 9, 1994.)

(b) This section shall not apply to actions for damages against [the owner or any other person] owners or other persons having an interest in the real property or improvement based on their negligent conduct in the repair or maintenance of the improvement or to actions for damages against surveyors for their own errors in boundary surveys. [Inclusion of sureties in this] This section shall not be construed to prevent, limit, or extend any shorter period of limitation applicable to sureties provided for in any contract or bond or any other statute, nor to extend or add to the liability of any surety beyond that for which the surety agreed to be liable by contract or bond.

(c) Nothing in this section shall exclude or limit the liability provisions as set forth in the products liability laws."

A Bill for an Act Relating to the Establishment of an Environmental Health Program Enhancement and Education Fund.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the programs of the environmental health services division of the department of health are essential for improving the quality of life and maintaining the public health through the monitoring, investigation, and enforcement of unsanitary conditions, food quality and contamination issues, prescription and nonprescription drug sales, community noise issues, radiological devices for medical and dental facilities, ionizing radiation sources, and vectors.

The legislature finds that these essential environmental health programs are hard-pressed to provide continuing educational opportunities for their staffs, which are necessary to maintain technical competency and enhance the ability to provide adequate public outreach, because of the lack of state general funds to support these vital training and educational activities. The legislature also finds that these programs receive limited federal funds from the United States Environmental Protection Agency and therefore are not recipients of federal training and program resources. The legislature further finds that these programs, by statute, have the ability to collect fees for permits, licenses, inspections, various certificates, variances, investigations, and reviews; and that these fees, if collected, could easily support vital training and educational activities.

The purpose of this Act is to allow environmental health programs to divert the fees they are authorized to collect into a special fund for staff training and public outreach purposes.

SECTION 2. Chapter 321, Hawaii Revised Statutes, is amended by adding a new section to part I to be appropriately designated and to read as follows:

"§321- Environmental health program enhancement and education fund. (a) There is established within the department of health an environmental health program enhancement and education fund into which shall be deposited all moneys collected from fees for permits, licenses, inspections, various certificates, variances, investigations, and reviews, pursuant to sections 321-11.5, 321-15, 342F-14, 466J-4, and 466J-5.

(b) Moneys in the fund shall be expended by the department for the purpose of enhancing the capacity of environmental health programs to:

- (1) Improve public outreach efforts;
- (2) Educate the public and staff;
- (3) Plan for future growth and expansion to meet emerging needs; and
- (4) Provide training opportunities to ensure the maintenance of professional competence among environmental health staff and administrators.

Not more than \$90,000 of the fund may be utilized during any fiscal year for fund administration, including the hiring of not more than two full-time equivalent personnel, and the purchase of office and electronic equipment.

(c) Any amount in the fund in excess of \$300,000 on June 30 of each year shall be deposited into the general fund.

(d) The department of health shall submit a report to the legislature concerning the status of the environmental health program enhancement and

education fund, including, but not limited to, the amount of moneys taken in by and expended from the fund, and the sources of receipts and uses of expenditures, not less than twenty days prior to the convening of each regular session.”

SECTION 3. Section 321-11.5, Hawaii Revised Statutes, is amended to read as follows:

“**[§321-11.5] Establishment of fees.** The department of health, by rules adopted pursuant to chapter 91, may establish reasonable fees for the issuance or renewal of licenses, permits, variances, and various certificates required by law or by the department’s rules[, and such]. The fees may include the cost of related examinations, inspections, investigations, and reviews. All fees paid and collected under this section and sections 321-15, 342F-14, 466J-4, and 466J-5 shall be deposited into the environmental health program enhancement and education fund established under section 321-_____.”

SECTION 4. Section 321-15, Hawaii Revised Statutes, is amended to read as follows:

“**§321-15 Annual registration; fees, failure to register.** Every person holding a license to practice any occupation specified in section 321-13(a)(1) shall reregister with the department of health, in accordance with the rules of the department, [on or] before [January 31] February 1 of each year and shall pay a reregistration fee. The failure, neglect, or refusal of any person holding such a license to reregister or [to] pay the reregistration fee, after thirty days of delinquency, shall constitute a forfeiture of the person’s license; provided that the license shall be restored upon written application therefor together with a payment of all delinquent fees and an additional late reregistration fee that may be established by the director of health. All fees collected pursuant to this section shall be deposited into the environmental health program enhancement and education fund established under section 321-_____.”

SECTION 5. Section 342F-14, Hawaii Revised Statutes, is amended to read as follows:

“**[§342F-14] Fees.** The director may establish reasonable fees for the issuance of permits and variances to cover the cost of issuance thereof and for the implementation and enforcement of the terms and conditions of permits and variances (not including court costs or other costs associated with any formal enforcement action). [The] All fees collected pursuant to this section shall be deposited [to the credit of the general fund.] into the environmental health program enhancement and education fund established under section 321-_____.”

SECTION 6. Section 466J-4, Hawaii Revised Statutes, is amended to read as follows:

“**§466J-4 Licenses required.** (a) No person shall practice or offer to practice as a radiographer or as a radiation therapy technologist without an appropriate license previously obtained and maintained in good standing in compliance with this chapter and the rules of the board. [After July 1, 1974, it] It shall be unlawful for any person not appropriately licensed under this chapter to practice or offer to practice radiologic technology.

(b) Every person licensed as a radiographer or as a radiation therapy technologist shall be subject to an annual license fee (initial and renewal) of \$10. The annual period shall commence on July 1 of each year, and the failure of any licensee to pay the licensee's fee shall be grounds for revocation of the licensee's license. All fees collected by the board pursuant to this section shall be deposited into the [general fund.] environmental health program enhancement and education fund established under section 321-."

SECTION 7. Section 466J-5, Hawaii Revised Statutes, is amended by amending subsection (e) to read as follows:

"(e) The applicant applying for a license to practice as a radiographer or as a radiation therapy technologist shall pay a nonrefundable fee of \$10 to the department, plus the cost of an examination. All fees received by the department [and moneys collected under this chapter] pursuant to this section shall be deposited [with the director of finance to the credit of the general fund.] into the environmental health program enhancement and education fund established under section 321- ; provided that any other moneys collected pursuant to this chapter shall be deposited with the director of finance to the credit of the general fund, unless otherwise provided by law."

SECTION 8. Statutory material to be repealed is bracketed. New statutory material is underscored.¹

SECTION 9. This Act shall take effect on July 1, 1994 and shall be repealed on July 1, 1996; provided that:

- (1) Sections 321-11.5, 321-15, 342F-14, 466J-4,² and 466J-5,² Hawaii Revised Statutes, shall be reenacted in the form in which they read on June 30, 1994; and
- (2) The director of health shall transfer to the credit of the state general fund, all unexpended or unencumbered balances remaining in the environmental health program enhancement and education fund, prior to June 30, 1996.

(Approved June 21, 1994.)

ACT 171

H.B. NO. 2294

A Bill for an Act Relating to the Counties.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Act 263, Session Laws of Hawaii 1988, repealed a number of chapters of the Hawaii Revised Statutes that had established provisions specific to particular counties of the State and consolidated many statutory provisions relating to the counties in chapter 46, Hawaii Revised Statutes, a chapter applicable generally to all the counties of the State.

Section 46-1.5(10), Hawaii Revised Statutes, as enacted by Act 263, Session Laws of Hawaii 1988, authorized the counties to give or loan their credit in aid of any person or corporation. This provision failed to recognize the limitation of Article VII, section 4, of the Hawaii State Constitution, which provides in part: "nor shall the public credit be used, directly or indirectly, except for a public purpose."

The provisions of section 46-1.5(13), Hawaii Revised Statutes, relating to the general police powers of the counties, included the original provision contained in the former section 70-105, Hawaii Revised Statutes. That section included a limitation recognizing that the counties' police powers are subject to preemption by state statutes that are intended to be exclusive or uniform throughout the State.

However, when enacting Act 212, Session Laws of Hawaii 1991, relating to assistance to homeless families, the language of section 46-1.5(13), Hawaii Revised Statutes, was altered. The new version substitutes the word "ordinance" for "statute", thus creating the confusing sentence that each county may enact ordinances to protect health, life, and property as long as the ordinance does not conflict with the intent of any state statute and the ordinance does not express an intent to be exclusive or uniform throughout the State. As ordinances are limited to individual counties, this substitution appears clearly to be an error.

The purpose of this Act is to:

- (1) Correct technical errors in section 46-1.5, Hawaii Revised Statutes, and conform to the intent of that section; and
- (2) Provide the counties with the authority to abate public nuisances.

SECTION 2. Section 46-15.6, Hawaii Revised Statutes, is amended by adding a new definition to be appropriately inserted and to read as follows:

““Public nuisances” shall include but not be limited to the placement of structures, stalls, stands, furniture, and containers on streets, sidewalks, and public places where the placement of structures, stalls, stands, furniture, and containers are inconsistent with or frustrate the purpose, function, or activity for which the street, sidewalk, or public place was intended.”

SECTION 3. Section 46-1.5, Hawaii Revised Statutes, is amended to read as follows:

“§46-1.5 General powers and limitation of the counties. Subject to general law, each county shall have the following powers and shall be subject to the following liabilities and limitations:

- (1) Each county shall have the power to frame and adopt a charter for its own self-government, which shall establish the county executive, administrative, and legislative structure and organization, including, but not limited to, the method of appointment or election of officials, their duties, responsibilities, and compensation, and the terms of their office.
- (2) Each county shall have the power to provide for and regulate the marking and lighting of all buildings and other structures that may be obstructions or hazards to aerial navigation, so far as may be necessary or proper for the protection and safeguarding of life, health, and property.
- (3) Each county shall have the power to enforce all claims on behalf of the county and approve all lawful claims against the county, but shall be prohibited from entering into, granting, or making in any manner any contract, authorization, allowance payment, or liability contrary to the provisions of any county charter or general law.
- (4) Each county shall have the power to make contracts and to do all things necessary and proper to carry into execution all powers vested in the county or any county officer.
- (5) Each county shall have the power to maintain channels, whether natural or artificial, including their exits to the ocean, in suitable condition to carry off storm waters; and to remove from the channels, and from the shores and beaches, any debris that is likely to create an unsanitary condition or become a public nuisance; provided that, to the extent any of the foregoing work is a private responsibility, the responsibility may be enforced by the county in lieu of the work being done at public expense. Counties also shall have the power to construct, acquire by gift, purchase, or by the exercise of eminent domain, reconstruct, improve, better, extend, and maintain projects or undertakings for the control of and protection against floods and flood waters, including the power to drain and rehabilitate lands already flooded, and to enact zoning ordinances providing that lands deemed subject to seasonable, periodic, or occasional flooding shall

not be used for residence or other purposes in a manner as to endanger the health or safety of the occupants thereof, as required by the Federal Flood Insurance Act of 1956 (chapter 1025, Public Law 1016).

- (6) Each county shall have the power to exercise the power of condemnation by eminent domain when it is in the public interest to do so.
- (7) Each county shall have the power to exercise regulatory powers over business activity as are assigned to them by chapter 445 or other general law.
- (8) Each county shall have the power to fix the fees and charges for all official services not otherwise provided for.
- (9) Each county shall have the power to provide by ordinance for the improvement or maintenance assessments of districts within the county.
- (10) Except as otherwise provided, [each] no county shall have the power to give or loan credit [in any manner] to, or in aid of, any person or corporation, [and any indebtedness or liability incurred contrary to this paragraph shall be void.] directly or indirectly, except for a public purpose.
- (11) Where not within the jurisdiction of the public utilities commission, each county shall have the power to regulate by ordinance the operation of motor vehicle common carriers transporting passengers within the county and adopt and amend rules the county deems necessary for the public convenience and necessity.
- (12) Each county shall have the power to enact and enforce ordinances necessary to prevent or summarily remove public nuisances and to compel the clearing or removal of any public nuisance, refuse, and uncultivated undergrowth from streets, sidewalks, public places, and unoccupied lots, and in these connections, to impose and enforce liens upon the property for the cost to the county of removing and completing the necessary work where the owners fail, after reasonable notice, to comply with the ordinances. The authority provided by this paragraph shall not be self-executing, but shall become fully effective within a county only upon the enactment or adoption by the county of appropriate and particular laws, ordinances, or rules defining "public nuisances" with respect to each county's respective circumstances. The counties shall provide the property owner with the opportunity to contest the summary action and to recover the owner's property.
- (13) Each county shall have the power to enact ordinances deemed necessary to protect health, life, and property, and to preserve the order and security of the county and its inhabitants on any subject or matter not inconsistent with, or tending to defeat, the intent of any state statute, provided also that the [ordinance] statute does not disclose [or] an express [an] or implied intent that the [ordinance] statute shall be exclusive or uniform throughout the State.
- (14) Each county shall have the power to make and enforce within the limits of the county all necessary ordinances covering: all local police matters; all matters of sanitation; all matters of inspection of buildings; all matters of condemnation of unsafe structures, plumbing, sewers, dairies, milk, fish, and morgues; all matters of the collection and disposition of rubbish and garbage; and to provide

exemptions for homeless facilities and any other program for the homeless authorized by chapter 358D, for all matters under this paragraph; and to appoint county physicians and sanitary and other inspectors as necessary to carry into effect ordinances made under this paragraph, who shall have the same power as given by law to agents of the department of health, subject only to limitations placed on them by the terms and conditions of their appointments; and to fix a penalty for the violation of any ordinance, which penalty may be a misdemeanor, petty misdemeanor, or violation as defined by general law.

- (15) Each county shall have the power to provide public pounds, to regulate the impounding of stray animals and fowl, and their disposition, and to provide for the appointment, powers, duties, and fees of animal control officers.
- (16) Each county shall have the power to purchase and otherwise acquire, lease, and hold real and personal property within the defined boundaries of the county and to dispose of the real and personal property as the interests of the inhabitants of the county may require, except that: any property held for school purposes may not be disposed of without the consent of the superintendent of education; no property bordering the ocean shall be sold or otherwise disposed of; and all proceeds from the sale of park lands shall be expended only for the acquisition of property for park or recreational purposes.
- (17) Each county shall have the power to provide by charter for the prosecution of all offenses and to prosecute for offenses against the laws of the State under the authority of the attorney general of the State.
- (18) Each county shall have the power to make appropriations in amounts deemed appropriate from any moneys in the treasury, for the purpose of community promotion and public celebrations, the entertainment of distinguished persons as may from time to time visit the county, for the entertainment of other distinguished persons as well as public officials when deemed to be in the best interest of the community, and the rendering of civic tribute to individuals who, by virtue of their accomplishments and community service, merit civic commendations, recognition, or remembrance.
- (19) Each county shall have the power to:
 - (A) Construct, purchase, take on lease, sublease, or in any other manner acquire, manage, maintain, or dispose of buildings for county purposes, sewers, sewer systems, pumping stations, [water works,] waterworks, including reservoirs, wells, pipelines, and other conduits for distributing water to the public, lighting plants, and apparatus and appliances for lighting streets and public buildings and manage, regulate, and control the same;
 - (B) Regulate and control the location and quality of all appliances necessary to the furnishing of water, heat, light, power, telephonic, and telegraphic service to the county;
 - (C) Acquire, regulate, and control any and all appliances for the sprinkling and cleaning of the streets and the public ways and for flushing the sewers; and
 - (D) Open, close, construct, or maintain county highways or charge toll on county highways; provided that all revenues received

from a toll charge shall be used for the construction or maintenance of county highways.

- (20) Each county shall have the power to regulate the renting, subletting, and rental conditions of property for places of abode by ordinance.
- (21) Unless otherwise provided by law, each county shall have the power to establish by ordinance the order of succession of county officials in the event of a military or civil disaster.

- (24) (A) Each county may impose civil fines, in addition to criminal penalties, for any violation of county ordinances or rules after reasonable notice and requests to correct or cease the violation have been made upon the violator. Any civil fine may be administratively imposed after an opportunity for a hearing under chapter 91. Such a proceeding shall not be a prerequisite for any civil fine or injunctive relief ordered by the circuit court.
- (B) Each county by ordinance may provide for the addition of any unpaid civil fines, ordered by any court of competent jurisdiction, to any taxes, fees, or charges collected by the county. Each county by ordinance may also provide for the addition of any unpaid administratively imposed civil fines, which remain due after all judicial review rights under section 91-14 are exhausted, to any taxes, fees, or charges collected by the county. The ordinance shall specify the administrative procedures for the addition of the unpaid civil fines to the taxes, fees, or charges and may require hearings or other proceedings. After the unpaid civil fines are added to the taxes, fees, or charges as specified by county ordinance, the unpaid civil fines shall be deemed immediately due, owing and delinquent and may be collected in the same manner as the taxes, fees, or charges. The procedure for collection of unpaid civil fines authorized in this paragraph shall be in addition to any other procedures for collection available to the State and county by law or rules of the courts.
- (25) Any law to the contrary notwithstanding, any county mayor may exempt by executive order donors, provider agencies, homeless facilities, and any other program for the homeless under chapter 358D from real property taxes, water and sewer development fees, rates collected for water supplied to consumers and for use of sewers, and any other county taxes, charges, or fees; provided that any county may enact ordinances to regulate and grant the exemptions granted by this paragraph."

ACT 176

H.B. NO. 2635

A Bill for an Act Relating to the Public Utilities Commission.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that Hawaii's energy resources and physical environment must be managed and protected in a manner that ensures the health, safety, and welfare of the citizens of the State and preserves our limited natural resources for future generations. The 1993 Energy and Environmental Summit was convened by the legislature on October 8, 1993 to identify issues and build broad-based support for initiatives that will move Hawaii forward in the areas of energy and the environment. This bill is the result of the collaborative efforts of participants of the Summit.

The legislature finds that the public utilities commission should give approval to guidelines initiated and enforced by a public utility. These guidelines, rules, or other standards make a nonutility generator monetarily responsible for the public utility's costs and profits, and have the effect of discouraging the development and maintenance of nonfossil fueled nonutility sources of electric energy and discouraging the efficient use of fossil fuel by nonutility generators.

SECTION 2. Chapter 269, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§269- Approval of rules of a public utility. Any rules, guidelines,

or other standards of a public utility which interpret federal or state laws governing nonutility generators, or which make a nonutility generator monetarily responsible for the public utility's costs and profits of doing business as a public utility, shall be approved by the public utilities commission before adoption. As used in this section, a "nonutility generator" means a person that produces electric power but is not a public utility."

SECTION 3. New statutory material is underscored.¹

SECTION 4. This Act shall take effect upon its approval.

ACT 177

H.B. NO. 2680

A Bill for an Act Relating to Land Exchange.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that it is in the public interest to enter into a land exchange with the George Galbraith estate involving private lands north of Wahiawa, Oahu, for public lands in Kapolei, Oahu.

The legislature authorized the acquisition of approximately 1,100 acres of the Kapolei lands for land banking for future housing and public facility needs. The University of Hawaii proposed to locate its West Oahu campus on up to 500 acres of these lands. All or portions of the remaining area may be available for the development of affordable housing.

A land exchange with Galbraith estate is consistent with the State's housing objective in Kapolei and will create an opportunity to provide affordable off-campus housing to meet the future demands generated by the University of Hawaii-West Oahu campus at Kapolei. The land exchange will also provide the State with additional agricultural lands in central Oahu.

SECTION 2. Notwithstanding the provisions of section 171-50(b), Hawaii Revised Statutes, the Seventeenth Legislature approves the land exchange involving private lands north of Wahiawa, Oahu, owned by the George Galbraith estate, and public lands in Kapolei, Oahu, provided that:

- (1) The public lands shall be of substantially equal "fair market" value to that of private land;
- (2) The "fair market" value of the private land and the public land shall be separately determined by a disinterested qualified appraiser or appraisers, and the cost shall be borne equally between the owner and the board of land and natural resources;
- (3) In determining the "fair market" value, the state land shall be appraised as urban, with proper credit given for existing surrounding improvements, and the private land shall be appraised as agricultural;
- (4) No payment by the State shall be required should the private land exceed the value of the public land, but any difference in value of the public land over the private land shall be paid to the State at the

- time of the exchange; provided no exchange shall be made should the public land exceed 120 percent of the value of the private land;
- (5) The land exchange shall not interfere with or adversely affect the set aside of at least 500 acres of the publicly-owned Kapolei lands for the location of the University of Hawaii-West Oahu campus at Kapolei; and
 - (6) No overhead high-voltage electric transmission system of forty-six kilovolt or greater shall be placed, constructed, or otherwise built on the 500 acres of Kapolei lands designated for the University of Hawaii-West Oahu campus at Kapolei to service such exchanged lands.

SECTION 3. Notwithstanding the provisions of section 171-50(c), Hawaii Revised Statutes, the Seventeenth Legislature approves the land exchange involving private lands north of Wahiawa, Oahu, owned by the George Galbraith estate, and public lands in Kapolei, Oahu, provided that an exchange deed is executed between the parties which contains the following:

- (1) The location and area of the parcel of land to be exchanged;
- (2) The value of the lands to be conveyed by the State and the private party;
- (3) The name or names of the appraiser or appraisers; and
- (4) The date of the appraisal which shall not be more than six months prior to the date of final approval of the exchange by the board of land and natural resources.

SECTION 4. This Act shall take effect upon its approval and shall be repealed on June 30, 1995.

(Approved June 21, 1994.)

SECTION 4. Section 712A-10, Hawaii Revised Statutes is amended to read as follows:

“§712A-10 Administrative forfeiture. "Holiday" includes any day designated as a holiday pursuant to section 8-1.
- (5) Any person claiming seized property may seek remission or mitigation of the forfeiture by timely filing a petition with the attorney general. A petition for remission or mitigation shall not be used to challenge the sufficiency of the evidence to support the forfeiture or the actions of any government official but shall presume a valid forfeiture and ask the attorney general to invoke the executive power to pardon the property, in whole or in part. The petition shall be signed by the petitioner and sworn on oath before a notary public and shall contain the following:
 - (a) A reasonably complete description of the property;
 - (b) A statement of the interest of the petitioner in the property, as owner or interest-holder which may be supported by bills of sale, contracts, or mortgages, or other documentary evidence; and

- (6) If the attorney general, with sole discretion, determines that remission is not warranted, the attorney general may discretionarily mitigate the forfeiture where the petitioner has not met the minimum requirements for remission but where there are present other extenuating circumstances indicating that some relief should be granted to avoid extreme hardship. Mitigation may also be granted where the minimum requirements for remission have been met but the overall circumstances are such that the attorney general determines that complete relief is not warranted. Mitigation shall take the form of a money penalty imposed upon the petitioner which shall be deposited into the criminal forfeiture fund established under section 712A-16. Extenuating circumstances include:
 - (a) Language or culture barrier;
 - (b) Humanitarian factors such as youth or extreme age;

- (8) The attorney general shall provide the seizing agency and the petitioner a written decision on each petition for remission or mitigation within sixty days of receipt of the petition unless the circumstances of the case require additional time, in which case the attorney general shall notify the petitioner in writing and with specificity within the sixty-day period that the circumstances of the case require additional time and further notify the petitioner of the expected decision date.
- (9) Any person claiming seized property may seek judicial review of the seizure and proposed forfeiture by timely filing with the attorney general a claim and bond to the State in the amount of ten per cent of the estimated value of the property or in the sum of \$2,500, whichever is greater, with sureties to be approved by the attorney general, upon condition that if the claimant fails to prove that claimant's interest is exempt from forfeiture under section 712A-5, the claimant shall pay the State's costs and expenses, including reasonable attorneys fees incurred in connection with a judicial proceeding. In lieu of a cost bond, a claimant may file an in pauperis bond sworn on oath before a notary public. An in pauperis bond shall be in the form set out in the appendix to the rules of penal procedure. The claim shall be signed by the claimant and sworn on oath before a notary public and shall comply with the requirements of section 712A-12(5). Upon receipt of the claim and bond, the attorney general shall notify the prosecuting attorney who may

discretionarily continue to seek forfeiture by petitioning the circuit court for forfeiture of the property within forty-five days of receipt of notice that a proper claim and bond has been filed. The prosecuting attorney may also elect to honor the claim in which case the prosecuting attorney shall notify the seizing agency and authorize the release of the seizure for forfeiture on the property¹ on any specified interest in it.

- (10) If a judicial forfeiture proceeding is instituted subsequent to notice of administrative forfeiture, no duplicate or repetitive notice shall be required. The judicial proceeding, if any, shall adjudicate all timely filed claims.

- (1) Meet the minimum specifications and the selling price f.o.b. jobsite;
- (2) Unloaded including applicable general excise tax and use tax does not exceed the lowest delivered price in Hawaii f.o.b. jobsite; and

The lowest total bid or offer, taking the preferences into consideration, shall be awarded the contract unless the bid or offer provides

for additional award criteria. The contract amount of any contract awarded, however, shall be the amount of the bid or price offered, exclusive of the preferences.

(c) All persons submitting bids or offers based on non-Hawaii products to any purchasing agency shall designate in their bids which individual product is to be supplied as a non-Hawaii product. All bidders shall list the price of the non-Hawaii product in their bid.

(d) In all public works and any repair or maintenance contracts, a purchasing agency or any person employed by a purchasing agency, including architects and engineers, shall describe in all specifications, products, and their established classes listed in the Hawaii products list established under this section which may be used, where the products are available and meet the minimum specifications.

(g) Any purchase made or any contract awarded or executed in violation of this section shall be void and no payment shall be made by any purchasing agency on account of the purchase or contract.

(h) Any person, or any officer or employee of any person, who violates this section shall be fined not more than \$1,000 or imprisoned not more than one year, or both. In addition, any person who is awarded a contract or given an order for purchase as a result of misrepresentation in the person's bid or offer or makes a claim in the person's bid or offer that the person will purchase Hawaii products, but fails to do so:

- (1) Shall be fined the difference between the price the person would have paid for Hawaii products and the actual price; and
- (2) Shall not be awarded any contract or be given any order for purchase or be eligible for bidding until one year after the date of the payment of fines.

§ -1003 **Printing, binding, and stationery work.** (a) All printing, binding, and stationery work for the State or any county shall be performed within the State, including all preparatory work, presswork, bindery work, and any other production-related work, and all requests for bids or contracts for this work shall so stipulate; provided that whenever it is established that this work cannot be performed within the State or that the lowest price for which the work can be procured within the State exceeds the bid or charge of a mainland manufacturer of the item by fifteen per cent, the work or any part thereof so affected may be performed outside the State.

(b) No payment shall be made by the State or any county for printing, binding, or stationery work unless it appears that the work was done within the State or was authorized to be done outside the State pursuant to this section. In addition, any manufacturer violating a stipulation in a bid or contract that all work will be performed within the State shall be subject to a civil penalty in an amount not to exceed the bid or contract price to be collected by a civil action filed by the attorney general on behalf of the State.

(c) The policy office shall adopt rules to implement this section.

§ -1004 **Reciprocity.** (a) To ensure fair and open competition for Hawaii businesses engaged in contracting with other states, the chief procurement officer may impose a reciprocal preference against bidders from those states

which apply preferences. The amount of the reciprocal preference shall be equal to the amount by which the non-resident preference exceeds any preference applied by this State.

In determining whether a bidder qualifies as a resident bidder, the definition used by the other state in applying a preference shall apply.

(b) The policy office shall adopt rules to implement this section.

(c) This section shall not apply to any transaction if the provisions of the section conflict with any federal laws.

§ **-1005 Recycled products.** (a) To encourage the use of recycled products, contracts shall be awarded to the lowest responsible and responsive bidders, with preference being given to the products containing recycled material. The policy office shall adopt rules in accordance with chapter 91 governing preference for recycled products. The rules shall establish percentages of preference and the method of determining the contents of recycled material to qualify various products for preference.

(b) The state procurement office, with the assistance of the office of solid waste management in the department of health as provided in section 342G-42, shall develop a recycled product procurement program that shall require state purchasing agencies and urge county purchasing agencies to:

- (1) Apply preference to the purchase of products with recycled content before purchasing products without any recycled content;
- (2) Be consistent with applicable federal specification standards incorporated in Executive Order No. 12873, signed by the President of the United States on October 20, 1993, and any subsequent amendments to that order; and
- (3) Ensure, to the maximum extent economically feasible, the purchase of materials that may be recycled or reused when discarded, and to avoid the purchase of products deemed environmentally harmful.

(c) In addition to the requirements for the purchase of office paper and printed material under subsection (e), and when appropriate, purchase specifications shall include, but not be limited to, paper, paper products, glass and glass by-products, plastic products, mulch and soil amendments, tires, batteries, oil, paving materials and base, subbase, and pervious backfill materials. Paving materials to be considered shall include, but are not limited to, asphalt, tires, crushed concrete for base, subbase, and paving materials. The standards and specifications shall provide for the use of recycled materials and shall not reduce the quality standards for highway and road construction.

(d) The chief procurement officers shall periodically review their specifications to determine whether discrimination against procured goods with recycled contents exists and shall revise these specifications to eliminate any such discrimination.

(e) When purchasing office paper and printed material, state purchasing agencies shall, and county purchasing agencies are urged to, purchase only office paper and printed material with recycled content, except when statutory, regulatory, or contractual requirements preclude the purchase of office paper or printed material with recycled contents of the same type and quantity as the office paper or printed material without recycled content.

§ **-1006 Software development businesses.** (a) In any expenditure of public funds for software development, the use of Hawaii software development businesses shall be preferred. Where a package bid or response to a request for proposal contains both Hawaii and non-Hawaii software development businesses,

then for the purpose of selecting the lowest bid or purchase price only, the bid or offer by a non-Hawaii software developmental center shall be increased by a preference percentage pursuant to rules adopted in accordance with chapter 91.

(b) The policy office shall adopt rules to implement this section.

(c) This section shall not apply when precluded by federal requirements for competitive bidding.

A Bill for an Act Relating to Recovery of Payments.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Section 346-29, Hawaii Revised Statutes, is amended to read as follows:

“§346-29 Applications for public assistance; manner, form, conditions.

(a) Applications for public assistance under this chapter shall be made by the applicant, or by someone acting in the applicant's behalf, in the manner, place, and form prescribed by the department.

(b) No applicant shall be entitled to public assistance under this chapter who has sufficient income or other resources to provide a standard above that provided in this chapter, or who is an inmate of any public institution as long as the Social Security Act precludes the use of federal funds to provide public assistance to an inmate of such an institution, except that any inmate of a public institution who is otherwise eligible for medical assistance and who has been determined by the medical director of the institution as having a major illness or medical condition requiring the provision of medical care outside of the institution may receive assistance under this chapter. An inmate of an institution mentioned in this section may apply for assistance to begin after the inmate's discharge from the institution. In determining the needs of an applicant or recipient for public assistance by the department, the department shall:

- (1) [Shall disregard] Disregard such amounts of earned or unearned income and resources as required by the Social Security Act or other federal acts, to receive federal matching funds and may disregard such additional amounts as these acts permit, now or in the future, to be disregarded[.];
- (2) [Shall consider] Consider as net income in all cases such income as the Social Security Act or other federal acts may require the department to consider for receipt of federal matching funds and may consider such additional income and resources as these acts may permit, now or in the future, to be considered[.];
- (3) [Shall disregard] Disregard a total of \$1,000 in assets in determining the needs of persons for financial assistance; provided that the amount to be disregarded¹ shall not exceed standards under federally funded financial assistance programs. This [provision] paragraph shall not apply to persons eligible for Federal Supplemental Security Income benefits. In determining the needs of such persons, the department shall apply the resource retention requirements under the Federal Supplemental Security Income Program[.];
- (4) [Shall apply] Apply the resource retention requirements under the Federal Supplemental Security Income Program in determining the needs of a single person for medical assistance only[.];
- (5) [Shall apply] Apply the resource retention requirements under the Federal Supplemental Security Income Program in determining the needs of a family of two persons for medical assistance only and an additional \$250 for each additional person included in an application for medical assistance only[.];
- (6) [Shall disregard] Disregard amounts of emergency assistance granted under section 346-65[.];

- (7) [Shall not] Not consider as income or resources any payment for services to or on behalf of, or any benefit received by, a participant under the [workfare program of part IX,] JOBS program of part XI, other than wages. Wages earned by a participant while participating in the [workfare] JOBS program shall be considered income of the participant, unless the wages are excluded or disregarded under any other law[.];
- (8) [Shall not] Not consider as income or resources payment made to eligible individuals, eligible surviving spouses, surviving children or surviving parents as specified under Title I of the Civil Liberties Act of 1988, Public Law 100-383, which made restitution to individuals of Japanese ancestry who were interned during World War II[.];
- (9) [Shall allow] Allow the community spouse of an individual residing in a medical institution to maintain countable resources to the maximum allowed by federal statutes or regulations with provisions for increases, as allowed by the Secretary of Health and Human Services by means of indexing, court order, or fair hearing decree, without jeopardizing the eligibility of the institutionalized spouse for medical assistance[.];
- (10) [Shall allow] Allow an individual residing in a medical institution to contribute toward the support of the individual's community spouse, thereby enabling the community spouse to maintain the monthly maximum income allowed by federal statutes or regulations, with provisions for increases as allowed by the Secretary of Health and Human Services by means of indexing, court order, or fair hearing decree[.]; and
- (11) Consider the transfer of assets from the applicant's name to another name within the specified time period as required by federal regulations, known as the "lookback" period, prior to the application for medical assistance for care in a nursing home or other long-term care facility. Pursuant to rules adopted under chapter 91, the director may attribute any assets that have been transferred within the required federal "lookback" period from the applicant if the director determines that the transfer of certain assets was made solely to make the applicant eligible for assistance under this chapter.

(c) In determining eligibility for medical assistance, the department shall require from all applicants and recipients the assignment of any benefits due to a third party liability. Any rights or amounts so assigned shall be applied against the cost of medical care paid under this chapter.

(d) The director shall adopt rules pursuant to chapter 91 defining assets and to determine eligibility for medical assistance; provided that the cash surrender value of life insurance policies owned by persons included in an application shall be treated as assets."

SECTION 2. Section 346-29.5, Hawaii Revised Statutes, is amended to read as follows:

"§346-29.5 Real property liens. (a) The department of human services may require of any person applying for or currently receiving assistance under the department's programs, including but not limited to [aid to families with dependent children, medicaid,] social service payments, financial assistance, medical assistance, and food stamps, [and general assistance,] who owns or has any interest in real property, that the person shall enter into an agreement with the

department that future grants of assistance shall be and constitute a lien against the interest in real property, and shall remain a lien until satisfied and discharged, with the exception of home property lived on by the assistance household.

(b) The department may place a lien against the real property of any recipient receiving medical assistance who is an inpatient in a nursing facility, intermediate care facility for the mentally retarded, or other medical institution, after a state determination, pursuant to notice and hearing requirements of chapter 91, that the recipient cannot reasonably be expected to be discharged from the medical institution and returned home.

The department may not place a lien on the recipient's home if the recipient's:

- (1) Spouse;
- (2) Minor, blind, or disabled child; or
- (3) Sibling who has an equity interest in the home and who was residing in the home for a period of at least one year immediately before the date of the recipient's admission to the medical institution;

is lawfully residing in the home.

The department shall not recover funds from the lien on the recipient's home when:

- (1) A sibling who was residing in the home for a period of at least one year immediately before the date of the recipient's admission to the medical institution; or
- (2) A son or daughter who was residing in the recipient's home for a period of at least two years immediately before the date of the recipient's admission to the medical institution, and who establishes to the satisfaction of the State that he or she provided care to the recipient which permitted such recipient to reside at home rather than in an institution;

lawfully resides in the home and has lawfully resided in the home on a continuous basis since the date of the recipient's admission to the medical institution.

The department also shall not recover funds from the lien if the recipient has a surviving spouse; or surviving minor, blind, or disabled child.

Any lien imposed with respect to this subsection shall be dissolved upon the individual's discharge from the medical institution and return home.

[(b)] (c) The agreement in subsection (a) shall be recorded in the bureau of conveyances, or filed in the office of the assistant registrar of the land court. When the agreement for the lien is recorded in the bureau of conveyances, the registrar shall forthwith cause the same to be indexed in the general indexes of the bureau of conveyances. From and after the recording in the bureau of conveyances the lien shall attach to all interests in real property then owned by the person and not registered in the land court, and from and after the filing thereof in the office of the assistant registrar of the land court the lien shall attach to any such interest in land then registered therein. The lien shall be for all amounts of assistance, unless otherwise provided by rules adopted pursuant to chapter 91, then or thereafter paid in accordance with the programs from which the person receives assistance. The department shall be obligated to annually update the actual amount of the lien recorded in the bureau of conveyances.

[(c)] (d) The department shall issue certificates of release or partial release upon satisfaction or partial satisfaction of the lien. Certificates of release or partial release of any real property lien issued by the director of the department or the director's authorized representative shall be recorded in the bureau of conveyances. The director shall consider issuing conditional certificates of release

in cases of extreme hardship as set out in rules adopted under chapter 91. The registrar shall forthwith cause the same to be indexed in the general indexes in a like manner as the original lien. No fee shall be charged for any of the recording. The lien herein provided for shall take priority over any other lien subsequently acquired or recorded except tax liens and except that, in the estate of a beneficiary, the actual funeral expenses, the expenses of the last sickness, the cost of administration of the estate, and any allowance made to the surviving spouse and children for their support during administration of the estate, shall have priority and preference over the lien herein imposed, and over any claim against an estate filed under section 346-37.

The lien shall be enforceable by the department by suit in the appropriate court or shall be enforceable as a claim against the estate of the recipient under section 346-37, having priority over all other debts except taxes, the actual funeral expenses, the expenses of last sickness, the cost of administration of the estate, and any allowance made to the surviving spouse and children for their support during administration of the estate.

The lien shall be enforceable as a claim under section 346-37 against the estate of a recipient under any circumstances if the estate is admitted to probate at the instance of any interested party other than the department.

Whenever the department is satisfied that the collection of the amount of assistance paid a recipient will not be jeopardized or that the release or waiver of the priority of the lien against the recipient's property, in whole or in part, is necessary to provide for the maintenance or support of the recipient, the recipient's spouse, or any minor or incapacitated child, it may release or waive the priority of the lien with respect to all or any part of the real property.

The recipient, the recipient's heirs, personal representatives, or assigns may discharge the lien at any time by paying the amount thereof to the department which shall execute a satisfaction thereof. The department may at its discretion compromise the collection of any such lien, but such compromise shall be made only when the recipient, the recipient's heirs, personal representatives or assigns prove that the collection of the full amount of the lien or claim would cause undue hardship or the lien or claim is otherwise uncollectible.

The proceeds from the enforcement, payment, or compromise of the lien shall be paid into the treasury of the State. If the amount of assistance reflected by the proceeds was paid in part by federal funds, the proper portion of these funds shall be paid by the director of finance to the treasury of the United States. The director of finance shall thereupon report such payment to the department. If the federal funds are not paid directly into the treasury of the United States, these federal funds shall be credited by the director of finance to the department for expenditure for assistance without need for further appropriation.

If at any time the federal government, or any agency or instrumentality thereof, requires, as a condition to any grant of assistance, the performance of conditions inconsistent with this section, or desisting from actions provided by this section, the governor may suspend, upon a finding to that effect and to the extent of such requirement, any provisions of this section to the end that such federal assistance may be received.

The department shall submit an annual report to the legislature, which shall include a list of liens held by the department on real property. This report shall include, but not be limited to a description of the value of the liens, the legal status of the liens and when the liens were initiated.

The department shall adopt rules pursuant to chapter 91 necessary for the purposes of this section."

SECTION 3. Section 346-34, Hawaii Revised Statutes, is amended to read as follows:

"§346-34 Frauds, penalties. (a) Any recipient who buys or disposes of real property or any person who knowingly aids or abets a recipient in the purchase or sale of real property without the consent of the department of human services shall be guilty of fraud.

(b) If, at any time while the recipient of public assistance is receiving such assistance, the recipient's living requirements are reduced and the recipient wilfully fails to report the reduction within thirty days from the date of the reduction to the department, or the recipient acquires from any source real property, funds, income, or other resources and wilfully fails to report the amount of same together with the source of the resources to the department within thirty days of receipt of same, or prior to spending or otherwise disposing of all or any portion of the same, the recipient shall be guilty of fraud and be subject to the penalties provided by this section.

(c) No person shall knowingly obtain or attempt to obtain, or aid or abet another person in obtaining or attempting to obtain, any food commodity under a food distribution program or any food stamp or coupon under a food stamp plan, to which the person or the other person is not entitled to receive or use under any law, or under any rule adopted pursuant to section 346-14(10) or chapter 91.

(d) No person shall knowingly give, sell, trade, or otherwise dispose of to another person not entitled to receive or use the same pursuant to any law, or pursuant to any rule adopted pursuant to section 346-14(10) or chapter 91:

- (1) Any food commodity received under a food distribution program;
- (2) Any food stamp or coupon received under a food stamp plan; or
- (3) Any food commodity received wholly or partially in exchange for a food stamp or coupon received under a food stamp plan.

(e) No person shall knowingly obtain or attempt to obtain emergency assistance under section 346-65 to which the person is not entitled. No person shall knowingly aid or abet another person in obtaining or attempting to obtain emergency assistance to which that other person is not entitled. No person shall expend emergency assistance granted to the person for other than the purpose approved by the department to eliminate or alleviate the emergency situation.

(f) No person shall knowingly transfer assets from that person's name to another person or entity's name for the purpose of qualifying for public assistance under this chapter or chapter 346D. It shall be prima facie evidence of such a transfer if there was a transfer of assets for less than fair market value of the assets within the federally required time period, or "lookback" period, from the date of the application for public assistance.

(g) Any person convicted under this section shall be guilty of a misdemeanor. Any portion of assistance obtained by any fraudulent device, and any assistance paid after receipt of resources which have not been reported to the department as herein required shall be recoverable by the State for the use of the department as a debt due the State, or, restitution of the amount may be ordered by the court following conviction.

(h) The term "recipient" includes any person to whom a grant of public assistance is made by direct payment, and any person for whose use and benefit a grant of public assistance is made by payment to a relative or other person. Prosecution under this section shall not be considered an exclusive remedy but shall be in addition to any other criminal, civil, or administrative remedy or sanction authorized by law."

SECTION 4. Section 346-37, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

“(a) If a recipient under this chapter dies leaving an estate and does not have a surviving spouse, child, father, mother, grandfather, grandmother, grandchild, stepfather, stepmother, or any designated heir, the department may file a claim against the estate for the amount of social services [payments,] overpayments, financial assistance[,], overpayments, or burial payments granted, and the claim shall be allowed. The department [may] shall file a claim against the estate of a deceased recipient of medical assistance for the amount of medical assistance granted, only if the recipient was age [sixty-five] fifty-five or over when such medical assistance was received and there is no [dependent] surviving spouse, or [dependent] surviving child who is under twenty-one years of age, or [is] blind, or disabled. The department shall file a claim against the estate of a recipient of medical assistance who was an inpatient in a nursing facility, intermediate care facility for the mentally retarded, or other medical institution only if there is no surviving spouse or surviving child who is under twenty-one years of age, or blind, or disabled.”

SECTION 5. Section 346-37, Hawaii Revised Statutes, is amended by amending subsections (d) and (e) to read as follows:

“(d) [Where legal proceedings are instituted] When a claim is made by the claimant against a third person, the claimant shall give timely notice of such action to the department. An attorney representing a claimant shall make reasonable inquiry as to whether the claimant has received or is receiving medical assistance related to the incident involved in the action from the department. Upon obtaining a judgment or reaching a settlement through negotiation or legal proceedings, but before the release of any award or settlement proceeds to any person:

- (1) The claimant’s attorney, if the attorney has received actual notice from the department of a lien or if the attorney has reason to know that a lien exists, or
- (2) The claimant or the claimant’s heirs, representatives, or beneficiaries, if not represented by an attorney who has received actual notice of the lien,

shall notify the department immediately.

(e) Where third party liability is found to exist, or where the issue of such third party liability is settled or compromised without a finding of liability, regardless of who institutes legal proceedings or seeks other means of recovering, the department shall have a lien in the amount of medical assistance and burial payment made against the proceeds from special damages awarded in a suit or settlement. The lien shall attach as provided in subsection (f). Where a notice of lien is properly served upon the attorney representing the claimant as provided in subsection (f), that attorney shall satisfy the lien prior to disbursing any of the proceeds of the suit or settlement to the attorney’s client. Where a notice of lien is properly served upon the third person described in subsection (c), the third person’s agent or attorney, or upon the third person’s insurance company, as provided in subsection (f), it shall be the responsibility of the third person to satisfy the lien prior to disbursing any of the proceeds to the claimant’s attorney. This section is not intended to restrict or diminish the right of the department to settle or compromise its subrogation or lien rights provided herein.”

SECTION 6. Statutory material to be repealed is bracketed. New statutory material is underscored.

SECTION 7. This Act shall take effect upon its approval and apply only to settlements and judgments which occur after the effective date.

§305H-2 Commission's powers and authority. The commission may cooperate with the federal government in order to qualify the State to receive funds made available under the Higher Education Act of 1965, as amended by P.L. 92-318, and as it may be amended from time to time and in addition may serve as the state agency for the receipt of federal funds where the federal legislation dealing with higher education or post-secondary education requires as a condition of state receipt of such funds, the designation of a state agency which is broadly representative of the general public and of post-secondary education in the State and where agencies other than the commission created by this chapter may not qualify. The commission shall establish appropriate rules and regulations not inconsistent with this chapter as may be required to administer [the receiving and disbursement of funds.] this chapter. The rules shall be adopted in accordance with chapter 91.

No [such] funds appropriated by the legislature may be used to aid a person attending an institution not owned or exclusively controlled by the State or a department of the State or to pay for any staff work distributing federal or private funds to students attending such schools. The maximum amount of any grant awarded under the Hawaii state incentive grant program shall be equal to the maximum allowed by federal law.

PART II. HAWAII STATE POSTSECONDARY REVIEW PROGRAM

§305H- Findings and purpose. The legislature finds that the Higher Education Amendments of 1992, P.L. 102-325, established the state postsecondary review program by adding a new Part H, Subpart 1, to Title IV of the Higher Education Act of 1965. The state postsecondary review program ensures

that institutions participating in Title IV student financial assistance programs meet appropriate standards of educational quality and integrity by increasing the accountability of those institutions through expanded state oversight of the institutions. In order for the State to continue receiving all Title IV student financial assistance funds, the State's postsecondary review entity must conduct or coordinate the review of institutions of higher education in the State to determine their eligibility to receive Title IV student financial assistance funds and, further, to establish and administer procedures for receiving and responding to complaints from students, faculty, and others regarding institutions of higher education in the State. The state postsecondary review program authorizes the United States Secretary of Education to enter into agreements with the states. These agreements designate one state postsecondary review entity in each state to be responsible for the conduct or coordination of review of institutions and, also, provide federal funds to each state postsecondary review entity for performing the functions required by these agreements. No state will be required to perform the review functions of the state postsecondary review program if the United States Congress does not appropriate funds for the program.

Accordingly, the purpose of this part is to expressly authorize the commission to cooperate with the federal government in carrying out the purposes of the state postsecondary review program in the State.

§305H- Administration of the Hawaii state postsecondary review program. The commission shall serve as the state postsecondary review entity for the State. The commission is hereby authorized to cooperate with the federal government in carrying out the purposes of the state postsecondary review program, as established by Title IV, Part H, Subpart 1, of the Higher Education Act of 1965, as amended by the Higher Education Amendments of 1992, P.L. 102-325, and as it may be amended from time to time, and to do all things necessary to entitle the State to continue to receive the benefits of the Title IV student financial assistance programs. The commission shall represent the State on all matters in reference to the state postsecondary review program.

§305H- Agreement with the federal government; federal reimbursement of the State's postsecondary review costs. The commission is authorized to enter into agreements with the federal government to carry out the purposes of the state postsecondary review program. To the extent authorized by law, the commission shall seek reimbursement from the federal government for the costs of performing the functions required by such agreements with the federal government.

§305H- Review standards. In consultation with institutions of higher education in the State and in a manner consistent with the laws and constitution of the State, the commission is authorized to establish appropriate review standards for the determination of the eligibility of institutions in the State to receive Title IV student financial assistance funds. The commission shall conduct or coordinate the review of institutions of higher education in the State in accordance with these review standards and may notify the federal government of the findings.

§305H- Procedures for complaints concerning institutions of higher education. In consultation with institutions of higher education in the State, the commission is authorized to establish and administer procedures for

receiving and responding to complaints from students, faculty, staff, and others concerning institutions of higher education in the State.

§305H- Cooperation with other state agencies. The commission may be assisted by other state agencies, including but not limited to the University of Hawaii, the department of education, and the department of commerce and consumer affairs."

- (9) If the insurer challenges a determination by the commissioner under paragraph (8) pursuant to section 431:3-G, the notification by the commissioner to the insurer that the commissioner, after a hearing, has rejected the challenge, unless the failure of the insurer to adhere to its risk-based capital plan or revised risk-based capital plan has no substantial adverse effect on the ability of the insurer to eliminate the regulatory action level event with respect to the insurer.

- (2) If the commissioner deems it to be in the best interests of the policyholders and creditors of the insurer and of the public, take any actions that are necessary to cause the insurer to be placed under regulatory control under article 15. In the event the commissioner takes such actions, the authorized control level event shall be deemed sufficient grounds for the commissioner to take action under article 15, and the commissioner shall have the rights, powers, and duties with respect to the insurer as are set forth in article 15. In the event the commissioner takes actions under this paragraph pursuant to an adjusted risk-based capital report, the insurer shall be entitled to the protections that are afforded to insurers under the provisions of section 431:15-201.

§431:3-F Mandatory control level event. (a) “Mandatory control level event” means any of the following events:

In that event, the mandatory control level event shall be deemed sufficient grounds for the commissioner to take action under article 15, and the commissioner shall have the rights, powers, and duties with respect to the insurer as are set forth in article 15. In the event the commissioner takes actions pursuant to an adjusted risk-based capital report, the insurer shall be entitled to the protections that are afforded to insurers under section 431:15-201. - (4) Notification to an insurer by the commissioner of a corrective order with respect to the insurer.

§431:3-H Confidentiality and prohibition on announcements. (a) All risk-based capital reports (to the extent the information therein is not required to be set forth in a publicly available annual statement schedule) and risk-based capital plans (including the results or report of any examination or analysis of an insurer performed pursuant to this part and any corrective order issued by the commissioner pursuant to examination or analysis) with respect to any domestic insurer or foreign insurer which are filed with the commissioner, constitute information that might be damaging to the insurer if made available to its competitors, and therefore shall be kept confidential by the commissioner. This information shall not be made public or be subject to subpoena, other than by the commissioner and then only to enforce actions taken by the commissioner pursuant to this part or any other provision of the insurance laws of this State.

(b) The comparison of an insurer's total adjusted capital to any of its risk-based capital levels is a regulatory tool which may indicate the need for possible corrective action with respect to the insurer and is not intended as a means to rank insurers generally. Therefore, except as otherwise required under this part, the

making, publishing, disseminating, circulating, or placing before the public, or causing, directly or indirectly, to be made, published, disseminated, circulated, or placed before the public, in a newspaper, magazine, or other publication, or in the form of a notice, circular, pamphlet, letter, or poster, or over any radio or television station, or in any other way, an advertisement, announcement, or statement containing as assertion, representation, or statement with regard to the risk-based capital levels of any insurer, or of any component derived in the calculation, by any insurer, agent, broker, or other person engaged in any manner in the insurance business would be misleading and is therefore prohibited; provided that if any materially false statement with respect to the comparison regarding an insurer's total adjusted capital to its risk-based capital levels (or any of them) or an inappropriate comparison of any other amount to the insurer's risk-based capital levels is published in any written publication and the insurer is able to demonstrate to the commissioner with substantial proof the falsity of the statement, or the inappropriateness, as the case may be, then the insurer may publish an announcement in a written publication if the sole purpose of the announcement is to rebut the materially false statement.

§431:3-I Supplemental provisions. The provisions of this part are supplemental to any other laws of this State, and shall not preclude or limit any other powers or duties of the commissioner under those laws, including, but not limited to chapter 431:15.

§431:3-J Foreign insurers. (a) Any foreign insurer, upon the written request of the commissioner, shall submit to the commissioner a risk-based capital report as of the end of the calendar year just ended by the later of:

- (1) The date a risk-based capital report would be required to be filed by a domestic insurer under this part; or
- (2) Fifteen days after the request is received by the foreign insurer.

Any foreign insurer, at the written request of the commissioner, shall promptly submit to the commissioner a copy of any risk-based capital plan that is filed with the insurance commissioner of any other state.

(b) In the event of a company action level event or regulatory action level event with respect to any foreign insurer as determined under the risk-based capital statute applicable in the state of domicile of the insurer, or if no risk-based capital provision is in force in that state, under this part, if the insurance commissioner of the state of domicile of the foreign insurer fails to require the foreign insurer to file a risk-based capital plan in the manner specified under the risk-based capital law of that state, or if no risk-based capital provision is in force in that state, under section 431:3-C, the commissioner may require the foreign insurer to file a risk-based capital plan with the commissioner. In this event, the failure of the foreign insurer to file a risk-based capital plan with the commissioner shall be grounds to order the insurer to cease and desist from writing new insurance business in this State.

(c) In the event of a mandatory control level event with respect to any foreign insurer, if no domiciliary receiver has been appointed with respect to the foreign insurer under the rehabilitation and liquidation statute applicable in the state of domicile of the foreign insurer, the commissioner may make application to the circuit court of the first judicial circuit of this State under article 15 with respect to the liquidation of property of foreign insurers found in this State, and the occurrence of the mandatory control level event shall be considered adequate grounds for the application.

§431:3-K Severability. If any provision of this part, or the application thereof to any person or circumstance, is held invalid, such determination shall not affect the provisions or application of this part which can be given effect without the invalid provision or application, and to that end the provisions of this part are severable.

§431:3-L Notices. All notices by the commissioner to an insurer which may result in regulatory action hereunder shall be effective upon dispatch if transmitted by registered or certified mail or, in the case of any other transmission, shall be effective upon the insurer's receipt of the notice.

§431:3-M Phase-in provision. For risk-based capital reports required to be filed with respect to 1994, the following requirements shall apply in lieu of sections 431:3-C, 431:3-D, 431:3-E, and 431:3-F:

- (1) In the event of a company action level event with respect to a domestic insurer, the commissioner shall take no regulatory action hereunder;

- (4) In the event of a mandatory control level event with respect to an insurer, the commissioner shall take the actions required under section 431:3-E with respect to the insurer."

- (2) The actual cost of making valuations under this section shall be assessed on the insurer, whose policies are so valued, by the commissioner[.]; and
- (3) Any [such] insurer [which], at any time, that has adopted any standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard herein provided [may], with the approval of the commissioner, may adopt any lower standard of valuation, but not lower than the minimum [herein] provided[.] in this section.

(c) Computation of minimum standard:

- (1) Old policies: Except as otherwise provided in [item] paragraph (3), the minimum standard for the valuation of all [such] policies and contracts issued prior to the operative date of section 431:10D-104, shall be that provided by the laws in effect immediately prior to January 1, 1956[.];
- (2) Except as otherwise provided in [item] paragraph (3), the minimum standard for the valuation of all [the] policies and contracts issued on or after the operative date of section 431:10D-104, shall be the [commissioners] commissioner's reserve valuation methods defined in subsections (d), (e), and (h), three and one-half per cent interest; in the case of policies and contracts, other than annuity and pure endowment contracts, issued on or after June 1, 1976, four per cent interest; for [such] the policies issued prior to June 1, 1979, five and

- (C) For individual annuity and pure endowment contracts, excluding any disability and accidental death benefits in [such] the policies — the 1937 Standard Annuity Mortality Table or, at the option of the insurer, the Annuity Mortality Table for 1949, ultimate, or any modification of either of these tables approved by the commissioner[.];
- (D) For group annuity and pure endowment contracts, excluding any disability and accidental death benefits in [such] the policies — the Group Annuity Mortality Table for 1951, any modification of the table approved by the commissioner[,] or, at the option of the insurer, any of the tables or modifications of tables specified for individual annuity and pure endowment contracts[.];
- (E) For total and permanent disability benefits in or supplementary to ordinary policies or contracts — for policies or contracts issued after December 31, 1965, the tables of period 2 disablement rates and the 1930 to 1950 termination rates of

Either table shall be combined with a mortality table permitted for calculating the reserves for life insurance policies[.]; and
 - (G) For group life insurance, life insurance issued on the standard basis, and other special benefits — [such] any tables [as] that may be approved by the commissioner[.];
- (3) Except as provided in [item] paragraph (4), the minimum standard for the valuation of all individual annuity and pure endowment contracts issued on or after the operative date of this paragraph [as defined herein], and for all annuities and pure endowments purchased on or after [such] the operative date under group annuity and pure endowment contracts, shall be the [commissioners] commissioner's reserve valuation methods defined in subsections (d) and (e) and the following tables and interest rates:
- (A) For individual annuity and pure endowment contracts issued prior to June 1, 1979, excluding any disability and accidental death benefits in [such] the contracts — the 1971 Individual Annuity Mortality Table, or any modification of this table approved by the commissioner, and six per cent interest for single premium immediate annuity contracts, and four per cent interest for all other individual annuity and pure endowment contracts[.];

[regulation promulgated] rules adopted by the commissioner for use in determining the minimum standard of valuation for [such] the contracts, or any modification of these tables approved by the commissioner, and seven and one-half per cent interest[.];

- (C) For individual annuity and pure endowment contracts issued on or after June 1, 1979, other than single premium immediate annuity contracts, excluding any disability and accidental death benefits in [such] the contracts — the 1971 Individual Annuity Mortality Table or any individual annuity mortality table, adopted after 1980 by the National Association of Insurance Commissioners, that is approved by [regulation promulgated] rules adopted by the commissioner for use in determining the minimum standard of valuation for [such] the contracts, or any modification of these tables approved by the commissioner, and five and one-half per cent interest for single premium deferred annuity and pure endowment contracts and four and one-half per cent interest for all other [such] individual annuity and pure endowment contracts[.]; and
- (D) For all annuities and pure endowments purchased on or after June 1, 1979, under group annuity and pure endowment contracts, excluding any disability and accidental death benefits in [such] the contracts — the 1971 Group Annuity Mortality Table or any group annuity mortality table, adopted after 1980 by the National Association of Insurance Commissioners, that is approved by [regulation promulgated] rules adopted by the commissioner for use in determining the minimum standard of valuation for [such] the annuities and pure endowments, or any modification of these tables approved by the commissioner and seven and one-half per cent interest.

After June 1, 1976, any insurer may file with the commissioner a written notice of its election to comply with [the provisions of] this paragraph after a specified date before January 1, 1979, which shall be the operative date of this paragraph for [such] the insurer; provided that an insurer may elect a different operative date for individual annuity and pure endowment contracts from that elected for group annuity and pure endowment contracts. If an insurer makes no [such] election, the operative date of this paragraph for [such] the insurer shall be January 1, 1979[.]; and

(4) Applicability of this section:

- (A) The interest rates used in determining the minimum for the valuation of:
 - (i) All life insurance policies issued in a particular calendar year, on or after the operative date of section 431:10D-104(e)(8)[.];
 - (ii) All individual annuity and pure endowment contracts issued in a particular calendar year after December 31, 1982[.];
 - (iii) All annuities and pure endowments purchased in a particular calendar year after December 31, 1982, under group annuity and pure endowment contracts[.]; and
 - (iv) The net increase, if any, in a particular calendar year after 1982, in amounts held under guaranteed interest

contracts shall be the calendar year statutory valuation rates as defined in this paragraph[.];

- (B) The calendar year statutory valuation interest rates, I, shall be determined as follows and the results rounded to the nearer one-quarter of one per cent:

- (i) For life insurance,

$$[I = .03 + W (R - .03) + \frac{W}{2} (R - .09);]$$

$$I = .03 + W (R_1 - .03) + \frac{W}{2} (R_2 - .09);$$

- (ii) For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and from guaranteed interest contracts with cash settlement options,

$$I = .03 + W (R - .03)$$

where R_1 is the lesser of R and $.09$, R_2 is the greater of R and $.09$, R is the reference interest rate defined in this section, and W is the weighting factor defined in this [paragraph] section;

- (iii) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue year basis, except as stated in clause (ii), the formula for life insurance stated in clause (i) shall apply to annuities and guaranteed interest contracts with guarantee durations in excess of ten years, and the formula for single premium immediate annuities stated in clause (ii) shall apply to annuities and guaranteed interest contracts with guarantee duration of ten years or less;
- (iv) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the formula for single premium immediate annuities stated in clause (ii) shall apply; and
- (v) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, the formula for single premium immediate annuities stated in clause (ii) shall apply[.];
- (C) However, if the calendar year statutory valuation interest rate for any life insurance policies issued in any calendar year determined without reference to this sentence differs from the corresponding actual rate for similar policies issued in the immediately preceding calendar year by less than one-half of one per cent, the calendar year statutory valuation interest rate for [such] those life insurance policies shall be equal to the corresponding actual rate for the immediately preceding calendar year. For purposes of applying the immediately preceding

sentence, the calendar year statutory valuation interest rate for life insurance policies issued in a calendar year shall be determined for 1980 (using the reference interest rate defined for 1979) and shall be determined for each subsequent calendar year regardless of when section 431:10D-104(e)(8) becomes operative[.];

- (D) The weighting factors referred to in the formulas stated above are given in the following tables:

- (i) Weighting factors for life insurance:

Guarantee Duration (Years)	Weighting Factors
10 or [less] fewer	.50
More than 10, but not more than 20	.45
More than 20	.35

For life insurance, the guarantee duration is the maximum number of years the life insurance can remain in force on a basis guaranteed in the policy, or under options to convert to plans of life insurance with premium rates or nonforfeiture values, or both, which are guaranteed in the original policy;

- (ii) Weighting factor for single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options: .80; and
- (iii) Weighting factors for other annuities and for guaranteed interest contracts, except as stated in clause (ii), shall be as specified in the tables below, according to the rules and definitions stated below:

Table I:

For annuities and guaranteed interest contracts valued on an issue year basis;

Guarantee Duration (Years)	Weighting Factor for Plan Type		
	A	B	C
5 or less:	.80	.60	.50
More than 5, but not more than 10:	.75	.60	.50
More than 10, but not more than 20:	.65	.50	.45
More than 20:	.45	.35	.35

Table II:

For annuities and guaranteed interest contracts valued on a change in fund basis, the factors shown in clause (i) increased by:

	Plan Type		
	A	B	C
	.15	.25	.05

Table III:

Plan Type
A B C

For annuities and guaranteed interest contracts valued on an issue year basis (other than those with no cash settlement options) which do not guarantee interest on considerations received more than one year after issue or purchase, and for annuities and guaranteed interest contracts valued on a change in fund basis which do not guarantee interest rates on considerations received more than twelve months beyond the valuation date, the factors shown in Table I or derived in Table II increased by:

.05 .05 .05

For other annuities with cash settlement options with guaranteed interest contracts [with] and cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee duration in excess of twenty years. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the guarantee duration is the number of years from the date of issue or date of purchase to the date annuity benefits are scheduled to commence. Plan type as used in the above tables is defined as follows:

Plan Type A: At any time the policyholder may withdraw funds only: (1) with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; (2) without [such] adjustment but in installments over five years or more; (3) as an immediate life annuity; or (4) no withdrawal permitted[.];

Plan Type B: Before expiration of the interest rate guarantee, the policyholder may withdraw funds only: (1) with an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; (2) without [such] adjustment but in installments over five years or more; or (3) no withdrawal permitted. At the end of the interest rate guarantee, funds may be withdrawn without [such] adjustment in a single sum or in installments over less than five years[.];

Plan Type C: [Policyholder] The policyholder may withdraw funds before expiration of the interest rate guarantee in a single sum or in installments over less than five years either: (1) without adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company[.]; or (2) subject only to a fixed surrender charge stipulated in the contract as a percentage of the fund.

A company may elect to value guaranteed interest contracts with cash settlement options and annuities with cash settlement options on either an issue year basis or on a change

in fund basis. Guaranteed interest contracts with no cash settlement options and other annuities with no cash settlement options [must] shall be valued on an issue year basis. As used in this section, an issue year basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard for the entire duration of the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of issue or year of purchase of the annuity or guaranteed interest contract, and the change in fund basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard applicable to each change in the fund held under the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of the change in the fund[.];

- (E) The reference interest rate referred to in [subsection] paragraph (4)(B) shall be defined as follows:
- (i) For all life insurance, the lesser of the average over a period of thirty-six months and the average over a period of twelve months, ending on June 30 of the calendar year next preceding the year of issue, of Moody's Corporate Bond Yield Average - Monthly Average Corporates, as published by Moody's Investors Service, Inc.;
 - (ii) For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the average over a period of twelve months, ending on June 30 of the calendar year of issue or year of purchase, of Moody's Corporate Bond Yield Average - Monthly Average Corporates, as published by Moody's Investors Service, Inc.;
 - (iii) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in clause (ii), with guarantee duration in excess of ten years, the lesser of the average over a period of thirty-six months and the average over a period of twelve months, ending on June 30 of the calendar year of issue or purchase, of Moody's Corporate Bond Yield Average - Monthly Average Corporates, as published by Moody's Investors Service, Inc.;
 - (iv) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in clause (ii), with guarantee duration of ten years or less, the average over a period of twelve months, ending on June 30 of the calendar year of issue or purchase, of Moody's Corporate Bond Yield Average - Monthly Average Corporates, as published by Moody's Investors Service, Inc.;
 - (v) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the average over a period of twelve months,

ending on June 30 of the calendar year of issue or purchase, of Moody's Corporate Bond Yield Average - Monthly Average Corporates, as published by Moody's Investors Service, Inc.; and

- (vi) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, except as stated in clause (ii), the average over a period of twelve months, ending on June 30 of the calendar year of the change in the fund, of Moody's Corporate Bond Yield Average - Monthly Average Corporates, as published by Moody's Investors Service, Inc.; and
- (F) Alternative method for determining references interest rates: In the event that Moody's Corporate Bond Yield Average - Monthly Average Corporates is no longer published by Moody's Investors Service, Inc., or in the event that the National Association of Insurance Commissioners determines that Moody's Corporate Bond Yield Average - Monthly Average Corporates as published by Moody's Investors Service, Inc., is no longer appropriate for the determination of the reference interest rate, then an alternative method for determination of the reference interest rate, which is adopted by the National Association of Insurance Commissioners and approved by [regulation promulgated] rules adopted by the commissioner, may be substituted.

(d) [Commissioners Reserve Valuation Methods:] Commissioner's reserve valuation methods:

- (1) Except as otherwise provided in subsections (e) and (h), reserves, according to the [commissioners] commissioner's reserve valuation methods, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums shall be the excess, if any, of the present value, at the date of valuation, of [such] the future guaranteed benefits provided for by the policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such policy shall be the uniform percentage of the respective contract premiums for [such] the benefits (excluding extra premiums on a substandard policy) that the present value, at the date of issue of the policy, of all [such] the modified net premiums shall be equal to the sum of the then present value of the benefits provided for by the policy and the excess of subparagraph (A) over subparagraph (B) as follows:
 - (A) A net level annual premium equal to the present value, at the date of issue, of the benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one a year payable on the first and each subsequent anniversary of the policy on which a premium falls due; provided that the net level annual² shall not exceed the net level annual premium on the nineteen-year premium whole life plan for insurance of the same amount at an age one year higher than the age of issue of [such] the policy.
 - (B) A net one-year term premium for the benefits provided for in the first policy year.

Provided that for any life insurance policy issued on or after January 1, 1986, for which the contract premium in the first policy year exceeds that of the second year, and no comparable additional benefit is provided in the first year for [such] the excess, which provides an endowment benefit, a cash surrender value, or a combination thereof, in an amount greater than [such] the excess premium, the reserve, according to the [commissioner] commissioner's reserve valuation method as of any policy anniversary occurring on or before the assumed ending date, defined herein as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than [such] the excess premium, [shall,] except as otherwise provided in subsection (h), shall be the greater of the reserve as [such] the policy anniversary calculated as described [in the foregoing provisions of this subsection] above and the reserve as of [such] the policy anniversary calculated as described [in those provisions], but with:

- (i) The value defined in subparagraph (A) being reduced by fifteen per cent of the amount of [such] the excess first year premium;
- (ii) All present values benefits and premiums being determined without reference to premiums or benefits provided for by the policy after the assumed ending date;
- (iii) The policy being assumed to mature on [such] that date as an endowment; and
- (iv) The cash surrender value provided on [such] that date being considered as an endowment benefit.

In making the above comparison, the mortality and interest bases stated in [subsections] subsection (c)(2) and [(c)] (3) shall be used[.]; and

- (2) Reserve according to the [commissioners] commissioner's reserve valuation methods for:
 - (A) Life insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums;
 - (B) Group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer (including a partnership or sole proprietorship) or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under Section 408 of the Internal Revenue Code, as now or hereafter amended;
 - (C) Disability and accidental death benefits in all policies and contracts; and
 - (D) All other benefits, except life insurance and endowment benefits in life insurance policies and benefits provided by all other annuity and pure endowment contracts[.];

shall be calculated by a method consistent with the [principals] principles of this subsection [(d)].

- (e) This subsection shall apply to all annuity and pure endowment contracts other than group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an

employer (including a partnership or sole proprietorship) or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under Section 408 of the Internal Revenue Code, as now or hereafter amended.

Reserves according to the [commissioners] commissioner's annuity reserve method for benefits under annuity or pure endowment contracts, excluding any disability and accidental death benefits in [such] those contracts, shall be the greatest of the respective excesses of the present values, at the date of valuation, of the future guaranteed benefits, including guaranteed nonforfeiture benefits, provided for by [such] those contracts at the end of each respective contract year, over the present value, at the date of valuation, of any future valuation considerations derived from future gross considerations, required by the terms of [such] the contract, that become payable prior to the end of such respective contract year. The future guaranteed benefits shall be determined by using the mortality table, if any, and the interest rate, or rates, specified in [such] the contracts for determining guaranteed benefits. The valuation considerations are the portions of the respective gross considerations applied under the terms of [such] the contracts to determine nonforfeiture values.

(f) Minimum aggregate reserves: In no event shall an insurer's aggregate reserves for all life insurance policies excluding disability and accidental death benefits, issued on or after the operative date of section 431:10D-104, be less than the aggregate reserves calculated in accordance with the methods set forth in subsections (d), (e), (h), and (i), and the mortality tables and rates of interest used in calculating nonforfeiture benefits for [such] those policies. In no event shall the aggregate reserves for all policies, contracts, and benefits be less than the aggregate reserves determined by the qualified actuary to be necessary to render the opinion required by subsection (j).

(g) Optional reserves bases: Reserves for any category of policies, contracts, or benefits as established by the commissioner, issued on or after the operative date of section 431:10D-104, may be calculated, at the option of the insurer, according to any standards which produce greater aggregate reserves for the category than those calculated according to the minimum standard herein provided. The rates of interest used for policies and contracts, other than annuity and pure endowment contracts, shall not be higher than the corresponding rates of interest used in calculating any nonforfeiture benefits provided for therein. Any [such] company which at any time shall have adopted any standard valuation producing greater aggregate reserves than those calculated according to the minimum standard herein provided, [may,] with the approval of the commissioner, may adopt any lower standard of valuation, but not lower than the minimum herein provided[.]; provided that for the purposes of this section, the holding of additional reserves previously determined by a qualified actuary to be necessary to render the opinion required by subsection (j) shall not be deemed to be the adoption of a higher standard of valuation.

(h) Minimum reserve: If in any contract year the gross premium charged by any life insurer on any policy or contract is less than the valuation net premium for the policy or contract calculated by the method used in calculating the reserve thereon but using the minimum valuation standards of mortality and rate of interest, the minimum reserve required for [such] that policy or contract shall be the greater of either the reserve calculated according to the mortality table, rate of interest, and method actually used for [such] the policy or contract, or the reserve calculated by the method actually used for [such] the policy or contract using the minimum standards of mortality and rate of interest and replacing the valuation net premium by the actual gross premium in each contract year for

which the valuation net premium exceeds the actual gross premium. The minimum valuation standards of mortality and rate of interest referred to in this section are those standards stated in [subsections] subsection (c)(1), [(c)] (2), and [(c)] (4)[.

Provided]; provided that for any life insurance policy issued on or after January 1, 1986, for which the gross premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for [such] the excess and which provides an endowment benefit or a cash surrender value, or a combination thereof, in an amount greater than [such] the excess premium, [the foregoing provisions of] this subsection shall be applied as if the method actually used in calculating the reserve for [such] the policy were the method described in subsection (d), ignoring the second paragraph of that subsection. The minimum reserve at each policy anniversary of such a policy shall be the greater of the minimum reserve calculated in accordance with subsection (d), including [the second paragraph of that] subsection[,], (d)(2) and the minimum reserve calculated in accordance with this subsection.

(i) In the case of any plan of life insurance which provides for future premium determination, the amounts of which are to be determined by the insurance company based on then estimates of future experience, or in the case of any plan of life insurance or annuity which is of such a nature that the minimum reserves cannot be determined by the methods described in subsections (d), (e), and (h), the reserves which are held under any such plan must:

- (1) Be appropriate in relation to the benefits and the pattern of premiums for that plan[,]; and
- (2) Be computed by a method which is consistent with the principles of this section, as determined by [regulations promulgated] rules adopted by the commissioner.

(j) The actuarial opinion of reserves and this subsection shall become effective December 31, 1995.

- (1) Every life insurance company doing business in this State shall annually submit the opinion of a qualified actuary as to whether the reserves and related actuarial items held in support of the policies and contracts specified by the commissioner, by rules, are computed appropriately, are based on assumptions which satisfy contractual provisions, are consistent with prior reported amounts, and comply with the applicable laws of this State. The commissioner, by rules, shall define the specifics of this opinion and add any other items deemed to be necessary to its scope;

- (2) Actuarial analysis of reserves and assets supporting the reserves:

(A) Every life insurance company, except as exempted by or pursuant to rules, also shall include annually in the opinion required by paragraph (1), an opinion of the same qualified actuary as to whether the reserves and related actuarial items held in support of the policies and contracts specified by the commissioner by rules, when considered in light of the assets held by the company with respect to the reserves and related actuarial items, including but not limited to the investment earnings on the assets and the considerations anticipated to be received and retained under the policies and contracts, make adequate provision for the company's obligations under the policies and contracts, including but not limited to the benefits under, and expenses associated with, the policies and contracts; and

- (B) The commissioner may provide, by rules, for a transition period for establishing any higher reserves which the qualified actuary may deem necessary in order to render the opinion required by this section;
- (3) Each opinion required by paragraph (2) shall be governed by the following:
 - (A) A memorandum, in form and substance acceptable to the commissioner as specified by rules, shall be prepared to support each actuarial opinion; and
 - (B) If the insurance company fails to provide a supporting memorandum at the request of the commissioner within a period specified by rules or if the commissioner determines that the supporting memorandum provided by the insurer fails to meet the standards prescribed by rules or is otherwise unacceptable to the commissioner, the commissioner may engage a qualified actuary at the expense of the insurer to review the opinion and the basis for the opinion and prepare any supporting memorandum that is required by the commissioner; and
- (4) Every opinion shall be governed by the following:
 - (A) The opinion shall be submitted with the annual statement reflecting the valuation of reserve liabilities for each year ending on or after December 31, 1995;
 - (B) The opinion shall apply to all business in force including individual and group health insurance plans, in form and substance acceptable to the commissioner as specified by rules;
 - (C) The opinion shall be based on standards adopted from time to time by the Actuarial Standards Board and on any addition standards that the commissioner may prescribe by rules;
 - (D) In the case of an opinion required to be submitted by a foreign or alien insurer, the commissioner may accept the opinion filed by that insurer with the insurance supervisory official of another state if the commissioner determines that the opinion reasonably meets the requirements applicable to an insurer domiciled in this State;
 - (E) For the purposes of this section, "qualified actuary" means a member in good standing of the American Academy of Actuaries who meets the requirements set forth in the regulations adopted by the American Academy of Actuaries;
 - (F) Except in cases of fraud or wilful misconduct, the qualified actuary shall not be liable for damages to any person, other than the insurer and the commissioner, for any act, error, omission, decision, or conduct with respect to the actuary's opinion; and
 - (G) Any memorandum in support of the opinion, and any other material provided by the insurer to the commissioner in connection therewith, shall be kept confidential by the commissioner and shall not be made public and shall not be subject to subpoena, other than for the purpose of defending an action seeking damages from any person by reason of any action required by this section, or by rules adopted hereunder; provided that the memorandum or other material may otherwise be released by the commissioner with the written consent of the insurer or be released to the American Academy of

Actuaries upon request stating that the memorandum or other material is required for the purpose of professional disciplinary proceedings and setting forth procedures satisfactory to the commissioner for preserving the confidentiality of the memorandum or other material. Once any portion of the confidential memorandum is cited by the insurer in its marketing material or is cited before any governmental agency, other than a state insurance department, or is released by the insurer to the news media, all portions of the confidential memorandum shall no longer be confidential."

SECTION 4. Section 431:19-107, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

"(b) In addition, each association captive and risk retention captive shall file an annual statement on or before March 1 each year, in accordance with statutory accounting practices, which shall be a true statement of its financial condition, transactions, and affairs as of the immediately preceding December 31, in general form and [context] content as approved by the National Association of Insurance Commissioners, verified by oaths of at least two of the insurer's principal officers. Each risk retention group captive shall file with the National Association of Insurance Commissioners, on or before March 1 of each year, a copy of its annual convention blank along with any additional filings as prescribed by the commissioner for the preceding year."

SECTION 5. Section 431:19-115, Hawaii Revised Statutes, is amended to read as follows:

"§431:19-115 Laws applicable. No insurance laws of this State other than those contained in this article, or contained in specific references contained in this article, shall apply to pure captive insurance companies. In addition to this article, all of the other insurance laws of this State shall apply to association captive insurance companies, including risk retention insurance companies, unless these other laws are inconsistent with this article."

SECTION 6. Act 280, Session Laws of Hawaii 1993, is amended by amending section 64 to read as follows:

A Bill for an Act Relating to Financial Exemptions for the Community Hospitals.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the pilot project to foster the autonomous operation of the community hospitals, as set forth in Act 223, Session Laws of Hawaii 1990, as amended by Act 187, Session Laws of Hawaii 1992, and in Act 211, Session Laws of Hawaii 1993, has contributed effectively to expediting and improving the delivery of health care services by Hawaii's public hospital system.

This Act provides exemptions from statutes, relating to finance, that have been identified as impediments to the autonomous operation of the community hospitals.

SECTION 2. Chapter 323, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§323- Collections revolving funds. (a) There are established three collections revolving funds, one fund for Maui Memorial Hospital, one fund for Hilo Hospital, and one fund for Kona Hospital, to expedite the collection of patient bills and the refunding of credit balances. Payments of bills of less than \$1,000, from patients and health insurance providers, shall be deposited into the revolving fund. Expenditures from the revolving fund shall be used for the purpose of making refunds of credit balances of less than \$1,000.

(b) The department of health shall provide an annual report to the governor and the legislature describing all transactions and activities involved in the administration of each of the three collections revolving funds. If, at the end of a fiscal year, the balance of any one of the collections revolving funds exceeds \$100,000, the amount in excess of \$100,000 shall be transferred by the director of health to the appropriate special fund established under section 323-73 for the associated public health facility."

(2) Establish rates for new medical services that are comparable to rates charged by private hospitals in Hawaii;

provided that the division shall give public notice of the revisions by publishing a summary statement of the substance of the proposed revisions in a newspaper of general circulation in the State not less than thirty days before the revisions take effect. Following this notice, the division shall review the proposed rates with an appropriate body that includes representation from health benefit plans.

[(b)] (c) Nothing in this chapter shall preclude the making of appropriations to the division, or the use of funds derived from the sale of stocks, bonds, or other assets in the possession of the division, to pay all or part of the costs of construction or maintenance, or both, of any or all facilities, services, and projects of the division; provided that the rates, rents, fees, and charges imposed at public health facilities that are part of a system of public health facilities for which

revenue bonds have been issued shall not be less than the rates, rents, fees, and charges required to enable the department to comply with section 39-61 and any resolution or certificate authorizing and securing the revenue bonds."

SECTION 4. Section 323-73, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

- (3) Amounts of less than \$1,000 collected from patients and health insurance providers shall be deposited into the appropriate collections revolving fund established under section 323-

At the beginning of each quarterly allotment period, the director shall assess from each hospital special fund an amount equal to two per cent of the moneys in the hospital special fund and deposit those amounts into the facility administration fund established in subsection (b). At the end of each quarterly allotment period, the director shall transfer all moneys remaining in a hospital special fund not required for the lawful operating expenditures of the hospital for that quarterly allotment period into the facility administration fund; provided that public health facilities that do not receive general fund augmentation may retain not more than twenty-five per cent of their unrequired special fund revenues in their respective hospital special funds for payment of their lawful operating expenditures. The director shall determine the percentage that a public health facility not supported by general funds may retain in its hospital special fund. The amounts the director may transfer shall include all unrequired special fund balances from prior years."

“SECTION 1. Chapter 353, Hawaii Revised Statutes, is amended by adding two new sections to be appropriately designated and to read as follows:

§353- Release of pretrial inmates to prevent overcrowding. (a) Notwithstanding the provisions of chapter 804 and any other law to the contrary and except as provided in subsection (b), the director or the director's designee may order the release of pretrial inmates on recognizance to prevent overcrowding when a community correctional center has reached capacity, as determined by the director. The director's order shall supersede and have the same force and effect as an order entered by a court pursuant to chapter 804. A copy of the director's order shall be filed with the court in which the charge against the pretrial¹ inmate is pending.

(b) No person who has been denied bail or whose bail has been set at more than \$5,000 pursuant to chapter 804, or who has been charged with or convicted of or is on probation or parole for a serious crime, as defined in section 804-3, involving violence against a person shall be eligible for release pursuant to this section.

(c) The power to release a pretrial² inmate pursuant to this section is granted solely for the purpose of managing the population of the community correctional centers and nothing herein shall be construed as granting any person the right to be released. An order releasing a pretrial² inmate pursuant to this section shall not operate to dismiss or otherwise terminate any charges then pending against the pretrial¹ inmate.

(d) The State, its officers, and employees, shall not be subject to any civil liability or penalty[, nor to any criminal prosecution,] for any error in judgment or discretion made in good faith and upon reasonable grounds in any action taken or omitted by the State, its officers, and employees, in an official capacity under this section.

(e) The director shall adopt rules in accordance with chapter 91 for the release of pretrial¹ inmates pursuant to this section.

§353- Terms and conditions of release; violations; sanctions. (a) A pretrial inmate released pursuant to section 353- shall be subject to the conditions stated in section 804-7.4. In addition, the director may impose any of the conditions which a court is authorized to impose pursuant to section 804-7.1 and shall impose any conditions contained in any court order superseded by the director's order.

(b) [Intentional violations of the conditions of release shall be disposed of as provided in sections 804-7.2 and 804-7.3.] Every pretrial inmate released under this section shall be subject to the express condition, to be set forth in the official written notification of release, that release may be revoked by order of the director or the director's designee in the event that the pretrial inmate violates any terms or conditions of the release.

Upon receipt of specific information from an intake service center worker that a pretrial inmate has violated any of the terms or conditions of the release,

the director or the director's designee may order the arrest and temporary return to custody of the pretrial inmate for the purpose of ascertaining whether or not there is sufficient cause to warrant the revocation of the pretrial inmate's release under section 353-. The arrest order shall state the alleged violation which gave rise to its issuance.

Upon the retaking of the pretrial inmate into custody, hearing on the alleged violation shall be conducted promptly for the purpose of ascertaining whether or not there is sufficient cause to warrant the revocation of the pretrial inmate's release. The pretrial inmate shall have, with respect to the revocation hearing, those rights set forth in subsection 706-670 (3)(a), (3)(b), (3)(c), and (3)(d).

If sufficient cause for the alleged violation of terms or conditions of release is found at the hearing, the director or director's designee may impose different or additional conditions on the pretrial inmate's release or revoke the pretrial inmate's release. If sufficient cause is not found, the pretrial inmate shall be released from custody subject to all of the original terms and conditions of release.

Notice of reincarceration shall be filed with the court."

A Bill for an Act Relating to Public Safety.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The "No Hope in Dope" program is a worthwhile educational program that seeks to teach students and their families about the dangers and effects of drug and alcohol abuse.

The Honolulu police department's component of the program includes workshops for students and their families, parades, concerts, patches, discount cards, and comic books. The proposed van will be used to transport students on field trips to drug and alcohol treatment facilities and correctional facilities.

The department of public safety's component of the program includes hiring guards to transport inmates to various sites for workshops. As part of these workshops, the inmates discuss how drug and alcohol abuse have led to their present difficulties. These workshops are provided for students and their families. The proposed van will be used to transport the inmates to the workshops.

Travel expenses are needed to take this program throughout the State as well as to bring speakers who generally waive honorariums to participate, to Hawaii. The Honolulu police department proposes to take twenty people on these neighbor island trips. Travel expenses include airfares, hotel rooms, meals, and van rentals.

SECTION 2. There is appropriated out of the general revenues of the State of Hawaii the sum of \$22,000, or so much thereof as may be necessary for fiscal year 1994-1995, for a grant-in-aid to the Honolulu police department's component of the "No Hope in Dope" program. The sum appropriated shall be expended by the city and county of Honolulu for the purposes of this Act for the following:

- (1) School/community projects;
- (2) A van; and
- (3) Travel expenses.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$52,212, or so much thereof as may be necessary for fiscal year 1994-1995, for the department of public safety's component of the "No Hope in Dope" program. The sum appropriated shall be expended by the department of public safety for the purposes of this Act to fund two adult corrections officer positions.

SECTION 4. This Act shall take effect on July 1, 1994.

(Approved June 21, 1994.)

ACT 199

H.B. NO. 3607

A Bill for an Act Relating to Government Assistance.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that without any intervention, the

decrease in local sugar production will lead to unemployment for hundreds of employees. The anticipated cost per year in terms of unemployment and welfare benefits will be substantial, and the loss of tax revenues and related business will have a severe detrimental effect on the State's economy.

The legislature further finds that the continued cultivation of sugar cane to produce ethanol and related by-products shows significant potential in the effort to diversify the State's economy, to create new job opportunities, and to sustain aspects of the sugar industry. The production of ethanol would provide the State with an alternative energy product to petroleum-based fuels. Fuel grade ethanol would support efforts to reduce the State's virtual reliance on petroleum-based fuels.

The purpose of this Act is to authorize the director of business, economic development, and tourism to adopt rules to mandate the use of ethanol in transportation fuel, and thus diversify the state's economy by accelerating the development and production of alternative transportation fuels.

SECTION 2. Chapter 486E, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§486E- Ethanol content requirement. (a) The department shall adopt rules in accordance with chapter 91 to require that gasoline sold in the state for use in motor vehicles contain ten per cent ethanol by volume. The amounts of gasoline sold in the state containing ten per cent ethanol shall be in accordance with rules as the director deems appropriate. The director may authorize the sale of gasoline that does not meet these requirements as provided in subsection (d).

(b) Gasoline blended with an ethanol-based product, such as ethyl tertiary butyl ether, shall be considered to be in conformance with this section if the quantity of ethanol used in the manufacture of the ethanol-based product represents ten per cent, by volume, of the finished motor fuel.

(c) Ethanol used in the manufacture of ethanol-based gasoline additives, such as ethyl tertiary butyl ether, may be considered to contribute to the distributor's conformance with this section; provided that the total quantity of ethanol used by the distributor is an amount equal to or greater than the amount of ethanol required under this section.

(d) The department may authorize the sale of gasoline that does not meet the provisions of this section:

- (1) To the extent that sufficient quantities of competitively-priced ethanol are not available to meet the minimum requirements of this section; or
- (2) In the event of any other circumstances for which the department determines compliance with this section would cause undue hardship.

(e) Each distributor, at such reporting dates as the director may establish, shall file with the director, on forms prescribed, prepared, and furnished by the director, a certified statement showing:

- (1) The price and amount of ethanol available;
- (2) The amount of ethanol-blended fuel sold by the distributor;
- (3) The amount of non-ethanol-blended gasoline sold by the distributor; and
- (4) Any other information the department shall require for the purposes of compliance with this section.

(f) Provisions with respect to confidentiality of information shall be the same as provided in chapter 486I.

(g) Any distributor or any other person violating the requirements of this section shall be subject to a fine of not less than \$2 per gallon of nonconforming fuel, up to a maximum of \$10,000 per infraction.

(h) The department, in accordance with chapter 91, shall adopt rules for the administration and enforcement of this section.

(i) As used in this section:

“Competitively priced” means fuel-grade ethanol for which the wholesale price, minus the value of all applicable federal, state, and county tax credits and exemptions, is not more than the average posted rack price of unleaded gasoline of comparable grade published in the State.

“Department” means the department of business, economic development, and tourism.”

SECTION 3. The department of business, economic development, and tourism shall submit monthly reports to the legislature of the progress made to construct ethanol production facilities in the state.

SECTION 4. New statutory material is underscored.¹

SECTION 5. This Act shall take effect July 1, 1996.

(Approved June 21, 1994.)

ACT 201

S.B. NO. 2170

A Bill for an Act Relating to Recycled Materials.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that Hawaii's energy resources and physical environment must be managed and protected in a manner that ensures the health, safety, and welfare of the citizens of the State and preserves our limited natural resources for future generations. The 1993 Energy and Environmental Summit was convened by the legislature on October 8, 1993, to identify issues and build broad-based support for initiatives that will move Hawaii forward in the areas of energy and the environment. This Act is the result of the collaborative efforts of participants of the summit.

SECTION 2. Chapter 342G, Hawaii Revised Statutes, is amended by adding a new part to be appropriately designated and to read as follows:

"PART . GLASS CONTAINER RECOVERY

§342G-A Definitions. As used in this part, unless the context requires otherwise:

"Glass container importer" means any person who is engaged in the manufacture of glass containers within the State or who imports glass containers from outside the State for sale or use within the State. The term includes federal agencies and military distributors, but does not include airlines and shipping companies that merely transport glass containers.

"Glass incentive" means an incentive paid to licensed recyclers for recycling glass containers. Such incentives may be structured to include the costs of collection and processing, and a "buy back" incentive to increase participation by the public and private haulers.

"Glass recovery program" means a program for glass recovery and reuse for purposes including but not limited to:

- (1) Glass container reuse or recycling whereby containers are refilled, processed for shipment out of the State, or crushed into aggregate substitute; and
- (2) Use in roadway materials or concrete as provided in this part.

"Glassphalt" means an asphaltic concrete mixture utilizing crushed glass, under controlled gradation conditions, as a substitute for a percentage of the aggregate in the mix.

§342G-B Advance disposal fee. (a) Every glass container importer shall pay to the department an advance disposal fee. The fee shall be imposed only once on the same glass container and shall not be assessed on drinking glasses, cups, bowls, plates, ash trays, and similar tempered glass containers. For the period September 1, 1994, to September 1, 1996, the fee shall be one and one-half cents per glass container. Thereafter, the fee shall be set by the legislature at a rate the legislature determines will permit funding of county glass recovery programs as required to achieve the following glass recovery program goals:

- (1) Twenty-five per cent by the end of 1996;
- (2) Fifty per cent by the end of 1998; and
- (3) By the end of 2000 and thereafter, the maximum amount practicable considering the economic and environmental benefits to be realized.

(b) In January 1995, the department, with assistance from the county solid waste divisions, shall evaluate the amount of glass recovered during the first fifteen months of the program and recommend to the legislature any modification in the fee structure to meet county glass recovery program funding requirements. Thereafter, prior to the convening of the legislative session in each subsequent even-numbered year, the department of health, in coordination with the counties, shall report to the legislature on the effectiveness of the program and make appropriate recommendations for modification of the fee.

(c) The legislature shall have exclusive authority over all matters subject to this chapter.

(d) No county shall impose or collect any assessment or fee on glass containers for the same or similar purpose that is subject of this chapter.

§342G-C Glass container importers; registration, recordkeeping requirements. (a) By September 1, 1994, all glass container importers operating within the State shall register with the department, using forms prescribed by the department, and shall notify the department of any change in address. After September 1, 1994, any person who desires to conduct business in this State as a glass container importer shall register with the department no later than one month prior to the commencement of the business.

(b) All glass container importers registered with the department shall maintain records reflecting the manufacture of their glass containers as well as the importation and exportation of products packaged in glass. The records shall be made available, upon request, for inspection by the department; provided that any proprietary information obtained by the department shall be kept confidential, and shall not be disclosed to any other person except:

- (1) As may be reasonably required in an administrative or judicial proceeding to enforce any provision of this chapter or any rule adopted pursuant to this chapter; or
- (2) Under an order issued by a court or administrative agency hearing officer.

§342G-D Deposit into environmental management special fund; distribution to counties. (a) Revenues generated from the advance disposal fee shall be deposited into a special account in the environmental management fund. Moneys from the special account shall be used to fund county glass recovery programs established in accordance with the requirements under section 342G-F; provided that no moneys shall be made available to a county unless the county has first submitted its formally adopted integrated solid waste management plan to the department for review. In the event of any surplus in the special account, the department shall recommend a reduction in the fee as deemed necessary.

(b) The department shall distribute the moneys contained in the special account to the counties in proportion to the amount of glass imported into each county based on the county's de facto population. The distribution shall be in the form of direct contracts with the department as permitted under chapters 103 and 103D.

(c) No more than ten per cent, in the aggregate, of the revenue collected in any one year may be used by the department for administrative and educational purposes and to promote glass recovery, recycling, and reuse in Hawaii through research and demonstration projects.

§342G-E Container inventory report and payment. (a) Payment of the advance glass disposal fee shall be made quarterly based on inventory reports of the glass container importers. For the first payment, all glass container importers, on or before January 15, 1995, shall submit to the department documentation in sufficient detail that identifies the number of glass containers manufactured or imported to the State and sold or distributed, by manufacturer or distributor, during the calendar quarter ending December 31, 1994.

(b) The amount due from glass container importers less glass containers exported for the calendar quarter ending December 31, 1994, shall be the sum equal to the number of glass containers provided in subsection (a) multiplied by the advance disposal fee of .015 cents. Payment shall be made by check or money order payable to the "Department of Health, State of Hawaii". All subsequent inventory reports and payments shall be made not later than the fifteenth day of the month following the end of the previous calendar quarter.

§342G-F County glass recovery programs; requirements. (a) All county glass recovery programs shall include:

- (1) Some form of glass incentive or "buy back" program providing a means of encouraging participation by the public or private collectors; and
- (2) The paving during each of the first two years of the equivalent of one mile of two lane asphalt roadway as part of a research and demonstration program utilizing glassphalt.

(b) In addition, county programs may include but shall not be limited to:

- (1) Funding of the collection and processing of glass containers either through existing county agencies or through external contracts for services;
- (2) Subsidizing the transportation or processed material to off-island markets;
- (3) The development of collection facilities or the provision of containers for glass recycling, or the incremental portions of multi-material programs;

- (4) Additional research and development programs, including grants to private sector entrepreneurs, especially those activities developing higher value uses for the material; and
- (5) Public education and awareness programs focusing on glass recovery, or the incremental portions of multi-material programs.

§342G-G Contract for administrative services. The department may contract the services of a third party to administer the advance disposal fee program under this part.

§342G-H Penalties. Any person who violates any provision of this part, or any rule adopted thereunder, shall be fined not more than \$10,000 for each separate offense. Each day of each violation shall constitute a separate offense. Any action taken to impose or collect the penalty provided for in this section shall be considered a civil action.

§342G-I Enforcement. The department of health shall enforce this part."

SECTION 3. Act 8, Special Session Laws of Hawaii 1993, is amended by adding a new section to part IV of the chapter established in section 2 of the Act, to read as follows:

"§ - Construction projects, roadway materials; recycled glass content requirements. (a) When purchasing roadway materials or other high-value, end-use applications for public projects, state agencies shall, and county agencies may, purchase materials with minimum recycled glass content meeting specifications adopted by the policy office which, at a minimum, shall provide for:

- (1) A minimum recycled glass content of ten per cent crushed aggregate in treated or untreated basecourse in paving materials that shall not reduce the quality standards for highway and road construction; and
- (2) The use of one hundred per cent aggregate in nonstructural capital improvement applications.

(b) All highway and road construction and improvement projects funded by the State or a county or roadways that are to be accepted by the State or a county as public roads shall utilize a minimum of ten per cent crushed glass aggregate, with one hundred per cent passing a one-fourth inch sieve, in all basecourse (treated or untreated) and subbase when the glass is available to the quarry or contractor at a price no greater than that of the equivalent aggregate.

(c) All state and county construction projects calling for nonstructural backfill shall utilize one hundred per cent crushed glass when available at a cost equal to or lower than the equivalent aggregate.

(d) As used in this section:

"Basecourse" means the layer or layers of specified material or selected material of a designed thickness to support a surface course.

"Environmental management special fund" means the fund established by section 342G-63.

"Nonstructural backfill" means use as fill in areas not subject to structural loading, including but not limited to utility line bedding, drainage backfill behind retaining walls, drainage line backfill in leachfields or french drains, and similar uses."

SECTION 4. Section 264-8.5, Hawaii Revised Statutes, is repealed.

SECTION 5. In codifying the new part added to chapter 342G, Hawaii Revised Statutes, by section 2 of this Act, the revisor of statutes shall substitute appropriate section numbers for the letters used in designating the new sections in this Act.

SECTION 6. Statutory material to be repealed is bracketed.¹ New statutory material is underscored.

SECTION 7. This Act shall take effect upon its approval; except that sections 3 and 4 shall take effect on July 1, 1994.

(Approved June 21, 1994.)

ACT 202

S.B. NO. 2172

A Bill for an Act Relating to the Clean Hawaii Center.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that Hawaii's energy resources and physical environment must be managed and protected in a manner that ensures the health, safety, and welfare of the citizens of the State and preserves our limited natural resources for future generations. The 1993 Energy and Environmental Summit was convened by the legislature on October 8, 1993, to identify issues and build broad-based support for initiatives that will move Hawaii forward in the areas of energy and the environment. This Act is the result of the collaborative efforts of participants of the Summit.

The legislature further finds that Act 312, Session Laws of Hawaii 1993, established a system of funding to support solid waste management programs and activities of the department of health, and to place the cost of the activities on the waste generator. The environmental management special fund created by Act 312 receives moneys from a solid waste disposal surcharge paid by the entity doing the disposal based on the tonnage of waste disposed of at the facility. As administrator of the special fund, the department of health is required to use the moneys to partially fund the operating costs of the solid waste management program, annual training for municipal solid waste operators, and statewide education, demonstration, and market development programs through direct contracts with the counties and the department of business, economic development, and tourism.

Act 324, Session Laws of Hawaii 1991, codified the State's goal of reducing the solid waste stream by twenty-five per cent by January 1, 1995, and by fifty per cent by January 1, 2000. Although state and county agencies as well as private industry have worked earnestly to encourage recycling, the current infrastructure for collecting, processing, and transporting post-consumer recyclable material is still inadequate. Only about nine per cent of the solid waste generated in the State is being recycled. One reason is that most of Hawaii's recycled materials are currently exported, since local markets for recycled goods are almost nonexistent.

The legislature believes that if there is to be significant progress in the diversion of a larger portion of solid waste from landfills, local markets for

recycled products must be developed or expanded immediately. Local market development also would benefit the State by:

- (1) Reducing its reliance on export markets requiring overseas shipment;
- (2) Creating business and employment opportunities for residents;
- (3) Reducing dependency on imported goods with recycled content; and
- (4) Reducing dependency on landfills and incineration facilities.

The neighbor islands in particular could benefit from these programs in that available landfill space is being rapidly filled by the growing needs of increasing populations. Additionally, with the demise of the sugar industry in neighbor island counties, the economic diversification that solid waste diversion programs would provide would assist in the stabilization of an already diminished economic base.

The purpose of this Act is to create the clean Hawaii center to encourage and foster the development of small and emerging recycling businesses; and the development of innovative techniques and the application of advanced technology in industry to reduce pollution, extend the life of landfills, save costs of disposal, and recycle valuable resources from the waste stream. The legislature believes that the mechanism set up in this Act will be effective because it provides for joint decision-making in market development policies with representation from the State, counties, and private industry.

The legislature has determined that the clean Hawaii center will benefit the State and the counties by:

- (1) Reducing the tonnage entering traditional disposal operations, such as landfills and incineration facilities. This reduction extends the life of the landfills and lessens the need to make extensive, mandatory, and costly alterations to existing incinerators such as Waipahu Incinerator and H-Power on the island of Oahu. This reduction, therefore, results in disposal cost savings to the counties, businesses, and residents; and
- (2) Increasing the tax revenues realized by the counties and the State as new businesses are developed and jobs are created.

SECTION 2. There is established within the department of business, economic development, and tourism, for administrative purposes only, the clean Hawaii center which shall be responsible for the market development of local processing and manufacturing industries for collected recyclables.

The duties of the center shall be to:

- (1) Provide targeted assistance to recycling businesses, including:
 - (A) Grants for research and demonstration; and
 - (B) Low-interest, long-term loans leveraged through the Hawaii capital loan program, the Hawaii Strategic Development Corporation, the Hawaii Economic Development Corporation, the High Technology Development Corporation, the Hawaii innovative development fund, other state and federal financing programs, and private sector mechanisms including the Small Business Administration, targeting start-up and implementation costs;

provided that the aggregate total of grants and loans under this paragraph shall be within the range of \$250,000 to \$1,000,000 from state programs;

- (C) The development of business plans;

- (D) Market research and planning information;
- (E) Referral and information on market conditions; and
- (F) Information on new technology and product development;
- (2) Undertake, in coordination with the department of health and county recycling programs, an integrated, comprehensive, education effort directed at government agencies, businesses, and the general public to promote processing, manufacturing, and purchase of recycled products. The education effort shall include:
 - (A) Providing information to businesses on the availability and benefits of using recycled materials;
 - (B) Providing information and referral services on recycled material markets; and
 - (C) Providing information on new research and technologies that may be used by local businesses and governments;
- (3) Assist the department of health, department of accounting and general services, and the counties in the development of consistent definitions and standards for recycled product content, product performance, and availability;
- (4) Coordinate with the department of health to ensure that the education programs of both agencies are mutually reinforcing, with the center acting as the lead with respect to the business community and the department of health as the lead with respect to the general public; and
- (5) Facilitate, where possible, cooperative marketing of recyclable materials.

In addition to other powers conferred upon it, the clean Hawaii center may do all things necessary and convenient to carry out the powers expressly given in this Act.

SECTION 3. S.B. NO. 2180

A Bill for an Act Relating to Underground Storage Tanks.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to require the department of health to develop a process to ensure the prompt issuance of "no further action" letters from the date of first filing of clear and complete release response action reports detailing site remediation that is protective of human health and the environment. The legislature finds that action must be taken to ensure the issuance of these letters in a more timely manner. This Act also requires the department of health to convene a work group to review, evaluate, and make recommendations regarding issues related to the leaking underground storage tank program and report back to the department of health with recommendations.

SECTION 2. The department of health shall develop processes and procedures to issue underground storage tank "no further action" letters on a regular and timely basis, after a reasonable period of time from the date of filing of an acceptable environmental release response report with the department. After a "no further action" letter has been issued, no further clean-up can be required unless additional evidence indicates that residual contamination may still pose a risk to public health or the environment that is related to the underground storage tank that is the subject of the release response action report.

SECTION 3. The department of health shall establish a work group composed of members of the affected industries, including real estate sales, developers, members of the petroleum industry, financial institutions, environmental groups, and retailers. The group shall convene no later than September 1, 1994 and shall meet for the purpose of identifying concerns associated with the implementation of the leaking underground storage tank program, including issues related to real estate transactions and financial hardship related to the clean-up requirements of underground storage tanks, and shall make recommendations to the department of health as to how to resolve those concerns, including but not limited to educational materials, seminars, and other public outreach activities.

SECTION 4. The department of health shall submit a report to the legislature no later than twenty days prior to the convening of the regular session of 1995 on its findings and recommendations on processes and procedures for the issuance of "no further action" letters.

SECTION 5. If any provision of this Act conflicts with any federal or existing state law, the provisions of the federal law or existing state law shall prevail.

SECTION 6. This Act shall take effect upon its approval.

(Approved June 21, 1994.)

ACT 206

S.B. NO. 2880

A Bill for an Act Relating to the Land Court.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the recent decision by the Hawaii Supreme Court in *Waikiki Malia Hotel, Inc. v. Kinkai Properties Limited Partnership and MNS, Ltd.*, (1993) has created some uncertainty regarding the specificity with which encumbrances must be noted on a certificate of title pursuant to section 501-82, Hawaii Revised Statutes, in order to encumber the registered land which is the subject of the certificate of title.

Section 501-82, Hawaii Revised Statutes, permits the applicant receiving a certificate of title in pursuance of a decree of registration, and every subsequent purchaser of registered land who takes a certificate of title for value and in good faith, to hold the registered land free from all encumbrances except those noted on the certificate of title and except certain statutorily enumerated encumbrances.

The legislature finds that the intent of section 501-82, Hawaii Revised Statutes, is to preserve the integrity of land registered in accordance with chapter 501, Hawaii Revised Statutes, by recognizing the authority of the certificate of title in determining encumbrances to which registered land is subject. The legislature further finds that it is necessary to clarify the specificity with which an encumbrance must be noted on a certificate of title in order to provide the holder thereof with notice sufficient to encumber the holder's registered land.

SECTION 2. Section 501-82, Hawaii Revised Statutes, is amended to read as follows:

“§501-82 Tenure of holder of certificate of title. (a) Every applicant receiving a certificate of title in pursuance of a decree of registration, and every subsequent purchaser of registered land who takes a certificate of title for value and in good faith, hold the same free from all encumbrances except those noted on a certificate in the order of priority of recordation, and any of the following encumbrances which may be subsisting, namely:

- (1) Liens, claims, or rights arising or existing under the laws or Constitution of the United States, which the statutes of this State cannot require to appear of record in the registry; provided that notices of liens for internal revenue taxes payable to the United States, and certificates affecting such liens, shall be deemed to fall within this paragraph only if the same are recorded in the bureau of conveyances as provided by chapter 505.
- (2) Unpaid real property taxes assessed against the land and improvements covered by the certificate of title, with interest, penalties, and other additions to the tax, which, unless a notice is filed and registered as provided by county real property tax ordinance, shall be for the period of three years from and after the date on which the lien attached, and if proceedings for the enforcement or foreclosure of the tax lien are brought within the period, until the termination of the proceedings or the completion of the tax sale.
- (3) State tax liens, if the same are recorded in the bureau of conveyances as provided by section 231-33.

- (4) Any public highway, or any private way laid out under the provisions of law, when the certificate of title does not state that the boundary of such way has been determined.
- (5) Any lease, coupled with occupancy, for a term not exceeding one year; provided that the priority of the unrecorded lease shall attach only at the date of the commencement of the unrecorded lease and expire one year from the date or sooner if so expressed.
- (6) Any liability to assessments for betterments, or statutory liability which may attach to land as a lien prior to or independent of, the recording or registering of any paper of the possibility of a lien for labor or material furnished in the improvement of the land; provided that the priority of any such liability and the lien therefor (other than for labor and material furnished in the improvement of the land which shall be governed by section 507-43) shall cease and terminate three years after the liability first accrues unless notice thereof, signed by the officer charged with collection of such assessments or liability, setting forth the amount claimed, the date of accrual, and the land affected, is registered and noted on the certificate of title within such three-year period; provided further that if there are easements or other rights, appurtenant to a parcel of registered land which for any reason have failed to be registered, such easements or rights shall remain so appurtenant notwithstanding such failure, and shall be held to pass with the land until cut off or extinguished by the registration of the servient estate, or in any other manner.
- (7) The possibility of reversal or vacation of the decree of registration upon appeal.

(b) For the purposes of this section, an encumbrance shall be deemed sufficiently noted on a certificate if the notation:

- (1) References a document by name or number which contains an encumbrance; and
- (2) Indicates that the referenced document contains an encumbrance to which the registered land is subject.

(c) If the title of a recorded document indicates that it contains an encumbrance, the assistant registrar shall note the document as an encumbrance on the certificate of title or the new certificate of title issued upon recordation of such document, as applicable."

A Bill for an Act Relating to the Transfer of Inmates.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. There is a correctional crisis in the State. The problem of prison overcrowding is enormous, and is a matter of compelling state interest. In light of this, remedies are needed to promote and protect public safety.

The purpose of this Act is to authorize the director of public safety to transfer inmates to correctional facilities operated either by another state or a private institution, provided that the institution is in compliance with standards established by the American Correctional Association.

A Bill for an Act Relating to Public Utilities.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Act 130, Session Laws of Hawaii 1992, as amended by Act 29, Session Laws of Hawaii 1993, is amended by amending Section 3 to read as follows:

“SECTION 3. Chapter 269, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§269- **Emergency rate action; interruption of fuel supply.** (a) The rate payable by a public utility for energy purchased from a nonfossil fuel producer may temporarily exceed the rate approved or prescribed by the public utilities commission pursuant to section 269-27.2(c) or pursuant to rules adopted by the commission under [such] that section if the commission, upon application by the utility or the nonfossil fuel producer, approves [such] the higher rate and finds that the nonfossil fuel producer has demonstrated that:

- (1) The nonfossil fuel producer had agreed to supply or has supplied energy to the utility at the rate approved or prescribed by the commission based on the generation of such energy from a combination of nonfossil fuel sources and heavy fuel oil;
- (2) Heavy fuel oil is and will probably continue to be unavailable to the nonfossil fuel producer;
- (3) The nonfossil fuel producer has the ability to substitute a higher cost alternative fuel for the unavailable heavy fuel oil, and the payment of a rate in excess of the rate approved or prescribed by the commission is reasonably necessary:
 - (A) For the nonfossil fuel producer to continue to supply the energy to the public utility that was previously generated from heavy fuel oil; and
 - (B) For the public utility to provide a reliable supply of electricity to its customers;
- (4) The excess of the payment rate for such energy over and above the approved or prescribed rate is based solely on the higher cost of the alternative fuel used by the nonfossil fuel producer and is limited to the portion of the higher fuel cost that is not recovered by the nonfossil fuel producer through an increase in the utility's avoided energy cost and a resulting increase in the approved or prescribed rate;
- (5) The nonfossil fuel producer's production of electrical energy and use of existing nonfossil fuel sources, such as bagasse, for the generation of that energy will, at a minimum, continue at normal levels. Other Hawaii grown biomass may be used only to supplement and not to substitute for the existing nonfossil fuel sources. However, other Hawaii grown sources of biomass produced as a by-product by the producers of other agricultural crops may substitute for the existing nonfossil fuel sources; provided that the normal level of usage of the existing nonfossil fuel sources is reduced as a result of reduced yield due to growing conditions or reduced cultivated acreage due to agricultural or business practices or the existing nonfossil fuel sources being put to another economic use[; and]. This paragraph shall not apply to a nonfossil fuel producer of energy if the existing nonfossil fuel source is not available, and the nonfossil fuel producer continues to use other sources of nonfossil fuel and continues to generate electricity for sale to the utility under an existing agreement approved by the public utilities commission; and
- (6) The use of an alternative fuel by the nonfossil fuel producer is in the overall best interest of the general public, including consideration of

the environmental effects resulting from the use of a type of fuel other than heavy fuel oil.

(b) The higher rate that may be paid under subsection (a) shall be applicable only to the percentage of the energy that is normally produced by the nonfossil fuel producer and supplied to the public utility from heavy fuel oil, and shall be applicable only until the commission determines that heavy fuel oil is no longer unavailable to the nonfossil fuel producer, or until the commission determines that any of the other findings required by subsection (a) are no longer applicable. The higher rate that may be paid under subsection (a) shall include the excess alternative fuel costs allowable under this section from the date the nonfossil fuel producer commences generating energy supplied to the public utility using the higher cost alternative fuel; provided that the nonfossil fuel producer has provided written notice to the public utility, consumer advocate, and the commission prior to its switch to an alternate fuel and an application is filed with the commission not later than 30 days after the switch is made requesting approval of the higher rate. However, the higher rate shall not be payable until approved by the commission.

(c) As a condition to the applicability of subsection (a) to a nonfossil fuel producer, the nonfossil fuel producer shall provide such information to the commission, the consumer advocate, and the affected public utility as the commission deems necessary for the implementation of subsections (a) and (b).

(d) Any higher rate payable by the public utility under subsection (a) and related revenue taxes shall be passed on to the public utility's ratepayers through an automatic rate adjustment clause. At the commission's discretion, the higher rate payable by the public utility under subsection (a) and related revenue taxes may be passed on to ratepayers statewide through an automatic rate adjustment clause; provided that no such statewide increase shall be imposed unless the commission finds that:

- (1) The higher rate is estimated to result in an increase of more than fifteen per cent for the ratepayers of the affected utility; and
- (2) Such a statewide increase is otherwise appropriate and in the public interest.

A statewide increase may be imposed only upon the ratepayers of the affected utility and the ratepayers of other public utilities whose rates are lower than the rates of the affected public utility.

(e) The commission shall make every effort to complete its deliberations and issue its decision as expeditiously as possible.”

SECTION 2. Act 130, Session Laws of Hawaii 1992, as amended by Act 29, Session Laws of Hawaii 1993, is amended by amending section 5 to read as follows:

“SECTION 5. This Act shall take effect upon its approval; provided that subsection (b) of section 3 shall allow for retroactive effect to the extent provided in the subsection; provided further that section 1 of this Act shall be repealed effective June 30, 1996 and sections 2 and 3 of this Act shall be repealed effective June 30, [1994.] 1995. Applications seeking relief pursuant to section 3 of this Act shall be approved only where the amount in excess of the approved or prescribed rate will be either paid during the period of time section 3 is in effect, or assessed as a result of electricity purchased during the period of time section 3 is in effect.”

SECTION 3. The public utilities commission shall confer with utility

companies, the consumer advocate, nonfossil fuel energy producers, and other interested parties to determine the effects of amending Act 130 on: (a) electricity prices to consumers on each affected island; (b) the reliability of the electric systems on each island; (c) the contractual rights and obligations of the nonfossil fuel producers and the utility company on each affected island; (d) the cost of production of energy by each nonfossil fuel producer that has an existing agreement approved by the public utilities commission, where that producer uses sources of nonfossil fuel that differ from that contemplated in the agreement; (e) the state policy to support the development and use of alternate energy sources; (f) whether the liability cap in section 1 of Act 130 should be extended, repealed, or remain unamended to serve the best interest of the people of the State of Hawaii from an energy supply and consumer interest perspective; and (g) other relevant factors. The public utilities commission shall submit a report of its findings and recommendations to the legislature no later than twenty days prior to the convening of the 1995 regular session.

SECTION 4. Statutory material to be repealed is bracketed. New statutory material is underscored.

SECTION 5. This Act shall take effect upon its approval.

ACT 210

S.B. NO. 3303

A Bill for an Act Relating to Solid Waste Pollution.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that there is a need to protect the natural beauty and integrity of Hawaii's lands by improving and updating state laws relating to solid waste pollution, and strengthening the enforcement program under the solid waste pollution law.

It is the legislature's intent that the department of health be empowered to fine any person who:

- (1) Disposes of solid waste anywhere in the State other than a permitted solid waste disposal system;
- (2) Generates the illegally disposed solid waste; and
- (3) Facilitates the illegal disposal of solid waste.

The purpose of this Act is to provide a more effective means of solid waste disposal enforcement by authorizing the department of health to delegate its enforcement powers to the counties and allowing the counties to share in the revenues generated by the collection of fines and penalties issued under chapter 342H, Hawaii Revised Statutes.

SECTION 2. Chapter 342H, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§342H- Department of health; delegation of enforcement powers.

The department, pursuant to rules adopted in accordance with chapter 91, may delegate to agencies of the various counties the powers or authority vested in the department to investigate alleged violations of section 342H-30(c)."

SECTION 3. Section 342H-1, Hawaii Revised Statutes, is amended as follows:

1. By adding a new definition to be appropriately inserted and to read:

““Inert fill material” means earth, soil, rocks, rock-like material such as cured asphalt, brick, and clean concrete with no exposed steel reinforcing rod longer than twelve inches, containing less than ten per cent vegetative material (such as shrubbery, brush, or trees). Any material containing more than five per cent by volume of solid waste other than vegetative material shall not be considered inert fill material for the purposes of this chapter.”

2. By amending the definition of “solid waste” to read:

““Solid waste” means garbage, refuse, and other discarded materials, including solid, liquid, semisolid, or contained gaseous materials resulting from industrial, commercial, mining, and agricultural operations, sludge from waste treatment plants and water supply treatment plants, and residues from air pollution control facilities and community activities, but does not include solid or dissolved materials in domestic sewage or other substances in water sources such as silt, dissolved or suspended solids in industrial waste water effluents, dissolved materials in irrigation return flows, or other common water pollutants, or source, special nuclear, or by-product material as defined by the federal Atomic Energy Act of 1954, as amended (68 Stat. 923)[.], or inert fill material.”

SECTION 4. Section 342H-10.5, Hawaii Revised Statutes, is amended to read as follows:

“[~~§~~342H-10.5] Disposition of collected fines and penalties. [Fines] Except as otherwise provided in this section, fines and penalties collected under sections 342H-9 and 342H-10 shall be deposited into the environmental response revolving fund established by section 128D-2. Where a county individually, or the state and a county jointly, initiates and conducts an investigation resulting in the imposition and collection of a fine or penalty, pursuant to section 342H-30(c), the fine or penalty shall be distributed as follows:

- (1) One half to the department of the county whose officers or employees initiated and conducted the investigation; and
- (2) One half to the environmental response revolving fund established in section 128D-2.”

SECTION 5. Section 342H-19, Hawaii Revised Statutes, is amended to read as follows:

“[~~§~~342H-19] Effect of laws, ordinances, and rules. (a) All laws, ordinances, and rules inconsistent with this chapter shall be void and of no effect.

(b) [Any] Except as provided in section 342H-30(c), any county may adopt ordinances and rules governing any matter relating to solid waste management [which] that is not governed by a rule of the department adopted pursuant to this chapter; provided that any county ordinance or rule relating to solid waste management shall be void and of no effect as to any matter regulated by a rule of the department upon [the] its adoption [thereof].”

SECTION 6. Section 342H-30, Hawaii Revised Statutes, is amended to read as follows:

“**[§342H-30] Prohibition.** (a) No person, including any public body, shall engage in the operation of an open dump[,] without first securing approval in writing from the director.

(b) No person, including any public body, shall operate a solid waste disposal system without first securing approval in writing from the director.

(c) No person, including any public body, shall discard, dispose of, deposit, discharge, or dump solid waste or by contract or otherwise arrange directly or indirectly for the disposal of solid waste in an amount greater than one cubic yard in volume anywhere other than a permitted solid waste disposal system without the prior written approval of the director. This prohibition shall not be deemed to supersede any other disposal prohibitions established under federal, state, or county law, regulation, rule, or ordinance.”

SECTION 7. Statutory material to be repealed is bracketed. New statutory material is underscored.¹

SECTION 8. This Act shall take effect upon its approval.

ACT 211

S.B. NO. 3309

A Bill for an Act Relating to Public Lands.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature recognizes that the steady decline of sugar in the agricultural sector and the severe financial problems that have resulted from the downturn in sugar production have threatened the economic stability and social fabric of the entire Hamakua and Hilo coast on the island of Hawaii. As a result, not only the residents of the Hamakua and Hilo coast communities, but the residents of the rest of the State as well, have an urgent need to ensure that the long-term economic stability of the Hamakua and Hilo coast regions are restored.

The legislature also recognizes that despite the immense challenges currently experienced by the Hamakua and Hilo coast communities in trying to find solutions to regain their economic stability and livelihood, the residents of these regions continue to demonstrate their resolve and determination to play a greater role in defining their future. The formation of the Hamakua/north Hilo agricultural co-op is a clear example of the way the citizens of the Hamakua and Hilo coast communities have worked together to initiate agricultural projects in the Hamakua and Hilo coast regions. Through the co-op, a variety of alternative crops, including a papaya project, a taro project, and a cattle project, are being pursued as viable agricultural projects to bring about the economic stability in the Hamakua and Hilo coast regions.

In addition, a Hamakua dislocated sugar workers' association has been formed to work with the co-op to help address the needs of dislocated sugar workers who are interested in the agricultural options available to them. Furthermore, in the effort to provide greater alternatives and solutions that will provide a

smoother economic transition for the Hamakua community, a 2.4-acre parcel of state land in Paauhau was approved for use as a diversified agriculture project in the Hamakua region.

The legislature has also supported recovery efforts. Last year, through the enactment of Act 311, Session Laws of Hawaii 1993, the legislature responded to the needs of Hamakua residents by designating the entire Hamakua planning region, as described in the 1990 Hamakua regional plan, as a community development district. This designation authorizes the replanning, renewal, and redevelopment of the Hamakua region by the Hawaii community development authority. Also, the legislature, among other things:

- (1) Provided a state loan guarantee that ensured a final harvest at Hamakua Sugar; and
- (2) Appropriated \$100,000 as "start-up money" to assist the Hamakua housing corporation in protecting the interests of company workers and their families.

The purpose of this Act is to further the legislature's commitment to assist Hamakua and Hilo coast residents by enabling certain permittees on state lands in the Hamakua community development district and the Hilo coast region to obtain long term leases. Section 171-32, Hawaii Revised Statutes, provides that all dispositions of public lands shall be by lease only, disposed of by public auction, unless otherwise specifically authorized. If the lands now occupied by certain permittees are leased by public auction, there is a high probability that the permittees will not prevail as successful bidders on the land and will be displaced, thereby compounding the existing economic crisis within the Hamakua community development district and the Hilo coast region. On the other hand, the granting of long-term leases would provide assurance to the permittees of continued tenure on the land and would enable the permittees to obtain financing for improving their operations.

The legislature finds that:

- (1) It is in the public interest to assist qualified permittees who depend on state land in the Hamakua and Hilo regions for their livelihood;
- (2) The purpose of this Act is consistent with objectives of the Hawaii state plan; and
- (3) If the offer of assistance provided by this Act is accepted by qualified permittees, the State would realize greater returns from the long-term disposition of lands now under permit and would expedite the economic recovery of the Hamakua and Hilo regions.

It is the express intent of this Act that public lands under permit for purposes other than agricultural use be excluded from the scope of this Act.

SECTION 2. As used in this Act, except as otherwise specifically provided herein:

"Departments" mean the department of land and natural resources and the department of agriculture.

"Hilo coast region" consists of that portion of land on the island of Hawaii within the North Hilo and South Hilo districts, as defined in section 4-1, Hawaii Revised Statutes, bounded by a line starting in the vicinity of Ookala at the intersection of the shoreline and the boundary between the Hamakua and North Hilo districts, as defined in section 4-1, Hawaii Revised Statutes, and extending inland to its intersection with Saddle Road; extending eastward along Saddle Road and

then further eastward along Waianuenue Avenue; and ending with its projected extension to the shoreline of Hilo Harbor.

"Person" includes an individual, corporation, government, or governmental subdivision or agency, business trust, estate, trust, partnership, association, or any other legal entity engaging in an effort to create employment opportunities for residents of the Hamakua community development district and the Hilo coast region, especially employees and former employees of the Hamakua Sugar Company and the Hilo Coast Processing Company.

SECTION 3. The departments may negotiate and enter into leases of lands eligible under section 4 of not less than fifteen years but not more than thirty-five years with any person who, as of December 31, 1994, holds a revocable permit for a slaughterhouse and feedlot or for any other agricultural purpose, issued in accordance with section 166-6 or 171-55, Hawaii Revised Statutes.

SECTION 4. The lands eligible for lease negotiation under section 3 of this Act are limited to those lands:

- (1) Not needed by any state or county agency for any other public purpose;
- (2) Within the Hamakua community development district pursuant to section 206E-171, Hawaii Revised Statutes; or the Hilo coast region;
- (3) Zoned and used for agricultural purposes; and
- (4) Engaged in an effort to create employment opportunities.

SECTION 5. In negotiating and executing a lease as authorized by section 3, the board of land and natural resources and the board of agriculture shall:

- (1) Require appraisal of the parcel in accordance with section 171-17(b), Hawaii Revised Statutes;
- (2) Impose such other lease provisions, restrictions, and conditions provided by sections 171-35, 171-36, and 171-37, Hawaii Revised Statutes, as may be required to protect the State's interests;
- (3) Recover from the lessee the cost of appraisal and surveying of the parcel incurred by the departments; and
- (4) Require the payment of an annual lease rent based on fair market value.

SECTION 6. Any permittee may apply for a lease; provided that the application shall be submitted to the respective departments in writing within thirty days of the date of receipt of notification; and provided further that the departments may require documentary proof of any applicant to determine that the applicant meets the eligibility and qualification requirements for a lease as specified by this Act.

SECTION 7. Notwithstanding any other law to the contrary, including chapter 171, Hawaii Revised Statutes, the departments are authorized to negotiate and enter into lease agreements in accordance with the provisions and limitations of this Act; provided that the authority granted by this Act shall expire on

ACT 212

H.B. NO. 759

A Bill for an Act Relating to Employees' Retirement System.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that providing an early retirement incentive is an effective way to:

- (1) Reduce employee compensation costs without imposing forced reductions in current staffing;
- (2) Maintain or increase the current level of employee productivity with the same or lesser compensation costs; and
- (3) Increase opportunities for lower and middle-level employees to move upward by filling the vacancies created by senior employees who retire.

According to the "Report of the Actuary on the 67th Annual Actuarial Valuation of the Employees' Retirement System of the State of Hawaii," as of March 31, 1992, there were 55,410 employees in active service enrolled in the employees' retirement system. Among contributory plan members, approximately 5,098 employees had more than twenty-five years of service. In the noncontributory plan, 1,054 employees had more than twenty-five years of service.

The legislature further finds that, in these times of economic turmoil, this Act would be instrumental in reducing costs and facilitating greater efficiency in government at the state and county levels. However, it is not the intent of the legislature to negatively impact education.

The purpose of this Act is to reduce the current payroll costs of the State and county governments by providing an early retirement incentive to those employees covered under the employees' retirement system who meet the requirements of this Act.

SECTION 2. (a) Any member of the employees' retirement system who has never been a retiree of the system shall be eligible for a one-time early retirement bonus under chapter 88, Hawaii Revised Statutes, of two additional years of service credit, which shall provide an unreduced benefit; provided that:

- (1) The member is:
 - (A) Not employed by the department of education or the University of Hawaii, formally notifies the employing agency by October 1, 1994, files a formal application for retirement not less than thirty days nor more than ninety days prior to the effective date of retirement, and retires by December 31, 1994; or

- (B) Employed by the department of education or the University of Hawaii, formally notifies the employing agency by October 1, 1994, files a formal application for retirement not less than thirty days nor more than ninety days prior to the effective date of retirement, and retires on June 30, 1995;
 - (2) The member has at least twenty-five years of credited service as a contributory class A or class B member or a noncontributory class C member as of December 31, 1994, exclusive of the bonus provided in this subsection;
 - (3) The additional service credit shall not increase the amount of total credited service or retirement allowance of the member beyond any maximum limitation on service credit or retirement allowance established by chapter 88, Hawaii Revised Statutes; and
 - (4) The member shall forfeit the additional service credit and any other benefit provided by chapter 88, Hawaii Revised Statutes, that was based on the early retirement bonus upon subsequent reentry into the employees' retirement system.
- (b) The mayor of the respective county, the board of education, the board of regents, and the chief justice may exercise discretion with respect to participation in this program and shall transmit a list of participants to the board of trustees of the employees' retirement system by November 1, 1994.
- (c) The department heads of the executive and legislative branches shall transmit a list of participants to the board of trustees of the employees' retirement system by November 1, 1994.

SECTION 3. (a) Except for positions in the department of education and the University of Hawaii, with respect to positions in the executive branch vacated pursuant to section 2:

- (1) Thirty per cent of the positions vacated in each department may be refilled by the head of the department to ensure the continued ability of the department to carry out its public purpose;
 - (2) Thirty per cent of the positions vacated in each department shall be held vacant for fiscal year 1995-1996 and shall be assigned to a statewide personnel pool; provided that after June 30, 1996, the governor may propose the transfer of vacant positions between executive departments as necessary to fill essential positions, subject to approval by the legislature through the executive budget; and
 - (3) Forty per cent of the positions vacated in each department shall be eliminated.
- (b) With respect to positions in the judiciary vacated pursuant to section 2:
- (1) Thirty per cent of the positions vacated may be refilled by the chief justice to ensure the continued ability of the judiciary to carry out its public purpose;
 - (2) Thirty per cent of the positions vacated shall be held vacant for fiscal year 1995-1996; and
 - (3) Forty per cent of the positions vacated shall be eliminated.
- (c) With respect to positions in the University of Hawaii vacated pursuant to section 2:
- (1) Seventy per cent of the positions vacated may be refilled by the president of the University of Hawaii, with the approval of the board of regents; provided that these positions shall be reallocated as necessary to restructure and organize the university to ensure the

continued provision of appropriate, direct, student-related services; and

- (2) Thirty per cent of the positions vacated shall be held vacant for fiscal year 1995-1996; provided that after June 30, 1996, the president of the University of Hawaii may propose the transfer of vacant positions between divisions, programs, and departments as necessary to fill essential positions, subject to approval by the legislature through the executive budget.

(d) With respect to positions in the department of education vacated pursuant to section 2, twenty per cent of the vacated statewide administrative positions shall be eliminated.

(e) Funding allocations for positions vacated pursuant to this Act and refilled pursuant to this section shall be computed on the basis of the average monthly salary of the department from which the person retired, and shall be distributed accordingly. All amounts already allocated for positions vacated pursuant to this Act shall be returned to the general fund. Each department shall report its position reallocations to the director of finance, who shall report this information to the legislature no later than twenty days prior to the convening of the regular session of 1996.

SECTION 4. The board of trustees of the employees' retirement system shall make payments with respect to all eligible employees who retire pursuant to this Act.

The board shall determine the amount equal to the actuarial present value of the difference between the allowances members receive after the receipt of service credit under this Act and the allowances members would have received without the two years of additional service credit. The board shall also determine the portion of the additional actuarial present value of benefits to be charged to the State and to each county, based on retirements during the early retirement incentive bonus period. The State and counties shall make separate additional payments to the employees' retirement system in the amounts required to liquidate the additional actuarial present value of benefits over a period of five years beginning July 1, 1997.

SECTION 5. There is appropriated out of the general revenues of the State of Hawaii the sum of \$150,000, or so much thereof as may be necessary for fiscal year 1994-1995, to carry out the purposes of this Act.

The sum appropriated shall be expended by the department of budget and finance for the purposes of this Act.

SECTION 6. This Act shall take effect on July 1, 1994.

(Approved June 22, 1994.)

ACT 214

H.B. NO. 1317

A Bill for an Act Relating to Disclosures in Real Estate Transactions.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that a home is the single largest investment most people make in a lifetime. Because of this, it is important that all relevant information regarding a home's condition be provided to buyers. Statistics show that approximately sixty-seven per cent of lawsuits involving real estate transactions are based on misrepresentations. The seller, who is frequently also the occupant, is better informed than the real estate agent to provide details relating to the condition of the property.

Hawaii has rejected the common law position of caveat emptor or “let the buyer beware,” and has adopted a system of full disclosure. To retain their license, real estate licensees have a duty to not only be fair to all parties in real estate transactions, but also to ascertain and disclose material facts.

A real estate licensee is an agent for a principal. If the principal is the seller of real property, the seller gives the agent authority to make representations about the property. Absent supervening responsibilities imposed by the State, the agent can only work within the scope of authority given by the principal. Fiduciary duties of loyalty, fidelity, and obedience to legitimate instructions require the agent not to undermine the position of the seller by providing too much information.

The purpose of this Act is to establish mandatory seller disclosures of material facts in real estate transactions in the State.

SECTION 2. The Hawaii Revised Statutes is amended by adding a new chapter to be appropriately designated and to read as follows:

**“CHAPTER
MANDATORY SELLER DISCLOSURES
IN REAL ESTATE TRANSACTIONS**

§ -1 **Definitions.** As used in this chapter, unless the context requires otherwise:

“Disclosure of real property condition statement” or “statement” means a written statement prepared by the seller or at the seller’s direction, that fully and accurately discloses any material fact, defect, or condition, past or present, relating to the residential real property being offered for sale that may influence the decision of the buyer, based on the seller’s or the seller’s agent’s observation of:

- (1) Visible, accessible areas;
- (2) Related recorded and unrecorded documents;
- (3) Information available from governmental agencies; and
- (4) Information within the knowledge and control of the seller.

The statement shall not be construed as a warranty of any kind, or a substitute for any expert inspection, professional advice, or warranty that the buyer may wish to obtain.

“Material change” means any change which affects the information contained in a disclosure of real property condition statement in any one of the following ways:

- (1) Renders it misleading;
- (2) Substantially affects the rights or obligations of a buyer; or
- (3) May reasonably affect a buyer’s decision to buy, including changes in the use, size, value, restrictive covenants, and encumbrances.

“Real estate purchase contract” means a contract, including a deposit, receipt, offer, acceptance, or other similar agreement for the sale, exchange, long-term lease without option to buy, or lease with option to buy of real property, and any amendments to the contract.

“Transfer or disposition of residential real property” includes a sale, exchange, auction, long-term lease without option to buy, or lease with option to buy.

§ -2 **Applicability.** Except as otherwise provided for in this chapter, this chapter applies to any transfer or disposition of an improved or unimproved residential lot or residential real property consisting of one to four dwelling units, including:

- (1) A condominium apartment; and
- (2) A cooperative apartment.

§ -3 **Exemptions.** The provisions of this chapter shall not apply to the transfer or disposition of residential real property:

- (1) To a co-owner;
- (2) To a spouse, parent, or child of the seller;
- (3) To any transfer by devise, descent, or court order;
- (4) By operation of law, including but not limited to any transfer by foreclosure, bankruptcy, or partition sales;

- (5) Resulting from conversion of lease land to fee simple;
- (6) To initial sales of new single family dwelling units under a current public offering statement;
- (7) Made pursuant to chapter 521, the residential landlord-tenant code;
- (8) When the seller and buyer agree in writing that the transfer will not be covered under this chapter as outlined in section -10; or
- (9) Regarding the initial sales of condominium apartments under an unexpired public report.

§ **-4 Prohibitions on transfers or disposition of residential real property.** Except as provided in section -3, no seller may transfer or dispose of any interest in residential real property subject to the disclosure requirements of this chapter unless:

- (1) Prior to the transfer or disposition of residential real property, a disclosure of real property condition statement is:
 - (A) Signed by the seller and dated within six months of the acceptance of an offer to purchase; and
 - (B) Delivered to the buyer as provided in section -5;
- (2) The buyer is afforded a reasonable opportunity to examine the statement as provided in section -5; and
- (3) The buyer acknowledges receipt of the statement on the real estate purchase contract in any addendum attached to the contract, or in a separate document, and indicates in writing any rescission of the offer.

§ **-5 Delivery of disclosure of real property condition statement to buyer; procedures.** (a) No later than ten calendar days from acceptance of an offer to purchase real property subject to this chapter, a seller, either directly or through the seller's agent, shall provide the statement to the buyer.

(b) Upon receipt of the statement, the buyer shall have fifteen calendar days to:

- (1) Examine the statement; or
- (2) Rescind the offer to purchase real property;

subject to this chapter. The buyer shall indicate in writing to the seller or through the seller's agent any rescission of the offer. Any rescission of the offer made pursuant to this subsection shall be without loss of deposits to the buyer. Furthermore, all deposits shall be immediately returned to the buyer.

(c) The seller and buyer, in writing, may agree to reduce or extend the time period provided for the delivery or examination and rescission period. The language in this subsection shall be included in the receipt for the statement.

§ **-6 Later discovered inaccurate information.** Within the time period as provided in section -17, a buyer who receives a statement that fails to disclose material facts or defects, or contains an inaccurate assertion that an item is not applicable, and who was not aware of the foregoing failures or inaccuracies, shall indicate in writing an election to rescind the real estate purchase contract within fifteen calendar days of the discovery or receipt of an amended corrected statement, in the manner provided by subsections -5(b) or (c). The buyer may pursue all additional remedies provided by law.

§ **-7 Seller's agent's duties and responsibilities for disclosure.** (a) Any person or entity, other than a real estate licensee, acting in the capacity of an

escrow agent for the transfer or disposition of real property subject to this chapter, shall not be deemed the agent of the seller or buyer for purposes of the disclosure requirements of this chapter unless the seller or buyer and the escrow agent agree in writing to the establishment of the agency.

(b) When a seller's agent cannot obtain the statement and does not have written assurances from the buyer that the statement was received, the seller's agent shall provide a written notice to the buyer of the rights to the statement and rights of rescission provided by this chapter. The seller's agent responsible for delivering the statement shall maintain a record of the action taken to effect compliance.

(c) If the seller's agent's inspection of the residential real property reveals facts inconsistent with or contradictory to the disclosure of the real property condition statement or the inspection report of a third party, the seller's agent shall disclose these facts to the seller, the buyer, and their agents.

§ -8 Excluded facts from the disclosure of real property condition statement. Except as otherwise provided by law the following material facts may be excluded from the statement:

- (1) An occupant of the subject property was afflicted with acquired immune deficiency syndrome (AIDS) or AIDS related complex (ARC), or had been tested for human immunodeficiency virus (HIV);
- (2) The real property was the site of an act or occurrence that had no effect on the physical structure or the physical environment of the real property, or the improvements located on the real property; or
- (3) A homicide, felony, or suicide occurred on the real property more than three years before the date the seller signed the statement.

§ -9 Good faith in preparing the disclosure of real property condition statement. (a) A seller or the seller's agent shall prepare the disclosure of real property condition statement in good faith. A buyer shall have no cause of action against a seller or seller's agent for, arising out of, or relating to the providing of a statement when the statement is prepared with due care and in good faith. For purposes of this section, "good faith" includes honesty in fact in the investigation, research, and preparation of the statement and includes information on the following:

- (1) Facts based on only the seller's personal knowledge;
- (2) Facts provided by governmental agencies and departments;
- (3) Reports prepared for the seller by a:
 - (A) Licensed engineer;
 - (B) Land surveyor;
 - (C) Geologist;
 - (D) Wood-destroying insect control expert; or
 - (E) Contractor, or other home inspection expert;
 dealing with matters within the scope of the professional's license or expertise for the purpose of the disclosure of real property condition statement; and
- (4) An approximation of the information, when material information required to be disclosed is unknown or not available to the seller, and the seller or seller's agent make reasonable efforts to ascertain the information; provided the approximation is:
 - (A) Clearly identified as an approximation;
 - (B) Reasonable;

- (C) Based on the best information available to the seller or seller's agent; and
- (D) Not used for the purpose of circumventing or evading the requirements of this chapter.

(b) The representations contained in the disclosure of a real property condition statement shall be construed to be made only to, and to be used only by, a buyer whose identity has been made known to the seller, a lending institution, or an escrow company involved in processing a real estate purchase contract.

§ **-10 Absentee owners and disclosure.** A seller who has not lived in the property for at least one hundred eighty days prior to the date of receiving an offer may issue a disclaimer that the seller does not have the requisite personal knowledge to make accurate disclosures about the real property, or provide a statement subject to section -9(a)(4). The seller and the buyer may agree to:

- (1) Substitute an inspection report by a home inspector, licensed contractor, or licensed appraiser covering the same matters as would have been included in a statement; or
- (2) Waive the applicability of section -4 in writing.

§ **-11 Disclosure forms.** The form for the statement shall include at least the following:

- (1) A notice to buyer and seller that the parties may wish to obtain professional advice and inspections of the property;
- (2) A notice to the buyer that the information contained in the statement is the representation of the seller and not the representation of the seller's agent; and
- (3) A notice of the buyer's rescission rights pursuant to this chapter.

§ **-12 Indication of receipt of condition statement.** (a) The seller and buyer shall indicate receipt of the seller's disclosure of real property condition statement on the real estate purchase contract, in any addendum attached to the contract, or in a separate document.

(b) Receipts taken for the disclosure of real property condition statement shall be kept on file in possession of the seller, seller's agent, or escrow company, for a period of three years from the date the receipt was taken.

§ **-13 Subsequent material facts.** Information in a statement that becomes inaccurate as a result of an act or agreement after the statement is provided to the buyer does not violate this chapter. However, the seller is required to provide an amended statement to the buyer within ten calendar days after the discovery of the inaccuracy.

§ **-14 Additional disclosure requirements.** The requirements of this chapter are in addition to all other disclosure obligations required by law relating to the transfer or disposition of residential real property.

§ **-15 Notification required; ambiguity.** (a) When residential real property lies:

- (1) Within the boundaries of a special flood hazard area as officially designated on Flood Insurance Administration maps promulgated by the United States Department of Housing and Urban Development for the purposes of determining eligibility for emergency flood insurance programs;

- (2) Within the boundaries of the noise exposure area shown on maps prepared by the department of transportation in accordance with Federal Aviation Regulation Part 150-Airport Noise Compatibility Planning (14 Code of Federal Regulations Part 150) for any public airport;
- (3) Within the boundaries of the Air Installation Compatibility Use Zone of any Air Force, Army, Navy, or Marine Corps airport as officially designated by military authorities; or
- (4) Within the anticipated inundation areas designated on the department of defense's civil defense tsunami inundation maps;

subject to the availability of maps that designate the four areas by tax map key (zone, section, parcel), the seller shall include such material fact information in the statement provided to buyers subject to this chapter. Each county shall provide, where available, maps of its jurisdiction detailing the four designated areas specified in this subsection. The maps shall identify the properties situated within the four designated areas by tax map key number (zone, section, parcel) and shall be of a size sufficient to provide information necessary to serve the purposes of this section. Each county shall provide legible copies of the maps and may charge a reasonable copying fee.

(b) When it is questionable whether real property lies within any of the designated areas referred to in subsection (a) due to the inherent ambiguity of boundary lines drawn on maps of large scale, the ambiguity shall be construed in favor of the seller provided a good faith effort has been made to determine the applicability of subsection (a) to the subject real property.

(c) Nothing in this section shall affect the validity of title to real property transferred, based solely on the reason that any seller or seller's agent failed to conform to the provisions of this section.

§ **-16 Remedies; voidable contracts.** (a) A buyer may elect to complete the purchase of real property even if the seller fails to comply with the requirements of this chapter.

(b) When the buyer is provided a timely good faith disclosure of real property condition statement and the buyer decides to rescind the real estate purchase contract, the buyer is limited in damages to the return of all deposits.

(c) When the seller negligently fails to provide the required disclosure of real property condition statement pursuant to this chapter, the seller shall be liable to the buyer for the amount of the actual damages suffered as a result of the negligence.

(d) When the seller willfully violates this chapter, or fails to perform a duty required by this chapter, the seller is liable to the buyer for up to three times the actual damages suffered by the buyer as a result of the violation or failure.

(e) In addition to the remedies allowed under subsections (b), (c), or (d), a court may also award the buyer attorney fees, court costs, and administrative fees.

§ **-17 Limitation of actions.** (a) Any action brought under this chapter shall commence within two years from the date the buyer received the statement; provided that if no statement was delivered to the buyer, then the action shall commence within two years of the recorded sale or occupancy; except where the parties have agreed in writing that the disclosures required by this chapter shall be waived.

(b) This chapter supersedes all other laws relating to the time for commencement of actions for failure to make the disclosures required by this chapter.

§ -18 **Arbitration or mediation.** Prior to filing an action in a higher court to enforce the provisions of this chapter, a seller or buyer shall first submit the claim to arbitration pursuant to chapter 658 or mediation. However, it is not the intent of this section to limit the buyer's remedies pursuant to this chapter.

§ -19 **Severability.** If any provision of this chapter, or the application thereof to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application, and to this end the provision of this chapter are severable.

§ -20 **Penalty.** Any person who violates this chapter shall be liable for a civil penalty of \$1,000 to the buyer and actual damages of the buyer, if any, reasonable attorneys' fees, court costs, and administrative fees, in addition to any other remedies pursuant to this chapter and provided by law."

SECTION 3. Section 467-31, Hawaii Revised Statutes, is repealed.

SECTION 4. This Act shall not affect rights and duties that matured, penalties that were incurred, and proceedings that were begun, before its effective date.

SECTION 5. Statutory material to be repealed is bracketed.¹

SECTION 6. This Act shall take effect on July 1, 1995.

H.B. NO. 1712

A Bill for an Act Relating to Electricians.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. In light of the increased complexity created by technological advances in the electrical trade and corresponding updates to the National Electrical Code, the legislature finds that there is a need to require electricians licensed by the State to demonstrate continued competency in their profession as a condition for subsequent relicensing. For experienced electricians, successful completion of appropriate coursework related to current updates of the National Electrical Code would satisfy the continued competence requirement. The legislature finds that this method is the most effective means of ensuring continued competence for experienced electricians. Alternatively, for newly licensed electricians, the legislature finds that successful completion of a test is more appropriate and consistent with current training and educational practices in this field and the anticipated increases in the volume and complexity of future updates to the National Electrical Code requirements.

The purpose of this Act is to implement continued competency requirements for the relicensing of electricians to ensure the public's health and safety.

SECTION 2. Chapter 448E, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§448E- Continued competency; license renewals. Effective July 1, 1996, all journeyworker electricians, journeyworker industrial electricians, journeyworker specialty electricians, supervising electricians, supervising industrial electricians, and supervising specialty electricians licensed by the board prior to June 30, 1996, shall furnish the board with proof of attendance at an educational course related to current updates of the National Electrical Code conducted by the community colleges, prior to each license renewal, and all such electricians licensed by the board after June 30, 1996, shall successfully complete an examination prescribed by the board on current updates to the National Electrical Code prior to each license renewal. The board shall contract with a professional testing agency to prepare, administer, and grade the examination. Fees related to the examination shall be paid by the licensee directly to the profession testing agency."

SECTION 3. Section 448E-4, Hawaii Revised Statutes, is amended to read as follows:

"§448E-4 Powers and duties of board. In addition to any other powers and duties authorized by law, the board shall have all the powers and duties necessary or convenient to [carry out and] effectuate [the purposes and provisions of] this chapter, including[, without limitation,] but not limited to the following powers and duties:

All rules shall be adopted pursuant to chapter 91. The]; provided that the rules may forbid acts or practices deemed by the board to be detrimental to the accomplishment of the purpose of this chapter;
- (3) To enforce this chapter and rules adopted pursuant [thereto] to this chapter and chapter 91, including the denial, suspension, or revocation of any license; and
- (4) To examine all applicants and licensees to determine their qualifications prior to the issuance or renewal of licenses."

SECTION 4. Section 448E-8, Hawaii Revised Statutes, is amended to read as follows:

"§448E-8 Fees; [biennial] renewals. [The biennial renewal fee] Renewal fees shall be paid to the board before July 1 [of each even-numbered year].

Electricians shall renew the license every three years effective with the July 1, 1996, renewal; provided that the applicant shall pay all required fees prior to the renewal of the license; and provided further that the applicant shall meet the requirements prescribed in section 448E-_____. Failure, neglect, or refusal of any licensee to either pay the [biennial] renewal fee, or in the case of an electrician to meet the requirements of section 448E-_____, before [such] the renewal date shall constitute a forfeiture of the license. Any license so forfeited may be restored upon written application [therefor] within one year from [that] the date [and the] of forfeiture, upon payment of the required renewal fee plus [an amount equal to ten per cent thereof.] penalty fees, and for electricians, meeting the requirements in section 448E-_____.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Legislative findings and purpose. The legislature finds that Hawaii's marriage licensing laws were originally and are presently intended to apply only to male-female couples, not same-sex couples. This determination is one of policy. Any change in these laws must come from either the legislature or a constitutional convention, not the judiciary. The Hawaii supreme court's recent plurality opinion in *Baehr v. Lewin*, 74 Haw. 530, 852 P.2d 44 (1993), effaces the recognized tradition of marriage in this State and, in so doing, impermissibly negates the constitutionally mandated role of the legislature as a co-equal, coordinate branch of government.

In *Baehr v. Lewin*, the Hawaii supreme court was asked to review whether the refusal of the department of health to issue marriage licenses to same-sex couples violated the couples' constitutional rights, inter alia, the right to equal protection of the laws under Article I, section 5 of the Hawaii Constitution. The court, in analyzing section 572-1, declared that its plain language restricted the marital relation to a male and a female. The court held that section 572-1, on its face, discriminated on the basis of sex against the same-sex couples in the exercise of the civil right of marriage, thereby implicating the equal protection clause of the Hawaii Constitution.

The court in *Baehr* further held that sex was a suspect category for purposes of equal protection analysis, thereby subjecting section 572-1 to strict scrutiny. Under strict scrutiny analysis, a statute is presumed to be unconstitutional unless compelling state interests are shown which justify the statute's impermissible classification. The court therefore held that section 572-1 is presumed to be unconstitutional unless the State can show that: (1) the statute's sex-based classification is justified by compelling state interests; and (2) the statute is narrowly drawn to avoid unnecessary abridgments of the same-sex couples' constitutional rights.

Although the Hawaii supreme court has the right to pass on the constitutionality of section 572-1, Hawaii Revised Statutes, the question before the court in *Baehr* was and is essentially one of policy, thereby rendering it inappropriate for judicial response. Policy determinations of this nature are clearly for nonjudicial discretion, and are more properly left to the legislature or the people of the State through a constitutional convention. Contrary to the plurality's assertion

that it was not engaging in judicial legislation, the court's intervention in this matter encroaches on the functions of the legislature in its law-making function, thereby impinging on the separation of powers of the respective branches of government.

Separation of powers is necessary for the functional division of governmental power that is the foundation of our constitutional democracy. The Hawaii state legislature, as the elected representatives of the people of the State of Hawaii, is, along with the executive branch, the appropriate source of major policy initiatives. The Hawaii supreme court in *Baehr* has in effect substituted its own judgment for the will of the people of this State. Deferral of this matter to the legislature therefore would have expressed the respect due a coordinate branch of government.

In addition to the plurality's failure to defer to the policy judgment of the legislature, the court also failed to afford sufficient weight to the strong presumption that every statute is constitutional. In the view of the legislature, the parties in *Baehr* challenging the constitutionality of section 572-1, Hawaii Revised Statutes, failed to overcome this presumption.

The plurality in *Baehr* relied on the observation in *Loving v. Virginia*, 388 U.S. 1, 87 S. Ct. 1817, 18 L. Ed. 2d 1010 (1967), that any state's powers to regulate marriage are subject to the constraints imposed by the constitutional right to the equal protection of the laws. However, as the dissent in *Baehr* correctly points out, the plaintiff in *Loving* was not claiming a right to a same-sex marriage, but instead involved a marriage between a white male and a black female whose marriage was refused recognition under Virginia's miscegenation laws. The United States Supreme Court in *Loving* relied on the Fourteenth Amendment to the United States Constitution in holding that Virginia's statute containing a race-based classification violated the equal protection of the laws.

The Fourteenth Amendment, a post-Civil War amendment added to the Constitution in 1868, was designed to expand the Thirteenth Amendment as the basis for federal civil rights authority, and was also aimed at forcing southern compliance with newly established political rights for blacks. The language of the Fourteenth Amendment not only reversed the citizenship holding in *Dred Scott v. Sandford*, 60 U.S. (19 How.) 393, 15 L. Ed. 691 (1857), but allowed federal authority to be used to protect and advance the civil rights of black citizens. The Supreme Court later held in *Brown v. Board of Education of Topeka*, 347 U.S. 483, 74 S. Ct. 686, 98 L. Ed. 2d 873 (1954), that racial segregation in public schools imposed by law violated the Fourteenth Amendment's equal protection clause.

The United States Supreme Court in *Loving* made clear that the Fourteenth Amendment was intended to eliminate racial discrimination, and that restricting the freedom to marry solely because of racial classifications violated the central meaning of the equal protection clause. In contrast, the Hawaii supreme court in *Baehr* has interpreted Article I, section 5 in a manner not intended by the framers of Hawaii's Constitution, by analyzing the equal protection issue presented in that case in terms of sexual orientation or preference classifications in place of gender classifications. The plurality's reliance on the *Loving* decision in *Baehr* is therefore inapposite to its interpretation of Article I, section 5, of the Hawaii Constitution with respect to same-sex marriages. Although the State of Hawaii clearly has the power to regulate marriages in the State, which in turn is subject to the constraints imposed by the right to equal protection of the laws, the invalidation of the race-based classification in *Loving* is simply not parallel to the sex-based classification in *Baehr*.

The Hawaii Constitution's equal protection clause differs from that of the United States Constitution in part by the former's inclusion of the word "sex". Article I, section 5 provides in pertinent part that "[n]o person shall be ... denied the equal protection of the laws, nor be denied the enjoyment of the person's civil rights or be discriminated against in the exercise thereof because of ... sex" The Baehr Court correctly points out that, by its plain language, this section "prohibits state-sanctioned discrimination against any person in the exercise of his or her civil rights on the basis of sex". *Id.*, slip op. at 29. However, the plurality's subsequent interpretation of the word "sex" in this context demonstrates that although the opinion purports to express the word "sex" in terms of "gender", in reality the court misinterprets the word "sex", in the context of Article I, section 5, in terms of "sexual orientation" or "sexual preference". This interpretation was not intended by the framers of Hawaii's Constitution.

The word "sex" was included in the equal protection clause in Hawaii's Constitution as adopted by the people of the State in 1950. No discussion was made regarding inclusion of this word in the testimony or other minutes of the first Constitutional Convention. The only other reference to "sex" in the Constitution is in Article I, section 3 of the Hawaii Constitution, Hawaii's version of the equal rights amendment adopted in 1972, which provides in relevant part that "[e]quality of rights under the law shall not be denied or abridged by the State on account of sex." The legislative history of this amendment analyzes this word in terms of gender rather than sexual orientation:

Your Committee believes all persons are free by nature and are equal in their inherent and inalienable rights. ... These rights cannot endure unless women along with men recognize and possess their corresponding obligations, responsibilities, and privileges equally. It is the affirmative duty of the people through their elected representative to ensure that no person shall be discriminated for so long as the precept of our government, the equality of all people, outweighs the purpose of distinguishing that person by class.

Standing Committee Report No. 394-72 (Judiciary) on S.B. No. 1408-72. During the latest Constitutional Convention in 1978, there was no debate regarding the word "sex" in Article I, section 5. If the delegates to the respective conventions had intended "sex" to mean "sexual orientation", there most likely would have been a lively discussion on this issue. The fact that there is no debate at all on this issue lends strong credence to the implication that "sex" meant "gender".

In addition, in enacting legislation prohibiting discrimination on the basis of sex, the legislature distinguishes between sex (in the sense of "gender") and sexual orientation. For example, in section 368-1, Hawaii Revised Statutes, the legislature found that the practice of discrimination because of "race, color, religion, age, sex, sexual orientation, marital status, national origin, ancestry, or disability in employment, housing, public accommodations, or access to services receiving state financial assistance is against public policy." See also sections 42D-3(2) and 378-2(1), Hawaii Revised Statutes.

Viewed from this context, it is apparent that section 572-1, Hawaii Revised Statutes, and all of Hawaii's marriage licensing statutes, do not deny equal protection of the laws under Article I, section 5 of the Hawaii Constitution. There simply is no class of individuals under that section that have been discriminated against in relation to another group of similarly situated individuals. Because all men and all women are treated alike by section 572-1, there is no sex- (i.e., gender-) based classification.

The legislature finds that the prohibition against discrimination on the basis of sex in Article I, section 5 of the Hawaii Constitution is for the purpose of protecting gender equality. In other words, “sex” means gender, not sexual orientation, for purposes of both the marriage licensing statutes and Article I of the Hawaii Constitution. The court in Baehr, in analyzing the equal protection issue presented in that case in terms of sexual orientation or preference classifications rather than gender classifications, impermissibly expanded the intention of that word as it appears both in the marriage statutes and the Constitution. This interpretation was not the intent of the framers of Hawaii’s Constitution in 1950, nor has it ever been the intent of the Hawaii legislature. Any change in this purely policy determination lies wholly within the province of the legislature or a constitutional convention.

The legislature further finds that section 572-1, Hawaii Revised Statutes, and all of Hawaii’s marriage licensing statutes, as originally enacted, were intended to foster and protect the propagation of the human race through male-female marriages. This original intent was acknowledged by the court in Baehr in its discussion of the fundamental right to marry:

The United States Supreme Court first characterized the right of marriage as fundamental in *Skinner v. Oklahoma ex rel. Williamson*, 316 U.S. 535, 62 S. Ct. 1110, 86 L. Ed. 1655 (1942). In *Skinner*, the right to marry was inextricably linked to the right of procreation. The dispute before the Court arose out of an Oklahoma statute that allowed the state to sterilize “habitual criminals” without their consent. In striking down the statute, the *Skinner* court indicated that it was dealing ... with legislation which involve[d] one of the basic civil rights of man. Marriage and procreation are fundamental to the very existence and survival of the race.” *Id.* at 5441, 62 S. Ct. at 1113...

Baehr v. Lewin, slip op. at 18-19 (emphasis added). In addition, the Hawaii supreme court expressed the same sentiments by quoting with approval from the United States Supreme Court’s opinion in *Zablocki v. Redhail*, 434 U.S. 374, 98 S. Ct. 673, 54 L. Ed. 2d 618 (1978):

Long ago, in *Maynard v. Hill*, 125 U.S. 190, 8 S. Ct. 723, 31 L. Ed. 654 (1888), the Court characterized marriage as “the most important relation in life,” *id.*, at 205, 8 S. Ct., at 726, and as “the foundation of the family and of society, without which there would be neither civilization nor progress,” *id.*, at 211, 8 S. Ct., at 729. In *Meyer v. Nebraska*, 262 U.S. 390, 434 S. Ct. 625, 67 L. Ed. 1042 (1923), the Court recognized that the right “to marry, establish a home and bring up children” is a central part of the liberty protected by the Due Process Clause ...

Id., slip op. at 20 (citations omitted).

Although the Court in Baehr cited these United States Supreme Court opinions in the context of rejecting the contention that the right to marry, as protected by Article I, section 6 of the Hawaii Constitution, extends to same-sex couples, the United States Supreme Court’s underlying rationale for the enactment of marriage licensing laws in general applies equally to Hawaii’s marriage licensing statutes. As the plurality in Baehr stated, “the least that can be said is that [the *Skinner* Court] was obviously contemplating unions between men and women when it ruled that the right to marriage was fundamental.” *Id.*, slip op. at 19.

Consistent with the traditional definition of marriage — man and woman — as acknowledged in Baehr, at the present time neither this State, nor any of the other states, sanctions by statute any marriage configuration other than unions between men and women.

The legislature notes that section 572-1 was amended by Act 119, Session Laws of Hawaii 1984, by deleting the requirement that marriage applicants show that they are not impotent or not physically incapable of entering into a marriage. The intent of this amendment was to remove any impediment that may have prevented persons who were physically handicapped or elderly, or who had temporary physical limitations, from entering into a valid marriage. This amendment, however, does not detract from the original purpose of section 572-1. As such, the statute's sex-based classification is clearly designed to promote this legislative purpose and bears a reasonable relationship to that purpose.

The legislature finds that Hawaii's marriage licensing statutes, both as originally enacted and at present, are intended to apply only to male-female couples, not same-sex couples. The Court in Baehr has effectively usurped the role of the Hawaii state legislature on this issue by substituting its own policy judgment for that of the people of Hawaii. The legislature stresses that since the determination of the nature of the marital relationship, together with its rights and benefits, falls more appropriately within the province of the legislature as one of policy, this issue is more properly dealt with in the legislative rather than judicial forum. Under the principle of separation of powers, the Court therefore should have deferred to the legislature in its determination and interpretation of the marriage contract.

The purpose of this Act is to:

- (1) Emphasize that expanding the definitions of "sex" in Article I, section 5, of the Hawaii Constitution and "marriage" in chapter 572, Hawaii Revised Statutes, is a policy question within the exclusive purview of legislative bodies, to wit, the legislature or the constitutional convention and not the courts;
- (2) Expressly reiterate the original intent of the legislature in enacting section 572-1, Hawaii Revised Statutes, that that section, and all of Hawaii's marriage licensing statutes, both originally and presently are intended to apply only to male-female, not same-sex couples, and that this application of the statute is consistent with Article I, section 5, of the Hawaii Constitution; and
- (3) Understanding that same-sex relationships do exist:
 - (A) Provide assurances consistent with Article I, section 4, of the Hawaii Constitution that the laws of the State do not prohibit religious organizations from solemnizing same-sex relationships; and
 - (B) Provide for the establishment of a commission on sexual orientation and the law to conduct a study and present a report of its findings to the legislature prior to the convening of the regular session of 1995.

In reviewing or interpreting section 572-1, or any of Hawaii's marriage licensing statutes, the judiciary is directed to review and interpret those statutes in light of these legislative findings.

SECTION 2. Chapter 572, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§572- Definition of marriage. Whenever used in the statutes or other laws of Hawaii, “marriage” means the union licensed under section 572-1.”

SECTION 3. Section 572-1, Hawaii Revised Statutes, is amended to read as follows:

“§572-1 Requisites of valid marriage contract. In order to make valid the marriage contract, which shall be only between a man and a woman, it shall be necessary that:

- (1) The respective parties do not stand in relation to each other of ancestor and descendant of any degree whatsoever, brother and sister of the half as well as to the whole blood, uncle and niece, aunt and nephew, whether the relationship is legitimate or illegitimate;
- (2) Each of the parties at the time of contracting the marriage is at least sixteen years of age; provided that with the written approval of the family court of the circuit within which the minor resides, it shall be lawful for a person under the age of sixteen years, but in no event under the age of fifteen years, to marry, subject to section 572-2;
- (3) The man does not at the time have any lawful wife living and that the woman does not at the time have any lawful husband living;
- (4) Consent of neither party to the marriage has been obtained by force, duress, or fraud;
- (5) Neither of the parties is a person afflicted with any loathsome disease concealed from, and unknown to, the other party;
- (6) [It shall in no case be lawful for any person to marry in the State without] The man and woman to be married in the State shall have duly obtained a license for that purpose [duly obtained] from the agent appointed to grant marriage licenses; and
- (7) The marriage ceremony be performed in the State by a person or society with a valid license to solemnize marriages and the man and the woman to be married and the person performing the marriage ceremony be all physically present at the same place and time for the marriage ceremony.”

SECTION 4. Section 572-3, Hawaii Revised Statutes, is amended to read as follows:

“§572-3 Contracted without the State. Marriages between a man and a woman legal in the country where contracted shall be held legal in the courts of [the] this State.”

SECTION 5. Chapter 572, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§572- Private solemnization not unlawful. Nothing in this chapter shall be construed to render unlawful, or otherwise affirmatively punishable at law, the solemnization of same-sex relationships by religious organizations; provided that nothing in this section shall be construed to confer any of the benefits, burdens, or obligations of marriage under the laws of Hawaii.”

SECTION 6. There is created, effective upon approval of this Act, a commission on sexual orientation and the law. The commission shall consist of

eleven members, ten appointed by the governor of the State of Hawaii, of which two shall be representatives from the Hawaii Civil Rights Commission; two shall be representatives from the American Friends Service Committee; two shall be representatives from the Catholic Church diocese; two shall be representatives from the Church of Latter-Day Saints; two shall be representatives from the Hawaii Equal Rights Marriage Project; and an eleventh member, who shall be the chairperson of the family law section of the Hawaii State Bar Association as of January 1, 1994, who shall serve as chairperson of the commission. Should the chairperson of the family law section of the Hawaii State Bar Association decline to serve, the president of the senate and the speaker of the house of representatives shall choose, at their joint discretion, a person with expertise in the law of domestic relations to serve as chairperson of the commission. The members of the commission shall serve without compensation and the commission shall be attached for administrative purposes to the legislative reference bureau, which shall provide staff support to the commission. The purpose of the commission shall be to:

- (1) Examine the precise legal and economic benefits extended to opposite-sex couples, but not to same-sex couples;
- (2) Examine whether substantial public policy reasons exist to extend such benefits to same-sex couples and the reasons therefor; and
- (3) Recommend appropriate action which may be taken by the legislature to extend such benefits to same-sex couples.

The commission shall submit a report on its findings to the legislature no later than twenty days prior to the convening of the 1995 regular session.

SECTION 7. Statutory material to be repealed is bracketed. New statutory material is underscored.¹

SECTION 8. This Act shall apply retroactively to any marriage license application pending on the effective date of this Act, or which has been rejected by the department of health before the effective date of this Act.

SECTION 9. This Act shall take effect upon its approval.

A Bill for an Act Relating to the Issuance of Special Purpose Revenue Bonds to Assist an Industrial Enterprise.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that although fuel-grade ethanol, produced from the fermentation of agricultural or municipal solid waste by-products, has demonstrated its value as a clean, safe, and economical alternative to petroleum, Hawaii continues to depend almost entirely upon imported petroleum-based fuels to fulfill its transportation and electrical energy needs. The legislature further finds that with the decline of the sugar industry in the State, vast areas of agricultural land along with an experienced agricultural work force will, in all likelihood, become severely underutilized in the near future. Provided with the necessary financial assistance to establish a facility to demonstrate the viability of the technology, the ethanol production industry will provide the State with an alternative energy product which would reduce Hawaii's dependence upon imported petroleum, as well as assist in the revival of the State's agricultural economy. For the foregoing reasons, the legislature finds and declares that the issuance of special purpose revenue bonds and refunding special purpose revenue bonds under this Act is in the public interest and is beneficial to the public's health, safety, and general welfare.

Energy Associates of Hawaii, Inc., proposes that all public and private parties and organizations involved cooperate in expediting the building of a demonstration plant for the production of fuel-grade ethanol using the hemicellulose portion of bagasse as feedstock. Energy Associates of Hawaii, Inc., through its association with BioEnergy International, L.C. (a Quadrex Company) of Florida, will manage the ethanol facilities and provide the technology required. The legislature finds that Energy Associates of Hawaii, Inc., is an industrial enterprise meeting the qualifications for special purpose revenue bond assistance under chapter 39A, part V, Hawaii Revised Statutes. The special purpose revenue bonds authorized under this Act will provide low interest-rate bond financing for the construction of a demonstration fuel-grade ethanol production plant in Hamakua, Hawaii, or in Kau, Hawaii, or in Waialua, Oahu, or in any other appropriate location in the State.

SECTION 2. Pursuant to part V, chapter 39A, Hawaii Revised Statutes, the department of budget and finance, with the approval of the governor, is authorized to issue special purpose revenue bonds in one or more series in a total amount not to exceed \$25,000,000, for the construction of a demonstration fuel-grade ethanol production plant in Hamakua, Hawaii, or in Kau, Hawaii, or in Waialua, Oahu, or in any other appropriate location in the State.

SECTION 3. The department of budget and finance shall submit an annual report to the legislature of the progress made under this Act in reducing the financial costs of the construction of a demonstration fuel-grade ethanol production plant in Hamakua, Hawaii, or in Kau, Hawaii, or in Waialua, Oahu, or in any other appropriate location in the State. The report shall include:

- (1) The cost of the bonds at the time of issuance as compared to the cost of the undertaking if the undertaking was financed through other means;

- (2) The estimated benefits derived from the use of the special purpose revenue bonds; and
- (3) A description of the undertaking to be funded by the special purpose revenue bonds.

SECTION 4. The department of budget and finance is authorized to issue from time to time, refunding special purpose revenue bonds in whatever principal amounts the department shall determine to be necessary to refund the special purpose revenue bonds authorized in section 2, and any refunding special purpose revenue bonds authorized in this section, regardless of whether the outstanding special purpose revenue bonds or refunding special purpose revenue bonds have matured or are the subject of redemption, and the refunding special purpose revenue bonds shall be bonds for the multi-project programs described in section 2. In making this determination, the department shall comply with federal law relating to the exemption from federal income taxation of the interest on bonds of the nature authorized under this Act.

SECTION 5. The special purpose revenue bonds and the refunding special purpose revenue bonds issued under this Act shall be issued pursuant to chapter 39A, part V, Hawaii Revised Statutes, pertaining to the power to issue special purpose revenue bonds and refunding special purpose revenue bonds to assist industrial enterprises serving the general public.

SECTION 6. The authorization to issue special purpose revenue bonds under this Act shall lapse on June 30, 1997.

SECTION 7. This Act shall take effect upon its approval.

H.B. NO. 3017

A Bill for an Act Relating to No-Fault Insurance.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Section 431:10C-308.6, Hawaii Revised Statutes, is amended by amending subsection (d) to read as follows:

“(d) A provider may request prior approval from the insurer for treatment exceeding the workers’ compensation schedules or treatment guidelines. The request shall include a treatment plan with a time schedule of measurable objectives and an estimate of the total cost of services. The insurer shall respond to such a request within five working days of mailing of the request, giving authorization or stating in writing the reasons for refusal to the provider and the insured. Any such refusal shall be filed concurrently for submission to the peer review organization. Failure by the insurer to respond within five working days shall constitute approval of the treatment. If the request for submission to the peer review organization is timely received, the injured claimant shall be entitled to continued health care services requested up to the date of the peer review organization decision.”

ACT 221

SECTION 2. Section 431:10C-308.6, Hawaii Revised Statutes, is amended by amending subsection (j) to read as follows:

“(j) If a peer review organization determines that a provider has provided treatment or rehabilitative services that are not appropriate or reasonable or that future provision of such treatment or rehabilitative services will not be appropriate or reasonable, or both, the provider shall not collect payment for the inappropriate or unreasonable treatment or rehabilitative services from either the insurer or the insured[.], and if the provider has collected payment for the inappropriate or unreasonable treatment or rehabilitative services, the provider shall refund to the insurer or insured all amounts paid for the inappropriate or unreasonable treatment or rehabilitative services; provided that such repayment shall be enforced by a mechanics lien. The peer review organization shall report all such decisions to the regulated industries complaints office of the department of commerce and consumer affairs. In no case shall the failure of a provider to return any payment made by the insurer for treatment or services determined to be inappropriate or unreasonable obligate the insured to reimburse the insurer for the payment.”

H.B. NO. 3303

A Bill for an Act Relating to Used Motor Vehicles.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The Hawaii Revised Statutes is amended by adding a new chapter to be appropriately designated and to read as follows:

**"CHAPTER
USED MOTOR VEHICLE SALES AND WARRANTIES**

§ **-1 Definitions.** When used in this chapter unless the context otherwise requires:

"Consumer" means the purchaser, other than for purposes of resale, of a used motor vehicle primarily used for personal, family, or household purposes and subject to a warranty, and the spouse or child of the purchaser if the motor vehicle is transferred to the spouse or child during the duration of any warranty applicable to such motor vehicle, and any other person entitled by the terms of such warranty to enforce the obligations of the warranty.

"Dealer" is defined in section 437-1.1.

"Used motor vehicle" means a "motor vehicle" as that term is defined in section 481I-2, which has been purchased or transferred either after one year from the date of original delivery, or after twelve thousand miles of operation, whichever occurs first.

"Warranty" means any undertaking in connection with the sale by a dealer of a used motor vehicle to refund, repair, replace, maintain, or take other action with respect to that used motor vehicle and provided at no extra charge beyond the price of the used motor vehicle.

§ -2 Used motor vehicles: written warranty required, terms. (a)

No used motor vehicle shall be sold in this State by a dealer to a consumer unless accompanied by a written warranty covering the full cost of both parts and labor necessary to repair any defect or malfunction in a part covered under subsection (c) that impairs the used motor vehicle's safety or use. Defects and malfunctions that affect only appearance shall not be deemed to impair safety or use for the purposes of this chapter.

(b) The written warranty shall apply for the following durations:

- (1) For a used motor vehicle which, at the time of sale, has been operated less than twenty-five thousand miles, the warranty shall be a minimum of ninety days or five thousand miles, whichever occurs first. This ninety days or five thousand mile warranty is in addition to any rights the consumer may have under chapter 481I;
- (2) For a used motor vehicle which, at the time of sale, has been operated twenty-five thousand miles or more, but less than fifty thousand miles, the warranty shall be a minimum of sixty days or three thousand miles, whichever occurs first; and
- (3) For a used motor vehicle which, at the time of sale, has fifty thousand miles or more but no more than seventy-five thousand miles, the warranty shall be a minimum of thirty days or one thousand miles, whichever occurs first.

(c) The written warranty shall require the dealer or its agent to repair or, at the election of the dealer, reimburse the consumer for the reasonable costs of repairing the failure of a covered part. Covered parts shall at least include the following items:

- (1) Engine, including all lubricated parts, water pump, fuel pump, manifolds, engine block, cylinder head, rotary engine housings, flywheel, gaskets, and seals;
- (2) Transmission, including the transmission case, internal parts, torque converter, gaskets, and seals, except four-wheel drive vehicles shall be excluded from coverage as provided for in this paragraph;
- (3) Drive axle, including front and rear drive axle housings and internal parts, axle shafts, propeller shafts, and universal joints, except four-wheel drive vehicles shall be excluded from coverage as provided in this paragraph;
- (4) Brakes, including master cylinder, vacuum assist booster, wheel cylinders, hydraulic lines and fittings, and disc brake calipers;
- (5) Radiator;
- (6) Steering, including the steering gear housing and all internal parts, power steering pump, valve body, piston, and rack; and
- (7) Alternator, generator, starter, and ignition system, excluding the battery.

(d) The written warranty may contain additional language excluding coverage:

- (1) For a defect or malfunction in a part caused by a lack of customary maintenance after the vehicle is sold;
- (2) For a defect or malfunction in a part caused by collision, abuse, negligence, theft, vandalism, fire, or other casualty, and for damage from the environment, including but not limited to windstorms, hurricanes, and lightning;
- (3) If the odometer has been stopped or altered such that the vehicle's actual mileage cannot be readily determined or a part has been altered in a manner which caused it to fail;
- (4) For a motor tuneup;
- (5) For maintenance services and the parts used in connection with such services such as seals, gaskets, oil, or grease unless required in connection with the repair of a covered part;
- (6) For a defect or malfunction in a part resulting from racing or other competition;
- (7) For a defect or malfunction in a part caused by towing a trailer or another vehicle unless the used motor vehicle is equipped for this as recommended by the manufacturer;
- (8) If the used motor vehicle is used to carry passengers for hire;
- (9) If the used motor vehicle is rented to someone other than the consumer;
- (10) For repair of valves and rings to correct low compression and oil consumption which are considered normal wear;
- (11) To the extent otherwise permitted by law, for property damage arising or allegedly arising out of the defect or malfunction in a part; and
- (12) To the extent otherwise permitted by law, for loss of the use of the used motor vehicle, loss of time, inconvenience, commercial loss, or consequential damages.

(e) Nothing in this chapter diminishes the obligations of a manufacturer under a warranty issued by the manufacturer. The express warranties created by this section do not require a dealer to repair or replace a covered part if the repair or replacement is covered by a manufacturer's warranty, or the manufacturer otherwise agrees to repair or replace the part.

The terms of the dealer's warranty shall be tolled for any period of time the used motor vehicle is out of service by reason of repair under the manufacturer's warranty.

(f) A consumer shall return a vehicle for repair under this section by presenting it to the dealer prior to the expiration of the applicable warranty period and providing written notice to the dealer of the defect. The dealer shall immediately accept return of a vehicle when it is so presented. The used motor vehicle shall be deemed out of service commencing the day it is presented, notwithstanding any dealer's failure to accept its return on that day.

During the applicable warranty period and the return period, the dealer shall pay the reasonable costs of towing from the point of breakdown up to fifteen miles to obtain the required repairs or to return the vehicle to the dealer.

(g) The term of any warranty established by this section shall be extended by any time period during which:

- (1) The used motor vehicle is in the possession of the dealer or its duly authorized agent for the purpose of repairing the used motor vehicle under the terms and obligations of the warranty;
- (2) Repair services are not available to the consumer because of war, invasion or strike, fire, flood or other natural disaster; or

- (3) The consumer has notified the dealer that a used motor vehicle is inoperable, but cannot reasonably present the vehicle to the dealer and the dealer refuses to pay the charge to tow the vehicle.

(h) The applicable warranty period shall end thirty days from the date of completion of any repair required by this section as to the defect repaired if the warranty would otherwise have expired during this period.

(i) The dealer shall provide to the consumer, each time the consumer's vehicle is returned from being diagnosed or repaired under the warranty, a fully itemized, legible warranty repair receipt indicating any diagnosis made and all work performed on the vehicle, including, but not limited to:

- (1) The defect or malfunction complained of;
- (2) The work performed in an attempt to correct the defect or malfunction and the identity of the repairer if it is not the dealer;
- (3) The parts replaced in performing such work;
- (4) The date and odometer reading when the vehicle was submitted for repair; and
- (5) The date when the vehicle was made available to the consumer. The consumer shall sign a copy of the warranty repair receipt.

(j) A dealer may repair, within the meaning of this section, either by performing the repair itself or, if the dealer does not have a repair facility, by arranging and making payment for prompt repair by a motor vehicle repair dealer registered under chapter 437B.

(k) The dealer shall provide repair or reimbursement notwithstanding the fact that the warranty period has expired, provided that the consumer provides notification to the dealer of the failure of a covered part within the specified warranty period.

§ -3 Disclaimers void; authorized waivers; exemptions; "as is" sales. (a) Any agreement entered into by a consumer for the purchase of a used motor vehicle that waives, limits, or disclaims any of the rights set forth in section -2 shall be void as contrary to public policy. If a dealer fails to give the written warranty required by this chapter, the dealer nevertheless shall be deemed to have given the warranty as a matter of law.

(b) Notwithstanding subsection (a), the consumer may waive a warranty required pursuant to this chapter only as to a particular defect or malfunction which the dealer has disclosed to the consumer. No such waiver shall be effective unless such waiver:

- (1) Is in writing;
- (2) Is conspicuous and is in plain language;
- (3) Identifies the particular disclosed defect or malfunction in the used motor vehicle for which the warranty is to be waived;
- (4) States what warranty, if any, shall apply to the disclosed defect or malfunction; and
- (5) Is signed by both the consumer and the dealer prior to sale.

(c) This chapter shall not apply to:

- (1) Used motor vehicles sold for less than \$1,500;
- (2) Used motor vehicles with over seventy-five thousand miles at the time of sale if the mileage is indicated in writing at the time of sale;
- (3) Used motor vehicles that are five years of age or older, calculated from the first day in January of the designated model year of the vehicle;
- (4) Vehicles that have been custom-built or modified for show purposes or racing; or

- (5) Vehicles which are inoperable and a total loss. For the purpose of this paragraph, a vehicle is a "total loss" only if there is material damage to the vehicle's frame, unitized structure, or suspension system, and the projected cost of repairing the damage exceeds the market value of the vehicle at the time of the incident causing it to be declared a total loss.
- (d) A used motor vehicle may be sold "as is" by a dealer only if it falls within the exemptions set out in this section. No "as is" disclaimer by a dealer shall be enforceable unless all of the following conditions are met:
 - (1) A disclaimer shall appear on the front page of the contract of sale, which shall read as follows:

"AS IS"
 THIS VEHICLE IS SOLD "AS IS".
 YOU WILL HAVE TO PAY FOR ANY REPAIRS NEEDED
 AFTER SALE.
 IF WE HAVE MADE ANY PROMISES TO YOU, THE LAW
 SAYS WE MUST KEEP OUR PROMISES, EVEN IF WE SELL "AS IS".
 TO PROTECT YOURSELF, ASK US TO PUT ALL PROMISES IN WRITING.

- (2) The text of the disclaimer shall be printed in twelve-point boldface type, except the heading, which shall be in sixteen-point extra boldface type. The entire notice shall be boxed.
- (3) The consumer shall sign the consumer's name and the date within the box containing the disclaimer prior to sale. A copy of the signed disclaimer shall be kept by the dealer for a two-year period from the date of the consumer's signature.
- (e) An "as is" sale of a used motor vehicle waives implied warranties but shall not waive any express warranties, either oral or written, upon which the consumer relied in entering into the transaction.
- (f) In selling or offering to sell any used motor vehicle, and in providing the express warranty required by this chapter, a dealer shall comply in all respects with the Federal Trade Commission's "Used Motor Vehicle Trade Regulation Rule," 16 Code of Federal Regulations, part 455.

§ **-4 Disclosure of damages or defects in used motor vehicles.** (a) No dealer may offer for sale any used motor vehicle without first providing:

- (1) Written notice to the prospective consumer of any material mechanical defect in the motor vehicle and any damage sustained by the motor vehicle due to fire, water, collision, or other causes for which the cost of repairs exceeds \$1,000 for parts and labor, when the defect or damage is known to the dealer; and
 - (2) Written notice to the prospective consumer whether the dealer has conducted any inspection of the motor vehicle to determine known defects or damage.
- (b) If a dealer promises that any repairs will be made or any conditions corrected in connection with the purchase of a used motor vehicle, such promises shall be provided in writing and either attached or incorporated into the sales contract.
- (c) For purposes of this section:
- "Known" means that a dealer or the dealer's agent or employee has obtained facts or information about the condition of a motor vehicle which would

lead a reasonable person in similar circumstances to believe that the motor vehicle contained one or more material mechanical defects. The term "known" encompasses knowledge obtained through an inspection, from a previous owner, from the salesperson at an auction or another dealer, or through other means.

"Material mechanical defect" means any defect or malfunction which renders the motor vehicle mechanically unsound or inoperable.

§ -5 **Notices.** (a) The written warranty provided for in section -2 and the written notices provided for in sections -3 and -4 shall be delivered to the consumer at or before the time the consumer signs the sales contract for the used motor vehicle. The warranty and the notice may be set forth on one sheet or on separate sheets. They may be separate from, attached to, or a part of the sales contract. If they are part of the sales contract, they shall be separated from the other contract provisions and each headed by a conspicuous title.

(b) The director of commerce and consumer affairs may adopt rules pursuant to chapter 91 necessary to implement the notice provisions of this chapter. The rules may include the establishment of wording, format, placement, and distribution requirement for all notices specified in this chapter.

(c) The failure of a dealer to provide the warranty or notices required by this chapter or the provision of false or misleading notices or warranties shall constitute prima facie evidence of an unfair or deceptive act under chapter 480.

§ -6 **Failure to honor warranty.** (a) If the dealer or its agent fails to correct a defect or malfunction as required by the warranty specified in section -2 after a reasonable period of time, the dealer shall accept return of the used motor vehicle from the consumer and refund the full purchase price, including sales tax, less a reasonable allowance for any damage not attributable to normal wear or usage, and with an adjustment for any modifications which either increase or decrease the market value of the vehicle. A reasonable allowance for use shall be fifteen cents for each mile the used motor vehicle has been operated between its sale and its return.

(b) It shall be presumed that a dealer has had a reasonable opportunity to correct a defect or malfunction in a used motor vehicle if the dealer fails to repair the same defect or malfunction within three attempts, or if the used motor vehicle is out of service for more than a cumulative total of ten business days after the consumer has returned it to the dealer for repair.

(c) A used motor vehicle shall not be considered out of service for purposes of the ten-business-day period described in subsection (b) for any day in which a part necessary to repair a defect or malfunction complained of is not in the dealer's possession; provided that the dealer has ordered the part by reasonable means on the same day on which the dealer knew or should have known that the part was necessary, except that in no event shall a part's unavailability operate to toll the ten-business-day period for more than twenty-one days. The applicable warranty period shall be extended by the number of days a part is unavailable.

(d) In determining the purchase price to be refunded, the purchase price shall be deemed equal to the sum of the actual cash difference paid for the used motor vehicle, plus return of any vehicles traded in at the time of purchase. If the dealer elects to not return any vehicles traded in by the consumer, or is unable to return such vehicles in substantially the same condition as received from the consumer, the dealer shall pay the consumer the wholesale value of any such traded-in vehicles as listed in the National Automobile Dealers' Association Used Car Guide, or such other guide as may be specified in rules adopted by the director of commerce and consumer affairs pursuant to chapter 91, as adjusted for mileage,

improvements, and any major physical or mechanical defects in the vehicle at the time of trade-in.

(e) The dealer selling the used motor vehicle shall deliver to the consumer a written notice either attached to or within the contract of sale containing conspicuous language indicating that if the consumer should be entitled to a refund pursuant to this section, the value of any vehicle traded in by the consumer will be determined by the method described in subsection (d), rather than the value listed in the sales contract.

(f) Refunds shall be made to the consumer and lienholder, if any, as their interests may appear on the records of ownership kept by the county director of finance.

(g) Alternatively, the dealer may elect to offer to replace the used motor vehicle with a comparably priced vehicle, with such adjustment in price as the parties may agree to. The consumer shall not be obligated to accept a replacement vehicle, but may instead elect to receive the refund provided under this section.

§ -7 Civil and administrative actions for violations. (a) A consumer of a used motor vehicle shall have a private right of action against a dealer to enforce this section and recover costs, including reasonable attorney's fees, incurred in the civil action.

(b) It shall be an affirmative defense to any claim under this section that:

- (1) The alleged malfunction or defect does not substantially impair the use or safety of the used motor vehicle;
- (2) The alleged malfunction or defect is the result of abuse, neglect, or unreasonable modifications or alterations of the used motor vehicle; or
- (3) The alleged malfunction or defect was covered or warranted under an express warranty issued by the manufacturer of the used motor vehicle, and that such warranty issued by the manufacturer of the used motor vehicle was in effect during the warranty period established by this section.

(c) Any private civil action brought pursuant to this section shall be commenced within one year of the date of original delivery of the used motor vehicle to the consumer.

(d) Nothing in this chapter shall in any way limit the rights or remedies which are otherwise available to a consumer under any other law.

(e) A motor vehicle dealer's failure to comply with any of the provisions of this chapter may result in disciplinary action pursuant to chapter 437, which may result in sanctions, including, but not limited to, suspension or revocation of license, and the imposition of fines or restitution."

SECTION 2. This Act shall take effect on January 1, 1995.

ACT 228

H.B. NO. 3600

A Bill for an Act Relating to Housing.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the closure of Hamakua Sugar Company and C. Brewer and Company sugar operations on the Hilo-Hamakua Coast of the Big Island will have significant detrimental impacts on the area's community. One of the important concerns facing Hilo-Hamakua residents relates to their housing needs. Currently, sugar employees, their families, and company retirees reside in approximately four hundred twenty-five plantation homes owned and operated by the Hamakua Sugar Company. With the closing of the company, many of these families will face the prospect of being homeless unless they can continue to reside in the plantation camp housing. Although discussions were initiated regarding the possibility of a state or county entity assuming responsibility over the plantation camp houses, no final determination has been made.

The four hundred twenty-five housing units are situated within eight major plantation camps spread out over twenty-five miles along the Hamakua coast. These plantation camps are over fifty years old and are served by substandard roads and water and sewage disposal systems. Due to the age of the camps and the deteriorating condition of much of their infrastructure, it will be a substantial challenge to continue to provide the necessary services and maintain basic public health and safety.

Employees who purchased their own homes are also concerned about their housing situation. With the imminent loss of their jobs, many employees will undergo a transition period as they seek new employment, participate in job training programs, or seek other opportunities. While incomes may be greatly diminished, these employees must continue to make their home mortgage payments and meet other living expenses. Many of these employees or former employees in transition would not be able to qualify for a loan under conventional loan-writing standards.

The purpose of this Act is to address the housing needs of the Hilo-Hamakua coast residents on the island of Hawaii who will be in danger of losing their homes and shelter due to the closure of the Hamakua Sugar and C. Brewer and Company sugar operations. Specifically, this Act provides:

- (1) An emergency loan program that will provide temporary assistance to families who, as a result of plantation closure, require help to make mortgage payments on their homes; and
- (2) A grant program to address administrative, maintenance, and emergency infrastructure improvement costs to ensure the continued operation of Hamakua Sugar Plantation Camp housing units.

SECTION 2. There is appropriated out of the general revenues of the State of Hawaii the sum of \$600,000, or so much thereof as may be necessary for fiscal year 1994-1995, to provide low-interest loans of up to \$10,000 each to employees and former employees of the Hilo Coast Processing Company and the Hamakua Sugar Company to provide for the payment of their monthly mortgage loan payment, which may include but not be limited to, principal and interest payments, real property taxes, and insurance. The loans shall be limited to one loan per household and the rate of interest on loans made pursuant to this Act shall not exceed three per cent per annum. Interest earnings on funds appropriated and loans made pursuant to this Act may be used for administrative and other expenses necessary for administering the loan program. Loans made pursuant to this Act may not require repayment to begin for a period of two years after the loan agreement is executed. Loan proceeds distributed may be made directly to the borrower's note and mortgage holder to ensure timely payment of the borrower's mortgage payment. Guidelines for administering this loan program shall be established by the housing finance and development corporation.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$600,000, or so much thereof as may be necessary for fiscal year 1994-1995, to enable the housing finance and development corporation to develop and implement a grant program to address administrative, maintenance, and critical infrastructure improvement costs to ensure the continued operation of Hamakua Sugar Plantation Camp Housing Units.

The housing finance and development corporation shall develop as part of this grant program a special rental subsidy program for employees, former employees who are in transition to other employment, and retirees of the Hamakua Sugar Company who are currently residing in the plantation camp areas.

SECTION 4. The housing finance and development corporation shall submit a status report on actions taken under the requirements of this Act to the legislature not later than twenty days prior to the convening of the regular session of 1995.

SECTION 5. The housing finance and development corporation shall submit a report to the legislature of the use of funds appropriated in Section 58, Act 289, Session Laws of Hawaii 1993, not later than twenty days prior to the convening of the regular session of 1995.

SECTION 6. The sums appropriated shall be expended by the housing finance and development corporation for the purposes of this Act.

SECTION 7. This Act shall take effect on July 1, 1994.

(Approved June 22, 1994.)

[(d)] (c) The tax imposed by this section shall not apply to an individual facility determined by the department to be financially distressed, pursuant to the rulemaking authority authorized by this chapter; provided that this exemption does not cause the tax to fail to qualify as permissible under section 1903(w) of the federal Social Security Act.

The director, for good cause, may permit an operator to make quarterly payments based on the operator's estimated quarterly or semiannual liability; provided that the operator files a reconciliation return at the end of each quarter or at the end of each six-month period during the calendar or fiscal year, as provided in this section.

(c) If an operator filing the operator's return on a semiannual basis, as provided in this section, becomes delinquent in either the filing of the operator's return or the payment of the taxes due thereon, or if the liability of an operator, who possesses a permit to file the operator's return and make payments on a

semiannual basis, exceeds \$1,000 in taxes during the calendar or fiscal taxable year, or if the director determines that any such semiannual filing of a return would unduly jeopardize the proper administration of this chapter, including the assessment or collection of the taxes, the director, at any time, may revoke an operator's permit, in which case the operator then shall be required to file the operator's return and make payments thereon as provided in subsection (a).

(d) Section 232-2 shall apply to the annual return, but not to a quarterly or semiannual return.

§ **-4 Withholding.** As an option to making payments under section -3, the department and the operator in writing may agree that the department will withhold all or part of the amount of taxes owing for a quarter from Medicaid payments owed by the department to the operator. All reports by the department to the federal government or to the operator, of Medicaid payments made to the operator by the department shall include any amount withheld to satisfy the tax obligation imposed by this chapter.

§ **-5 Annual return.** On or before the twentieth day of the fourth month following the close of the calendar or fiscal taxable year, every operator who has become liable for the payment of the taxes under this chapter during the preceding tax year shall file a return summarizing that operator's liability under this chapter for the year, in such form as the director prescribes. The operator shall transmit to the Honolulu office of the department with the return, a remittance covering the residue of the tax chargeable to the operator, if any. The return shall be signed by the operator, if made by an individual, or by the president, vice-president, secretary, or treasurer of a corporation, if made on behalf of a corporation. If made on behalf of a partnership, firm, society, unincorporated association, group, hui, joint venture, joint stock company, corporation, trust estate, decedent's estate, trust, or other entity, any individual delegated by the entity shall sign the return on behalf of the operator. If for any reason it is not practicable for the individual operator to sign the return, it may be done by any duly authorized agent. The department, for good cause shown, may extend the time for making the return on the application of any operator and grant such reasonable additional time within which to make the return as the department may deem advisable.

Section 232-2 shall apply to the annual return, but not to a quarterly or semiannual return.

§ **-6 Assessment of tax upon failure to make return; limitation period; exceptions; extension by agreement.** (a) If any operator fails to make a return as required by this chapter, the director shall make an estimate of the tax liability of the operator from any information the director obtains, and according to the estimate so made, assess the taxes, interest, and penalty due the State from the operator; give notice of the assessment to the operator; and make demand upon the operator for payment. The assessment shall be presumed to be correct until and unless, upon an appeal duly taken as provided in section -8, the contrary shall be clearly proved by the operator assessed. The burden of proof upon the appeal shall be upon the operator assessed to disprove the correctness of assessment.

(b) After a return is filed under this chapter the director shall cause the return to be examined, and may make such further audits or investigations as the director considers necessary. If the director determines that there is a deficiency with respect to the payment of any tax due under this chapter, the director shall

assess the taxes and interest due the State, give notice of the assessment to the persons liable, and make demand upon the persons for payment.

(c) Except as otherwise provided by this section, the amount of taxes imposed by this chapter shall be assessed or levied within three years after the annual return was filed, or within three years of the due date prescribed for the filing of the return, whichever is later. No proceeding in court without assessment for the collection of any such taxes shall be begun after the expiration of the period.

(d) In the case of a false or fraudulent return with intent to evade tax, or a failure to file the annual return, the tax may be assessed or levied at any time.

(e) Where, before the expiration of the period prescribed in subsection (c) for assessments or in section -7 for credits and refunds, both the department and the operator have consented in writing to the assessment or levy of the tax after the date fixed by subsection (c) or the credit or refund of the tax after the date fixed by section -7, the tax may be assessed or levied, or the overpayment, if any, may be credited or refunded at any time prior to the expiration of the period agreed upon. The period so agreed upon may be extended by subsequent agreements in writing made before the expiration of the period previously agreed upon.

§ -7 **Overpayment; refunds.** Upon application by an operator, if the director determines that any tax, interest, or penalty has been paid more than once, or has been erroneously or illegally collected or computed, the tax, interest, or penalty shall be credited by the director on any taxes then due from the operator under this chapter. The director shall refund the balance to the operator or the operator's successors, administrators, executors, or assigns in accordance with section 231-23. As to all tax payments for which a refund or credit is not authorized under this section (including, without prejudice to the generality of the foregoing, cases of unconstitutionality), the remedies provided by appeal or under section 40-35 are exclusive. No credit or refund shall be allowed for any tax imposed by this chapter, unless a claim for the credit or refund is filed as follows:

- (1) If an annual return is timely filed, or is filed within three years after the date prescribed for filing the annual return, then the credit or refund shall be claimed within three years after the date the annual return was filed or the date prescribed for filing the annual return, whichever is later; and
- (2) If an annual return is not filed, or is filed more than three years after the date prescribed for filing the annual return, a claim for credit or refund shall be filed within:
 - (A) Three years after the payment of the tax; or
 - (B) Three years after the date prescribed for the filing of the annual return, whichever is later.

The preceding limitation shall not apply to a credit or refund pursuant to an appeal, provided for in section -8.

§ -8 **Appeals.** Any operator aggrieved by any assessment of the tax imposed by this chapter for any quarter or any year, may appeal from the assessment in the manner and within the time and in all other respects, as provided in the case of income tax appeals by section 235-114; provided the tax so assessed shall have been paid.

§ -9 **Records to be kept; examination; penalties.** (a) Every operator

shall keep, in the English language, within the State, and preserve for a period of three years, suitable records relating to nursing facility [or hospital] income taxed under this chapter, and such other books, records of account, and invoices as may be required by the department. All such books, records, and invoices shall be open for examination at any time by the department or the department of taxation, or the authorized representative thereof. For the purposes of determining the amount of taxes due under this chapter, every operator shall keep its books and records of account on the accrual basis [with the exception of hospitals in the state community hospital system].

(b) Any operator violating this section shall be guilty of a misdemeanor; and any officer, director, president, secretary, or treasurer of a corporation who permits, aids, or abets the corporation to violate this section shall likewise be guilty of a misdemeanor. The penalty for this misdemeanor shall be that prescribed by section 231-34 for individuals, corporations, or officers of corporations, as the case may be, for violation of that section.

§ -10 Disclosure of returns unlawful; destruction of returns. (a) All tax returns and return information required to be filed under this chapter, and the report of any investigation of the return or of the subject matter of the return, shall be confidential. It shall be unlawful for any person or any officer or employee of the State to intentionally make known information imparted by any tax return or return information filed pursuant to this chapter, or any report of any investigation of the return or of the subject matter of the return, or to wilfully permit any such return, return information, or report so made, or any copy thereof, to be seen or examined by any person; provided that for tax purposes only the operator, the operator's authorized agent, or persons with a material interest in the return, return information, or report may examine the same. Unless otherwise provided by law, persons with a material interest in the return, return information, or report shall include:

- (1) Trustees;
- (2) Partners;
- (3) Persons named in a board resolution or a one per cent shareholder in the case of a corporate return;
- (4) The person authorized to act for a corporation in dissolution;
- (5) A shareholder of an S corporation;
- (6) The personal representative, trustee, heir, or beneficiary of an estate or trust in the case of the estate's or decedent's return;
- (7) The committee, trustee, or guardian of any person in paragraphs (1) to (6) who is incompetent;
- (8) The trustee in bankruptcy or receiver, and the attorney-in-fact of any person in paragraphs (1) to (7);
- (9) Persons duly authorized by the State in connection with their official duties; and
- (10) Any duly accredited tax official of the United States or any state or territory.

Any violation of this subsection shall be a misdemeanor. Nothing in this subsection shall prohibit the publication of statistics so classified as to prevent the identification of particular reports or returns and the items of the reports or returns.

(b) The department may destroy the quarterly or semiannual returns filed pursuant to section -3, or any of them, upon the expiration of three years after the end of the calendar or fiscal year in which the taxes so returned accrued.

§ **-11 Collection by suit; injunction.** The department may collect taxes due and unpaid under this chapter, together with all accrued penalties, by action in assumpsit or other appropriate proceedings in the district or circuit court of the judicial circuit in which the taxes arose, regardless of the amount. After delinquency has continued for sixty days, the department may proceed in the circuit court of the judicial circuit in which the nursing facility [or hospital] income is taxed to obtain an injunction restraining the further furnishing of nursing facility [or hospital] services until full payment is made of all taxes, penalties, and interest due under this chapter.

§ **-12 Application of taxes.** The taxes imposed by this chapter shall be in addition to any other taxes imposed by any other laws of the State; provided that if it is held by any court of competent jurisdiction that the taxes imposed by this chapter may not legally be imposed in addition to any other tax or taxes imposed by any other law or laws with respect to the same property and the use thereof, then this chapter shall be deemed not to apply to the property and the use thereof under the specific circumstances, but the other laws shall be given full effect with respect to the property and use.

§ **-13 Administration and enforcement; rules.** (a) The director shall administer and enforce this chapter. With respect to:

- (1) The examinations of books and records, and operators and other persons;
- (2) Procedures and powers upon failure or refusal by an operator to make a return or proper return; and
- (3) The general administration of this chapter;

the director shall have all rights, powers, and duties conferred by chapters 231 and 237 with respect to powers and duties or with respect to taxes imposed under chapter 237. Without restriction upon these rights and powers, section 237-8 and sections 237-36 to 237-41 are made applicable to and with respect to taxes, operators, department officers, and other persons, and the matters and things affected or covered by this chapter, insofar as these sections are not inconsistent with this chapter, in the same manner, as nearly as may be, as in similar cases covered by chapter 237.

(b) The director may adopt rules under chapter 91 to carry out this chapter.

(c) The department may contract with the department of taxation for assistance in implementing and administering this chapter.

§ **-14 Taxes; allowable reimbursement costs.** All taxes paid pursuant to this chapter shall be deemed allowable and reimbursable costs for federal Medicaid reimbursement purposes. The department shall make appropriate adjustments to the methods and standards for reimbursing nursing facilities [or hospitals] under section 346-14 by a Medicaid state plan amendment which shall become effective on federal approval. In the case of any program involving federal Medicaid participation, the adjustment shall take effect no earlier than the effective date of any federally-approved Medicaid state plan amendment containing any such adjustment.

§ **-15 Health care revolving fund.** The department shall collect the tax and pay all tax revenues into the state general fund for deposit into the health

care revolving fund which is hereby created in the state treasury. Amounts deposited in the health care revolving fund, and any interest earned on these amounts, shall be used only for section 346-14 Medicaid purposes. Any federal Medicaid matching funds to expenditures made from funds deposited in the health care revolving fund shall not become part of the health care revolving fund. The funds in the health care revolving fund shall be expended by the department.

§ **-16 Evasion of tax, etc.; penalties.** It shall be unlawful:

- (1) For any operator to:
 - (A) Refuse to make the return required in section -5;
 - (B) Make any false or fraudulent return or false statement in any return, with intent to defraud the State or to evade the payment of any tax imposed by this chapter; and
 - (C) For any reason to aid or abet another in any attempt to evade the payment of any tax imposed by this chapter; or
- (2) For the president, vice-president, secretary, or treasurer of any corporation to make or permit to be made for any corporation or association any false return, or any false statement in any return required by this chapter, with the intent to evade the payment of any tax imposed by this chapter.

Any person violating this section or section 231-34 in relation to the tax imposed by this chapter, shall be punished as provided in section 231-34. Any corporation for which a false return, or return containing a false statement is made, shall be fined in the amount provided in section 231-34.

ACT 231

S.B. NO. 1628

A Bill for an Act Making an Appropriation for the Dredging of Maunalua Bay.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the Hawaii Kai marina main entrance channel, near the Kalaniana'ole bridge overpass, has been filling with sand. If sand keeps flowing into the channel, boats will be unable to navigate through the channel.

The marina, although private, serves several important public functions in times of emergency. The marina is the only safe harboring area for boats along the coast in case of a sudden storm or surge. If there is a hazardous waste or sewage spill, the marina may serve as an important base for clean up operations. Rescue operations and fire equipment may also be transported via the marina.

The legislature declares that keeping the entrance to the Hawaii Kai marina in navigable condition serves a public purpose because important health, safety, and welfare considerations are involved.

The purpose of this Act is to appropriate funds to dredge the Hawaii Kai marina main entrance channel and declare that this dredging will serve to fulfill a health, welfare, and safety concern.

SECTION 2. The director of finance is authorized to issue general obligation bonds in the sum of \$240,000, or so much thereof as may be necessary, and the same sum, or so much thereof as may be necessary, is appropriated for fiscal year 1994-1995, for the dredging of Maunalua Bay at the main entrance channel to the Hawaii Kai marina.

SECTION 3. The sum appropriated shall be expended by the department of land and natural resources for the purposes of this Act.

SECTION 4. This Act shall take effect on July 1, 1994.

A Bill for an Act Making an Appropriation for the Collection and Disposal of Household Hazardous Wastes.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Statewide household hazardous waste collection program.

The department of health shall develop and administer, in coordination with the solid waste divisions of the various counties, a statewide program for the collection and proper disposal of household hazardous wastes generated in households throughout the State. The program shall be known as the statewide household hazardous waste collection program. A primary element of the program shall be an educational element with a focus on household hazardous waste minimization through the use of safe alternatives, proper product purchase and use, and recycling or reuse options, whenever possible. Whenever possible, the program shall seek the cooperation, and in-kind assistance of other state and county agencies to secure the use of buildings and necessary facilities to serve as household hazardous waste collection stations; provided that these stations meet the minimum standards of worker and environmental safety applicable under law. The handling, storage, transport, and disposal of household hazardous wastes accumulated by the program under this section shall be in accordance with applicable county, state, and federal laws governing the disposition of household hazardous wastes. The department shall submit an annual report to the legislature prior to the convening of each regular legislative session detailing the expenditures made and the collection projects undertaken by the program.

For the purposes of this section, "household hazardous waste" means post-consumer domestic solid waste exhibiting one or more of the physical or chemical properties characteristic of hazardous waste.

SECTION 2. The department of health, in coordination with the various counties, shall prepare a plan providing details about the following:

- (1) The scope of the statewide household hazardous waste collection program;
- (2) The state and county responsibilities in carrying out the program; and
- (3) A breakdown of budgetary requirements, including county participation.

The department shall submit the plan, with its findings and recommendations, to the legislature no later than twenty days prior to the convening of the regular session of 1995.

SECTION 3. The department of health shall develop and conduct an educational and outreach program during fiscal year 1994-1995. The focus of the educational and outreach program shall be to:

- (1) Increase awareness of the problems resulting from the improper disposal of household hazardous wastes;
- (2) Educate the public concerning the use and availability of environmentally-safe alternatives; and
- (3) Promote current county efforts in household hazardous waste collection.

SECTION 4. There is appropriated out of the general revenues of the State of Hawaii the sum of \$150,000, or so much thereof as may be necessary for fiscal year 1994-1995, for the outreach and educational program developed by the department of health pursuant to this Act.

SECTION 5. The sum appropriated shall be expended by the department of health for the purposes of this Act.

SECTION 6. This Act shall take effect on July 1, 1994.

(Approved June 22, 1994.)

ACT 234

S.B. NO. 2162

A Bill for an Act Relating to the Environment.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. During the past two decades, the legislature has focused much of its efforts to improve the quality of the environment on enacting legislation that makes cleaning up the ambient air and water, preventing further pollution, and remediating past pollution top priorities. These actions were taken to help prevent the unhealthy chronic exposure of Hawaii's people to pollutants. The programs established to regulate activities that introduce pollutants into the environment have been very successful in reducing human exposure to ambient pollutants. It is critical to the health of the State's population that the department of health continue its efforts to maintain and further reduce current levels of ambient pollutants.

The legislature finds that:

- (1) Americans spend up to ninety per cent of the day indoors and, as a result, have a significant potential for exposure to contaminants in the indoor air;
- (2) Exposure to indoor air contamination occurs in work places, schools, public buildings, residences, and transportation vehicles;
- (3) Recent scientific studies nationally indicate that pollutants in the indoor air include radon, asbestos, volatile organic chemicals, combustion by-products, metals and gases, respirable particles, biological contaminants, microorganisms, and other contaminants;
- (4) A number of contaminants found in both ambient air and indoor air may occur at higher concentrations in indoor air than in outdoor air;

- (5) Indoor air pollution poses serious threats to public health (including cancer, respiratory illness, multiple chemical sensitivities, skin and eye irritation, and related effects);
- (6) Indoor air contamination is estimated to cause significant increases in medical costs and declines in work productivity; and
- (7) Sources of indoor air pollution include conventional ambient air pollution sources, building materials, consumer and commercial products, combustion appliances, indoor application of pesticides, and other sources.

The legislature further finds that current national and local risk-ranking polls among knowledgeable environmental scientists and concerned citizens reveal that indoor air quality (IAQ) ranks very high on the list of unmet environmental health needs. These findings are based on the following facts and assumptions:

- (1) In the last several years, a growing body of scientific evidence has indicated that the air within homes and other buildings may be more seriously polluted than the outdoor air, even in the largest and most industrialized cities;
- (2) Other research indicates that people spend approximately ninety per cent of their time indoors. Consequently, for most people the health risks from exposure to indoor air pollution may be greater than that from outdoor pollution; and
- (3) Additionally, people who may be exposed to indoor air pollution for the longest periods of time are often those most susceptible to the adverse effects of indoor air pollution. These people include the young, the elderly, and the chronically ill, especially those suffering from respiratory or cardiovascular diseases.

The purpose of this Act is to establish an indoor air pollution program within the department of health to educate the public about IAQ and establish and coordinate a government-wide IAQ assessment network.

SECTION 2. Chapter 321, Hawaii Revised Statutes, is amended by adding a new part to be appropriately designated and to read as follows:

“PART . INDOOR AIR QUALITY

ACT 235

S.B. NO. 2728

A Bill for an Act Making an Appropriation for Agricultural Research and Development.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that agriculture is one of the State's most important industries and a vital component of the State's economic base. The legislature also finds that although sugar will continue to be Hawaii's primary export product, the sugar industry is downsizing in an effort to remain efficient, productive, and cost-effective. With the downsizing of the sugar industry, agricultural research is becoming increasingly more important for maintaining and improving current crops grown across the State and for developing new crops so that the State can take the best economic advantage of the thousands of acres of prime agricultural lands that are becoming available. The legislature also finds that the Hawaiian Sugar Planters' Association is seeking to transfer the ownership of its experiment station to a new organization, the Hawaii Agriculture Research Corporation (HARC). Under HARC ownership, the experiment station will be capable of conducting proven, results-oriented, scientific research for the State's agriculture industry and will be a key resource in the State's efforts to strengthen the agriculture industry, revitalize the economy, and maintain and create new employment opportunities in rural areas.

The purpose of this Act is to provide the necessary funds to maintain the current staff and resources of the Hawaiian Sugar Planters' Association's experiment station and to effectuate its orderly transfer to the Hawaii Agriculture Research Corporation.

SECTION 2. There is appropriated out of the general revenues of the State of Hawaii the sum of \$1,000,000, or so much thereof as may be necessary for fiscal year 1994-1995, for agricultural research, development, and extension to be performed by the experiment station of the Hawaiian Sugar Planters' Association or the successor organization to the Hawaiian Sugar Planters' Association,

in consultation with the department of agriculture; provided that no funds shall be released unless funds are matched dollar-for-dollar in cash or in-kind donations, or a combination of both, by the Hawaiian Sugar Planters' Association or its successor organization.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$100,000, or so much thereof as may be necessary for fiscal year 1994-1995, for pineapple research, development, and extension also to be performed by the experiment station of the Hawaiian Sugar Planters' Association or the successor organization to the Hawaiian Sugar Planters' Association, in consultation with the department of agriculture; provided that no funds shall be released unless funds are matched dollar-for-dollar in cash or in-kind donations, or a combination of both, by the Hawaiian Sugar Planters' Association or its successor organization.

SECTION 4. The sums appropriated shall be expended by the department of agriculture for the purposes of this Act.

SECTION 5. This Act shall take effect on July 1, 1994.

(Approved June 22, 1994.)

If the agencies involved cannot reach agreement, they shall submit such dispute for resolution through an arbitrator mutually selected by the parties whose decision shall be binding."

SECTION 2. New statutory material is underscored.¹

SECTION 3. This Act shall take effect upon its approval, and shall be repealed on July 1, 1996.

A Bill for an Act Making an Appropriation for the Provision of Ambulance Services on Oahu.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that there is a critical need to provide additional ambulance units and increased ambulance service to the metropolitan Honolulu, Mililani, Kahaluu/Kaaawa, Leeward, and Hawaii Kai areas of Oahu. With increased populations in these areas, the ability to respond within the accepted medical response time of ten minutes may be jeopardized. A timely response to life-threatening traumatic injuries is very critical especially when expert cardiopulmonary resuscitation is necessary.

The purpose of this Act is to provide additional ambulance units and increased ambulance services on Oahu.

SECTION 2. There is appropriated out of the general revenues of the State of Hawaii the sum of \$110,000, or so much thereof as may be necessary for fiscal year 1994-1995, for an additional ambulance unit for metropolitan Honolulu.

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$1,195,460, or so much thereof as may be necessary for fiscal year 1994-1995, for the provision of increased ambulance service on the island of Oahu.

SECTION 4. The sums appropriated shall be expended by the department of health for the purposes of this Act.

SECTION 5. This Act shall take effect on July 1, 1994.

(Approved June 22, 1994.)

A Bill for an Act Relating to Hawaii Qualified Health Centers.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that community health centers play an important role in serving many of Hawaii's most medically disadvantaged. Many of those who use community health centers are uninsured and have or will have their health care financed by government programs such as QUEST, Medicaid, SHIP, and Medicare, or through chapter 42D, Hawaii Revised Statutes.

These not-for-profit community health centers are strong patient advocates and are governed by community-based boards. Community health centers have traditionally offered translation services, outreach, and preventive primary care services that are culturally sensitive. The legislature further finds that movement into managed care systems should not unintentionally result in a decrease of primary care services, outreach, or other enabling services, especially for those who are less likely to receive health services through a health insurance system.

Furthermore, the amendments to QUEST allow for many enabling services to be optional. Hence, community-based outreach is essential in controlling health care costs to this population.

The purpose of this Act is to designate Hawaii qualified health centers (HQHCs) and to assure cost-based reimbursements for HQHCs for the delivery of enabling services such as outreach and necessary translation and cultural services.

SECTION 2. Chapter 321, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§321- Additional duties of the director. Any health center previously designated as a Federally Qualified Health Center (FQHC), FQHC look alike, or Rural Health Clinic (RHC) shall have comparable designation as a Hawaii Qualified Health Center and shall also be known as Essential Community Providers. The director of health, with the concurrence of the director of human services, shall have the authority to designate other Hawaii health centers not yet federally designated but deserving of support to meet short term public health needs based on the department of health’s criteria, as Hawaii Qualified Health Centers.”

SECTION 3. Chapter 346, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

“§346- Hawaii qualified health centers. If the QUEST program is implemented, the department shall provide a supplemental capitation program for the uninsured with enabling services based on an annual cost-based determination to all Hawaii qualified health centers (HQHCs) and to any nonprofit entity having a majority of HQHCs as board members.

For the purposes of this section, “enabling services” includes enabling services as defined by federally qualified health center standards. The department shall have the administrative flexibility to expend funds through QUEST contracts, through a modified voucher system, or through chapter 42D. HQHCs receiving these supplemental payments shall reconcile their costs on an annual basis.”

SECTION 4. New statutory material is underscored.¹

SECTION 5. This Act shall take effect upon its approval.

"§304- University of Hawaii at Manoa laboratory school summer programs revolving fund. ACT 241

S.B. NO. 3307

A Bill for an Act Relating to Governmental Assistance.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that the steady decline of the sugar industry has threatened the economic stability of the entire Hilo-Hamakua coast on the island of Hawaii. As a result, the social structure of the community in this area is at risk of collapse. The residents of the Hilo-Hamakua coast, as well as people throughout Hawaii, have an urgent interest in stabilizing the economic and social conditions of the Hilo-Hamakua region.

The State has assumed a proactive role in assisting the Hilo-Hamakua community. For example, the legislature provided a state loan guarantee that ensured a final harvest at Hamakua Sugar Company. The legislature also designated the entire Hamakua planning region as a community development district, thereby authorizing the replanning, renewal, and redevelopment of the region by the Hawaii community development authority.

The residents of the Hilo-Hamakua coast have themselves assumed much of the responsibility for determining their own future. They have organized to develop programs and projects that will help them shape their communities. For example, the Hamakua/North Hilo Agricultural Cooperative has been formed to help start up a variety of alternative crops to be grown on lands now planted in sugar. The Employment and Training Task Force has created a number of training programs which have been successful in placing people in jobs.

In addition, the Hamakua Resource Center serves as a source of information about training opportunities, educational programs, health insurance, and other matters. The Hamakua Housing Corporation, a private non-profit effort, has been formed to ensure that those living in employee housing are the ones to make decisions about housing. The Hamakua Medical Center, which in the past was heavily subsidized by the Hamakua Sugar Company, has been transformed into an independent, private non-profit entity with tax-exempt status.

These examples demonstrate that in this time of crisis the community has made significant strides to mobilize its internal resources to develop structures to replace the vacuum created by the departure of sugar. However, the problems to be overcome are monumental. As such, the community has asked for assistance in a variety of specific areas. The purpose of this Act is to provide additional resources to assist the Hilo-Hamakua community in its effort to restructure its economy and support its social structure.

SECTION 2. Act 311, Session Laws of Hawaii 1993, is amended by amending Section 6 to read as follows:

“SECTION 6. There is appropriated out of the general revenues of the State of Hawaii the sum of \$1,000,000, or so much thereof as may be necessary for fiscal [year] years 1993-1994[,] and 1994-1995, to carry out the purposes of this Act. The sum appropriated shall be expended by the department of [business, economic development, and tourism] budget and finance for purposes of this Act. The sum of \$472,500 may be used for the following purposes:

- (1) Resource/Family/Youth centers with outreach (5.50 FTE) workers and counseling services; and development of a child care services system;
- (2) Newspaper and community bulletin board;
- (3) Agricultural infrastructure development;
- (4) Aquaculture and community-based agricultural programs;
- (5) Primary health care center subsidies;
- (6) Transitional support employment and training for dislocated workers; and
- (7) Hamakua community liaison position.”

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the sum of \$1,500,000, or so much thereof as may be necessary for fiscal year 1994-1995, to assist the Hilo-Hamakua community for the following purposes:

- (1) Resource/Family/Youth centers with outreach (5.50 FTE) workers and counseling services; and development of a child care services system;
- (2) Newspaper and community bulletin board;

- (3) Agricultural infrastructure development;
- (4) Aquaculture and community-based agricultural programs;
- (5) Primary health care center subsidies;
- (6) Transitional support employment and training for dislocated workers;
and
- (7) Hamakua community liaison position.

SECTION 4. The sums appropriated in section 3 of this Act shall be expended by the department of budget and finance for the purposes of this Act.

SECTION 5. Statutory material to be repealed is bracketed. New statutory material is underscored.

SECTION 6. This Act shall take effect upon its approval; provided that section 3 shall take effect on July 1, 1994.

ACT 246

H.B. NO. 2221

A Bill for an Act Relating to Law Enforcement.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Throughout the country, authorities classify about one million eight hundred thousand children as missing each year. These children have either run away or been abducted or been discarded by their parents. All these children are vulnerable and need protection from abuse and exploitation.

The legislature finds that children who have been abducted by a stranger or a family member are particularly vulnerable. Non-custodial parents are responsible for the overwhelming majority of child abduction cases. For example, in 1988, an estimated three hundred fifty-four thousand one hundred children were abducted by a family member.

In recognition of this problem, forty-two states and the District of Columbia have established state clearinghouses to:

- (1) Coordinate the efforts of law enforcement, social services, education and prevention programs, and legislative advocacy groups;
- (2) Disseminate photographs of missing children; and
- (3) Assist in efforts to secure the safe return of children.

The purpose of this Act is to establish a state clearinghouse and resource center, on a pilot project basis, to address the problem of missing and exploited children.

SECTION 2. Missing children state clearinghouse and resource center; programs; report. (a) There is established within the department of the attorney general a three-year pilot project to be known as the missing children state clearinghouse center to assist in the implementation of federal and state laws relating to missing children.

(b) The missing children state clearinghouse center shall include programs to coordinate the efforts of county and state agencies with those of federal agencies in locating, recovering, and protecting missing children and to promote community awareness of the problem of missing children.

(c) The department of the attorney general shall employ, without regard to chapters 76 and 77, a coordinator who shall coordinate existing public and private resources and further define and develop, to the extent of available resources, the

most appropriate system for addressing the problem of missing children, which may include the following:

- (1) A communication network among the county and state law enforcement agencies and the National Crime Information Center in Washington, D.C.;
- (2) A standardized reporting system in all counties developed in conjunction with law enforcement officials at all levels;
- (3) The establishment of trained search teams that can be activated in each county;
- (4) Educational programs designed to prevent child abduction, enhance child safety, and raise public awareness about ways to prevent child abduction, molestation, and sexual exploitation;
- (5) A directory of resources to assist in locating missing children including names, addresses, and services provided by public and private organizations; and
- (6) A statewide centralized, uniform, computerized information database relating to family-related and non-family-related child abductions, as well as runaways and children who are unwanted by their parents.

SECTION 3. Hawaii missing children's clearinghouse trust fund. (a)

There is established the Hawaii missing children's clearinghouse trust fund as a separate fund of the Hawaii Justice Foundation, a Hawaii nonprofit corporation. Moneys received from the state, county, or federal government, private contributions of cash or other property, and the income and capital gains earned by the trust fund shall constitute its assets.

(b) The Hawaii Justice Foundation shall expend moneys from the trust fund to support efforts to implement the purposes of the missing children state clearinghouse center in accordance with section 2.

(c) The trust fund may receive contributions, grants, endowments, or gifts in cash or otherwise from all sources, including corporations or other businesses, foundations, government, individuals, and other interested parties. The legislature intends that the public and private sectors work together as partners in securing contributions for the trust fund. The State may donate moneys to the trust fund by legislative appropriation; provided that any appropriations made by the State are not intended to supplant the funding of existing missing children's clearinghouse programs.

(d) The Hawaii Justice Foundation shall appoint the members of the Hawaii missing children's clearinghouse advisory board, which shall be responsible for:

- (1) Soliciting and otherwise raising funds for the Hawaii missing children's clearinghouse trust fund;
- (2) Establishing criteria for the expenditure of funds; and
- (3) Making recommendations for grants and other specific expenditures.

Members of the advisory board shall be selected from the community by the Hawaii Justice Foundation from lists of candidates provided by the governor's office of children and youth and the Hawaii state commission on the status of women. Community and business leaders from the private sector, victim parents, and victims of child abduction shall be represented on the advisory board.

(e) The aggregate principal sum deposited in the Hawaii missing children's clearinghouse trust fund, and any income and capital gains earned by the trust fund but not expended for administration or for the purposes of section 2, shall be invested in accordance with the provisions of the Hawaii Justice Foundation in a manner intended to maximize the rate of return on investment of the

trust fund consistent with the objective of preserving the trust fund's principal.

(f) There shall be an endowment component of the Hawaii missing children's clearinghouse trust fund.

(g) The use of any state funds may be restricted by the legislation appropriating these funds to the Hawaii missing children's clearinghouse trust fund.

(h) All state funds appropriated to the trust fund by this Act that are not matched by private contributions by June 30, 1997, shall be due and owing to the State on July 1, 1997. For purposes of this section, the requirement for matching private contributions shall be deemed satisfied if the receipt of any of the following occurs prior to the matching deadline:

- (1) Cash, including the United States dollar equivalent of foreign currency, is received by the fund;
- (2) Interest and title in personal property, including securities and cash value of life insurance policies, and real property, valued by appraisal, market quotations, or other generally accepted valuation methods, are transferred to the fund; or

S.B. NO. 2378

A Bill for an Act Relating to State Bonds.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. Declaration of findings with respect to the general obligation bonds authorized by this Act. Pursuant to the clause in Article VII, section 13, of the State Constitution which states: “Effective July 1, 1980, the legislature shall include a declaration of findings in every general law authorizing the issuance of general obligation bonds that the total amount of principal and interest, estimated for such bonds and for all bonds authorized and unissued and calculated for all bonds issued and outstanding, will not cause the debt limit to be exceeded at the time of issuance,” the legislature finds and declares as follows:

- (1) Limitation on general obligation debt. The debt limit of the State is set forth in Article VII, section 13, of the State Constitution, which states in part: “General obligation bonds may be issued by the State; provided that such bonds at the time of issuance would not cause the total amount of principal and interest payable in the current or any future fiscal year, whichever is higher, on such bonds and on all outstanding general obligation bonds to exceed: a sum equal to twenty percent of the average of the general fund revenues of the State in the three fiscal years immediately preceding such issuance until June 30, 1982; and thereafter, a sum equal to eighteen and one-half percent of the average of the general fund revenues of the State in the three fiscal years immediately preceding such issuance.” Article VII, section 13, also provides that in determining the power of the State to issue general obligation bonds, certain bonds are excludable, including “reimbursable general obligation bonds issued for a public undertaking, improvement or system but only to the extent that reimbursements to the general fund are in fact made from the net revenue, or net user tax receipts, or combination of both, as determined for the immediately preceding fiscal year and bonds constituting instruments of indebtedness under which the State incurs a contingent liability as a guarantor but only to the extent the principal amount of such bonds does not exceed seven percent of the principal amount of outstanding general obligation bonds not otherwise excluded under said Article VII, section 13.”
- (2) Actual and estimated debt limits. The limit on principal and interest of general obligation bonds issued by the State, actual for fiscal year 1992-1993 and estimated for each fiscal year from 1993-1994 to 1996-1997, is as follows:

Fiscal Year	Net General Fund Revenues	Debt Limit
1990-1991	\$2,654,706,036	
1991-1992	2,672,238,596	
1992-1993	2,801,180,523	
1993-1994	2,937,602,217	501,234,385
1994-1995	3,003,013,918	518,679,649
1995-1996	3,151,428,408	539,077,461
1996-1997	(Not Applicable)	560,676,080

For fiscal years 1993-1994, 1994-1995, 1995-1996, and 1996-1997, respectively, the debt limit is derived by multiplying the average of the net general fund revenues for the three preceding fiscal years by eighteen and one-half per cent. The net general fund revenues for fiscal years 1990-1991, 1991-1992, and 1992-1993 are actual, as certified by the director of finance in the Statement of the Debt Limit of the State of Hawaii as of July 1, 1993, dated November 30, 1993. The net general fund revenues for fiscal years 1993-1994 to 1995-1996 are based on general fund revenue estimates made as of March 14, 1994, by the council on revenues, the body assigned by Article VII, section 7, of the State Constitution to make such estimates, and based on estimates made by the department of budget and finance of those receipts which cannot be included as general fund revenues for the purpose of calculating the debt limit, all of which estimates the legislature finds to be reasonable.

- (3) Principal and interest on outstanding bonds applicable to the debt limit. (A) According to the department of budget and finance, the total amount of principal and interest on outstanding general obligation bonds, after the exclusions permitted by Article VII, section 13 of the State Constitution, for determining the power of the State to issue general obligation bonds within the debt limit as of March 1, 1994 is as follows for fiscal year 1994-1995 to fiscal year 2000-2001:

Fiscal Year	Principal and Interest
1994-1995	\$323,002,875
1995-1996	367,181,168
1996-1997	361,748,315
1997-1998	333,619,403
1998-1999	306,409,679
1999-2000	291,629,762
2000-2001	243,119,480

The department of budget and finance further reports that the amount of principal and interest on outstanding bonds applicable to the debt limit generally continues to decline each year from fiscal year 2001-2002 to fiscal year 2013-2014 when the final installment of \$14,214,769 shall be due and payable. (B) The department of budget and finance further reports that the outstanding principal amount of bonds constituting instruments of indebtedness under

which the State may incur a contingent liability as a guarantor is \$222,600,000, part of which is excludable in determining the power to the State to issue general obligation bonds, pursuant to Article VII, section 13 of the State Constitution.

- (4) Amount of authorized and unissued general obligation bonds and guaranties and proposed bonds. (A) As calculated from the state comptroller's bond fund report as of February 28, 1994, adjusted for (1) appropriations to be funded by general obligation bonds as provided in Act 289, Session Laws of Hawaii 1993 (General Appropriations Act of 1993), to be expended in the fiscal year 1994-1995, (2) appropriations to be funded by general obligation bonds as provided in Act 364, Session Laws of Hawaii 1993 (Relating to Education), to be expended in the fiscal year 1994-1995, (3) encumbrance lapses of \$6,055,073, (4) lapses as provided in House Bill No. 2500, H.D. 1, S.D. 1, C.D. 1 (the Supplemental Appropriations Act of 1994),¹ amounting to \$52,395,217, (5) lapses as provided in House Bill No. 2990, H.D. 2, S.D. 1, C.D. 1 (the Judiciary Supplemental Appropriations Act of 1994),² amounting to \$7,555,000, and (6) the change in the means of financing from general obligation bond fund to general fund provided in House Bill No. 2500, H.D. 1, S.D. 1, C.D. 1 (the Supplemental Appropriations Act of 1994),¹ amounting to \$16,231,000, the total amount of authorized but unissued general obligation bonds is \$1,059,869,150. The amount of general obligation bonds authorized in House Bill No. 2500, H.D. 1, S.D. 1, C.D. 1 (the Supplemental Appropriations Act of 1994),¹ House Bill No. 2990, H.D. 2, S.D. 1, C.D. 1 (the Judiciary Supplemental Appropriations Act of 1994),² and Senate Bill No. 1628, S.D. 2, H.D. 1, C.D. 1 (Making an Appropriation for the Dredging of Maunalua Bay),³ is \$90,130,000. The total amount of general obligation bonds previously authorized and unissued, as adjusted, and the general obligation bonds authorized in House Bill No. 2500, H.D. 1, S.D. 1, C.D. 1 (the Supplemental Appropriations Act of 1994),¹ House Bill No. 2990, H.D. 2, S.D. 1, C.D. 1 (the Judiciary Supplemental Appropriations Act of 1994),² and Senate Bill No. 1628, S.D. 2, H.D. 1, C.D. 1 (Making an Appropriation for the Dredging Of Maunalua Bay),³ is \$1,149,999,150. (B) As reported by the department of budget and finance, the outstanding principal amount of bonds constituting instruments of indebtedness under which the State may incur a contingent liability as a guarantor is \$222,600,000, part of which is excludable in determining the power of the State to issue general obligation bonds, pursuant to Article VII, section 13, of the State Constitution.
- (5) Proposed general obligation bond issuance. As reported herein for fiscal years 1993-1994, 1994-1995, 1995-1996, and 1996-1997, the State proposes to issue \$337,500,000 during the remainder of fiscal year 1993-1994, \$100,000,000 semiannually in fiscal year 1994-1995, \$200,000,000 in the first half of fiscal year 1995-1996, \$212,500,000 in the second half of fiscal year 1995-1996 and \$100,000,000 semiannually in fiscal year 1996-1997. It is the practice of the State to issue twenty-year serial bonds with principal repayments beginning the third year, the bonds maturing in substantially equal installments of principal, and interest payments commencing six months from the date of issuance and being paid

semiannually thereafter. It is assumed this practice will continue to be applied to bonds which are proposed to be issued.

- (6) Sufficiency of proposed general obligation bond issuance to meet the requirements of authorized and unissued bonds, as adjusted, and bonds authorized by this Act. From the schedule reported in paragraph (5), the total amount of general obligation bonds which the State proposes to issue during the fiscal years 1993-1994 to 1995-1996 is \$950,000,000. An additional \$200,000,000 is proposed to be issued in fiscal year 1996-1997. The total amount of \$950,000,000 which is proposed to be issued through fiscal year 1995-1996 is sufficient to meet the requirements of the authorized and unissued bonds, as adjusted, and the bonds authorized by this Act, the total amount of which is \$1,149,999,150, as reported in paragraph (4), except for \$199,999,150. It is assumed that the appropriations to which an additional \$199,999,150 in bond issuance needs to be applied will have been encumbered as of June 30, 1996. The \$200,000,000 which is proposed to be issued in fiscal year 1996-1997 will be sufficient to meet the requirements of the June 30, 1996, encumbrances in the amount of \$199,999,150. The amount of assumed encumbrances as of June 30, 1996 is reasonable and conservative, based upon an inspection of June 30 encumbrances of the general obligation bond fund as reported by the state comptroller. Thus, taking into account the amount of authorized and unissued bonds, as adjusted, and the bonds authorized by this Act versus the amount of bonds which is proposed to be issued by June 30, 1996, and the amount of June 30, 1996 encumbrances versus the amount of bonds which is proposed to be issued in fiscal year 1996-1997, the legislature finds that in the aggregate, the amount of bonds which is proposed to be issued is sufficient to meet the requirements of all authorized and unissued bonds and the bonds authorized by this Act.
- (7) Bonds excludable in determining the power of the State to issue bonds. As noted in paragraph (1), certain bonds are excludable in determining the power of the State to issue general obligation bonds.
 - (A) General obligation reimbursable bonds can be excluded under certain conditions. It is not possible to make a conclusive determination as to the amount of reimbursable bonds which is excludable from the amount of each proposed bond issued because:
 - (i) It is not known exactly when projects for which reimbursable bonds have been authorized in prior acts and in this Act will be implemented and will require the application of proceeds from a particular bond issue; and
 - (ii) Not all reimbursable general obligation bonds may qualify for exclusion.

However, the legislature notes that with respect to the principal and interest on outstanding general obligation bonds, according to the department of budget and finance, the average proportion of principal and interest which is excludable each year from calculation against the debt limit is 8.3 percent for the ten years from fiscal year 1994-1995 to fiscal year 2003-2004. For the purpose of this declaration, the assumption is made that five percent of each bond issue will be excludable from the debt limit, an assumption which

the legislature finds to be reasonable and conservative. (B) Bonds constituting instruments of indebtedness under which the State incurs a contingent liability as a guarantor can be excluded but only to the extent the principal amount of such guaranties does not exceed seven percent of the principal amount of outstanding general obligation bonds not otherwise excluded under subparagraph (A) of this paragraph (7) and provided that the State shall establish and maintain a reserve in an amount in reasonable proportion to the outstanding loans guaranteed by the State as provided by law. According to the department of budget and finance and the assumptions presented herein, the total principal amount of outstanding general obligation bonds and general obligation bonds proposed to be issued, which are not otherwise excluded under Article VII, section 13, of the State Constitution for the fiscal years 1993-1994, 1994-1995, 1995-1996 and 1996-1997 are as follows:

Fiscal year	Total amount of General Obligation Bonds not otherwise excluded by Article VII, section 13 of the State Constitution
1993-1994	\$2,992,476,241
1994-1995	2,998,643,721
1995-1996	3,139,740,268
1996-1997	3,064,758,296

Based on the foregoing and based on the assumption that the full amount of a guaranty is immediately due and payable when such guaranty changes from a contingent liability to an actual liability, the aggregate principal amount of the portion of the outstanding guaranties and the guaranties proposed to be incurred, which does not exceed seven percent of the average amount set forth in the last column of the above table and for which reserve funds have been or will have been established as heretofore provided by, can be excluded in determining the power of the State to issue general obligation bonds. As it is not possible to predict with a reasonable degree of certainty when a guaranty will change from a contingent liability to a actual liability, it is assumed in conformity with fiscal conservatism and prudence, that all guaranties not otherwise excluded pursuant to Article VII, section 13, of the State Constitution will become due and payable in the same fiscal year in which the greatest amount of principal and interest on general obligation bonds, after exclusions, occurs. Thus, based on such assumptions and on the determination in paragraph (8), the aggregate principal amount of the portion of the outstanding guaranties and the guaranties proposed to be incurred, which must be included in determining the power of the State to issue general obligation bonds is \$9,176,676.

- (8) Determination whether the debt limit will be exceeded at the time of issuance. From the foregoing and on the assumption that the bonds identified in paragraph (5) will be issued at an interest rate of 6.0 percent, it can be determined from the following schedule that the

bonds which are proposed to be issued, which include all authorized and unissued bonds previously authorized, as adjusted, general obligation bonds and instruments of indebtedness under which the State incurs a contingent liability as a guarantor authorized in this Act, will not cause the debt limit to be exceeded at the time of such issuance:

Time of Issuance and Amount to be Counted Against Debt Limit	Debt Limit at Time of Issuance	Greatest Amount and Year of Highest Principal and Interest on Bonds and Guaranties
Remainder FY 93-94 \$320,625,000	\$501,234,385	\$407,974,991 (1996-1997)
1st half FY 94-95 \$95,000,000	518,679,649	413,674,991 (1996-1997)
2nd half FY 94-95 \$95,000,000	518,679,649	419,374,991 (1996-1997)
1st half FY 95-96 \$190,000,000	539,077,461	430,774,991 (1996-1997)
2nd half FY 95-96 \$201,875,000	539,077,461	442,887,491 (1996-1997)
1st half FY 96-97 \$95,000,000	560,676,080	429,795,369 (1997-1998)
2nd half FY 96-97 \$95,000,000	560,676,080	435,495,369 (1997-1998)

- (9) Overall and concluding finding. From the facts, estimates, and assumptions stated in this declaration of findings, the conclusion is reached that the total amount of principal and interest estimated for the general obligation bonds authorized in this Act and for all bonds authorized and unissued and calculated for all bonds issued and outstanding and guaranties, will not cause the debt limit to be exceeded at the time of issuance.

SECTION 2. The legislature finds that the bases for the declaration of findings set forth in this Act are reasonable. The following assumptions set forth in this Act shall not be deemed to be binding:

- (1) The principal amount of general obligation bonds which will be issued;
- (2) The amount of principal and interest on reimbursable general obligation bonds which are assumed to be excludable; and
- (3) The assumed maturity structure.

It is the understanding of the legislature that such matters must remain subject to substantial flexibility.

SECTION 3. Authorization for issuance of general obligation bonds. General obligation bonds may be issued as provided by law in an amount that may be necessary to finance projects authorized in House Bill No. 2500, H.D. 1, S.D. 1, C.D. 1 (the Supplemental Appropriations Act of 1994),¹ House Bill No. 2990, H.D. 2, S.D. 1, C.D. 1 (the Judiciary Supplemental Appropriations Act of 1994),² and Senate Bill No. 1628, S.D. 2, H.D. 1, C.D. 1 (Making an Appropriation for the Dredging of Maunalua Bay),³ passed by this regular session of 1994, and designated to be financed from the general obligation bond fund and from the general obligation bond fund with debt service cost to be paid from special funds; provided that the sum total of the general obligation bonds so issued shall not exceed \$90,130,000.

Any law to the contrary notwithstanding, general obligation bonds may be issued from time to time in accordance with section 39-16, Hawaii Revised Statutes, in such principal amount as may be required to refund any general obligation bonds of the State of Hawaii heretofore or hereafter issued pursuant to law.

SECTION 4. The provisions of this Act are declared to be severable and if any portion thereof is held to be invalid for any reason, the validity of the remainder of this Act shall not be affected.

SECTION 5. In printing this Act, the revisor of statutes shall substitute in section 1 and section 3 the corresponding act numbers for bills identified therein.

SECTION 6. This Act shall take effect upon its approval.

(Approved June 30, 1994.)

ACT 257

S.B. NO. 2889

A Bill for an Act Relating to the State Military Forces.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. To provide for, strengthen, and expedite the state military forces and to enable the State of Hawaii to more successfully fulfill its duty to defend this nation and State, the purpose of this Act is to suspend enforcement of civil liabilities, in certain cases, of persons in the state military forces in order to enable those persons to devote their entire energy to the defense needs of this State in times of need. This Act makes provisions for the temporary suspension of legal proceedings and transactions that may prejudice the civil rights of persons in state military service.

SECTION 2. The Hawaii Revised Statutes is amended by adding a new chapter to be appropriately designated and to read as follows:

"CHAPTER CIVIL RELIEF FOR STATE MILITARY FORCES

PART I. GENERAL PROVISIONS

§ -1 **Definitions.** As used in this chapter, unless the context indicates otherwise:

"Active service" or "active duty" includes but is not limited to the period during which the persons in military service are absent from duty on account of sickness, wounds, leave, or other lawful cause.

"Court" includes any court of competent jurisdiction of the State of Hawaii, whether or not a court of record.

"Military service" means service on state active duty in any of the state military forces.

"Period of military service" means the period beginning on the date on which the person enters state active duty and ending on the date of the person's release from state active duty or death while on state active duty.

"Person", when used with reference to the holder of any right alleged to exist against a person in military service or against a person secondarily liable under such right, includes individuals, partnerships, corporations, and any other forms of business association.

"Person in the military service" and "persons in the military service of the State" include all members of any of the state military forces, as defined in section 124A-1.

"State active duty" includes any period during which a person in the military service of the State is ordered to state active duty by the adjutant general or the governor.

§ -2 **Territorial application; jurisdiction of courts; form of procedure.** (a) This chapter shall apply to the United States, the states and territories, the District of Columbia, and all territories subject to the jurisdiction of the United States, and to proceedings commenced in any court therein, and shall be enforced through the usual forms of procedure in such courts or under their rules.

(b) When under this chapter any application is required to be made to a court in which no proceeding has already been commenced as to the matter, that application may be made to any court.

§ -3 **Protection of persons secondarily liable.** (a) Whenever:

- (1) The enforcement of any obligation or liability;
- (2) The prosecution of any suit or proceeding;
- (3) The entry or enforcement of any order, writ, judgment, or decree; or
- (4) The performance of any other act;

may be stayed, postponed, or suspended, the stay, postponement, or suspension may likewise be granted in the discretion of the court to sureties, guarantors, endorsers, accommodation makers, and others, whether primarily or secondarily subject to the obligation or liability that is stayed, postponed, or suspended.

(b) When a judgment or decree is vacated or set aside in whole or in part as provided in this chapter, the court in its discretion may likewise set aside and vacate it as to any surety, guarantor, endorser, accommodation maker, or other person, whether primarily or secondarily liable upon the contract or liability for the enforcement of which the judgment or decree was entered.

(c) Whenever by reason of the military service of a principal, the sureties

of a criminal bail bond are prevented from enforcing the attendance of their principal and performing their obligation, the court shall not enforce the provisions of the bond during the military service of that principal. The court, in accordance with principles of equity and justice, may discharge those sureties and exonerate the bail either during or after such service.

(d) Nothing in this chapter shall prevent a waiver in writing of the benefits afforded by subsections (a) and (b) by any surety, guarantor, endorser, accommodation maker, or other person whether primarily or secondarily liable upon the obligation or liability, except that no such waiver shall be valid unless it is executed as an instrument separate from the obligation or liability in respect of which it applies. No such waiver shall be valid after the beginning of the period of military service if executed by:

- (1) An individual who subsequent to the execution of that waiver becomes a person in military service; or
- (2) A dependent of the individual.

§ -4 **Notice of benefits to persons in and persons entering military service.** The adjutant general shall ensure the giving of notice of the benefits accorded by this chapter to persons entering the state military forces.

§ -5 **Extension of benefits to persons ordered to report for state military service.** Any person who is ordered to report for state military service shall be entitled to the relief and benefits during:

- (1) The period of actual military service; and
- (2) The period beginning on the date of receipt of the order and ending on the date upon which the member reports for military service, or the date on which the order is revoked, whichever is earlier.

§ -6 **Effect on rights, remedies, etc., pursuant to written agreements entered after commencement of military service.** Nothing in this chapter shall prevent:

- (1) The modification, termination, or cancellation of any contract, lease, or bailment or any obligation secured by mortgage, trust deed, lien, or other security in the nature of a mortgage; or
- (2) The repossession, retention, foreclosure, sale, forfeiture, or taking possession of property that is security for any obligation or which has been purchased or received under a contract, lease, or bailment; pursuant to a written agreement of the parties thereto (including the person in military service, whether or not the person is a party to the obligation), or their assignees, executed during or after the period of military service of that person.

§ -7 **Exercise of rights not to affect lenders, credit, or insurers.** Application by a person in military service for, or receipt by a person in military service of, a stay, postponement, or suspension pursuant to this chapter in the payment of any tax, fine, penalty, insurance premium, or other civil obligation or liability of that person shall not by itself provide the basis for any of the following:

- (1) A determination by any lender or other person that the person in military service is unable to pay the civil obligation or liability in accordance with its terms;
- (2) With respect to a credit transaction between a creditor and the person in military service:

- (A) A denial or revocation of credit by the creditor;
- (B) A change by the creditor in the terms of an existing credit arrangement; or
- (C) A refusal by the creditor to grant credit to such person in substantially the amount or on substantially the terms requested;
- (3) An adverse report on the creditworthiness of the person in military service by or to any person or entity engaged in the practice of assembling or evaluating consumer credit information; or
- (4) A refusal by an insurer to insure the person.

PART II. GENERAL RELIEF

§ -11 Default judgments; affidavits; bonds; attorneys for persons in service. (a) In a default of any appearance by the defendant in any action or proceeding commenced in any court, no judgment shall be entered without first securing a court order directing that entry, and no order shall be made if the defendant is in the military service until after the court has appointed an attorney to represent the defendant. The court, on application, shall make such an appointment. If it appears that the defendant is in the military service, the court may require the plaintiff to file a bond approved by the court before judgment is entered. The bond shall be to indemnify the defendant in military service against any loss or damage that the defendant may suffer from any judgment should the judgment be thereafter set aside in whole or in part. The court may make other and further orders or enter a judgment that in its opinion may be necessary to protect the rights of the defendant under this chapter.

(b) Any person who makes or uses any affidavit, statement, declaration, verification, or certificate claiming that the defendant is not in military service, knowing it to be false, shall be punished as provided in chapter 710, part V.

(c) In any action or proceeding in which a person in military service is a party and does not personally appear therein or is not represented by an authorized attorney, the court may appoint an attorney to represent the person. In that case, a bond may be required and an order made to protect the rights of the person. But no attorney appointed under this chapter to protect a person in military service shall have power to waive any right of that person or bind that person.

(d) If any judgment shall be rendered in any action or proceeding governed by this section against any person in military service during the period of that service or within sixty days thereafter, and it appears that the person in military service was prejudiced by reason of the person's military service in making the person's defense thereto, then the judgment, upon application made by the person or the person's legal representative, not later than sixty days after the termination of the military service, may be opened by the court rendering the same and the defendant or the defendant's legal representative allowed to defend; provided it is made to appear that the defendant has a meritorious or legal defense to the action or some part thereof.

(e) Vacating, setting aside, or reversing any judgment because of any of the provisions of this chapter shall not impair any right or title acquired by any bona fide purchaser for value under the judgment.

§ -12 Stay of proceedings where military service affects conduct thereof. In any action or proceeding in any court in which a person in military service is involved, either as plaintiff or defendant, during the period of that service or within sixty days thereafter, the court in its discretion, on application to it

by the person or a person on such person's behalf, shall stay the action or proceeding at any stage as provided in this chapter. No stay shall issue if, in the opinion of the court, the ability of the plaintiff to prosecute the action or the defendant to conduct the defense is not materially affected by reason of the person's military service.

§ **-13 Fines and penalties on contracts.** When an action for compliance with the terms of any contract is stayed pursuant to this chapter, no fine or penalty shall accrue by reason of failure to comply with the terms of the contract during the period of the stay. In any case where a person fails to perform any obligation and a fine or penalty for the nonperformance is incurred, a court may relieve the enforcement of the fine or penalty on such terms as may be just if the person was in the military service when the penalty was incurred and that by reason of that service the ability of the person to pay or perform was thereby materially impaired.

§ **-14 Restrictions.**¹ In any action or proceeding commenced in any court, if an insurance policy was assigned prior to the person's period of military service to secure the payment of any obligation of that person, no assignee of the policy (except the insurer in connection with a policy loan), during the period of military service of the insured or within sixty days thereafter, except upon the consent in writing of the insured made during the period or when the premiums thereon are due and unpaid or upon the death of the insured, shall exercise any right or option by virtue of the assignment unless upon leave of court granted upon an application made by the assignee. The court may refuse to grant leave unless the court finds that the ability of the obligor to comply with the terms of the obligation is not materially affected by reason of the obligor's military service. For the purpose of this subsection, premiums which are guaranteed under part IV shall not be deemed to be due and unpaid.

(b) No person shall exercise any right to foreclose or enforce any lien for storage of household goods, furniture, or personal effects of a person in military service during the person's period of military service and for sixty days thereafter except upon an order previously granted by a court upon application and a return made and approved by the court. The court, after a hearing on an application by the person in military service or some person on behalf of the person in military service, unless in the opinion of the court the ability of the defendant to pay the storage charges due is not materially affected by reason of the person's military service, may find against a person in military service.

(c) Before or during the period of that service, or within sixty days thereafter, the court, on its own motion or on application to it by such person or a person on such person's behalf, unless in the opinion of the court the ability of the defendant to comply with the judgment or order entered or sought is not materially affected by reason of the defendant's service shall:

- (1) Stay the execution of any judgment or order entered against this person, as provided in this chapter; or
- (2) Vacate or stay any attachment or garnishment of property, money, or debts in the hands of another, whether before or after judgment as provided in this chapter.

§ **-15 Duration and term of stays; codefendants not in service.** A stay of any action, proceeding, attachment, or execution, ordered by any court under this chapter, shall be for the period of military service and sixty days thereafter or any part of that period, and may be subject to such terms as may be just,

including payment in installments of specified amounts and at such times as the court may fix. Where the person in military service is a codefendant with others, the plaintiff may proceed against the others by leave of the court.

§ -16 **Statutes of limitations as affected by period of service.** The period of military service shall not be included in computing any period for the bringing of any action or proceeding in any court, or before a state or county agency by or against any person in military service or by or against the person's heirs, personal representatives, administrators, or assigns, whether the cause of action or right or privilege to institute that action or proceeding accrued prior to or during the period of the military person's service. No part of the period of military service that occurs after the effective date of this chapter shall be included in computing any period now or hereafter provided by any law for the redemption of real property sold or forfeited to enforce any obligation, tax, or assessment.

§ -17 **Maximum rate of interest.** No obligation or liability bearing interest at a rate in excess of six per cent a year incurred by a person in military service before that person's entry into that service, during any part of the period of military service, shall bear interest at a rate in excess of six per cent a year unless, in the opinion of the court, upon application thereto by the obligee, the ability of the person in military service to pay interest upon the obligation or liability at a rate in excess of six per cent per year is not materially affected by reason of that service, in which case the court may make such order as it deems just.

As used in this section the term "interest" includes service charges, renewal charges, fees, or other charges, except bona fide insurance, as to the obligation or liability.

§ -18 **Limitation prescribed by state tax laws as affected by period of service.** Section -16 shall not apply to any period of limitation in state tax laws set forth in title 14.

PART III. RENT, INSTALLMENT CONTRACTS, MORTGAGES, LIENS, ASSIGNMENTS, LEASES

§ -21 **Eviction or distress during military service; stay; penalty for noncompliance; allotment of pay for payment.** (a) No eviction or distress shall be made during the period of military service for any premises occupied chiefly for dwelling purposes by the spouse or other dependents of a person in military service, except upon leave of court granted upon application or granted in an action or proceeding on the right of possession.

(b) On any such application or in any such action the court may, in its discretion and on its own motion, and shall, upon application, unless in the opinion of the court the ability of the tenant to pay the agreed rent is not materially affected by reason of such military service, stay the proceedings for not longer than three months, or it may make such other order as may be just. Where the stay is granted or other order is made by the court, the owner of the premises shall be entitled, upon application therefor, to relief in respect of the premises similar to that granted persons in military service in sections -22 and -23 to such extent and for such period as may appear to the court to be just.

(c) Any person who shall knowingly take part in any eviction or distress otherwise than as provided in subsection (a), or attempts so to do, shall be guilty of a misdemeanor.

(d) The adjutant general is empowered, subject to rules adopted under chapter 91, to order an allotment of the pay of a person in military service in reasonable proportion to discharge the rent of premises occupied for dwelling purposes by the spouse or other dependents of the person.

§ -22 Installment contracts for purchase of property. (a) No person who has received, or whose assignor has received, under a contract for the purchase of real or personal property, or of lease or bailment with a view to purchase of that property, a deposit or installment of the purchase price, or a deposit or installment under the contract, lease, or bailment, from a person or from the assignor of a person who, after the date of payment of such deposit or installment, has entered military service, shall exercise any right or option under the contract to rescind or terminate the contract or resume possession of the property for nonpayment of any installment due or for any other breach of the terms occurring prior to or during the period of such military service, except by action in a court of competent jurisdiction.

(b) Any person who knowingly resumes possession of property that is the subject of this section otherwise than as provided in subsection (a) or in section -6 or attempts so to do, shall be guilty of a misdemeanor.

(c) Upon the hearing of that action the court may order the repayment of prior installments or deposits or any part thereof, as a condition of terminating the contract and resuming possession of the property, or on its own motion or on application to it by the person in military service or a person on behalf of such person, shall order a stay of proceedings as provided in this chapter unless, in the opinion of the court, the ability of the defendant to comply with the terms of the contract is not materially affected by reason of that service; or it may make such other disposition of the case as may be equitable to preserve the interests of all parties.

§ -23 Mortgages, trust deeds, and other securities. (a) This section applies solely to obligations secured by mortgage, trust deed, or other security in the nature of a mortgage upon real or personal property owned by a person in military service before or at the commencement of the period of the military service and still owned by the person.

(b) In any proceeding commenced in any court during the period of military service to enforce that obligation arising out of nonpayment of any sum due or out of any other breach of the terms occurring prior to or during the period of the person's military service, the court may, after hearing and on its own motion, or shall, on application to it by the person in military service or some person on behalf of the person in military service, unless in the opinion of the court the ability of the defendant to comply with the terms of the obligation is not materially affected by reason of the defendant's military service:

- (1) Stay the proceedings as provided in this chapter; or
- (2) Make such other disposition of the case as may be equitable to conserve the interests of all parties.

(c) No sale, foreclosure, or seizure of property for nonpayment of any sum due under any such obligation, or for any other breach of the terms thereof, whether under a power of sale, under a judgment entered upon warrant of attorney to confess judgment contained therein, shall be valid if made during the period of military service or within sixty days thereafter, except pursuant to an agreement as provided in section -6, unless upon an order previously granted by the court and a return thereto made and approved by the court.

Any person who knowingly makes, attempts, or causes to be made any such sale, foreclosure, or seizure of property, shall be guilty of a misdemeanor.

§ -24 Settlement of cases involving stayed proceedings to foreclose mortgage on, resume possession of, or terminate contract for purchase of, personal property. Where a proceeding to foreclose a mortgage upon or to resume possession of personal property, or to rescind or terminate a contract for its purchase, has been stayed as provided in this chapter, the court, unless in its opinion an undue hardship would result to the dependents of the person in the military service, may appoint three disinterested parties to appraise the property and, based upon the report of the appraisers, order that sum, if any, as may be just, paid to the person in military service or the person's dependent, as the case may be, as a condition of foreclosing the mortgage, resuming possession of the property, or rescinding or terminating the contract.

§ -25 Termination of leases by lessees. (a) This section applies to any lease of premises occupied for a dwelling, or for professional, business, agricultural, or similar purposes in any case in which:

- (1) The lease was executed by or on the behalf of a person who, after the execution of the lease, entered military service; and
- (2) The leased premises have been occupied for one or more of those purposes by the person or by the person and the person's dependents.

(b) Any lease described in subsection (a) may be terminated by notice in writing delivered to the lessor or the lessor's grantee or to one of their agents by the lessee at any time following the date of the beginning of the lessor's or the lessor's grantee's period of military service. Delivery of the notice may be made by mailing it. Termination of any such lease providing for monthly payment of rent shall not be effective until thirty days after the date on which the next rental payment is due and payable following the date of delivery or mailing of the notice. In the case of all other leases, termination shall be effected on the last day of the month following the month in which the notice is delivered or mailed and in such case any unpaid rental for a period preceding termination shall be computed pro rata and any rental paid in advance for a period succeeding termination shall be refunded by the lessor or the lessor's assignee. Upon application by the lessor to the appropriate court prior to the termination period provided for in the notice, any relief granted in this subsection shall be subject to such modifications or restrictions the court may find in the interests of justice and equity.

(c) Any person who knowingly seizes, holds, or retains the personal effects, clothing, furniture, or other property of any person who has lawfully terminated a lease covered by this section, or in any manner interferes with the removal of such property from the premises covered by such lease, for the purpose of subjecting or attempting to subject any such property to a claim for rent accruing subsequent to the date of termination of such lease, or attempts to do so, shall be guilty of a misdemeanor.

§ -26 Life insurance policies; penalties. (a) Where any life insurance policy on the life of a person in military service is the subject of an action or proceeding under this chapter, the court may:

- (1) Stay the proceedings as provided in this chapter; or
- (2) Make such other disposition of the case as may be equitable to preserve the interest of all parties.

This subsection shall not be construed in any way as affecting or as limiting the scope of section -23.

(b) Any person who knowingly acts in violation of this section, or attempts to do so, shall be guilty of a misdemeanor.

§ -27 **Extension of benefits to dependents.** Dependents of a person in military service shall be entitled to the benefits accorded to persons in military service under this part upon application to a court therefor, unless in the opinion of the court the ability of these dependents to comply with the terms of the obligation, contract, lease, or bailment has not been materially impaired by reason of the military service of the person upon whom the applicants are dependent.

PART IV. INSURANCE

§ -31 **Definitions.** As used in this part:

"Insured" includes any person in the state military forces, whose life is insured under and who is the owner and holder and has an interest in a policy.

"Insurer" includes any firm, corporation, partnership, or association chartered or authorized to engage in the insurance business to issue a policy as defined by the laws of a state or of the United States.

"Policy" includes any contract of life insurance or policy on a life, endowment, or term plan, including any benefit in the nature of life insurance arising out of membership in any fraternal or beneficial association, that does not provide for the payments of any sum less than the face value thereof or for the payment of an additional amount as premiums if the insured engages in the military service of the United States or which does not contain any limitations or restrictions upon coverage relating to engagement in or pursuit of certain types of activities which a person might be required to engage in by virtue of the person's being in that military service, and:

- (1) Which is in force on a premium-paying basis at the time of application for benefits hereunder; and
- (2) Which was made and a premium paid thereon not less than one hundred eighty days before the date insured entered into the military service.

This definition does not apply to policies or contracts of life insurance issued under the War Risk Insurance Act, as amended, the World War Veterans Act, as amended, or the National Service Life Insurance Act of 1940, as amended.

"Premium" includes the amount specified in the policy as the stipend to be paid by the insured at regular intervals during the period therein stated.

§ -32 **Persons entitled to benefits; applications; amount of insurance protected.** The benefits and privileges of this part shall apply to any insured when the insured, or a person designated by the insured, makes written application for protection under this part, unless the insurance commissioner in passing on the application finds that the policy is not entitled to protection under this part. The adjutant general shall give notice to the state military forces of the provisions of this part, and shall include in the notice an explanation of the provisions for the information of those desiring to make application for benefits. The original of the application shall be sent by the insured to the insurer, and a copy to the insurance commissioner. The total amount of insurance on the life of one insured under policies covered by this part shall not exceed \$10,000. If an insured applies for protection of policies on the insured's life totaling insurance in excess of \$10,000, the insurance commissioner may have the amount of insurance divided into two

or more policies so that the protection of this part may be extended to include policies for a total amount of insurance not to exceed \$10,000, and a policy which affords the best security to the government shall be given preference.

§ -33 **Form of application; reports to insurance commissioner by insurer; policy deemed modified upon application for protection.** Any writing signed by the insured and identifying the policy and the insurer, and agreeing that the insured's rights under the policy are subject to and modified by this part, shall be sufficient as an application for the benefits of this part, but the insurance commissioner may require the insured and insurer to execute other appropriate forms. Upon receipt of the application of the insured, the insurer shall furnish such report to the insurance commissioner concerning the policy as shall be prescribed by rules adopted under chapter 91. When an insured has applied for protection under this part, the policy is deemed to have been modified to conform to the provisions of this part.

§ -34 **Determination of policies entitled to protection; notice to parties; lapse of policies for nonpayment of premiums, etc.** The insurance commissioner shall determine whether the policy is entitled to protection under this part and shall notify the insured and the insurer of that determination. Any policy found by the insurance commissioner to be entitled to protection under this part, subsequent to date of application and during the period of state military service of the insured and for sixty days after the expiration of that service, shall not lapse or otherwise terminate or be forfeited for the nonpayment of a premium becoming due and payable, or the nonpayment of any indebtedness or interest.

§ -35 **Rights and privileges of insured during period of protection.** No dividend or other monetary benefit under a policy shall be paid to an insured or used to purchase dividend additions while a policy is covered by this part except with the approval of the insurance commissioner. Without this approval, those dividends or benefits shall be added to the value of the policy to be used as a credit when final settlement is made with the insurer. No cash value, loan value, withdrawal of dividend accumulation, unearned premium, or other value of similar character shall be available to the insured while the policy is covered under this part except upon approval by the insurance commissioner. The insured's right to change a beneficiary designation or select an optional settlement for a beneficiary shall not be affected by this part.

§ -36 **Deduction of unpaid premiums upon settlement of policies maturing during protection.** In the event of maturity of a policy as a death claim or otherwise before the expiration of the period of protection under this part, the insurer in making settlement shall deduct from the amount of insurance the premiums guaranteed under this part, together with interest thereon at the rate fixed in the policy for policy loans. If no rate of interest is specifically fixed in the policy, the rate shall be the rate fixed for policy loans in other policies issued by the insurer at the time the policy brought under this chapter was issued. The amount deducted by reason of the protection afforded by this part shall be reported by the insurer to the insurance commissioner.

§ -37 **Guarantee of premiums and interest by State; settlement of amounts due upon expiration of protection; subrogation of state crediting debt repayments.** Payment of premiums and interest thereon at the rate specified

in section -36 becoming due on a policy while protected under this part is guaranteed by the State, and if the amount so guaranteed is not paid to the insurer prior to the expiration of the period of insurance protection under this part, the amount then due shall be treated by the insurer as a policy loan. If at the expiration of that period the cash surrender value is less than the amount then due, the policy shall then cease and the State shall pay the insurer the difference between the amount and the cash surrender value. The amount paid by the State to an insurer on account of applications approved under this part shall become a debt due to the State by the insured on whose account payment was made and, notwithstanding any other law, the amount may be collected either by deduction from any amount due the insured by the State or as otherwise authorized by law. Any moneys received as repayment of debt incurred under this part shall be credited to the appropriation for the payment of claims under this part.

§ -38 **Rules; finality of determinations.** The insurance commissioner shall adopt rules under chapter 91 to implement this part. The findings of fact and conclusions of law made by the insurance commissioner in administering this part shall be final, and shall not be subject to review by any other official or agency of the government.

PART V. TAXES AND PUBLIC LANDS

§ -41 **Taxes respecting personalty, money, credits, or realty; sale of property to enforce collection; redemption of property sold; penalty for nonpayment; notice of rights to beneficiaries of section.** (a) This section applies to any general or special unpaid taxes or assessments, that fall due prior to or during the period of state military service, on personal property, money, or credits, or real property owned and occupied for dwelling, professional, business, or agricultural purposes by persons in state military service or the person's dependents at the commencement of the period of military service and still so occupied by the person's dependents or employees. This section does not apply to taxes on income.

(b) No sale of any property in subsection (a) shall be made to enforce the collection of any state or county tax or assessment, and no proceeding or action for that purpose shall commence, except upon leave of court granted upon application made by the state department of taxation or appropriate county agency. The court, unless in its opinion the ability of the person in military service to pay the taxes or assessments is not materially affected by reason of state military service, may stay the proceedings or the sale for a period of not more than sixty days after the termination of the period of military service of the person.

(c) When by law the property may be sold or forfeited to or enforce the collection of the tax or assessment, the person in state military service shall have the right to redeem or commence an action to redeem the property, at any time not later than sixty days after the termination of state military service, but in no case later than sixty days after the date if this chapter is repealed; provided this shall not shorten any period provided by any other state or county law providing for that redemption.

(d) Whenever under this chapter any tax or assessment is not required to be paid when due, the tax or assessment due and unpaid shall bear interest until paid at the rate of six per cent a year, and no other penalty or interest shall be incurred by reason of the nonpayment. Any lien for the unpaid taxes or assessment shall also include the interest thereon.

§ **-42 Rights to public lands not forfeited; grazing lands.** (a) No right to any lands owned or controlled by the State, initiated or acquired under any laws of the State, including the mining and mineral leasing laws, by a person prior to entering state military service shall during the period of that service be forfeited or prejudiced by reason of the person's absence from the land or the person's failure to perform any work or make any improvements thereon or the person's failure to do any other act required by or under those laws.

(b) This section does not control specific requirements contained in this part.

§ **-43 Income taxes; collection deferred; interest; statute of limitations.** The collection from any person in the state military forces of any tax on the income of such person pursuant to chapter 235, whether falling due prior to or during the person's period of military service, shall be deferred for a period of not more than sixty days after the termination of the person's period of military service if such person's ability to pay such tax is materially impaired by reason of the service. No interest on any amount of tax, collection of which is deferred for any period under this section, and no penalty for nonpayment of such amount during such period, shall accrue for such period of deferment by reason of nonpayment. The running of any statute of limitations against the collection of such tax by distraint or otherwise shall be suspended for the period of military service of any person whose tax collection is deferred under this section, and for an additional period of sixty days beginning with the day following the period of military service.

The provisions of this section shall not apply to the retention or recovery of debt under sections 231-51 to 231-59.

PART VI. ADMINISTRATIVE REMEDIES

§ **-51 Transfers to take advantage of chapter.** Notwithstanding the provisions of this chapter to the contrary, the court shall enter such lawful judgment or order, in any proceeding to enforce a civil right, where the court is satisfied that any interest, property, or contract, since the effective date of this chapter, has been transferred or acquired with intent to delay the just enforcement of such right by taking advantage of this chapter.

§ **-52 Certificates of service; persons reported missing.** (a) In any proceeding under this chapter, a certificate signed by the adjutant general shall be prima facie evidence as to any of the following facts stated in the certificate:

- (1) That a person named has not served, is serving, or has served in the state military forces;
- (2) The time when and the place where the person entered military service, the person's residence at that time, and the rank, branch, and unit of such service that the person entered;
- (3) The dates the person served in the state military forces;
- (4) The monthly pay received by the person at the date of issuing the certificate; and
- (5) If applicable, the time when and the place where the person died in or was discharged from such service.

(b) It is the duty of the adjutant general to furnish a certificate on application; and any certificate signed by any one of the officers of the adjutant general

or by any person purporting upon the face of the certificates to have been so authorized shall be prima facie evidence of its contents and of the authority of the officer to issue it.

(c) Where a person in military service has been reported missing, the person shall be presumed to continue in the service until accounted for, and no period under this chapter which begins or ends with the death of such person shall begin or end until the death of such person is in fact reported to or found by the department of defense, or any court or board thereof, or until death is determined by a court of competent jurisdiction. No period limited by this chapter that begins or ends with the death of such person shall be extended beyond a period of six months after the time when this chapter ceases to be in force.

§ -53 **Revocation of interlocutory orders.** Any interlocutory order under this chapter, made upon the court's own motion, may be revoked, modified, or extended by it upon appropriate notice to the parties.

PART VII. FURTHER RELIEF

§ -61 **Stay of enforcement of obligations, liabilities, taxes.** (a) A person, at any time during the person's period of military service or within sixty days thereafter, may apply to a court for relief from any obligation or liability incurred by that person prior to the person's period of military service or for relief of any tax or assessment whether falling due prior to or during the person's period of military service. The court, after appropriate notice and hearing, unless in its opinion the ability of the applicant to comply with the terms of such obligation or liability or to pay such tax or assessment has not been materially affected by reason of the applicant's military service, may grant the following relief:

- (1) In the case of an obligation payable under its terms in installments under a contract for the purchase of real estate, or secured by a mortgage or other installment in the nature of a mortgage upon real estate, a stay of the enforcement of the obligation during the applicant's period of military service and, from the date of termination of such period of military service or from the date of application if made after such service, for a period equal to the period of the remaining life of the installment contract or other instrument plus a period of time equal to the period of military service of the applicant, or any part of such combined period, subject to payment of the balance of principal and accumulated interest due and unpaid at the date of termination of the period of military service or from the date of application, as the case may be, in equal installments during the combined period at the rate of interest on the unpaid balance as is prescribed in the contract, or other instrument evidencing the obligation, for installments paid when due, and subject to other terms as may be just; and
- (2) In the case of any other obligation, liability, tax, or assessment, a stay of the enforcement thereof during the applicant's period of military service and, from the date of termination of such period of military service or from the date of application if made after such service, for a period of time equal to the period of military service of the applicant or any part of such period, subject to payment of the balance of principal and accumulated interest due and unpaid at the date of termination of such period of military service or from the

date of application, as the case may be, in equal periodic installments during such extended period at such rate of interest as may be prescribed for such obligation, liability, tax, or assessment, if paid when due, and subject to such other terms as may be just.

(b) When any court has granted a stay as provided in this section, no fine or penalty by reason of failure to comply with the terms or conditions of the obligation, liability, tax, or assessment as to which the stay was granted, shall accrue during the period in which the terms and conditions of the stay are complied with.

§ -62 **Power of attorney.** (a) Notwithstanding any other provision of law, a power of attorney that:

- (1) Was duly executed by a person in the military service who is in a missing status (as defined in section 551(2) of title 37, United States Code);
- (2) Designates that person's spouse, parent, or other named or relative as the person's attorney in fact for certain specified, or all, purposes; and
- (3) Expires by its terms after that person entered a missing status, and before or after the effective date of this section;

shall be automatically extended for the period that the person is in a missing status.

(b) No power of attorney executed after the effective date of this section by a person in the military service may be extended under subsection (a) if the document by its terms clearly indicates that the power granted expires on the date specified even though that person, after the date of execution of the document, enters a missing status.

§ -63 **Reinstatement of health insurance coverage upon release from service.** A person who, by reason of service in the state military forces is entitled to the rights and benefits of this chapter, shall be entitled upon release from such military service to reinstatement of any health insurance which was:

- (1) In effect on the day before service commenced; and
- (2) Terminated effective on a date during the period of service.

(b) An exclusion or a waiting period may not be imposed in connection with reinstatement of health insurance coverage for a health or physical condition of a person under subsection (a), or a health or physical condition for any other person who is covered by the insurance by reason of the coverage of such person, if:

- (1) The condition arose before or during that person's period of training or service in the state military forces;
- (2) An exclusion or waiting period would not have been imposed for the condition during a period of coverage of participation by such person in the insurance; and
- (3) The condition of such person has not been determined by the adjutant general to be a disability incurred or aggravated in the line of duty, within the meaning of section 38 U.S.C. sec. 105.

(c) Subsection (a) does not apply in the case of employer-offered insurance benefits in which a person referred to in such subsection is entitled to participate pursuant to 38 U.S.C. sec. 2021 et seq."

SECTION 3. This Act does not affect rights and duties that matured, penalties that were incurred, or proceedings that were begun, before its effective date.

SECTION 4. This Act shall take effect on July 1, 1994.

(Approved June 30, 1994.)

ACT 258

H.B. NO. 65

A Bill for an Act Relating to Housing.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that:

- (1) There is an acute shortage of safe, decent, and affordable rental housing in the State of Hawaii. Consequently, many persons are forced to occupy overcrowded, unsafe, or unsanitary dwelling accommodations; are severely cost-burdened; or, become homeless;
- (2) Many of Hawaii's housing problems stem from an inadequate supply of affordable housing, which has led to low vacancy rates and high rents. Because of the high cost of housing development and the extent of rental expense burden among Hawaii's very low and low income households, actions must be taken to develop and maintain an adequate stock of affordable rental housing;
- (3) An action called for in the state housing functional plan is the preservation of existing public and private housing stock, including federally-assisted, below-market rental housing projects. One such project is the 587-unit Queen Emma Gardens apartment complex which was built in 1961 as an urban renewal project. The rent charged at the project was below prevailing market prices for many years, making it one of Honolulu's most affordable places to live;
- (4) Rents at the Queen Emma Gardens apartment complex have increased by seven to fourteen per cent each year since the 1987 death of the complex's owner, Robert E. Black. Average rent increases, which took effect on January 1, 1992, ranged from \$50 to \$145 per month. Since then, rents have continued to increase and move toward market prices;
- (5) Because of uncertainties surrounding the fate of affordable rental apartments that last beyond their rent restrictions and begin charging closer to what the market will bear, there is concern that the Queen Emma Gardens apartment complex, which is located in an area of Honolulu where housing is in especially short supply, will cease to be affordable;
- (6) Due to the tremendous need for affordable rental housing, the legislature finds that it is in the public interest to provide affordable housing through various means, including preserving affordable rental housing stock;
- (7) The economy of the State and the public interest, health, welfare, security, and happiness of the people of the State are adversely affected by shortages of affordable rental housing;

- (8) The acquisition and preservation of affordable rental housing will promote the economy of the State and public interest, health, welfare, security, and happiness of the people of the State;
- (9) The Constitution of the State of Hawaii empowers the State to provide assistance for persons unable to maintain a standard of living compatible with decency and health. The rising cost of rent expense tied to other cost of living increases is swelling the ranks of persons unable to maintain a decent and healthful standard of life. If the inflationary trend of rent expense continues unchecked, the State could be faced with an inordinately large population of persons deprived of decent and healthful standards of life and consequent disruptions in lawful social behavior. The threat posed by this possibility is sufficiently real and imminent to warrant state action to acquire affordable rental housing stock as a means of curbing continuing inflationary rises in rental housing;
- (10) The State's acquisition of the Queen Emma Gardens apartment complex, by voluntary sale or acquisition through the exercise of the power of eminent domain, for the purposes of this Act, is for the public use and purpose of protecting the public safety, health and welfare of all people in Hawaii; and
- (11) The use of the power of eminent domain to condemn the Queen Emma Gardens apartment complex to preserve the apartment complex in the affordable housing stock is for a public use and purpose.

It is therefore declared to be necessary and it is the purpose of this Act to alleviate the abovementioned conditions by authorizing the purchase by voluntary sale or acquisition through condemnation in eminent domain of the Queen Emma Gardens apartment complex and providing for the public financing of such purchase by voluntary sale or acquisition through condemnation in eminent domain and payment through the issuance of bonds, the expenditure of general revenue funds, and the use of other funds which are at the disposal of the State.

It is the legislature's intent that in the selection of applicants for the Queen Emma Gardens apartment complex, tenants residing in the complex at the time of acquisition shall have first preference to occupy the units; provided that the tenants meet the eligibility criteria established by the housing finance and development corporation.

The legislature also finds that Filipino World War II veterans should receive all the benefits of military veterans with respect to state housing projects.

SECTION 2. Section 359-2, Hawaii Revised Statutes, is amended by amending the definition of "veteran" to read as follows:

““Veteran” includes any person who served in the military or naval forces of the United States during World War II and who has been discharged or released therefrom under conditions other than dishonorable. The term “veteran” shall also include Filipino World War II veterans who served honorably in an active duty status under the command of the United States Armed Forces in the Far East (USAFPE), or within the Philippine Army, the Philippine Scouts, or recognized guerilla units. The Filipino World War II veterans must have served at any time between September 1, 1939, and December 31, 1946, and must have been born in the Philippines and have resided in the Philippines prior to the military service.”

SECTION 3. (a) The housing finance and development corporation is

authorized to issue revenue bonds in accordance with part II of chapter 201E, Hawaii Revised Statutes, in the sum of \$55,000,000, or so much thereof as the corporation deems necessary for fiscal year 1995-1996, for the purpose of financing the purchase by voluntary sale or through the eminent domain acquisition of the Queen Emma Gardens apartment complex (TMK 1-2-1-5:4), provided that the housing finance and development corporation:

- (1) Conducts an appraisal of the Queen Emma Gardens apartment complex;
 - (2) Develops a financial plan to assess the feasibility of acquiring the Queen Emma Gardens apartment complex. The corporation shall work with the Queen Emma Gardens Tenants Association to develop a financially viable plan for acquiring the project utilizing public and private resources. Such financial plan may include the construction on the property of an additional apartment complex as an additional source of revenue. If the financial plan is not economically feasible, acquisition of the project shall not proceed. As the corporation is solely responsible for the debt obligation of the revenue bonds to be issued, the corporation, in its sole discretion, shall determine if the plan to acquire the project is economically feasible; and
 - (3) Submits a status report to the president of the senate and the speaker of the house of representatives at least twenty days prior to the convening of the 1995 regular session. This report shall include:

ACT 259

H.B. NO. 2730

A Bill for an Act Relating to Public Access.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that an informed and active citizenry is the dynamic force of democracy. Good government is impossible unless people are provided opportunities to voice their concerns and participate in the decision-making process.

Of the three branches of government, the legislature relies most heavily on direct public input. With the growth in complexity and volume of legislation and

the hectic pace of the brief legislative session, it is imperative that the legislature provide timely information to the public and make every effort to encourage citizen participation.

In this age of information in which state-of-the-art technology enables instant communications throughout the globe, full public participation in the state legislative process is hampered if information about bills, resolutions, hearing dates, and other relevant data is not readily accessible to the citizens of the State. The legislature believes that government agencies exist to aid the people in the formation and conduct of public policy. Accordingly, opening up government processes to public scrutiny and participation is the most viable and reasonable method of protecting democracy and the public interest, and public access through advanced technology and telecommunications is the means by which improved participation in the legislative process will become a reality.

The purpose of this Act is to increase public access to legislative processes and to provide a mechanism to fund these enhanced services.

SECTION 2. The Hawaii Revised Statutes is amended by adding a new chapter to be appropriately designated and to read as follows:

"CHAPTER PUBLIC ACCESS

§ -1 **Purpose.** The purpose of this chapter is to establish a permanent public access program to ensure improved public participation in the legislative process.

§ -2 **Public access room established.** There is established in the state capitol a public access room in which members of the public shall be allowed to utilize various equipment, services, and facilities to enhance their ability to participate in the legislative process. The costs of operation shall be borne equally by both houses of the legislature."

SECTION 3. There is appropriated out of the general revenues of the State of Hawaii the following sums, or so much thereof as may be necessary for fiscal year 1994-1995, for the purposes of providing cable television broadcasts for the 1995 regular legislative session:

Senate	\$100,000
House of Representatives	\$100,000

The sums appropriated shall be expended by the senate and the house of representatives, respectively, for the purposes of this Act.

SECTION 4. There is appropriated out of the general revenues of the State of Hawaii, the sum of \$60,000, or so much thereof as may be necessary for fiscal year 1994-1995, for the staffing, operating, and equipping of the public access room in the state capitol.

The sum appropriated shall be expended by the legislature for the purposes of this Act.

SECTION 5. This Act shall take effect on July 1, 1994.

A Bill for an Act Relating to Agribusiness Development.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The Hawaii Revised Statutes is amended by adding a new chapter to be appropriately designated and to read as follows:

**“CHAPTER
AGRIBUSINESS DEVELOPMENT CORPORATION**

§ **-1 Findings and purpose.** The legislature finds that the downsizing of the sugar and pineapple industries is presenting an unprecedented opportunity for the conversion of agriculture into a dynamic growth industry. Within the next decade, seventy-five thousand acres of agricultural lands and 50,000,000 gallons per day of irrigation water are expected to be released by plantations. The downsizing of the sugar and pineapple industries will idle a valuable inventory of supporting infrastructure including irrigation systems, roads, drainage systems, processing facilities, workshops, and warehouses. The challenge to government and business is to conserve and convert the arable lands and their associated production infrastructure in a timely manner into new productive uses that are based upon strategies developed from detailed marketing analysis and monitoring of local, national, and international opportunities. Constantly evolving economies require an aggressive and dynamic leadership for the promotion and development of agricultural enterprises, and centralized leadership to coordinate industry development, provide industry-wide services, provide marketing assistance, and facilitate investments and coventures in viable enterprises.

The purpose of this chapter is to create a vehicle and process to make optimal use of agricultural assets for the economic, environmental, and social benefit of the people of Hawaii. This chapter establishes a public corporation to administer an aggressive and dynamic agribusiness development program. The corporation shall coordinate and administer programs to assist agricultural enterprises to facilitate the transition of agricultural infrastructure from plantation operations into other agricultural enterprises, to carry on the marketing analysis to direct agricultural industry evolution, and to provide the leadership for the development, financing, improvement, or enhancement of agricultural enterprises.

Notwithstanding any other law to the contrary, moneys in the fund may be used to make up any deficiencies in the special fund.

(h) If the project facilities to be financed through bonds by the corporation may be dedicated to the county in which the project facilities are to be located, the corporation shall ensure that the project facilities are designed and constructed to meet county requirements.

§ -9 **Bonds.** (a) The corporation, with the approval of the governor, may issue from time to time revenue bonds in amounts not exceeding the total amount of bonds authorized to be issued by the legislature for the purpose of constructing, acquiring, remodeling, furnishing, and equipping any project facility, including the acquisition of the site thereof.

(b) All revenue bonds shall be issued pursuant to part III of chapter 39, except as provided in this chapter.

(c) The revenue bonds shall be issued in the name of the corporation and not in the name of the State. The final maturity date of the revenue bonds may be any date not exceeding thirty years from the date of issuance.

ACT 265

H.B. NO. 3164

A Bill for an Act Relating to Health Care Workers.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to authorize the director of health to appoint advisory committees to advise health care workers infected with the human immunodeficiency virus (HIV), hepatitis B virus (HBV), or other blood-borne infections. This is to comply with guidelines of the Centers for Disease Control, issued in July of 1991, entitled "Recommendations for Preventing the Transmission of Human Immunodeficiency Virus (HIV) and Hepatitis B Virus (HBV) to Patients during Exposure-prone Invasive Procedures." Federal law requires states to adopt the Centers for Disease Control recommendations or their equivalent or else risk losing federal public health funds.

The director of health, with the assistance of an ad hoc advisory group broadly representative of the health-care community, has issued a policy statement and guidelines that have been approved by the Centers for Disease Control. The guidelines provide for convening advisory committees to advise health care workers infected with HIV, HBV, or other blood-borne infections on the risks of transmission of the diseases. However, health care workers are needed to serve on the advisory committees, but they are reluctant to do so unless they receive the statutory protections available to members of boards and commissions while serving on advisory committees. The legislature finds that it is in the public interest to assure that qualified people are willing to serve on advisory committees.

SECTION 2. Chapter 325, Hawaii Revised Statutes, is amended by adding a new section to be appropriately designated and to read as follows:

"§325- Advisory committees for health care workers infected with blood-borne infections. (a) The director of health may appoint ad hoc advisory committees as needed to provide advice and recommendations to health care workers infected with HIV, HBV, or other blood borne infections on the risks of blood-borne disease transmission through exposure-prone invasive procedures. An advisory committee may recommend changes in a health care worker's practice, including patient notification, to reduce the possibility of transmission to patients. Each committee shall include:

- (1) An infectious disease specialist with expertise appropriate to the case; and
- (2) A professional peer of the infected health care worker, who has expertise in the professional practice performed by that worker.

ACT 266

The committee may also include the health care worker's personal physician and, if the worker's practice is facility-based, members of the facility's infection control committee. The department of health shall provide oversight and necessary staff support to the advisory committees when resources permit.

(b) An advisory committee shall serve only as long as necessary for the particular case or cases for which the committee is appointed, but its members may be named to subsequent committees as needed. Members of advisory committees shall serve without compensation, but shall be reimbursed for travel expenses as necessary by the department of health for the performance of their duties.

(c) Notwithstanding any law to the contrary, work of the advisory committees, including records, shall be confidential, except that a summary of non-identifying information and general policy recommendations may be made available to the public. All committee meetings shall be closed to the public."

SECTION 3. New statutory material is underscored.¹

SECTION 4. This Act shall take effect upon its approval.

(Approved July 1, 1994.)

ACT 266

H.B. NO. 3327

A Bill for an Act Relating to Establishment of an Agency for Community Hospitals.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to affirm the State's commitment to providing quality health care to all people by creating an agency for community hospitals.

The legislature recognizes that the State's community hospitals system is the fifth largest in the nation. With rapid changes taking place in the health care industry and the impending implementation of uncertain national and local health care reforms, the legislature recognizes the necessity of permanently allowing the community hospitals system to gain more control over their operations to compete and remain viable.

The current administrative arrangement places the State's community hospitals system in a division within the department of health. However, a health care system of such critical significance to the quality of people's lives requires more independence of function.

Act 211, Session Laws of Hawaii 1993, extended the pilot autonomy project to eight of thirteen facilities in the division of community hospitals, which has contributed effectively to expediting and improving the delivery of health care services by the community hospitals system. Positive benefits have been gained in the operations and financial performance of the hospitals. However, the pilot project and its benefits will be lost in June 1996, when Act 211 is repealed. Thus, for the community hospitals system to maintain these benefits, this Act

starts the process of making the provisions of the pilot project permanent by establishing a task force and management team to facilitate the transition of the division of community hospitals into an agency for community hospitals, administratively placed within the department of health.

SECTION 2. (a) Before the convening of the regular session of 1995, the governor shall prepare an organizational and functional plan for the agency for community hospitals. For this purpose, the governor shall appoint an assisting task force consisting of, but not limited to, representatives of the departments of health, budget and finance, personnel services, accounting and general services, attorney general, the designated collective bargaining representatives of employees in bargaining units (1), (2), (3), (4), (9), (10), and (13), representatives from the hospital industry, representatives from health maintenance organizations, and community members from each county. The organizational and functional plan shall be submitted to the legislature no later than thirty days prior to the convening of the regular session of 1995 as part of the biennial executive budget request.

(b) Upon the completion of the organizational and functional plan, the governor shall appoint a management team to develop transition plans, finalize position descriptions and revise personnel classifications, establish a personnel records system, develop accounting and fiscal controls, and attend to other administrative details so that the new agency will be operational by July 1, 1996. A report describing the action taken shall be submitted to the legislature not less than thirty days prior to the convening of the regular session of 1996. A budget request for the agency for community hospitals shall be included as part of the supplemental executive budget request.

(c) Upon completion of any government employee's assignment to the task force, the employee shall return to the position in which the employee last held a permanent appointment. No employee shall suffer any loss of salary, seniority, prior service credit, vacation, sick leave, or other employee benefits or privileges as a consequence of assignment to the task force.

(d) The task force and management team shall give quarterly progress reports to a committee composed of the director of health, the deputy director for community hospitals, and the division of community hospitals' management advisory committee county chairs.

SECTION 3. (a) The task force established in section 2 shall consider, evaluate, and recommend the scope of authority to be granted to the agency for community hospitals, including but not limited to the following:

- (1) Developing its own policies, procedures, and rules necessary to plan, operate, manage, and control the system of public health facilities;
- (2) Evaluating the need for new public health facilities;
- (3) Entering into and performing any contracts, leases, cooperative agreements, or other transactions that may be necessary in the performance of its duties and responsibilities, and on terms it may deem appropriate, with any agency or instrumentality of the United States, or with any state, territory, or possession, or with any subdivision thereof, or with any person, firm, association, or corporation; provided that the transaction furthers the public interest;
- (4) Entering into business relationships, including but not limited to:
 - (A) Creating nonprofit corporations;

- (B) Establishing, subscribing to, and owning stock in for-profit corporations individually or jointly with others; and
- (C) Entering into partnerships and other joint venture arrangements;
 - provided that the relationship furthers the public interest;
- (5) Participating in prepaid health care service and insurance programs and other alternative health care delivery programs;
- (6) Setting rates and charges for all services provided in each public health facility and establishing operating and capital improvement budgets;
- (7) Developing a hospital personnel system;
- (8) Acquiring in any lawful manner any property, real, personal, or mixed, tangible or intangible, or any interest therein; holding, maintaining, using, and operating the same; and selling, leasing, or otherwise disposing of the same at any time, in any manner, and to the extent deemed necessary or appropriate to carry out its purposes;
- (9) Determining the character of and the necessity for its obligations and expenditures, and the manner in which they shall be incurred, allowed, and paid, subject to laws specifically applicable to the agency;
- (10) Executing in accordance with its bylaws, all instruments necessary or appropriate in the exercise of any of its powers;
- (11) Issuing revenue bonds; and
- (12) Taking any actions that may be necessary or appropriate to carry out the powers conferred upon it by law and as required by this Act.

(b) The task force shall consider and evaluate the establishment of a board of directors and local community boards to oversee the operations of the agency for community hospitals. The task force shall consider the roles of the board of directors and local community boards, vesting the local community boards with as much authority over their local public health facilities as possible.

(c) The task force shall evaluate the provisions of the division of community hospitals' pilot autonomy project and its authorizations, and develop means to integrate the project into the agency for community hospitals.

(d) With the governor's approval, the task force may engage a consultant knowledgeable in health care to assist in its efforts.

SECTION 4. The Governor, the task force and any consultant engaged to assist the task force, the task force members, including the representatives of the departments of health, budget and finance, personnel services, accounting and general services, attorney general, the designated collective bargaining representatives of employees in bargaining units (1), (2), (3), (4), (9), (10), and (13), representatives from the hospital industry, representatives from health maintenance organizations, and community members from each county, the management team, the director of health, the deputy director for community hospitals, and the division of community hospitals' management advisory committee county chairs, shall cooperate fully with any review of all participating community hospitals granted autonomy in the autonomy pilot project carried out by the auditor, should such a review be required by law.

SECTION 5. Statutory material to be repealed is bracketed. New statutory material is underscored.¹

SECTION 6. This Act shall take effect upon its approval and shall be repealed on June 30, 1996.

ACT 272

H.B. NO. 3657

A Bill for an Act Relating to Education.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The legislature finds that reforming Hawaii's public education system is no easy task. For years, the board of education, the department of education, and the legislature have struggled to effect changes to the public education system to ensure the delivery of meaningful educational services and improve student achievement. While many of those efforts have resulted in bold and innovative initiatives such as school/community-based management (SCBM), progress in realizing school empowerment has been slow, as decision-makers have been too immersed in differences on conceptual and jurisdictional issues. It is clear, however, that all stakeholders agree that the focus must be on school empowerment and that any meaningful reform will require restructuring from the bottom up with emphasis on the individual school as the basic management unit of the educational system. Students must be the focal point and government agencies the supporting framework for the schools. Schools must be empowered by providing the necessary authority, resources, and flexibility so that the school's primary focus is on delivering instructional services.

Systemic reform cannot and will not be achieved overnight. Hawaii's top-down, tri-level school management system has been in place for decades. It is a statewide system that encompasses school districts and school complexes within districts that are distinctly different and are progressing at varied speeds toward SCBM. Restructuring must be viewed as a gradual process with changes occurring on a continuum culminating with schools fully functioning as independent learning units.

To set the reform effort in motion, this Act provides for two constitutional amendments to address the continuing debate on educational governance regarding the roles of the board of education and the superintendent of education. The first amendment will allow the people to decide whether the public schools should be governed by an elected or appointed board of education. The second amendment will propose changing the board of education's role to a statewide educational policy-making body which appoints the superintendent of education as the chief executive office of the public school system. The legislature believes that ratification of these amendments will provide a clear public mandate, the clout that is necessary to proceed.

This Act then directs the department of education to commence restructuring and provides for the downsizing of the state and district offices and curriculum decision-making at the school level. It is the intent of the legislature that this restructuring effort shall be undertaken within existing resources and will allow for greater administrative support to the schools. Additionally, a restructuring commission is established to assist the department in addressing implementation issues and to monitor the department's progress in deployment of personnel and reallocation of resources. The commission will also develop transitional plans for the transfer of other education-related functions currently administered by other state agencies. The legislature believes the restructuring commission's composition and duties are in line with and will enable the State to receive federal funds from the Goals 2000: Educate America Act recently adopted by the U.S. Congress and signed into law by the President.

The current budget format of the public education system has obscured funding decisions concerning individual schools. Under this structure, the division of funds among the schools has been an administrative process, outside of public view and beyond public control. Funds are dissipated in a burgeoning administrative bureaucracy, and there is no clear accounting of how much money actually reaches the schools for instruction and activities that directly affect students and learning. As the movement to decentralize takes hold, the state and district offices need to change from its managerial role to one that supports, facilitates, and monitors school level activities. The schools must assume control of personnel and fiscal resources to determine the curriculum and instructional needs of their students. Through this Act, the roles and responsibilities of the board of education, the department of education, and the school principals are more clearly defined. The board of education is entrusted with developing statewide educational policy for our public school system. The superintendent of education and the department of education are responsible for the administrative functions of the public school system, and the school principals are responsible for developing and providing instructional services at the schools. Increased control of resources is also provided through extending budget flexibility provisions such as carry-over of unexpended funds and creation of temporary positions, and a new provision directing the reallocation of resources from the state and district offices to the school-level is aimed at providing even greater support for our schools.

Finally, this Act builds upon the legislature's past systemic reform efforts, such as SCBM, that enable schools to become more autonomous and, in turn, directly responsible for educational outcomes. For schools which have successfully implemented school/community-based management and seek further autonomy, this Act allows school staff and parents in collaboration to establish student-centered schools as individual learning units within the public school system.

PART I. APPOINTED BOARD OF EDUCATION

SECTION 2. Article X, section 2, of the Constitution of the State of Hawaii is amended to read as follows:

"BOARD OF EDUCATION

Section 2. [from two at-large school board districts. The first school board district shall be comprised of the island of Oahu and all other islands not specifically enumerated. The second school board district shall be comprised of the islands of Hawaii, Maui, Lanai, Molokai, Kahoolawe, Kauai and Niihau. Each at-large school board district shall be divided into departmental school districts, as may be provided by law. There shall be at least one member residing in each departmental school district.] The Hawaii State Student Council shall select a public high school student to serve as a nonvoting member on the board of education."

SECTION 3. The question to be printed on the ballot shall be as follows:

- (1) In the case of an election involving a seat for the senate, house of representatives, [board of education,] or county council where only voters within a specified district are allowed to cast a vote, the winner shall be declared as follows:
 - (A) For each precinct in the affected district, an election rate point shall be calculated by dividing the total number of registered voters in that precinct by the total number of registered voters in the district. For the purpose of this subparagraph, the absentee votes cast for the affected district shall be treated as a precinct. The election rate point shall be calculated by dividing the total absentee votes cast for the affected district by the total number of registered voters in that district. All election rate points shall be expressed as decimal fractions rounded to the nearest hundred thousandth.
 - (B) The candidate with the highest number of votes in a precinct shall be allocated the election rate point calculated under subparagraph (A) for that precinct. In the event that two or more persons are tied in receiving the highest number of votes for that precinct, the election rate point shall be equally apportioned among those candidates involved in that precinct tie.
 - (C) After the election rate points calculated under subparagraph (A) for all the precincts have been allocated as provided in subparagraph (B), the election rate points allocated to each candidate shall be tallied and the candidate with the highest election rate point total shall be declared the winner.
 - (D) If there is a tie between two or more candidates in the election rate point total, the candidate who is allocated the highest election rate points from the greatest number of precincts shall be declared the winner.
- (2) In the case of an election involving a federal office or an elective office where the voters in the entire State or in an entire county are allowed to cast a vote, the winner shall be declared as follows:
 - (A) For each representative district in the State or county, as the case may be, an election rate point shall be calculated by dividing the total number of registered voters in that representative district by the total number of registered voters in the State, county¹ or federal office district, as the case may be; provided that for purposes of this subparagraph:
 - (i) The absentee votes cast for a statewide, countywide, or federal office shall be treated as a separate representative district and the election rate point shall be calculated by dividing the total absentee votes cast for the statewide, countywide, or federal office by the total number of registered voters in the State, county, or federal office district, as the case may be.

- (ii) The overseas votes cast for any election in the State for a federal office shall be treated as a separate representative district and the election rate point shall be calculated by dividing the total number of overseas votes cast for the affected federal office by the total number of registered voters in the affected federal office district. The term "overseas votes" means those votes cast by absentee ballots for a presidential election as provided in section 15-3.

All election rate points shall be expressed as decimal fractions rounded to the nearest hundred thousandth.

- (B) The candidate with the highest number of votes in a representative district shall be allocated the election rate point calculated under subparagraph (A) for that district. In the event that two or more persons are tied in receiving the highest number of votes for that district, the election rate point shall be equally apportioned among those candidates involved in that district tie.
- (C) After the election rate points calculated under subparagraph (A) for all the precincts have been allocated as prescribed in¹ subparagraph (B), the election rate points allocated to each candidate shall be tallied and the candidate with the highest¹ election rate point total shall be declared the winner.
- (D) If there is a tie between two or more candidates in the election rate point total, the candidate who is allocated the highest election rate points from the greatest number of¹ districts shall be declared the winner."

(Approved July 5, 1994.)

ACT 276

H.B. NO. 2515

A Bill for an Act Relating to the Employees' Retirement System.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to correct Act 357, Session Laws of Hawaii 1993, and to fulfill the intended objectives of that Act as originally proposed. The original premise of Act 357 was to grant retirement eligibility to water safety officers without reduction for age upon twenty-five years of service. However, the class status of water safety officers was also changed. It was not intended to require water safety officers to become contributory members subject to mandatory contribution of 12.2 per cent of compensation, but to recognize the inherently dangerous nature of their work and provide an early retirement without reduction for age in view of the strenuous physical requirements of that position, comparable to the benefit provided another class C group, sewer workers.

This Act will restore water safety officers to class C or noncontributory status. This amendment will allow service retirement, without actuarial reduction for age, for a public employee who has at least twenty-five years of credited service, the last five years of which are credited as a water safety officer. However, to the extent that some water safety officers have obtained rights under Act 357, those rights are preserved by permitting an election to remain a class A member.

In addition, the unfunded benefit obligation, actuarially determined, should be addressed. The funding of the retirement program for the security of members of the retirement system and the taxpayers is a matter of significant concern. However, any action taken will have consequences. Accordingly, the actuarial assumptions, as well as distribution of investment earnings are made subject to periodic actuarial review and legislative adjustment. This measure should assure that funding levels remain appropriate.

SECTION 2. Section 88-45, Hawaii Revised Statutes, is amended to read as follows:

"§88-45 Employee contributions. After June 30, 1988, each class A and class B member shall contribute seven and eight-tenths per cent of the member's compensation to the annuity savings fund; provided that after June 30, 1989, all firefighters, police officers, corrections officers, investigators of the departments of the prosecuting attorney and of the attorney general, narcotics enforcement investigators, and water safety officers not making the election under section 88-271 shall contribute twelve and two-tenths per cent of their compensation to the annuity savings fund for service in that capacity."

SECTION 3. Section 88-47, Hawaii Revised Statutes, is amended by amending subsection (a) to read as follows:

"(a) There shall be three classes of members in the system to be known as class A, class B, and class C, defined as follows:

- (1) Class A shall consist of members covered by section 88-74(3), those members whose salaries are set forth in sections 26-52 and 26-53, investigators of the department of the attorney general, narcotics enforcement investigators, water safety officers[,], not making the election under section 88-271, and those members in service prior to

- July 1, 1984, including those who are on approved leave of absence, who are covered by Title II of the Social Security Act on account of service creditable under this part. This class shall consist of:
- (A) All employees who enter membership after June 30, 1957, except employees in positions to which coverage under Title II of the Social Security Act is not extended;
 - (B) All employees who were members on July 1, 1957, who elected to be covered by the Social Security Act; and
 - (C) All former class A retirants who return to employment after June 30, 1984, requiring the retirant's active membership;
- (2) Class B shall consist of all members who are not class A or class C members; and
- (3) Except for members [covered by section 88-74(3), those members whose salaries are set forth in sections 26-52 and 26-53, investigators of the department of the attorney general, narcotics enforcement investigators, and water safety officers,] described in section 88-47(a)(1), class C shall consist of all employees in positions covered by Title II of the Social Security Act who:
- (A) First enter service after June 30, 1984;
 - (B) Reenter service after June 30, 1984, without vested benefit status as provided in section 88-96(b);
 - (C) Make the election to become a class C member as provided in part VII; or
 - (D) Are former class C retirants who return to service requiring the retirant's active membership."

SECTION 4. Section 88-74, Hawaii Revised Statutes, is amended to read as follows:

"§88-74 Allowance on service retirement. Upon retirement from service, a member shall receive a retirement allowance as follows:

- (1) If the member has attained age fifty-five, a retirement allowance of two per cent of the member's average final compensation multiplied by the total number of years of the member's credited service as a class A and B member, plus a retirement allowance of one and one-fourth per cent of the member's average final compensation multiplied by the total number of years of prior credited service as a class C member; provided that:
 - (A) After June 30, 1968, if the member has at least ten years of credited service of which the last five or more years prior to retirement is credited service as a firefighter, police officer, or an investigator of the department of the prosecuting attorney;
 - (B) After June 30, 1977, if the member has at least ten years of credited service of which the last five or more years prior to retirement is credited service as a corrections officer;
 - (C) After June 16, 1981, if the member has at least ten years of credited service of which the last five or more years prior to retirement is credited service as an investigator of the department of the attorney general;
 - (D) After June 30, 1989, if the member has at least ten years of credited service of which the last five or more years prior to retirement is credited service as a narcotics enforcement investigator;

- (E) After June 30, 1992, if the member has at least ten years of credited service, a part of which is credited as a corrections officer or narcotics enforcement investigator; provided the member is employed with the department of public safety, is promoted or accepts a position as a public safety internal affairs investigator, and retires from that department; and
- (F) After December 31, 1993, if the member has at least ten years of credited service of which the last five or more years prior to retirement is credited service as a water safety officer;

then for each year of service as a firefighter, police officer, corrections officer, investigator of the department of the prosecuting attorney, investigator of the department of the attorney general, narcotics enforcement investigator, or water safety officer, the retirement allowance shall be two and one-half per cent of the member's average final compensation. The maximum retirement allowance for those members shall not exceed eighty per cent of the member's average final compensation. If the member has not attained age fifty-five, the member's retirement allowance shall be computed as though the member had attained age fifty-five, reduced in accordance with factors of actuarial equivalence adopted by the board upon the advice of the actuary; provided that no reduction shall be made if the member has at least twenty-five years of credited service as a firefighter, police officer, corrections officer, investigator of the department of the prosecuting attorney, investigator of the department of the attorney general, narcotics enforcement investigator, sewer worker, or water safety officer, of which the last five or more years prior to retirement is credited service in such capacities;

- (2) If the member has made voluntary additional contributions for the purchase of an additional annuity and has not applied for the refund thereof as permitted by section 88-72, the member may accept refund at the time of retirement or, in lieu thereof, receive in addition to the retirement allowance provided in paragraph (1), an annuity that is the actuarial equivalent of the additional contributions with regular interest; or
- (3) If the member has credited service as a judge, an elective officer, or the chief clerk, assistant clerk, sergeant at arms, or assistant sergeant at arms of either house of the legislature, the member's retirement allowance shall be computed on the following basis:
 - (A) Irrespective of age, for each year of credited service as a judge, an elective officer, or the chief clerk, assistant clerk, sergeant at arms, or assistant sergeant at arms of either house of the legislature, three and one-half per cent of the member's average final compensation in addition to an annuity that is the actuarial equivalent of the member's accumulated contributions allocable to the period of such service; and
 - (B) For all other credited service, as provided in paragraphs (1) and (2). No allowance shall exceed seventy-five per cent of the member's average final compensation. If the allowance exceeds this limit, it shall be adjusted by reducing the annuity included in subparagraph (A), and the portion of the accumulated contributions specified in that subparagraph in excess of the requirements of the reduced annuity shall be returned to the member.

The allowance for judges under this paragraph, together with the retirement allowance provided by the federal government for similar service, shall in no case exceed seventy-five per cent of the member's average final compensation."

SECTION 5. Section 88-105, Hawaii Revised Statutes, is amended to read as follows:

"§88-105 Actuarial investigations, valuations. At least once in each five-year period, commencing with [the year 1929,] fiscal year 1995, the actuary shall make an actuarial investigation of the experience of the system and shall recommend to the board of trustees the adoption for actuarial valuation of the system of such mortality, service and other tables as shall be deemed appropriate and necessary[.], and the actuary shall recommend to the legislature for its adoption the investment yield rate and annual salary increase assumption. The actuary shall assess the actual investment earnings during the five-year review period and recommend appropriate adjustments to the contributions under section 88-123 for the same period. The actuary shall further recommend the acceptable level of pension benefit obligation ratio for the system, taking into consideration the guaranties of Article XVI, section 2, of the State Constitution, section 88-107, and section 88-127.

On the basis of such tables and other factors as the board or legislature, as the case may be, shall adopt, the actuary shall make an annual valuation of the assets and liabilities of the funds of the system."

SECTION 6. Section 88-107, Hawaii Revised Statutes, is amended to read as follows:

"§88-107 Interest. The board of trustees shall annually allocate the interest and other earnings of the system to the funds of the system, as follows:

- (1) The annuity savings fund shall be credited with the amount of regular interest credited to members' accounts; [and]
- (2) The expense fund shall be credited with such sums as provided in section 88-116; and
- [(2)] (3) The remaining investment earnings, if any, shall be credited to the pension accumulation fund.

The amounts to be contributed to the pension accumulation fund by the State and counties shall be reduced by any investment earnings in excess of the investment yield rate applied in actuarial valuations[.], except as otherwise provided. Any additional amount required to meet the investment yield rate for the preceding year until fiscal year 2000 shall be paid by the State and counties, and shall be credited to the pension accumulation fund.

Beginning with actual investment earnings in fiscal year 1995 in excess of the investment yield rate, to address outstanding unfunded pension obligations, ten per cent of such excess earnings shall be deposited in the pension accumulation fund; remaining excess earnings shall be applied to the amounts to be contributed under section 88-123. In each succeeding fiscal year, another ten per cent, cumulatively up to one hundred per cent, of any excess such earnings shall be similarly allocated and deposited in the pension accumulation fund.

Following each five-year actuarial review as provided in section 88-105, the legislature shall evaluate the allocation and distribution of investment

earnings in excess of the investment yield rate, and make such adjustments as appropriate. In the absence of affirmation by resolution, investment earnings in excess of the investment yield rate shall be applied to the contributions under section 88-123."

SECTION 7. Section 88-114, Hawaii Revised Statutes, is amended to read as follows:

"§88-114 Pension accumulation fund. The pension accumulation fund shall be the fund in which shall be accumulated all contributions made by the State and any county and all income from investments and from which shall be paid all benefits, including the bonus authorized under section 88-11, and other than those benefits which are specifically payable from other funds."

SECTION 8. Section 88-116, Hawaii Revised Statutes, is amended to read as follows:

"§88-116 Expense fund. The expense fund shall be the fund to which shall be credited all money [provided by the State and counties] to pay the administration expenses of the system, and from which shall be paid all the expenses necessary in connection with the administration and operation of the system. Biennially, the board of trustees shall estimate the amount of money necessary to be paid into the expense fund during the ensuing biennium to provide for the expense of operation of the system[. The expense shall be prorated among the State and the respective counties upon the basis of the total payroll of the employees of each who are included in the system, and each shall pay its prorata share thereof.], and shall pay that amount into the expense account from the investment earnings of the system, subject to review by the legislature and approval by the governor."

SECTION 9. Section 88-122, Hawaii Revised Statutes, is amended by amending subsection (b) to read as follows:

"(b) The actuarial valuations made for years ending June 30, [1993,] 1995, and June 30, [1994,] 1996, shall be based on an eight per cent investment yield rate, assumed salary increases of six and one-half per cent, and¹ tables and factors adopted by the board² or legislature for actuarial valuations of the [system.] system, subject to recommendations made by the actuary appointed under section 88-30."

**"PART . ASSISTING NOT-FOR-PROFIT CORPORATIONS
THAT PROVIDE EARLY CHILDHOOD EDUCATION AND
CARE FACILITIES SERVING THE GENERAL PUBLIC**

§39A- Definitions. Whenever used in this part, unless a different meaning clearly appears from the context:

"Department" means the department of budget and finance.

"Early childhood education and care facility" means any property used primarily for the care and instruction of children from birth to age five; provided that it shall not include any property to be used primarily for sectarian instruction or study, or as a place for devotional activities or religious worship, or any property used primarily in connection with any part of a program of a school or department of divinity of any religious denomination.

"Project agreement" means any agreement entered into under this part by the department with a project party providing for the issuance of special purpose revenue bonds to finance facilities of a project party or for a project party or to loan the proceeds of such bonds to assist not-for-profit corporations that provide early childhood education and care facilities that serve the general public, including without limitation any loan agreement.

"Project party" means a not-for-profit corporation that provides an early childhood education and care facility that serves the general public.

"Refinancing of outstanding obligations" or "refinancing" means the liquidation, retirement, or provision for retirement with the proceeds of bonds issued by the State, of any indebtedness of a project party incurred to finance or aid in financing a lawful purpose of such project party not financed pursuant to this part which constitutes an early childhood education and care facility or consolidation of such indebtedness with indebtedness of the State incurred for an early childhood education and care facility related to the purpose for which the indebtedness of the project party was initially incurred.

"Special purpose revenue bonds" or "bonds" means bonds, notes, or other evidences of indebtedness of the State issued pursuant to this part.

§39A- Department powers as to early childhood education and care facilities. In addition to powers which it may now have, the department shall have all powers necessary or convenient to accomplish the purposes of this part. The powers of the department include, but are not limited to, the following:

- (1) Notwithstanding and without compliance with section 103-7, but with the approval of the governor, to enter into and carry out a project agreement, or an amendment or supplement to an existing project agreement, with a project party, and to enter into and carry out any agreement whereby the obligation of a project party under a project agreement will be unconditionally guaranteed by a person other than a project party.
- (2) To issue special purpose revenue bonds pursuant to and in accordance with this part.
- (3) To lend the proceeds of the special purpose revenue bonds issued for a project to the project party for use and application by the project party for the acquisition, purchase, construction, reconstruction, improvement, betterment, extension, or refinancing of outstanding obligations related to a project.

- (4) As security for the payment of the principal of, premium, if any, and interest of the special purpose revenue bonds issued for this project, to pledge, assign, hypothecate, or otherwise encumber all or any part of the revenues and receipts derived or to be derived by the department under the project agreement for the project for which such bonds are issued; to pledge and assign the interest and rights of the department under the project agreement or other agreement with respect to such project or such special purpose revenue bonds; and to pledge and assign any bond, debenture, note, or other evidence of indebtedness received by the department with respect to such project; or any combination of the foregoing.
- (5) To extend or renew any project agreement or any other agreement related thereto; provided that any such renewal or extension shall be subject to the approval of the governor unless made in accordance with provisions for such extension or renewal contained in a project agreement or related agreement theretofore approved by the governor.
- (6) To do any and all things necessary or convenient to carry out its purposes and exercise the powers given and granted in this part.

When the department finances or refinances a project by the issuance of special purpose revenue bonds as contemplated by this part, the State shall not exercise the power of eminent domain to acquire a project or any part thereof for lease or transfer to a project party, nor shall the State operate a project on behalf of a project party.

§39A- Compliance with state and local law. The issuance of special purpose revenue bonds with respect to any project under this part shall not relieve any project party or other user of such project from the laws, ordinances, and rules of the State or any political subdivision thereof, or any departments or boards thereof with respect to the construction, operation, and maintenance of projects, compliance with early childhood education and care laws or regulations, or zoning laws or regulations, obtaining of building permits, compliance with building and health codes and other laws, ordinances, or rules of similar nature pertaining to the project, and such laws shall be applicable to such party or such other user to the same extent it would be if the costs of the project were directly financed by the project party.

§39A- Conditions precedent to negotiating and entering into a project agreement. The department prior to entering into negotiations with any project party shall require that the State shall be reimbursed for any and all costs and expenses (direct or indirect) incurred by it in implementing and administering this part, as determined by the department, even though a project agreement may not be entered into and may further require the deposit of moneys with the department for such reimbursement. Any amount of such deposit in excess of the amount required to reimburse the State shall be returned by the department to the party which has made such deposit. The State shall not be required to pay to the project party any interest or earnings on such deposit.

The department shall not enter into any project agreement with respect to any project unless the department shall first find and determine either that the project party is a responsible party, whether by reason of economic assets or experience in the type of enterprise to be undertaken through such project, or otherwise, or that the obligations of the project party under the project agreement

will be unconditionally guaranteed by a person who is a responsible party, whether by reason of economic assets or experience in the type of enterprise to be undertaken through such project or otherwise.

§39A- Project agreement. No special purpose revenue bonds shall be issued unless at the time of issuance the department shall have entered into a project agreement with respect to the project for the financing or refinancing of which such revenue bonds are to be issued. Any project agreement entered into by the department shall contain provisions unconditionally obligating the project party:

- (1) To pay to the department during the period or term of the project agreement, exclusive of any renewal or extension thereof and whether or not the project is used or occupied by the project party, such sum or sums, at such time or times and in such amounts that will be at least sufficient:
 - (A) To pay the principal and interest on all special purpose revenue bonds issued with respect to the project as and when the same become due, including any premium payable upon any required redemption of such bonds;
 - (B) To establish or maintain such reserve, if any, as may be required by the instrument authorizing or securing the special purpose revenue bonds;
 - (C) To pay all fees and expenses (including the fees and expenses of the paying agents and trustees) incurred in connection with such special purpose revenue bonds; and
 - (D) To pay the expenses (direct or indirect) incurred by the State, as determined by the department, in administering such bonds or in carrying out the project agreement.
- (2) To operate, maintain, and repair the project as long as the same is used in the provision of early childhood education and care to the general public, and to pay all costs of such operation, maintenance, and repair.

Moneys received by the department pursuant to paragraph (1)(D) shall not be, nor be deemed to be, revenues of the project and shall be paid into the general fund of the State.

§39A- Issuance of special purpose revenue bonds to finance projects. In addition to the other powers which it may otherwise have, the department may issue special purpose revenue bonds to finance or refinance, the costs of facilities of, or for, or to loan the proceeds of such bonds to assist project parties. All revenue bonds issued under this part are special purpose revenue bonds and the provisions of part III of chapter 39 shall not apply thereto. All special purpose revenue bonds shall be issued in the name of the department and not in the name of the State.

The department in determining the cost of any project, may also include the following: financing charges, fees, and expenses of any trustee and paying agents for special purpose revenue bonds issued to pay the cost of such project; interest on such bonds and the expenses of the State in connection with such bonds and the project to be financed or refinanced from the proceeds of such bonds accruing or incurred prior to and during the period of construction and for not exceeding twelve months thereafter; amounts necessary to establish or increase reserves for the special purpose revenue bonds; the cost of plans, specifications, studies, surveys, and estimates of costs and of revenues; other expenses

incidental to determining the feasibility or practicability of the project; administration expenses; interest cost incurred by the project party with respect to the project prior to the issuance of the special purpose revenue bonds; fees and expenses incurred in connection with the refinancing of outstanding obligations; and such other costs, commissions, and expenses incidental to the construction, acquisition, reconstruction, renovation, rehabilitation, improvement, betterment, operation, or extension of the project, the financing or refinancing thereof, placing of same in operation, and the issuance of the special purpose revenue bonds, whether incurred prior to or after the issuance of such bonds.

The legislature finds and determines that the exercise of the powers vested in the department by this part constitutes assistance to not-for-profit corporations serving the general public and that the issuance of special purpose revenue bonds to finance or to refinance facilities of, or for, or to loan the proceeds of such bonds to assist, project parties, is in the public interest.

§39A- Authorization of special purpose revenue bonds. (a) Special purpose revenue bonds for each single project or multi-project program for early childhood education and care facilities serving the general public shall be authorized by a separate act of the legislature, by an affirmative vote of two-thirds of the members to which each house is entitled; provided that the legislature shall find that the issuance of such bonds is in the public interest. Special purpose revenue bonds issued pursuant to this part may be in one or more series for each project. The special purpose revenue bonds of each issue shall be dated, shall bear interest at such rate or rates, shall mature at such time or times not exceeding forty years from their date or dates, shall have such rank or priority and may be made redeemable before maturity at the option of the department, at such price or prices and under such terms and conditions, all as may be determined by the department. The department shall determine the form of the special purpose revenue bonds, including any interest coupons to be attached thereto, and the manner of execution of the special purpose revenue bonds, and shall fix the denomination or denominations of the special purpose revenue bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the State. The special purpose revenue bonds may be issued in coupon or in registered form, or both, as the department may determine, and provisions may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The department may sell special purpose revenue bonds in such manner, either at public or private sale, and for such price as it may determine.

(b) Prior to the preparation of definitive special purpose revenue bonds, the department may issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when such bonds have been executed and are available for delivery.

(c) Should any bond issued under this part or any coupon appertaining thereto become mutilated or be lost, stolen, or destroyed, the department may cause a new bond or coupon of like date, number, and tenor to be executed and delivered in exchange and substitution for, and upon the cancellation of such mutilated bond or coupon, or in lieu of and in substitution for such lost, stolen, or destroyed bond or coupon. Such new bond or coupon shall not be executed or delivered until the holder of the mutilated, lost, stolen, or destroyed bond or coupon has (1) paid the reasonable expense and charges in connection therewith; (2) in the case of a lost, stolen, or destroyed bond or coupon, has filed with the

department or its fiduciary evidence satisfactory to such department or its fiduciary that such bond or coupon was lost, stolen, or destroyed and that the holder was the owner thereof; and (3) has furnished indemnity satisfactory to the department.

(d) The department in its discretion may provide that CUSIP identification numbers shall be printed on such bonds. In the event such numbers are imprinted on any such bonds (1) no such number shall constitute a part of the contract evidenced by the particular bond upon which it is imprinted, and (2) no liability shall attach to the department or any officer or agent thereof, including any fiscal agent, paying agent, or registrar for such bonds, by reason of such numbers or any use made thereof, including any use thereof made by the department, any such officer, or any such agent, or by reason of any inaccuracy, error, or omission with respect thereto or in such use. The department in its discretion may require that all costs of obtaining and imprinting such numbers shall be paid by the purchaser of such bonds. For the purposes of this subsection, the term "CUSIP identification numbers" means the numbering system adopted by the Committee for Uniform Security Identification Procedures formed by the Securities Industry Association.

§39A- Special purpose revenue bond anticipation notes. Whenever the department shall have authorized the issuance of special purpose revenue bonds under this part, special purpose revenue bond anticipation notes of the department may be issued in anticipation of the issuance of such bonds and of the receipt of the proceeds of sale thereof, for the purposes for which such bonds have been authorized. All special purpose revenue bond anticipation notes shall be authorized by the department, and the maximum principal amount of such notes shall not exceed the authorized principal amount of such bonds. The notes shall be payable solely from and secured solely by the proceeds of sale of the special purpose revenue bonds in anticipation of which the notes are issued and the revenues from which would be payable and by which would be secured such bonds; provided that to the extent that the principal of the notes shall be paid from moneys other than the proceeds of sale of such bonds, the maximum amount of bonds in anticipation of which the notes are issued that has been authorized shall be reduced by the amount of notes paid in such manner. The authorization, issuance, and the details of such notes shall be governed by the provisions of this part with respect to special purpose revenue bonds insofar as the same may be applicable; provided that each note, together with all renewals and extensions thereof, or refundings thereof by other notes issued under this section, shall mature within five years from the date of the original note.

§39A- Powers with respect to and security for special purpose revenue bonds. In order to secure the payment of any of the special purpose revenue bonds issued pursuant to this part, and interest thereon, or in connection with such bonds, the department shall have the power as to such bonds:

- (1) To pledge all or any part of the revenues derived by the department from the project agreement to the punctual payment of special purpose revenue bonds issued with respect to the project financed or refinanced from proceeds thereof, and interest thereon, and to covenant against thereafter pledging any such revenues or receipts to any other bonds or any other obligations of the department for any other purpose, except as otherwise stated in the law providing for the issuance of additional special purpose revenue bonds to be equally and ratably secured by a lien upon such revenues.

- (2) To pledge and assign the interest of the department under the project agreement and other agreements related thereto and the rights, duties, and obligations of the department thereunder, including the right to receive revenues thereunder.
- (3) To covenant as to the use and disposition of the proceeds from the sale of such bonds.
- (4) To covenant to set aside or pay over reserves and sinking funds for such bonds and as to the disposition thereof.
- (5) To covenant and prescribe as to what happenings or occurrences shall constitute "events of default" and the terms and conditions upon which any or all of such bonds shall become or may be declared due before maturity and as to the terms and conditions upon which such declaration and its consequences may be waived.
- (6) To covenant as to the rights, liabilities, powers, and duties arising upon the breach by it of any covenant, conditions, or obligation.
- (7) To designate a national or state bank or trust company within or without the State, incorporated in the United States, to serve as trustee for the holders of the special purpose revenue bonds and to enter into a trust indenture or trust agreement or indenture of mortgage with such trustee. The trustee may be authorized by the department to receive and receipt for, hold, and administer the proceeds of the special purpose revenue bonds issued for the project and to apply the same to the purposes for which such bonds are issued, or to receive and receipt for, hold, and administer the revenues derived by the department under the project agreement and to apply such revenues to the payment of the principal and interest on such bonds, or both, and any excess revenues to the payment of expenses incurred by the State in administering such bonds or in carrying out the project agreement. In the event that such trustee shall be appointed, any trust indenture or trust agreement or indenture of mortgage entered into by the department with the trustee may contain whatever covenants and provisions as may be necessary or convenient or desirable in order to secure such bonds. The department may pledge and assign to the trustee the interest of the department under the project agreement and other agreements related thereto and the rights, duties, and obligations of the department thereunder, including the right to receive revenues thereunder. The department may appoint the trustee to serve as fiscal agent for the payment of the principal and interest, and for the purchase, registration, transfer, exchange, and redemption of the special purpose revenue bonds, and may authorize and empower the trustee to perform such functions with respect to such payment, purchase, registration, transfer, exchange, and redemption, as the department may deem necessary, advisable, or expedient, including without limitation the holding of the special purpose revenue bonds and coupons which have been paid and the supervision of the destruction thereof in accordance with law.
- (8) To execute all instruments necessary or convenient in the exercise of the powers herein granted or in the performance of its covenants and duties.
- (9) To make such covenants and do any and all acts and things as may be necessary or convenient or desirable in order to secure such

bonds, notwithstanding that such covenants, acts, or things may not be enumerated herein; it being the purpose hereof to give the department power to do all things in the issuance of such bonds and for their security that may be consistent with the Constitution of the State of Hawaii.

§39A- Security for special purpose revenue bonds. Special purpose revenue bonds shall be payable solely from the revenues derived by the department from payments made to the department under the project agreement or other supplemental agreements entered into with respect to the project, and shall be secured solely by such revenues and by the pledges and assignments authorized by this part. All special purpose revenue bonds of the same issue, subject to the prior and superior rights of outstanding bonds, claims, obligations, or mechanic's and materialman's liens, shall have a prior and paramount lien on the revenues derived from the project agreement with respect to the project, for which the bonds have been issued, over and ahead of all special purpose revenue bonds of any issue payable from the revenues which may be subsequently issued and over and ahead of any claims or obligations of any nature against the revenues subsequently arising or subsequently incurred; provided that the right and privilege may be reserved by the department in the trust indenture securing an issue of special purpose revenue bonds to subsequently issue additional special purpose revenue bonds, subject to legislative authorization of the issue as provided in section 39A- , or to permit the project party or another party on its behalf to incur debt, from time to time, payable from the revenues derived from such project agreement on a parity with the first issue of the special purpose revenue bonds and any subsequent issue of special purpose revenue bonds and other debt issued or incurred in accordance with the provisions of the trust indenture shall be secured equally and ratably with the first issue of the special purpose revenue bond without priority by reason of the date of sale, date of execution, or date of delivery, by a lien on the revenues in accordance with this part.

Notwithstanding any other provisions herein, all or part of the property constituting the project and all interest of the project party in the project and the revenues of the project party therefrom may be subjected to the present and future lien of any mortgage of the project party securing the project party's bonds, and the rights of the department and any trustee for the holders of the special purpose revenue bonds and the holders of the special purpose revenue bonds in the project and the revenues therefrom may be made subject to the prior lien of the project party's mortgage.

§39A- Special purpose revenue bonds not a general obligation of the State. No holder or holders of any special purpose revenue bonds issued under this part shall ever have the right to compel any exercise of taxing power of the State to pay such bonds or the interest thereon and no moneys other than the revenues pledged to such bonds shall be applied to the payment thereof. Each special purpose revenue bond issued under this part shall recite in substance that such bond, including interest thereon, is not a general obligation of the State and is payable solely from the revenues pledged to the payment thereof, and that such bond is not secured directly or indirectly by the full faith and credit or the general credit of the State or by any revenues or taxes of the State other than the revenues specifically pledged thereto.

§39A- Validity of special purpose revenue bonds. The special purpose revenue bonds bearing the signature or facsimile signature of officers on the

date of the signing thereof shall be valid and sufficient for all purposes, notwithstanding that before the delivery thereof and payment therefor all the persons whose signatures appear thereon shall have ceased to be officers of the department. The special purpose revenue bonds shall contain a recital that they are issued pursuant to this part, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

§39A- Use of revenues derived from project agreement. The department shall have the right to appropriate, apply, or expend the revenues derived with respect to the project agreement for a project for the following purposes:

- (1) To pay when due all special purpose revenue bonds, premium, if any, and interest thereon, for the payment of which the revenues are or have been pledged, charged, or otherwise encumbered, including reserves therefor; and
- (2) To the extent not paid by the project party to provide for all expenses of administration, operation, and maintenance of the project, including reserves therefor.

Unless and until adequate provision has been made for the foregoing purposes, the department shall not transfer the revenues derived from the project agreement to the general fund of the State.

§39A- Special purpose revenue bonds exempt from taxation. Special purpose revenue bonds and the income therefrom issued pursuant to this part shall be exempt from all state, county, and municipal taxation except inheritance, transfer, and estate taxes.

§39A- Exemption from taxation of department property. All revenues derived by the department from any project or under the project agreement pertaining thereto shall be exempt from all state, county, and municipal taxation. Any right, title, and interest of the department in any project shall also be exempt from all state, county, and municipal taxation. Except as otherwise provided by law, the interest of the project party or user of such project in a project or under the project agreement or related agreement shall not be exempt from taxation to a greater extent than it would be if the costs of the project were directly financed by the project party or other user.

§39A- Refunding special purpose revenue bonds. The legislature, by act enacted by an affirmative vote of two-thirds of the members to which each house is entitled, may authorize the issuance of refunding special purpose revenue bonds for the purpose of refunding any special purpose revenue bonds then outstanding and issued under this part, whether or not such outstanding special purpose revenue bonds have matured or are then subject to redemption. The legislature is further authorized to provide, by act finally enacted by an affirmative vote of two-thirds of the members to which each house is entitled, for the issuance of a single issue of special purpose revenue bonds for the combined purposes of (1) financing or refinancing the cost of a project or improvement or expansion thereof, and (2) refunding special purpose revenue bonds which shall theretofore have been issued under this part and shall then be outstanding, whether or not such outstanding special purpose revenue bonds have matured or are then subject to redemption. Nothing in this section shall require or be deemed to require the legislature to elect to redeem or prepay special purpose revenue bonds being refunded, or to redeem or prepay special purpose revenue

bonds being refunded which were issued in the form customarily known as term bonds in accordance with any sinking fund installment schedule specified in any law authorizing the issuance thereof, or, in the event the department elects to redeem or prepay any such bonds, to redeem or prepay as of any particular date or dates. The issuance of such special purpose revenue bonds, the maturities and other details thereof, and the rights and remedies of the holders thereof, and the rights, powers, privileges, duties, and obligations of the department with respect to the same, shall be governed by the foregoing provisions of this part insofar as the same may be applicable.

§39A- Status of special purpose revenue bonds under Uniform Commercial Code. Notwithstanding any of the provisions of this part or any recitals in any special purpose revenue bonds issued under this part, all such special purpose revenue bonds shall be deemed to be investment securities under the Uniform Commercial Code, chapter 490, subject only to the provisions of the special purpose revenue bonds pertaining to registration.

§39A- Special purpose revenue bonds as legal investments and lawful security. The special purpose revenue bonds issued pursuant to this part shall be and are declared to be legal and authorized investments for banks, savings banks, trust companies, savings and loan associations, insurance companies, credit unions, fiduciaries, trustees, guardians, and for all public funds of the State or other political corporations or subdivisions of the State. Such special purpose revenue bonds shall be eligible to secure the deposit of any and all public funds of the State and any and all public funds of counties or other political corporations or subdivisions of the State, and such bonds shall be lawful and sufficient security for such deposits to the extent of their value when accompanied by all unmatured coupons appertaining thereto.

§39A- Access to and public disclosure of financial records of project party. (a) Each project party with a project agreement with the department shall allow the department full access to its financial records. Upon the request of the department for the examination of any such financial records, the project party shall allow the department to examine the requested records within a reasonably prompt time from the date of the request. If the department requests copies of the records, the project party shall provide the copies.

(b) To provide the public with full knowledge of the use of the proceeds and benefits derived from special purpose revenue bonds issued under this part, the department shall require each project party with a project agreement with the department to make available to the public all relevant financial records which pertain to the use of or savings resulting from the use of special purpose revenue bonds.

(c) The department shall adopt rules under chapter 91 for the purpose of this section.

§39A- Estimate of benefits. (a) Each project party with a project agreement with the department shall estimate the benefits derived from the use of the proceeds of special purpose revenue bonds. The benefits estimated shall be based on a comparison between the use of the proceeds of the special purpose revenue bonds instead of other means of financing and shall be in terms of dollars projected to be or actually saved by consumers of the services of the project party. The format of and method for determining the estimates shall be established by the department and shall be uniform for each project party.

(b) To promote public understanding of the role played by special purpose revenue bonds in providing less costly services by a project party to the general public, the department shall take appropriate steps to ensure public access to and scrutiny of the estimates determined under subsection (a).

(c) The department shall adopt rules under chapter 91 for the purposes of this section.

§39A- Construction of this part. The powers conferred by this part shall be in addition and supplemental to the powers conferred by any other law. Insofar as the provisions of this part are inconsistent with the provisions of any other law, this part shall be controlling.

§39A- Sunset provision. After June 30, 2015, no new special purpose revenue bonds shall be issued under this part."

SECTION 7. Constitutional material to be repealed is bracketed. New constitutional material is underscored.

SECTION 8. Sections 2, 3, 4, and 5 of this Act shall take effect upon compliance with Article XVII, section 3, of the Constitution of the State of Hawaii; and section 6 of this Act, upon its approval, shall take effect upon ratification of the constitutional amendments proposed by sections 2 and 4 of this Act.

ACT 283

S.B. NO. 2261

A Bill for an Act Relating to Hawaiian Affairs.

Be It Enacted by the Legislature of the State of Hawaii:

SECTION 1. The purpose of this Act is to improve the administration of the office of Hawaiian affairs (OHA) by giving OHA the authority to issue revenue bonds secured by the moneys received by OHA from the twenty per cent share of revenue from the public land trust.

OHA was established as a body corporate and as a separate entity independent of the executive branch. As part of its general powers, the OHA board of trustees is required to:

- (1) Manage, invest, and administer the proceeds from the sale or other

disposition of lands, natural resources, minerals, and income derived from whatever sources for native Hawaiians and Hawaiians, including all moneys received by the office equivalent to that pro rata portion of the revenue derived from the public land trust;

- (2) Collect, receive, deposit, withdraw, and invest money and property on behalf of the office;
- (3) Formulate policy relating to the affairs of native Hawaiians and Hawaiians, provided that such policy shall not diminish or limit the benefits of native Hawaiians under Article XII, section 4, of the State Constitution; and
- (4) Determine the character of and the necessity for its obligations and expenditures, and the manner in which they shall be incurred, allowed, and paid, subject to provisions of law specifically applicable to the office of Hawaiian affairs.

Further, the 1978 Constitutional Convention intended that "the office could have maximum control over its budget, assets and personnel", as stated in Standing Committee Report No. 59, issued August 29, 1978. It is clear that the office was established to have full control over the administration of its trust funds "for the betterment of conditions of native Hawaiians". Included in this statutory and fiduciary duty is the responsibility to administer the trust funds in the best interest of the trust beneficiaries.

This Act enables the office to maximize the trust funds without eroding the trust corpus by providing another alternative to leverage the trust funds. The Act requires that the revenue bonds authorized by OHA be issued by and on behalf of OHA's board of trustees and not by or on behalf of the State. In addition, other stipulations provide for the exclusion of these revenue bonds from the State's debt ceiling. This Act further provides that the issuance of OHA's revenue bonds has no effect on the State's power to issue general obligation bonds or the funded debt of any political subdivision under Article VII, section 12, of the Hawaii Constitution.

SECTION 2. Chapter 10, Hawaii Revised Statutes, is amended as follows:

1. By designating sections 10-1 to 10-16 as part I and inserting a title before section 10-1 to read as follows:

"PART I. GENERAL PROVISIONS"

The notes shall be payable solely from and secured solely by the proceeds of the sale of the bonds in anticipation of which the notes are issued and the revenues from which would be payable and by which would be secured the bonds; provided that to the extent the principal of the notes is paid from moneys other than the proceeds of the sale of the bonds, the maximum

The board in its discretion may require that all cost of obtaining and imprinting such numbers shall be paid by the purchaser of such bonds. For the purposes of this section, the term "CUSIP identification numbers" means the numbering system adopted by the Committee for Uniform Security Identification Procedures formed by the Securities Industry Association.

§10-G Covenants in resolution authorizing revenue bonds. Any resolution or resolutions authorizing the issuance of revenue bonds under this part may contain covenants as to:

- (1) The purpose or purposes to which the proceeds of the sale of revenue bonds may be applied; the use and disposition of such proceeds; the investment thereof pending such use and disposition; and the use and disposition of the income from such investment;
- (2) The use and disposition of the revenue of the office project or projects for the construction or maintenance of which the revenue bonds are issued are to be included; the use and disposition of the revenue of all office projects, and of the revenues of the office, including the creation and maintenance of reserves; the investment of such revenues and of the moneys in such reserves; and the use and disposition of the income from such investments;

- (11) The terms and conditions upon which the holders of bonds evidencing the obligation to repay loans, or any proportion of the holders, or any trustee thereof, shall be entitled to the appointment of a receiver

by any court of competent jurisdiction, which court shall have jurisdiction in such proceedings, and which receiver may enter and take possession of the office project or projects, maintain them, prescribe rents, fees, and charges, and collect, receive, and apply all revenue thereafter arising therefrom in the same manner as the board itself might do, but the receiver shall have no power, nor be granted any power, to utilize, or permit the utilization of, any office project other than in a manner consistent with and in furtherance of the purposes of the office.

This part and any such resolution or resolutions shall be a contract with the holders of bonds issued under this part, and the duties of the board and any such resolution or resolutions shall be enforceable by any bondholder by mandamus or other appropriate suit, action, or proceeding in any court of competent jurisdiction.

§10-H Validity of bonds. Revenue bonds issued under this part shall bear the signatures of the chairperson of the board and the administrator, either of which signatures may be a lithographed or engraved facsimile of the signature provided that at least one of the signatures is a manual signature, and shall be sealed with the seal of the board or in lieu thereof shall bear a lithographed or engraved facsimile of such seal. The coupons pertaining to the revenue bonds shall be executed with the lithographed or engraved facsimile signatures of the chairperson of the board and the administrator. Revenue bonds bearing the signature of officers in office at the date of the signing thereof shall be valid and binding obligations, notwithstanding that before the delivery thereof and payment therefor any or all of the persons whose signatures appear thereon shall have ceased to be officers. The validity of the bonds shall not be dependent on nor affected by the validity or regularity of any proceedings relating to the construction or maintenance of the office project or projects for which the bonds were issued. The resolution authorizing the issuance of revenue bonds may provide that the bonds shall contain a recital that they are issued pursuant to this part, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

§10-I Bonds. The resolution or resolutions authorizing the issuance of revenue bonds may pledge to the payment thereof all or any part of the revenue of an office project or projects or the office, and the pledge shall constitute a lien on the revenue of such project or projects to the extent and in the manner in the resolution or resolutions provided prior and paramount to any claim or other obligation of any nature against the revenue so pledged subsequently arising or subsequently incurred. The board may provide in the resolution or resolutions that all revenue bonds of the same issue shall be equally and ratably secured without priority by reason of number, date, or maturity of the bonds, date of sale, execution, or delivery thereof. Any pledge of revenues contained in any resolution or resolutions adopted under this part shall be valid and binding from and after the adoption of the resolution or resolutions without physical delivery of the revenues therein pledged or the necessity of any further action by the State or the board, or any officer or agent of either the State or board.

§10-J Payment and security of revenue bonds; revenue bonds not a debt of the State. Revenue bonds issued under this part shall be payable solely from and secured solely by the revenues of the office project or projects or office

pledged to the payment thereof, and such revenues shall be applied to such payment in accordance with the provisions of this part and the resolution or resolutions authorizing the issuance of the revenue bonds. No holder or holders of any revenue bonds issued under this part shall have the right to compel any exercise of the taxing power of the State to pay such bonds, or interest thereon. Each revenue bond shall recite in substance that the bond, including interest thereon, is payable solely from and secured solely by the revenue pledged to the payment thereof, and that the bond does not constitute an indebtedness of the State within the meaning of any limitation of law.

§10-K Office of Hawaiian affairs projects to be self-supporting. The board shall impose and collect rates, rents, fees, and charges for the use or enjoyment and services of the facilities of each office project, and shall revise such rates, rents, fees, and charges from time to time whenever necessary, so that all office projects shall be self-supporting. The rates, rents, fees, and charges prescribed shall be such as will produce revenue at least sufficient to:

- (1) Pay the cost of maintenance of the office project or projects, including reserves therefor;
- (2) Pay when due all bonds and interest thereon, for the payment of which the revenue is or has been pledged, charged, or otherwise encumbered, including reserves therefor;
- (3) Reimburse the general fund of the State for any bond requirements on general obligation bonds issued for an office project or projects to the extent required by law; and
- (4) Carry out all covenants and provisions of the resolution or resolutions authorizing the issuance of revenue bonds.

Neither this section nor any other section of this part shall preclude the making of appropriations to the board, the acceptance of gifts by the board, or the use of funds derived from the sale of stocks, bonds, or other assets in the possession of the board to pay all or part of the costs of construction, of maintenance, or both, of any or all office projects.

All moneys received pursuant to this section shall be administered as trust funds, as provided by this chapter, and in separate accounts designated for each office project.

§10-L Office of Hawaiian affairs project and bonds exempt from taxation. The property and revenue of any office project shall be exempt from all state, county, and municipal taxation and assessments. Revenue bonds issued under this part, and all income therefrom shall be exempt from all state, county, and municipal taxation except inheritance, transfer, and estate taxes.

§10-M Powers herein, additional to other powers. The powers conferred by this part shall be in addition and supplemental to the powers conferred by any other general, special, or local law. Insofar as this part is inconsistent with any other general, special, or local law this part shall be controlling.

§10-N Funding and refunding bonds; authorization and purpose. The board may provide for the issuance of revenue bonds (herein referred to as refunding bonds) for the purpose of refunding, redeeming, or retiring at or at any time before maturity or at any time before the first date upon which the outstanding bonds to be refunded may be called for redemption, any bonds issued under this part, including any bonds which the holders may consent to be paid or

refunded even though the bonds are not matured or are not callable or redeemable, and for the purpose of funding indebtedness not evidenced by revenue bonds but which was incurred for purposes for which revenue bonds may be issued pursuant to this part. The rate or rates of interest borne by the refunding bonds shall not be affected or limited by the rate or rates of interest borne by the bonds to be refunded or the indebtedness to be funded. All provisions of this part applicable to the issuance of revenue bonds shall be complied with in the issuance of refunding bonds. Refunding bonds shall be sold as provided in section 10-E, or the board may, in its discretion, provide for the exchange of refunding bonds for a like principal amount of outstanding bonds for the refunding of which the issuance of such refunding bonds has been authorized, whether or not the interest rate on the refunding bonds is higher than the interest rate on the bonds refunded thereby.

§10-O Funding and refunding bonds; principal amount. Refunding bonds may be issued in a principal amount sufficient to provide funds for the payment of all bonds or indebtedness to be funded or refunded thereby, and for the payment of all expenses paid or incurred in connection with the calling, redeeming, retiring, or paying of such indebtedness or outstanding bonds, and the issuance of such refunding bonds. The expenses may include the amount necessary for the payment of interest upon the indebtedness to be funded or the bonds to be refunded to the maturity or redemption date thereof, the amount necessary for the payment of interest upon the refunding bonds from the date of delivery thereof to the date upon which the principal of the outstanding bonds to be refunded will be paid whether at maturity or pursuant to a call for redemption thereof, or pursuant to agreement with the holders thereof, plus in any case the amount of the premium, if any, required to be paid in order to call or retire the bonds to be required.

§10-P Limitation of authority. Notwithstanding any other provision to the contrary, nothing in this part shall be construed to authorize the board to incur any indebtedness contrary to Article VII, sections 12 and 13, of the Constitution of the State or to incur any indebtedness which would not qualify for exclusion from the total indebtedness of the State under section 13(2), Article VII."

SECTION 3. Section 10-4, Hawaii Revised Statutes, is amended to read as follows:

"[[§10-4]] Office of Hawaiian affairs; established; general powers. There shall be an office of Hawaiian affairs constituted as a body corporate which shall be a separate entity independent of the executive branch. The office, under the direction of the board of trustees, shall have the following general powers:

- (2) To acquire in any lawful manner any property, real, personal, or mixed, tangible or intangible, or any interest therein; to hold, maintain, use, and operate the same; and to sell, lease, or otherwise dispose of the same at such time, in such manner and to the extent necessary or appropriate to carry out its purpose;

- (4) To enter into and perform such contracts, leases, cooperative agreements, or other transactions with any agency or instrumentality of the United States, or with the State, or with any political subdivision thereof, or with any person, firm, association, or corporation, as may be necessary in the conduct of its business and on such terms as it may deem appropriate;
- (5) To execute, in accordance with its bylaws, all instruments necessary or appropriate in the exercise of any of its powers; [and]
- (6) To issue revenue bonds pursuant to this chapter in such principal amounts as may be authorized from time to time by law to finance the cost of an office project as authorized by law and to provide for the security thereof as permitted by this chapter;
- (7) To lend or otherwise apply the proceeds of the bonds issued for an office project either directly or through a trustee or a qualified person for use and application in the acquisition, construction, installation, or modification of an office project, or agree with the qualified person whereby any of these activities shall be undertaken or supervised by that qualified person or by a person designated by the qualified person;
- (8) With or without terminating a project agreement, to exercise any and all rights provided by law for entry and re-entry upon or to take possession of an office project at any time or from time to time upon breach or default by a qualified person under a project agreement, including any action at law or in equity for the purpose of effecting its rights of entry or re-entry or obtaining possession of the project or for the payments of rentals, user taxes, or charges, or any other sum due and payable by the qualified person to the office pursuant to the project agreement; and
- [(6)] (9) To take such actions as may be necessary or appropriate to carry out the powers conferred upon it by law."

SECTION 4. In codifying the new part added to chapter 10, Hawaii Revised Statutes, by section 2 of this Act, the revisor of statutes shall substitute appropriate section numbers for letters used in the designation of those new sections.

SECTION 5. All acts passed by the legislature during this Regular Session of 1994, whether enacted before or after the effective date of this Act, shall be amended to conform with this Act unless such acts specifically provide that this Act is being amended.

SECTION 6. If any provision of this Act, or the application thereof to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the Act which can be given effect without the invalid provision or application, and to this end the provisions of this Act are severable.
